IELTS

TRANSCRIPT TEST 1
PART 1

[Speaker 1] [0:00 → 0:05]

The audio and test copyright belong to the Naugh Milk IELTS website.

[Speaker 2] [0:05 → 0:40]

IELTS listening. You will hear a number of different recordings, and you will have to answer questions on what you hear. There will be time for you to read the instructions and questions, and you will have a chance to check your work. All the recordings will be played once only. The test is in four parts. Write all your answers in the listening question booklet. At the end of the test, you will be given ten minutes to transfer your answers to an answer sheet.

[Speaker 3] [0:41 → 0:42]

Now turn to part one.

[Speaker 3] [0:47 → 1:02]

Part one. You will hear a man called Dario talking to an agent from Home Ease Rental Agency about renting a flat. First, you have some time to look at questions one to four.

[Speaker 4] [1:27 → 1:31]

Hello, HomeEase Rental Agency, Posy speaking,

[Speaker 3] [1:31 → 1:39]

how can I help you? Oh hello, my name's Dario and I'm ringing about the flat you've got advertised, is it still available?

[Speaker 4] [1:39 → 1:47]

Yes, it is. Can I just ask, how did you hear about it? From a friend, or did you see it advertised somewhere?

[Speaker 3] [1:47 → 1:50]

I actually spotted it in the newspaper.

[Speaker 4] [1:50 → 1:54]

Right, I see. So what would you like to know?

[Speaker 3] [1:54 → 2:03]

Well, I'll be sharing with a friend. We're finishing university soon and need somewhere new fairly quickly. Could you give me a few more details?

[Speaker 4] [2:04 → 2:12]

Of course. The landlord's name's Mary. It's a two bedroom flat, and it'll be ready from the first of next month.

[Speaker 3] [2:12 → 2:20]

Next month, that's June 1, isn't it? That's right. Will that work for you? Yes, that's fine.

[Speaker 4] [2:20 → 2:37]

Lovely. The rent is \$13,000 this year, up from \$11,000 last year, because Mary had it refurbished a few months back. She repainted the walls, put in new kitchen units, things like that. A bit steep but still within budget.

[Speaker 3] [2:38 → 2:39]

What else did she change?

[Speaker 4] [2:40 → 3:07]

She added modern lighting and new carpets. And the floors used to be marble, but now they're wood, which makes the place feel warmer and cosier. All the upgrades were done to improve the tenant's quality of life. Sounds good. What about appliances? She thought about fitting a dishwasher, but there wasn't enough space in the kitchen. Still, you've got all the basics: air conditioning, a fridge and a microwave.

[Speaker 3] [3:07 → 3:09]

Great, and for laundry?

[Speaker 4] [3:10 → 3:19]

There's a shared washing machine in the laundry room on the 1st Floor. You'll need a card to use it. But it's open to all residents and the staff clean it regularly.

[Speaker 3] [3:19 → 3:25]

That's fine. Oh, and does the kitchen have a cooker? I really like cooking from scratch.

[Speaker 4] [3:26 → 3:34]

Yes, there's an induction hob. Mary actually suggests using it out on the balcony. You can get some fresh air while you cook.

[Speaker 3] [3:34 → 3:45]

Nice idea! Before you hear the rest of the conversation, you have some time to look at questions five-ten.

[Speaker 3] [4:12 → 4:23]

Now listen and answer questions five-ten. By the way, I'm really into cycling is there anywhere to park bikes?

[Speaker 4] [4:23 → 4:30]

There isn't a dedicated room for them, but there are racks just outside the main entrance, so it's quite handy.

[Speaker 3] [4:30 → 4:33]

Good to know. And what about CCTV?

[Speaker 4] [4:34 → 4:44]

I'm not sure about that. I'll need to check with Mary. What I do know is there are security guards on duty round the clock, patrolling the building and grounds.

[Speaker 3] [4:45 → 4:49]

That's reassuring. Are there any other facilities I should know about?

[Speaker 4] [4:49 → 5:02]

Let me think. Oh yes, there's a brand new gym on the 1st Floor. It's got basic kit and even a swimming pool. They're offering free swimming lessons at the moment, which is a nice bonus.

[Speaker 3] [5:02 → 5:05]

That's brilliant. Can I arrange a viewing?

[Speaker 4] [5:05 → 5:06]

Absolutely.

[Speaker 3] [5:07 → 5:14]

The landlord's free next Monday, if that works for you. Let me check. The nineteenth? Yeah, I can make it that evening.

[Speaker 4] [5:15 → 5:19]

Perfect. What time? She needs to head off by 08:30 at the latest.

[Speaker 3] [5:20 → 5:24]

How about 07:40? It'll take me a while to get there from university.

[Speaker 4] [5:25 → 5:26]

Sure, that's fine.

[Speaker 3] [5:27 → 5:29]

And where exactly should we meet?

[Speaker 4] [5:29 → 5:47]

At the flat itself. The address is 236 Carriage Road. That's K E R R I D G E. I'll meet you at the main entrance. The building's easy to spot. It's a modern five storey block with a glass frontage.

[Speaker 3] [5:47 → 5:51]

Got it. Last thing, how do I get there from the bus station?

[Speaker 4] [5:52 → 6:12]

Just take the bus to the stop with the same name as the road. Get off on the west side of the junction. You'll see a big red brick multi storey building that's the library. Keep walking straight on and you'll pass a park on your right. The flat's directly opposite it, so you can't miss the building.

Perfect,

[Speaker 3] [6:12 → 6:14]

thanks a lot for your help.

[Speaker 4] [6:14 → 6:17]

Not at all. Take care, see you soon.

[Speaker 3] [6:19 → 6:26]

That is the end of part one. You now have one minute to check your answers to part one.

PART 2

[Speaker 1] [0:01 → 0:16]

Part two You will hear a tour guide called Stelan Colby giving visitors information about Uru Puka Puka Island. First, you have some time to look at questions 11 to 14.

[Speaker 1] [0:51 → 3:16]

Hi everyone, welcome to Urupukapuka Island. It's a stunning spot full of fascinating nature and history, and I'm sure you'll love it here. My name's Stellan Colby, and I'll be your guide today. Before we set off, let me give you some quick background about the island, along with a few tips for your visit. So, first things first, Uru Puka Puka is actually the largest of the 140 islands that make up the Bay Of Islands. Both the Maori and later European settlers lived here. The Maori were the first people to arrive long before Europeans turned up about two hundred years ago. Back then, there were around 2,000 Maori living on the island. Archaeological evidence suggests they probably settled here about one thousand years ago, and the remains they left behind give us lots of insight into their daily lives. Now, what did they live on? Well, most of their food came from the waters around the island, which were, and still are, teeming with fish. They did try to grow potatoes, but the soil here isn't nearly as fertile as it is on the mainland. Another major difficulty was the lack of trees, which made it hard to build houses and canoes. The island also holds great cultural and spiritual significance for the Maori, so please be respectful, especially around archaeological sites. Feel free to take photos, no problem at all. Some people think you should keep your voice down or remain silent, but honestly, that's not necessary. Just remember, eating or drinking at sacred sites is not allowed. Elsewhere on the island, though, you're welcome to enjoy your snacks and drinks. One more important reminder: do keep an eye on the time. Once the last ferry has gone, there's no other way off the island. Normally the last one leaves at 6PM, but as today is a public holiday, the 06:00 service won't be running. The very last ferry is at 5PM sharp, so please make sure you're at the wharf by 04:50 at the latest. Before you hear the rest of the talk, you have some time to look at questions fifteen-twenty.

[Speaker 1] [3:57 → 6:26]

Now listen and answer questions fifteen-twenty. Alright, let's talk about the highlights you can explore here. Take out your map. We're right at the bottom, at the wharf where the ferry dropped us off. The first stop is the hill Fortress. Before Europeans came, Maori tribes often fought one another, so they built fortresses in strong positions, usually on hilltops or along ridgelines. Many of these were very cleverly designed and are really worth seeing. To get there, head straight from the wharf, take the second path on the right, follow the track behind Puka Bay, and the fortress is right at the tip of the headland. Another must see is the Maori village. It shows how the Maori lived and gives you a real sense of their daily life. From the wharf, follow the path to the shelter, go past the lookout on your right, and the village is just a bit further on the left. If you'd rather not walk too far, have a look at the food storage pits. They're like cellars that kept food cool. From the wharf turn left down to Paradise Bay, then turn left again along the beach path. The pits are very close by. For those happy to walk a bit more, the garden terraces are fantastic. Just keep going past the shelter, then turn right at the first intersection. The terraces also give you a wonderful panoramic view of Palm Bay. Families with children often enjoy the Gundigger's Pits, though they are a bit further away. From the wharf turn left, then turn right at the first intersection

and keep straight on. Don't turn left to Indigo Bay, just carry on, and you'll find them on the Northern Cliffs. And finally, the meeting house. It's really close by, just walk up to the shelter, turn left, and it's right there in front of you. The Maori used it for all sorts of gatherings, celebrations, funerals, and other important events. Okay, that's the overview of the island's main sites. If you've got any questions, just ask, I'm here to help. That is the end of part two. You now have thirty seconds to check your answers to part two.

PART 3

[Speaker 1] [0:01 → 0:17]

Part three You will hear two university students, Camille and Sebastian, discussing Camille's upcoming teaching placement. First, you have some time to look at questions 20 one-twenty five.

[Speaker 1] [0:49 → 0:59]

Now listen carefully and answer questions 20 one-twenty five. Hi Camille, how's it all going?

[Speaker 2] [0:59 → 1:17]

Oh hi Sebastian. Honestly, I'm feeling a bit stressed at the moment, so I'm really glad you're here. I need to talk to you about my upcoming teaching placement. It's my very first one, and I don't quite know what to expect. Plus, it's going to be assessed as part of my degree.

[Speaker 1] [1:18 → 1:30]

I'm sure you'll do brilliantly. You'll be paired with an experienced teacher for mentoring, and they'll give you ongoing guidance and support throughout. Is there anything in particular you're worried about?

[Speaker 2] [1:30 → 2:01]

Yeah, it just feels like I have too much on my plate. I've got assignments from my university tutor, lesson plans to put together, and I also have to sit in on other teachers' lessons. It's a lot to juggle. That said, the practical side doesn't really worry me. I've done some volunteering before with students, so I feel confident about classroom management. And I'm pretty sociable and generally get on well with people, so that's not a major concern either.

[Speaker 1] [2:01 → 2:08]

I get that. I had exactly the same worries during my first placement, but it all worked out fine.

[Speaker 2] [2:08 → 2:18]

That's reassuring. I knew you'd be the best person to ask. So what should I be preparing now? Should I start drafting detailed lesson plans?

[Speaker 1] [2:18 → 2:40]

I wouldn't go that far, and I definitely wouldn't waste time trying to research the students beforehand. You'll have plenty of chances to get to know them once you're there. What I would do is check the dress code. It's worth finding out in advance, because expectations can vary a lot from one school to another. Good point, I'll do that.

[Speaker 2] [2:40 → 2:52]

During the placement, my supervisor will observe my lessons and give feedback afterwards. How should I approach those feedback sessions? Should I raise any issues I'm having with the students?

[Speaker 1] [2:52 → 3:02]

Not really. Your supervisor already knows all about the students and the challenges they face. The whole purpose of those sessions is to focus on your teaching.

[Speaker 2] [3:03 → 3:04]

Right.

[Speaker 1] [3:04 → 3:21]

So should I point out the parts of the lesson I thought went well, to make sure the supervisor notices them? If you did something particularly effective, your supervisor will probably pick up on it. The best thing you can do is use the opportunity to get advice on how to improve.

[Speaker 2] [3:21 → 3:28]

Okay, that's clear. I really want to do well in my first placement. What should I be prioritising?

[Speaker 1] [3:28 → 3:49]

The focus changes with each placement. For example, in the final one, you'll need to show how you can put theory into practice, but the first placement is more about getting a sense of what a teacher actually does, both inside and outside the classroom. Later placements are more about refining your teaching skills.

[Speaker 2] [3:50 → 4:01]

That's helpful. I also wonder who I should turn to if I run into problems. If the issue is with my supervisor, I'm not sure I could raise it directly with them.

[Speaker 1] [4:01 → 4:12]

Actually, your supervisor should always be your first port of call if you have a problem. They're the best person to help. You should only go to your university tutor as a last resort.

[Speaker 2] [4:12 → 4:21]

Yeah, that makes sense. And I suppose going straight to the head teacher would be a bad idea. It might make things awkward for my supervisor.

[Speaker 1] [4:23 → 4:30]

Before you hear the rest of the discussion, you have some time to look at questions 20 six-thirty.

[Speaker 1] [4:53 → 4:57]

Now listen and answer questions 20 six-thirty.

[Speaker 2] [4:59 → 5:10]

What qualities did your supervisors have that impressed you? I think it would be good to emulate them. Let me think. My first supervisor Bill Dyson was excellent.

[Speaker 1] [5:11 → 5:23]

He really cared about his students and always took the time to make sure they understood difficult concepts. If anyone was still struggling, he'd find another way to explain it. That's brilliant!

[Speaker 2] [5:23 → 5:24]

What about others?

[Speaker 1] [5:24 → 5:32]

They all stood out in their own way. For instance, Heather Moran was fantastic at collaborating with other staff.

[Speaker 2] [5:32 → 5:43]

She was always happy to listen to colleagues and share her insights with them. That's so kind of her. I really hope I get someone who can patiently help me get started.

[Speaker 1] [5:43 → 5:57]

I'm sure you will. Another supervisor I had, Dan Shaw, taught me a lot about classroom management. He was approachable but firm, making it clear from day one who was in charge and setting out the rules.

[Speaker 2] [5:57 → 6:00]

I've always admired teachers like that.

[Speaker 1] [6:01 → 6:07]

Same here. Dawn Edwards, who supervised me last year, had exceptional professional self awareness.

[Speaker 2] [6:08 → 6:11]

Do you mean she knew a lot about various subjects?

[Speaker 1] [6:11 → 6:23]

No, I mean she could immediately recognise what hadn't gone well in a lesson, and she had a very clear sense of what she needed to work on. I really value that kind of self reflection.

[Speaker 2] [6:23 → 6:25]

It's such an important quality.

[Speaker 1] [6:25 → 6:39]

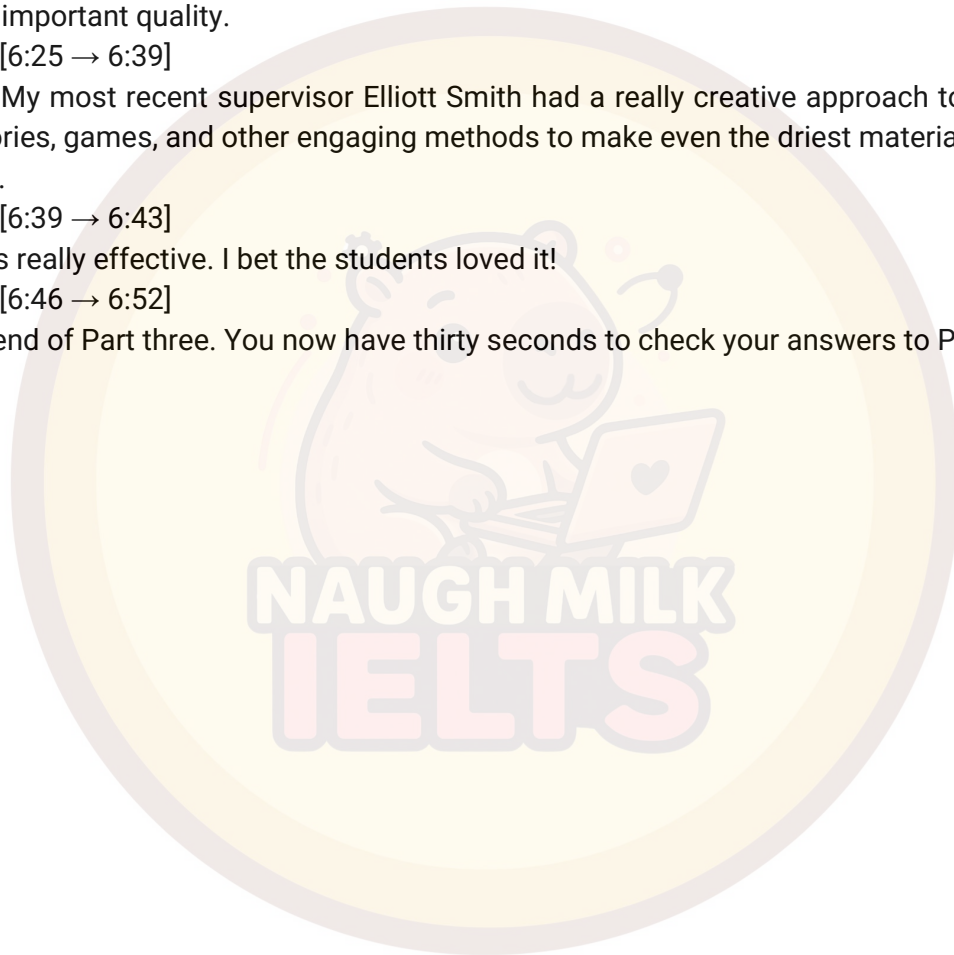

Absolutely. My most recent supervisor Elliott Smith had a really creative approach to teaching. He used stories, games, and other engaging methods to make even the driest material lively and imaginative.

[Speaker 2] [6:39 → 6:43]

That sounds really effective. I bet the students loved it!

[Speaker 1] [6:46 → 6:52]

That is the end of Part three. You now have thirty seconds to check your answers to Part three.

PART 4

[Speaker 1] [0:01 → 0:14]

Part four You will hear a lecturer talking about the recycling of scrap metal. First, you have some time to look at questions 31 to 40.

[Speaker 2] [1:06 → 4:02]

Good morning everyone. Today, we will continue our lecture series on recycling, with a particular focus on scrap metal that is, pieces of metal that have been discarded and are no longer of use. Contrary to popular belief, recycling is far from a modern invention. In fact, it has been practised in various forms for centuries. For example, the ancient Greeks and Romans collected scrap metal, such as copper and bronze, to cast statues. In these societies, scrap metal was highly valued and put to a variety of uses, ensuring that nothing went to waste. Over time, scrap metal recycling has grown into a major global industry. In some countries, it has even become an important export sector. Take The US for instance, where the scrap metal trade dates back to the nineteenth century, a period of rapid urbanisation. Metal dealers spotted an opportunity to profit from abandoned machinery and tools left on farms, as families moved from rural areas to cities. Today, some of these early dealers have expanded into multinational corporations, supplying metal to buyers around the world. But why is scrap metal so essential today? One key factor is the ongoing positive evolution within the economy of many nations. As incomes rise, so too does the demand for consumer goods. Many of which require metal in their production. From household appliances to vehicles and construction materials, metal is integral to modern life. Another driver of demand for recycled metals concerns specific types of metal, such as copper. Although copper is still relatively abundant, its quality has declined in recent years. This makes recycling copper especially attractive, as it helps maintain the high standards required for industrial and technological applications. Furthermore, a rapidly expanding sector has significantly increased the demand for scrap metal. Some of you might have guessed it. The electronics sector. Consider how many devices you've replaced in recent years: smartphones, laptops, tablets, and more. What happens to the old ones? Unfortunately, many are simply discarded, ending up in landfills with their metal components wasted. Recycling these materials not only conserves resources, but it also reduces the environmental impact associated with mining and pollution.

[Speaker 2] [4:07 → 6:31]

The high demand for recycled metals, where are researchers and engineers seeking new sources? One promising area is roadways. In The UK, for instance, vehicles release tiny traces of platinum that accumulate over time. Interestingly, certain plants growing along roadsides can absorb metals from the soil efficiently, presenting a potential source for recovery. Sweden is another country making significant strides in this area. As it was historically a major cotton producer, researchers there are examining old cotton factories that have been closed down. These abandoned sites contain substantial amounts of metal embedded in walls and floors, which can be melted down and reused. In addition, beneath many Swedish cities lie outdated pipes that once supplied gas to local neighbourhoods. Although no longer in use, they represent another valuable source of scrap metal. The challenge, however, is to extract the metal without causing

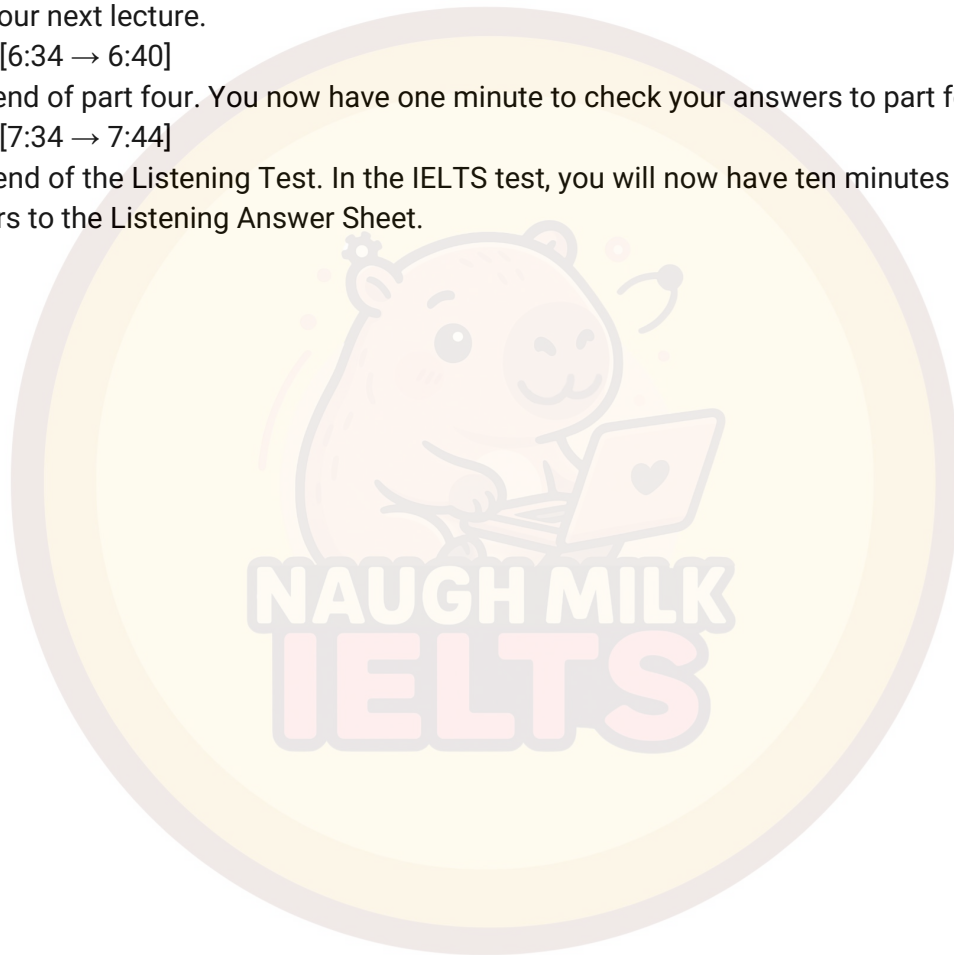

major disruption to surrounding areas, particularly local residents and traffic. Once scrap metal is identified, the next step is extraction and separation. This can be tricky, especially with complex waste, such as electronics, which often contain mixtures of metals. However, it is achievable. For example, if you want to separate iron from non magnetic metals, like silver or gold, found in old phones or computers, you can use magnetism. As long as the magnet is larger than the components it needs to attract, effective separation is possible. At the same time, engineers are developing innovative methods to improve metal recovery. In The UK, one researcher is experimenting with bacteria that could potentially help extract precious metals from waste. This technique is still at the trial stage, but if successful, it could revolutionise the recycling process, making it more efficient and environmentally friendly. If you're interested, I can explain the theory behind it in our next lecture.

[Speaker 1] [6:34 → 6:40]

That is the end of part four. You now have one minute to check your answers to part four.

[Speaker 1] [7:34 → 7:44]

That is the end of the Listening Test. In the IELTS test, you will now have ten minutes to transfer your answers to the Listening Answer Sheet.

Câu 1: 13,000 / 13000

- Trích đoạn: "The rent is **\$13,000 this year**, up from \$11,000 last year..."
- Hướng dẫn: Audio có lừa nhẹ giữa số tiền năm ngoái (\$11,000) và năm nay. Vì đề bài hỏi "Current rent" (giá thuê hiện tại) nên đáp án đúng là 13,000. Dấu \$ đã có sẵn trên đề bài nên bạn chỉ cần điền số.

Câu 2: wood

- Trích đoạn: "And the floors used to be marble, but now they're **wood**..."
- Hướng dẫn: Người tư vấn nói rằng sàn nhà trước đây bằng đá cẩm thạch (marble) nhưng hiện tại đã được làm lại bằng gỗ (wood) để tạo cảm giác ấm cúng hơn.

Câu 3: card

- Trích đoạn: "There's a shared washing machine in the laundry room... You'll need a **card** to use it."
- Hướng dẫn: Thông tin rất trực diện, để sử dụng máy giặt chung thì người thuê cần có một chiếc thẻ.

Câu 4: induction

- Trích đoạn: "Oh, and does the kitchen have a cooker? ... Yes, there's an **induction** hob. Mary actually suggests using it out on the balcony."
- Hướng dẫn: Khách hàng hỏi về bếp nấu (cooker) và được xác nhận là có bếp từ (induction hob). Từ "hob" đồng nghĩa với "cooker" trong ngữ cảnh này, điền "induction".

Câu 5: bikes

- Trích đoạn: "By the way, I'm really into cycling is there anywhere to park **bikes**? ... there are racks just outside the main entrance..."
- Hướng dẫn: Khách hàng hỏi có chỗ nào để xe đạp (bikes) không. Nhân viên trả lời không có phòng riêng nhưng có các giá để xe (racks) ở ngay ngoài cửa chính.

Câu 6: security

- Trích đoạn: "What I do know is there are **security guards** on duty round the clock..."
- Hướng dẫn: Audio dùng cụm "security guards" (bảo vệ) tương đương với "security personnel" trong đề bài. "Round the clock" đồng nghĩa với "24-hour".

Câu 7: 7.40 / 07:40

- Trích đoạn: "How about **07:40**? It'll take me a while to get there from university. - Sure, that's fine."

- Hướng dẫn: Người thuê đề xuất mốc thời gian 07:40 vì cần thời gian di chuyển từ trường đại học đến, và đại lý đồng ý.

Câu 8: Kerridge

- Trích đoạn: "The address is 236 Carriage Road. That's **KERRIDGE**."
- Hướng dẫn: Đây là câu đánh vần tên đường cơ bản, bạn chỉ cần nghe và ghi lại chính xác từng chữ cái.

Câu 9: library

- Trích đoạn: "You'll see a big red brick multi storey building that's the **library**."
- Hướng dẫn: Trong phần chỉ đường, nhân viên mô tả một tòa nhà lớn nhiều tầng bằng gạch đỏ (red brick), và đó chính là thư viện.

Câu 10: park

- Trích đoạn: "Keep walking straight on and you'll pass a **park** on your right. The flat's directly opposite **it**..."
- Hướng dẫn: Người nhân viên hướng dẫn đi thẳng sẽ thấy một công viên bên tay phải, và căn hộ nằm ngay đối diện nó (từ "it" thay thế cho "park"). **Câu 11**
- **Đáp án: B**
- **Hướng dẫn:** Bằng chứng khảo cổ học cho thấy người Maori đã định cư trên đảo khoảng 1.000 năm trước (a millennium = 1.000 năm). Lựa chọn 2.000 là lừa số lượng dân số thời đó, còn 2 thế kỷ là thời điểm người châu Âu xuất hiện.
- **Trích đoạn:** "...Archaeological evidence suggests they probably settled here **about one thousand years ago**..."

Câu 12

- **Đáp án: C**
- **Hướng dẫn:** Nguồn thức ăn chính yếu của họ đến từ vùng biển xung quanh đảo với lượng cá dồi dào. Cây trồng (khoai tây) bị hạn chế do đất đai cằn cỗi và trên đảo cũng thiếu nguồn gỗ.
- **Trích đoạn:** "...Well, **most of their food came from the waters around the island**, which were, and still are, **teeming with fish**."

Câu 13

- **Đáp án: C**
- **Hướng dẫn:** Du khách được thoải mái chụp ảnh và cũng không bắt buộc phải giữ im lặng. Tuy nhiên, quy định cấm tuyệt đối là không được ăn uống tại các khu vực linh thiêng.
- **Trích đoạn:** "...Just remember, **eating or drinking at sacred sites is not allowed**."

Câu 14

- **Đáp án:** B
- **Hướng dẫn:** Chuyến phà lúc 6 giờ tối bị hủy vì hôm nay là ngày lễ. Do đó, chuyến phà cuối cùng sẽ khởi hành đúng 5 giờ chiều (5PM sharp), và khách được nhắc nhở phải có mặt trễ nhất lúc 4h50.
- **Trích đoạn:** "...The **very last ferry is at 5PM sharp**, so please make sure you're at the wharf by 04:50 at the latest."

Câu 15

- **Đáp án:** D
- **Hướng dẫn:** Từ bến phà (wharf) đi thẳng, rẽ vào con đường thứ hai bên phải (đường rẽ đầu tiên là vào F). Đi theo đường mòn vòng ra phía sau Puka Bay, pháo đài nằm ngay ở mũi đất (tip of the headland). Chính là vị trí D.
- **Trích đoạn:** "...head straight from the wharf, **take the second path on the right**, follow the track **behind Puka Bay**, and the fortress is right at the **tip of the headland**."

Câu 16

- **Đáp án:** E
- **Hướng dẫn:** Từ bến phà đi dọc theo con đường tới khu nhà tránh mưa (shelter). Từ đó đi ngang qua ngọn hải đăng/trạm quan sát (lookout) nằm ở bên phải bạn, ngôi làng sẽ nằm nhích lên một chút ở bên trái đường đi. Vị trí E khớp hoàn toàn vì nó nằm bên trái của lối đi, ngay gần hướng lên Lookout.
- **Trích đoạn:** "...From the wharf, follow the path to the shelter, **go past the lookout on your right**, and the village is just a bit further **on the left**."

Câu 17

- **Đáp án:** A
- **Hướng dẫn:** Từ bến phà, đi thẳng lên một chút rồi rẽ trái (ngã rẽ đầu tiên) xuống Paradise Bay. Tại đó, tiếp tục rẽ trái đi dọc theo con đường bãi biển (beach path). Vị trí A nằm ngay tại khu vực này.
- **Trích đoạn:** "...From the wharf **turn left down to Paradise Bay**, then **turn left again along the beach path**. The pits are very close by."

Câu 18

- **Đáp án:** I
- **Hướng dẫn:** Đi thẳng ngang qua shelter, sau đó rẽ phải ở ngã tư đầu tiên. Con đường này dẫn tới khu vực có tầm nhìn toàn cảnh tuyệt đẹp hướng xuống Palm Bay. Vị trí I chính xác là nơi có tầm nhìn này.

- **Trích đoạn:** "...Just **keep going past the shelter**, then **turn right at the first intersection**. The terraces also give you a wonderful panoramic view of Palm Bay."

Câu 19

- **Đáp án:** C
- **Hướng dẫn:** Từ bến phà rẽ trái (ngã rẽ đầu tiên), sau đó tại ngã tư tiếp theo bạn rẽ phải và đi thẳng. Chú ý bỏ qua ngã rẽ trái vào Indigo Bay (vị trí H), cứ tiếp tục đi thẳng (carry on) và bạn sẽ thấy địa điểm này nằm trên các vách đá phía Bắc (Northern Cliffs). Đó là vị trí C.
- **Trích đoạn:** "...From the wharf **turn left**, then **turn right at the first intersection** and keep straight on. **Don't turn left to Indigo Bay**, just carry on, and you'll find them on the **Northern Cliffs**."

Câu 20

- **Đáp án:** G
- **Hướng dẫn:** Vị trí này rất dễ tìm. Chỉ cần đi thẳng từ bến phà lên tới shelter, sau đó rẽ trái là bạn sẽ thấy nó hiện ra ngay trước mặt. Vị trí G nằm ngay sát bên trái shelter.
- **Trích đoạn:** "...walk **up to the shelter**, **turn left**, and it's **right there in front of you**."

Câu 21: C

- **Trích đoạn:** "Yeah, it just feels like I have **too much on my plate**. I've got assignments from my university tutor, lesson plans to put together, and I also have to sit in on other teachers' lessons. It's **a lot to juggle**."
- **Hướng dẫn:** Camille phàn nàn rằng cô ấy có quá nhiều việc phải làm cùng lúc (too much on my plate / a lot to juggle) như làm bài tập, lên giáo án, và dự giờ. Cô cũng khẳng định mình không lo lắng về quản lý lớp học (đáp án B) hay các mối quan hệ (đáp án A). Do đó, áp lực lớn nhất của cô là xoay sở với nhiều nhiệm vụ khác nhau (coping with all the different tasks).

Câu 22: B

- **Trích đoạn:** "What I would do is **check the dress code**. It's worth **finding out in advance**, because expectations can vary a lot from one school to another."
- **Hướng dẫn:** Sebastian khuyên không nên lên kịch bản bài giảng chi tiết (loại A) hay mất thời gian tìm hiểu học sinh trước (loại C). Anh ấy gợi ý hành động thiết thực nhất lúc này là kiểm tra quy định về trang phục (check the dress code). Điều này khớp với đáp án B (tìm hiểu xem loại trang phục nào là phù hợp).

Câu 23: C

- **Trích đoạn:** "The best thing you can do is use the opportunity to **get advice on how to improve.**"
- **Hướng dẫn:** Sebastian nói không cần hỏi ý kiến về cách xử lý học sinh vì giáo viên đã nắm rõ (loại B) và cũng không cần cố gắng thu hút sự chú ý vào những phần mình dạy tốt vì người hướng dẫn sẽ tự thấy (loại A). Cách tốt nhất là tận dụng cơ hội này để nhận lời khuyên cải thiện kỹ năng, tương ứng với đáp án C (gain pointers on how to improve her practice).

Câu 24: C

- **Trích đoạn:** "...but the **first placement** is more about **getting a sense of what a teacher actually does**, both inside and outside the classroom."
- **Hướng dẫn:** Sebastian giải thích rằng việc áp dụng lý thuyết vào thực tế là mục tiêu của kỳ thực tập cuối cùng (loại A), còn trau dồi kỹ năng cụ thể là ở các kỳ sau (loại B). Kỳ thực tập đầu tiên (initial) chủ yếu nhằm mục đích hiểu được công việc thực sự của một giáo viên là gì. Tương đương với đáp án C (có cái nhìn sâu sắc về vai trò tổng thể của một giáo viên).

Câu 25: B

- **Trích đoạn:** "...your **supervisor** should always be your **first port of call** if you have a problem. They're the best person to help."
- **Hướng dẫn:** Cụm từ "first port of call" có nghĩa là nơi/người đầu tiên bạn tìm đến khi cần giúp đỡ. Sebastian khuyên Camille nên tìm đến giáo viên hướng dẫn (supervisor) đầu tiên, giảng viên đại học chỉ là giải pháp cuối cùng (last resort - loại C), và gặp thẳng hiệu trưởng là một ý tồi (loại A).

Câu 26: G

- **Trích đoạn:** "He really cared about his students and always took the time to make sure they **understood difficult concepts**. If anyone was still struggling, he'd find another way to **explain it.**"
- **Hướng dẫn:** Bill Dyson luôn dành thời gian đảm bảo học sinh hiểu được các khái niệm khó và tìm nhiều cách giải thích cho những em gặp khó khăn. Điều này khớp với đáp án G (đảm bảo những điểm khó hiểu được làm cho dễ nắm bắt).

Câu 27: F

- **Trích đoạn:** "For instance, Heather Moran was fantastic at **collaborating with other staff**. She was always happy to listen to **colleagues** and share her insights with them."
- **Hướng dẫn:** Heather Moran rất giỏi hợp tác với các nhân viên khác và sẵn sàng lắng nghe, chia sẻ với đồng nghiệp. Tương ứng với đáp án F (làm việc tốt trong mối quan hệ đối tác với đồng nghiệp).

Câu 28: C

- **Trích đoạn:** "He was approachable but firm, making it clear from day one **who was in charge** and **setting out the rules**."
- **Hướng dẫn:** Dan Shaw rất thân thiện nhưng kiên quyết, thể hiện rõ ngay từ ngày đầu tiên ai là người làm chủ và đặt ra các quy tắc. Tương đương với đáp án C (thiết lập uy quyền rõ ràng trong lớp học).

Câu 29: E

- **Trích đoạn:** "...had exceptional professional **self awareness**. ... she could immediately recognise what hadn't gone well in a lesson, and she had a very clear sense of what she needed to work on. I really value that kind of **self reflection**."
- **Hướng dẫn:** Dawn Edwards có khả năng tự nhận thức nghề nghiệp xuất sắc, biết rõ mình dạy chưa tốt chỗ nào và cần cải thiện điều gì. Sebastian đánh giá cao khả năng "self reflection" (tự phản tỉnh) này, hoàn toàn khớp với đáp án E (có thể mạnh trong việc nhìn nhận lại hiệu suất cá nhân).

Câu 30: A

- **Trích đoạn:** "...had a really **creative approach** to teaching. He used stories, games, and other **engaging methods** to make even the driest material lively and imaginative."
- **Hướng dẫn:** Elliot Smith có phương pháp giảng dạy cực kỳ sáng tạo, sử dụng các phương pháp hấp dẫn để làm cho những tài liệu khô khan nhất cũng trở nên sinh động. "Creative/imaginative" tương đồng với "inventive" trong đáp án A (nghĩ ra những cách sáng tạo/mới mẻ để trình bày bài học).

Câu 31: statues

- **Trích đoạn:** "...the ancient Greeks and Romans collected scrap metal, such as copper and bronze, to cast **statues**."
- **Hướng dẫn:** Đề bài nhắc đến việc kim loại thừa được tạo hình lại (reshaped into). Trong audio, người nói dùng cụm "cast statues" (đúc tượng). Từ cần điền là "statues".

Câu 32: farms

- **Trích đoạn:** "Metal dealers spotted an opportunity to profit from abandoned machinery and tools left on **farms**..."
- **Hướng dẫn:** Đề bài hỏi các đồ vật kim loại không dùng nữa được tìm thấy ở đâu. Cụm "abandoned machinery and tools" tương đương với "unwanted metal objects". Nơi chốn được nhắc đến là "farms" (nông trại).

Câu 33: economy

- **Trích đoạn:** "One key factor is the ongoing positive evolution within the **economy** of many nations."
- **Hướng dẫn:** Đề bài nói nhiều quốc gia chứng kiến sự tăng trưởng (growth) trong cái gì đó của họ. Audio dùng cụm "ongoing positive evolution" (sự phát triển tích cực không ngừng) để chỉ sự tăng trưởng này, và nó diễn ra trong nền kinh tế ("economy").

Câu 34: quality

- **Trích đoạn:** "Although copper is still relatively abundant, its **quality** has declined in recent years."
- **Hướng dẫn:** Đề bài ghi nguồn cung cấp (như đồng) có cái gì đó thấp hơn trước (lower... than before). Audio nói rằng chất lượng của đồng đã giảm sút ("declined" = "lower"). Từ cần điền là "quality".

Câu 35: electronics

- **Trích đoạn:** "Furthermore, a rapidly expanding sector has significantly increased the demand for scrap metal... The **electronics** sector."
- **Hướng dẫn:** Đề bài nhắc đến một ngành công nghiệp phát triển nhanh ("fast-growing... industry"). Trong audio, người nói dùng từ "rapidly expanding sector" (lĩnh vực mở rộng nhanh chóng) và ngay sau đó chỉ đích danh là ngành điện tử ("electronics sector").

Câu 36: plants

- **Trích đoạn:** "Interestingly, certain **plants** growing along roadsides can absorb metals from the soil efficiently..."
- **Hướng dẫn:** Đề bài hỏi cái gì ở ven đường ("roadside") lấy một lượng nhỏ bạch kim từ đất. Audio nói rằng một số loài thực vật ("plants") mọc ven đường có thể hấp thụ ("absorb" = "take in") kim loại từ đất ("soil" = "ground").

Câu 37: factories

- **Trích đoạn:** "...researchers there are examining old cotton **factories** that have been closed down."
- **Hướng dẫn:** Đề bài đề cập đến kim loại bên trong các cơ sở sản xuất bông bị bỏ hoang ("abandoned cotton..."). Trong audio, cụm "closed down" tương đương với "abandoned". Nơi được nhắc tới là các nhà máy ("factories").

Câu 38: pipes

- **Trích đoạn:** "In addition, beneath many Swedish cities lie outdated **pipes** that once supplied gas to local neighbourhoods."

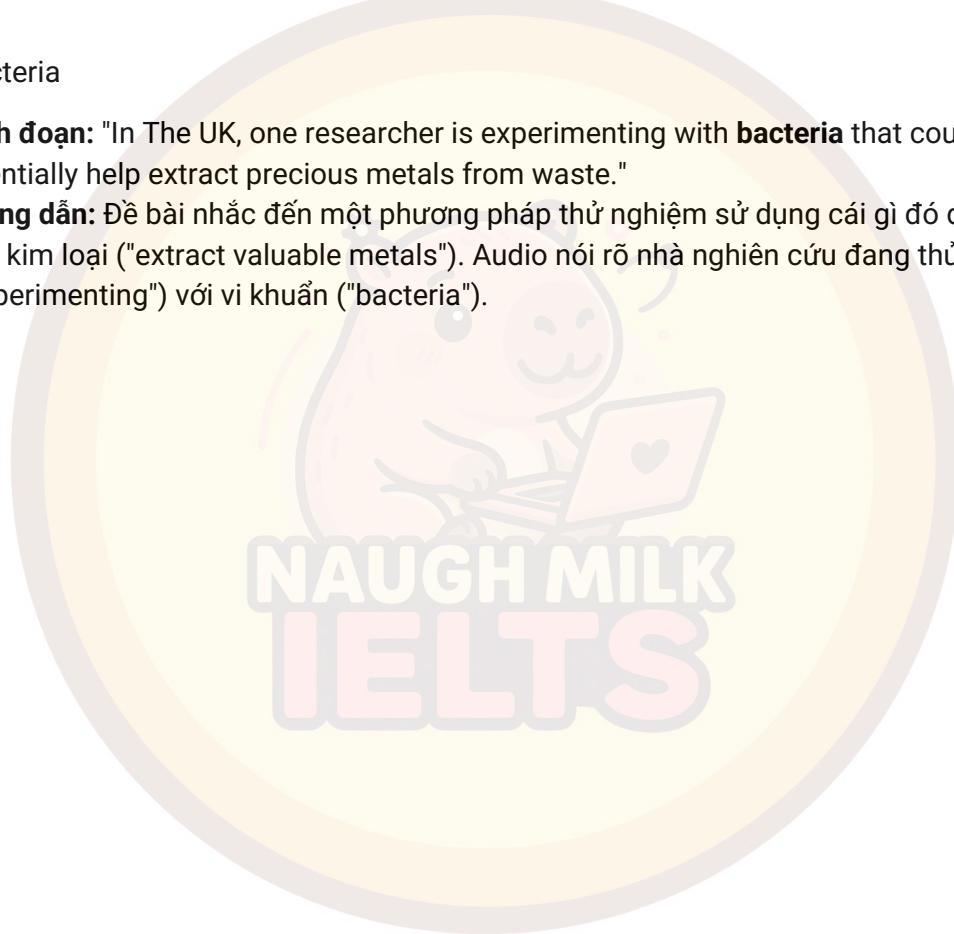

- **Hướng dẫn:** Đề bài chỉ ra kim loại nằm dưới lòng đất không còn sử dụng ("disused underground..."). Audio dùng cụm "beneath many Swedish cities" (dưới nhiều thành phố) và "outdated" (lỗi thời/không dùng nữa) để mô tả những đường ống ("pipes").

Câu 39: magnet

- **Trích đoạn:** "As long as the **magnet** is larger than the components it needs to attract, effective separation is possible."
- **Hướng dẫn:** Đề bài nói để tách sắt, người ta có thể dựa vào một cái gì đó mạnh ("strong..."). Audio nhắc đến việc dùng từ tính ("magnetism") và giải thích rằng chỉ cần một nam châm ("magnet") đủ lớn để hút các thành phần kim loại.

Câu 40: bacteria

- **Trích đoạn:** "In The UK, one researcher is experimenting with **bacteria** that could potentially help extract precious metals from waste."
- **Hướng dẫn:** Đề bài nhắc đến một phương pháp thử nghiệm sử dụng cái gì đó để chiết xuất kim loại ("extract valuable metals"). Audio nói rõ nhà nghiên cứu đang thử nghiệm ("experimenting") với vi khuẩn ("bacteria").

ĐÁP ÁN TEST 2

Part 1: Opening a bank account	Part 2: The Hamilton Car Sale	Part 3: Eyewitness reliability	Part 4: The Significance of Music to Young Children
1 1.3%	11 C	21 B	31 birth
2 30 / thirty	12 A	22 C	32 changes
3 300	13 B	23 B	33 imitate

NAUGH MILK
IELTS

TRANSCRIPT TEST 2

PART 1

[Speaker 1] [0:00 → 0:05]

The audio and test copyright belong to the Naugh Milk IELTS website.

[Speaker 2] [0:05 → 0:55]

IELTS listening. You will hear a number of different recordings, and you will have to answer questions on what you hear. There will be time for you to read the instructions and questions, and you will have a chance to check your work. All the recordings will be played once only. The test is in four parts. Write all your answers in the listening question booklet. At the end of the test, you will be given ten minutes to transfer your answers to an answer sheet. Now turn to part one on page two of your question booklet. Part one. You will hear a man talking to a woman at a bank. First, you have some time to look at questions one to six.

[Speaker 2] [1:18 → 1:21]

Now listen carefully and answer questions one to six.

[Speaker 3] [1:22 → 1:25]

Good morning. I'd like to open a bank account, please.

[Speaker 4] [1:26 → 2:13]

Certainly. If you'd like to take a seat, I'll just get some information on our different options for you. It won't take long. Thanks. I've got the application form for you here. I see you've already got our leaflet. As you can see, we have different types of accounts. Is it a current account or a deposit account you want to open today? A deposit account, I suppose. Could you tell me a little more about this type of account, the interest rate, for instance? Sure. Our interest rate is 3.4%, which is actually 1.3% higher than other banks. So opening account here is a good choice if you want to save.

[Speaker 3] [2:13 → 2:19]

And if I wanted to withdraw around \$50,000, would I need to wait?

[Speaker 4] [2:20 → 2:36]

No. But when you withdraw more than \$1,000,000, it would be a different process. In the past, you had to give a notice sixty days in advance, but things are a little different here. You only need to give a thirty day notice.

[Speaker 3] [2:37 → 2:39]

I see. That's great.

[Speaker 4] [2:39 → 2:52]

Can I ask, how much will you be opening your account with? We usually ask for a minimum sum of \$300, but if you have more than \$600, you'll have a better interest rate.

[Speaker 3] [2:53 → 3:00]

Well, I'm going to transfer \$1,000 from my Dash account just until I get paid.

[Speaker 4] [3:00 → 3:03]

That's not a problem. Great.

[Speaker 3] [3:03 → 3:07]

How long should it take to arrange a debit card? A week?

[Speaker 4] [3:07 → 3:20]

I'm afraid not. The general process of opening the account needs ten working days, but it's usually quite fast. It takes most banks two more days than us.

[Speaker 3] [3:20 → 3:27]

That's good to know. What should I do if I need to close this account? Do I come back to you? Or

[Speaker 4] [3:29 → 3:38]

I'm afraid not. My duty as an account administrator is to open the account for you. You'd need to talk to the branch manager about that matter.

[Speaker 3] [3:39 → 3:42]

And what's the best way to withdraw cash?

[Speaker 4] [3:42 → 4:00]

Well, as this is a deposit account, if you need cash, there are two ways to do that. One is through any ATM of our bank at your convenience. Our bank tellers can also handle a cash withdrawal, but you need to bring your identification.

[Speaker 3] [4:01 → 4:03]

Alright. I will keep that in mind.

[Speaker 2] [4:05 → 4:11]

Before you hear the rest of the conversation, you have some time to look at questions seven to 10.

[Speaker 2] [4:34 → 4:39]

Now listen and answer questions seven to 10. I also want to inquire about insurance.

[Speaker 4] [4:40 → 4:56]

Oh, yes. I forgot to mention that. Deposit accounts with over \$50,000 come with a life insurance policy free of charge. But if you already have that type of insurance, then you can change the policy to house insurance if you like.

[Speaker 3] [4:57 → 5:01]

I see. I guess I would go for the latter one.

[Speaker 4] [5:01 → 5:19]

Take your time to think about it. You can let us know if you change your mind. If you're interested, we also have investment schemes available. You can find information about that option in your leaflet. Just give us a call if you want to know more.

[Speaker 3] [5:20 → 5:29]

Thanks. I think I'll just open the account today. If I want to apply for a credit card, can I also do that today?

[Speaker 4] [5:30 → 6:02]

Yes. But there is an interview for the application. We usually ask for some information about your credit history and income. If you want to get started, there is a form you can fill in now. It won't take long. We just need to know your personal information, like your name, current address, phone number, Social Security number, and such. We can start the process today, and we'll call you in a few days.

[Speaker 3] [6:02 → 6:05]

Alright. Can I have the form, please?

[Speaker 2] [6:06 → 6:10]

That is the end of part one. You now have half a minute to check your answers.

PART 2

[Speaker 1] [0:00 → 0:01]

Part two.

[Speaker 1] [0:28 → 0:32]

Now listen carefully and answer questions 11 to 15.

[Speaker 2] [0:33 → 2:41]

Good afternoon, everyone, and welcome to my talk about the Hamilton car sale, one of the largest community events of its kind in the region. I'd like to begin with a few general points before we move on to the layout of the sale grounds. In earlier years, the Hamilton car sale attracted around nine fifty people each week, but that figure belongs to the past. At present, the number has grown to approximately 1,500 visitors weekly, showing how popular the event has become. In fact, if the trend continues, we expect attendance to rise by another 500 people next year. Now turning to the matter of fees. The entry fee varies depending on the type of vehicle with certain categories charged at a higher rate. Of course, there is also a separate fee for sellers, which is set differently from what buyers pay, so it's not the same for both groups. And while some people assume the cost somehow links back to whether or not the vehicle is successfully sold, that's not the case here. Another important rule concerns information displayed on the vehicles. Every vehicle that comes onto the grounds is expected to display the proper information. Some people think it's enough to put a sticker showing the price, but that doesn't meet the regulations. Others simply attach a for sale sign, yet that alone isn't acceptable either. What's actually required is a full detail sheet placed on the vehicle so buyers can see all the essential information at a glance. Alongside that, you'll also hear about the information report. Visitors sometimes assume this is mainly about the status of the vehicle, but that isn't what it's for. Its real purpose is to confirm that the car is genuinely owned by the person offering it for sale, giving buyers peace of mind. Some also believe it lists how many previous owners a vehicle has had, yet that's not part of the document. Finally, a word of advice for anyone completing a sale. The main piece of guidance we give is that once you've successfully sold your vehicle, you should take steps right away to record the transfer of ownership so the legal responsibility clearly passes to the new driver. We strongly advise people not to accompany a buyer on a test drive since that can raise issues of liability. And while some assume the key point is about collecting the money, that isn't the official emphasis here.

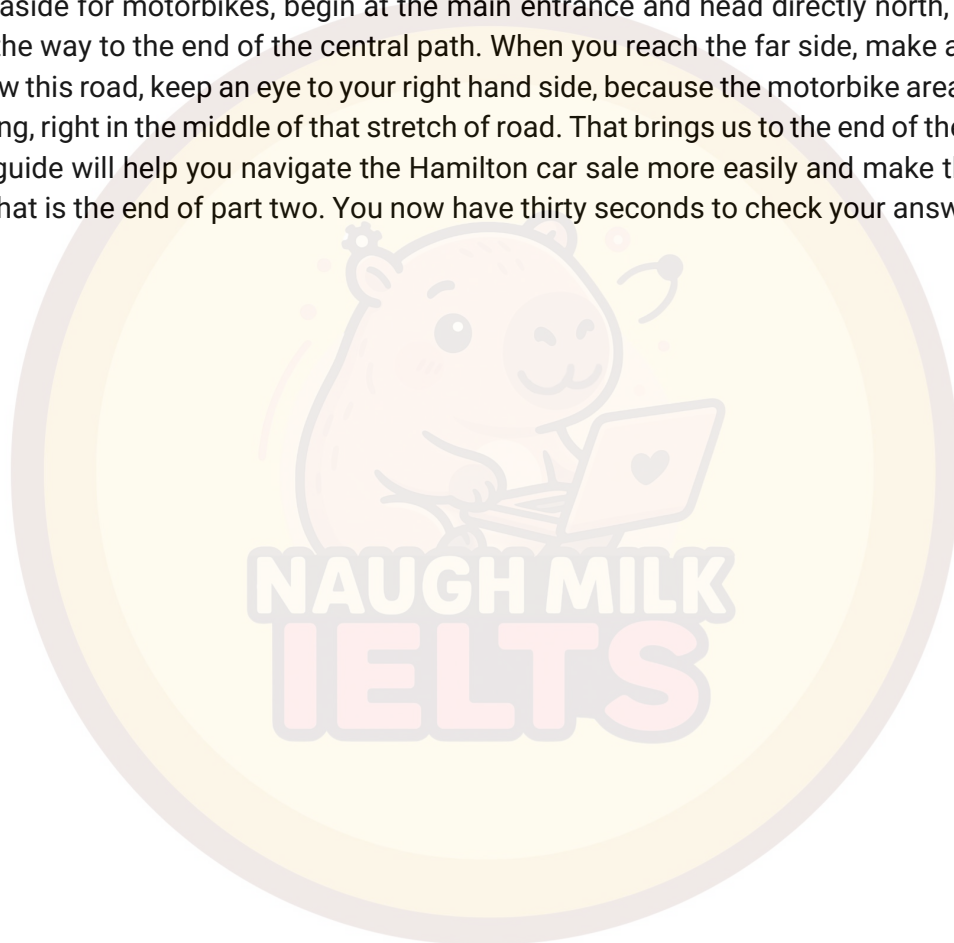

[Speaker 2] [2:46 → 2:52]

Before you hear the rest of the talk, you have some time to look at questions 16 to 20.

[Speaker 1] [3:27 → 6:19]

Now listen and answer questions 16 to 20. Let me now describe the layout of the sale areas so you can find your way around the grounds. To reach the section reserved for cars priced under \$5,000, start at the main entrance and walk directly north along the central path. After reaching the end of this street, you'll need to make a left turn. Keep following this route, and as you go, pay attention to the surroundings. Just before you come to the trees area, you'll notice the lot for budget cars clearly marked on your right hand side. That's the place where all vehicles under \$5,000 are displayed. To find the section for cars in the 5 to \$10,000 range, begin once again at the main entrance and head north along the main pathway. Keep walking until you notice an office building on your left hand side, which is the point where you need to turn left. From there, simply

continue straight ahead in the same direction. As you approach the river at the edge of the grounds, the area for vehicles in this price range will come into view right in front of you. To reach the display area for cars priced over \$10,000 start once again from the main entrance and walk straight ahead along the central route. Continue on this path until you come across the office building directly ahead of you. Opposite the office, you'll notice a short side road leading away from the main path. Take this road, and follow it straight through to the very end, where the section for higher priced vehicles is clearly set out. To locate the section for caravans, look carefully towards the northwest corner of the grounds. It's positioned just beneath the bridge that crosses New North Road, making it very easy to identify. This spot is also right next to the north gate, so if you approach from there, you'll find the caravan's area almost immediately. To find the section set aside for motorbikes, begin at the main entrance and head directly north, continuing straight all the way to the end of the central path. When you reach the far side, make a right turn. As you follow this road, keep an eye to your right hand side, because the motorbike area is located partway along, right in the middle of that stretch of road. That brings us to the end of the overview. I hope this guide will help you navigate the Hamilton car sale more easily and make the most of your visit. That is the end of part two. You now have thirty seconds to check your answers to part two.

PART 3:

[Speaker 1] [0:01 → 0:04]

Now turn to section three on page five.

[Speaker 1] [0:09 → 0:30]

Section three. You will hear two law students called Eleanor and Jamie discussing their work on whether the evidence given by people who witness crimes is reliable. First, you have some time to look at questions 21 to 26 on page five.

[Speaker 1] [1:16 → 1:20]

Now listen carefully and answer questions 21 to 26.

[Speaker 2] [1:24 → 1:39]

Hi, Jamie. I've just been reading this book about eyewitness testimonies. It really goes into how much we can actually rely on what the people who witness crimes actually say and what things influence eyewitness reliability.

[Speaker 3] [1:39 → 1:45]

Oh, I've read a couple of case studies on that too. Can we compare notes? Good idea.

[Speaker 2] [1:46 → 1:49]

It's fascinating to learn that eyewitness identification

[Speaker 3] [1:49 → 1:58]

is such compelling evidence in both civil and criminal trials. You mean if a witness says something, generally, they're believed?

[Speaker 2] [1:58 → 2:17]

And reading between the lines, I'd say that when a witness gives evidence in a very self assured way, everyone takes them at their word. Whether they're a doctor who speaks with an assumed authority or the average person in the street, it doesn't seem to matter as much as their manner. Right.

[Speaker 3] [2:17 → 2:20]

So is that textbook worth reading?

[Speaker 2] [2:20 → 2:31]

Yes. It's a good book, divided into user friendly sections. It refers to case studies, and the conclusions are clearly underlined. But, actually,

[Speaker 3] [2:31 → 2:47]

some of the cases are more than ten years old now. Well, it's the same problem with the survey reports our tutor gave us, but at least they draw on a representative sample. That's good. All the books point out that eyewitness statements are very often unreliable.

[Speaker 2] [2:47 → 2:53]

But there can be good reasons for that, like an incident may happen at night in the dark.

[Speaker 3] [2:53 → 3:02]

Or it happened some way away. But it's the fact that it can happen in just a split second that makes the witness's account so unreliable.

[Speaker 2] [3:02 → 3:06]

That point's made very strongly in what I've read too.

[Speaker 3] [3:06 → 3:06]

Yeah.

[Speaker 2] [3:07 → 3:10]

Have you read anything about photo identifications?

[Speaker 3] [3:10 → 3:30]

Yes. About the procedure and the reliability of witnesses looking at photos of different people and picking out the suspect. The case studies all clearly show how easy it is to sway a witness's choice of photo even just by the flicker of an eye, but steps have been taken now to avoid this happening.

[Speaker 2] [3:30 → 3:34]

And are the witnesses told exactly what they have to do? Mostly.

[Speaker 3] [3:35 → 3:45]

But the trouble is most people focus on the photos and choose the most likely suspect from the bunch and forget about the actual incident and who they saw at the time.

[Speaker 2] [3:45 → 3:52]

And I read something about a naive observer. Do you know what that is? Is it a witness who's never been in a court before?

[Speaker 3] [3:53 → 4:01]

Oh, I understood it to mean someone who's had nothing to do with the event, and they're asked to look at the photos and pick out the potential suspect.

[Speaker 2] [4:02 → 4:08]

That figures. Then they can see if the photos are a good set and make sure one person doesn't stand out.

[Speaker 3] [4:09 → 4:27]

Another thing I read was that witnesses don't like to change their minds once they've made a particular statement. I thought people might worry about the fact that they told a lie in court and think they might be punished in some way. But it's simply that they're afraid of seeming unintelligent or lightweight.

[Speaker 2] [4:27 → 4:37]

Yeah. People are reluctant to lose face. Imagine if a case had been going on for weeks and you suddenly realized you'd got something wrong right at the beginning.

[Speaker 1] [4:46 → 4:54]

Before you hear the rest of the discussion, you have some time to look at questions 27 to 30 on page six.

[Speaker 1] [5:14 → 5:18]

Now listen and answer questions 27 to 30.

[Speaker 2] [5:22 → 5:32]

Changing the topic slightly, can I just check with you what you've understood about the problems of interviewing child witnesses when they've witnessed, for example, robbery?

[Speaker 3] [5:32 → 5:38]

Yes. Did you get the handout about the stages that should be followed when children interviewed?

Yes.

[Speaker 2] [5:39 → 5:45]

The rapport stage, when a relationship between the child and the interviewer is built up, seems to be crucial.

[Speaker 3] [5:45 → 5:59]

But many children fail to say anything that provides any real information. It must be hard for them not to feel a bit scared about being in a formal setting like a court building. Still, it's a good lead in to open ended questions

[Speaker 2] [5:59 → 6:20]

where the interviewer carefully sticks to their prepared questions in order to remain neutral. I can see the point of that, but the handout discusses the issue of children simply not understanding the specialist language used, so the whole interview just gets more puzzling for them. I think the stage called closed questions is easier for children to handle.

[Speaker 3] [6:21 → 6:44]

They just have to answer yes or no. But everything's not so clear cut in a child's world, and abstract concepts such as honesty haven't been fully grasped by young children. You mean they make things up? Apparently. And in the final stage, closure, where the interviewer has to check anything that hasn't been made clear to them by repeating previous questions,

[Speaker 2] [6:45 → 6:52]

children often become suspicious of the questioner. It must require lots of training to be able to interview children successfully.

[Speaker 3] [6:52 → 6:53]

Yes. I think

[Speaker 1] [6:56 → 7:02]

That is the end of section three. You now have half a minute to check your answers.

PART 4

[Speaker 1] [0:01 → 0:16]

Part four You will hear part of a lecture on how babies and young children respond to and engage with music. First, you have some time to look at questions 31 to 40.

[Speaker 2] [1:08 → 6:24]

Music is a natural part of our daily lives. Whether we are at home, in the car, on public transport, or walking down the street, we are often surrounded by music. We listen to it on our phones, through speakers, or on our computers. Additionally, we are frequently immersed in music that we have not selected, such as that played in stores, on trains, or even in places like doctor's offices, where it becomes part of our background environment. This leads to an interesting question: how do babies engage with music? A tremendous amount of research has focused on understanding how very young children respond to music. Studies have shown that babies can recall music that was played or sung to them prior to birth. My own research shows that this ability can last until a baby is 15 old. Research into how babies respond to music reveals that they are more sophisticated listeners than we assume. During their first year, babies perform even better than adults in some tasks, such as recognising changes that have been made in musical sequences. It suggests that we engage with music from the very start of life. One of the most important studies in this field was carried out in 1976 by Helmut Moog. He studied 500 children, from infants to five year olds, and found that babies started responding to music just a few weeks after birth by 12, they were able to imitate the melodies of songs sung to them. MOOG's research has provided valuable insights into how young children engage with music, though less is known about the responses of two-three year olds. MOOC did find that when music was played, children aged two tended to move a great deal. However, by age three, this behaviour decreased and children began to use music more as a tool for interaction. A more recent study I have conducted has used a technique known as 'experience sampling'. Through this method, I have found that children today are exposed to an enormous amount of music. Songs and tunes designed specifically for children are the most popular, especially television themed tunes and songs on children's websites. Nowadays, this type of music is more commonly accessed through digital devices, such as smartphones, tablets, or computers, rather than traditional radio broadcasts, as was the case in the past. Furthermore, pop music is also frequently played for children, often not by their choice, though. Many mothers and fathers use music to accompany daily routines, like having meals or driving their children around. Older siblings also play a crucial role in shaping younger children's musical preferences. In my study, one seven year old boy's musical tastes were greatly affected by his older sister. Over time, he became a fan of rock music, despite his young age. He wasn't making these choices independently. Rather, he was being shaped by the music that was being played in his home. This is a good example of how children's musical preferences can be shaped by their environment and the people around them. So, why do children enjoy certain types of music? My research has found that there is no clear link between the music they enjoy and their personality at this age. However, it seems these connections might develop as children grow older. By then, their tastes in music could reflect their individual characteristics more clearly. To conclude, I'd like to mention a few additional points. First of all, music has a strong influence on young people. One of the most important functions of music in children's

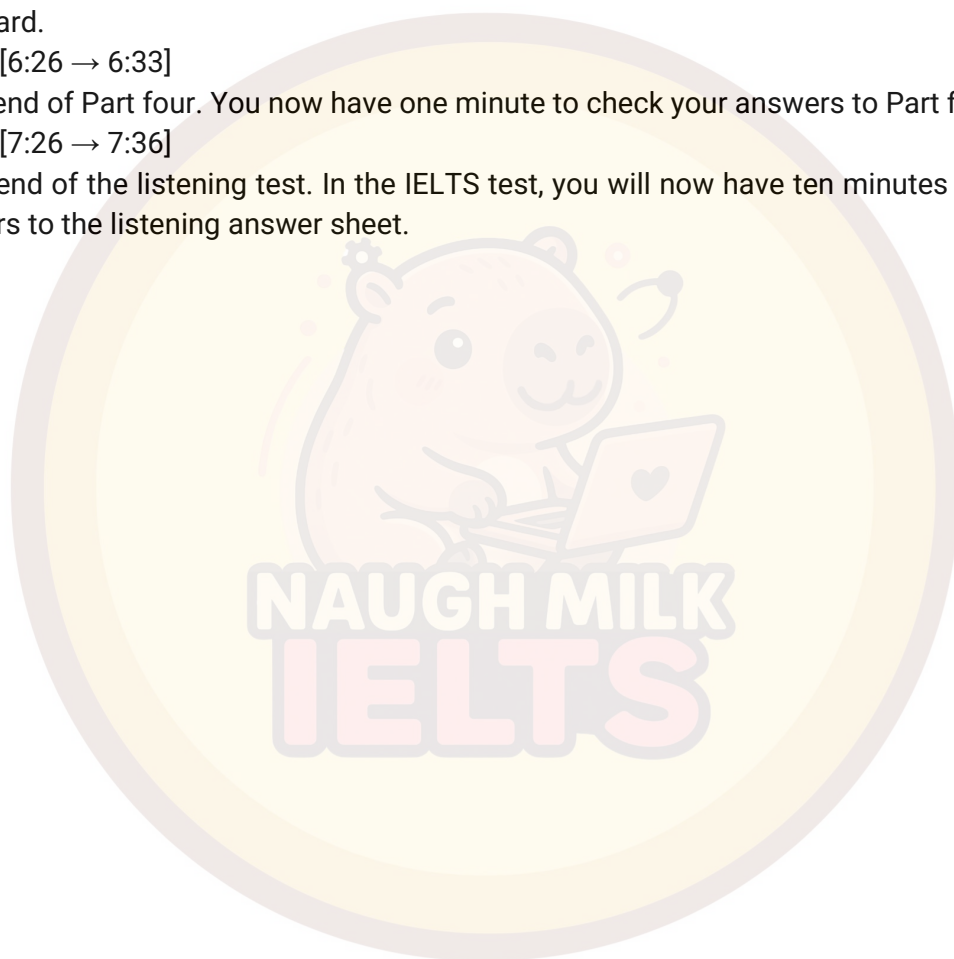

lives is a social one. Singing songs together, dancing, or debating which song to play next helps children develop socially. In my research, I've found that very few young children listen to music alone. Only one child in my study did so regularly. In my view, music is something that really ought to be shared. In this sense, technology has made it easier for families to enjoy music together. Internet platforms and social media give everyone access to a wealth of music and offer new ways to share musical experiences. Music is no longer just an individual activity. Taking an interest in the music children listen to can offer parents and other family members a better understanding of what's happening with them. Thus, it gives parents a starting point for discussing their children's feelings. While musical preferences are personal, they are shaped by factors like family influence, exposure to different music, and the social context in which the music is heard.

[Speaker 1] [6:26 → 6:33]

That is the end of Part four. You now have one minute to check your answers to Part four.

[Speaker 1] [7:26 → 7:36]

That is the end of the listening test. In the IELTS test, you will now have ten minutes to transfer your answers to the listening answer sheet.

Câu 1: 1.3%

- Trích đoạn: "Our interest rate is 3.4%, which is actually 1.3% higher than other banks."
- Hướng dẫn: Nhân viên ngân hàng nói rõ mức lãi suất của họ là 3.4%, thực tế cao hơn 1.3% so với các ngân hàng khác.

Câu 2: 30 / thirty

- Trích đoạn: "In the past, you had to give a notice sixty days in advance, but things are a little different here. You only need to give a thirty day notice."
- Hướng dẫn: Audio lừa một chút khi nhắc đến 60 ngày trong quá khứ. Tuy nhiên, quy định hiện tại chỉ cần báo trước 30 ngày.

Câu 3: 300

- Trích đoạn: "We usually ask for a minimum sum of \$300..."
- Hướng dẫn: Khách hàng được hỏi sẽ mở tài khoản với bao nhiêu tiền. Nhân viên xác nhận số tiền tối thiểu là \$300. Dấu \$ đã có sẵn trên đề bài nên bạn chỉ cần điền số.

Câu 4: 10 / ten

- Trích đoạn: "The general process of opening the account needs ten working days..."
- Hướng dẫn: Khách hàng hỏi việc mở thẻ có mất một tuần không, nhân viên đính chính rằng quy trình thông thường cần 10 ngày làm việc.

Câu 5: branch manager

- Trích đoạn: "My duty as an account administrator is to open the account for you. You'd need to talk to the branch manager about that matter."
- Hướng dẫn: Khách hàng hỏi để đóng tài khoản (close this account) thì gặp ai. Người nhân viên giải thích nhiệm vụ của cô ấy chỉ là mở tài khoản, còn để đóng thì cần gặp quản lý chi nhánh.

Câu 6: withdraw cash

- Trích đoạn: "what's the best way to withdraw cash?" - "One is through any ATM... Our bank tellers can also handle a cash withdrawal..."
- Hướng dẫn: Khách hàng hỏi cách tốt nhất để rút tiền mặt. Nhân viên trả lời có thể thực hiện giao dịch này qua ATM hoặc nhờ giao dịch viên trực tiếp xử lý.

Câu 7: life insurance

- Trích đoạn: "Deposit accounts with over \$50,000 come with a life insurance policy free of charge."

- Hướng dẫn: Với tài khoản trên \$50,000, dịch vụ đầu tiên đi kèm là hợp đồng bảo hiểm nhân thọ miễn phí. (Lưu ý: Câu 7 và 8 có thể đổi chỗ cho nhau).

Câu 8: house insurance

- Trích đoạn: "But if you already have that type of insurance, then you can change the policy to house insurance if you like."
- Hướng dẫn: Dịch vụ thứ hai được nhắc đến như một phương án thay thế: khách hàng có thể đổi sang bảo hiểm nhà cửa nếu muốn.

Câu 9: investment schemes

- Trích đoạn: "If you're interested, we also have investment schemes available."
- Hướng dẫn: Audio nhắc đến một dịch vụ khác là các gói đầu tư. Cần chú ý viết số nhiều "schemes" theo đúng lời người nói để không bị mất điểm.

Câu 10: interview

- Trích đoạn: "Yes. But there is an interview for the application."
- Hướng dẫn: Khi khách hàng hỏi về việc mở thẻ tín dụng ngay hôm nay, nhân viên xác nhận là được nhưng yêu cầu phải trải qua một cuộc phỏng vấn.

Câu 11

- **Đáp án:** C
- **Hướng dẫn:** Audio cho biết số lượng khách tham dự trước đây là 950 người, nhưng hiện tại con số này đã tăng lên khoảng 1.500 người mỗi tuần.
- **Trích đoạn:** "...In earlier years, the Hamilton car sale attracted around nine fifty people each week, but that figure belongs to the past. At present, the number has grown to approximately 1,500 visitors weekly..."

Câu 12

- **Đáp án:** A
- **Hướng dẫn:** Người nói làm rõ rằng phí vào cửa không giống nhau cho mọi xe, mà thay đổi tùy loại, trong đó một số nhóm xe bị tính phí cao hơn.
- **Trích đoạn:** "...The entry fee varies depending on the type of vehicle with certain categories charged at a higher rate."

Câu 13

- **Đáp án:** B

- **Hướng dẫn:** Audio bác bỏ việc chỉ dán giá (price sticker) hay biển bán xe (for sale sign) là đủ, mà quy định bắt buộc phải có một bảng thông tin chi tiết đặt trên xe để người mua dễ theo dõi.
- **Trích đoạn:** "...Some people think it's enough to put a sticker showing the price... Others simply attach a for sale sign... What's actually required is a full detail sheet placed on the vehicle so buyers can see all the essential information at a glance."

Câu 14

- **Đáp án:** B
- **Hướng dẫn:** Mục đích thực sự của bản báo cáo thông tin (information report) là để chứng minh chiếc xe hoàn toàn thuộc sở hữu hợp pháp của người đang rao bán, chứ không phải để chỉ tình trạng xe hay số đời chủ.
- **Trích đoạn:** "...Its real purpose is to confirm that the car is genuinely owned by the person offering it for sale, giving buyers peace of mind."

Câu 15

- **Đáp án:** C
- **Hướng dẫn:** Lời khuyên quan trọng nhất sau khi bán xe thành công là người bán cần tiến hành thủ tục ghi nhận chuyển nhượng quyền sở hữu ngay lập tức để chuyển giao trách nhiệm pháp lý.
- **Trích đoạn:** "...once you've successfully sold your vehicle, you should take steps right away to record the transfer of ownership so the legal responsibility clearly passes to the new driver."

Câu 16

- **Đáp án:** G
- **Hướng dẫn:** Từ cổng chính đi thẳng lên hướng Bắc. Đến cuối đường (chỗ ngã ba) thì rẽ trái. Đi dọc theo đường này, ngay trước khi đến khu vực có cây, bạn sẽ thấy bãi xe ở bên tay phải.
- **Trích đoạn:** "...start at the main entrance and walk directly north along the central path. After reaching the end of this street, you'll need to make a left turn. Keep following this route... Just before you come to the trees area, you'll notice the lot for budget cars clearly marked on your right hand side."

Câu 17

- **Đáp án:** F
- **Hướng dẫn:** Bắt đầu từ cổng chính, đi thẳng lên Bắc. Đến khi thấy tòa nhà Office bên tay trái thì rẽ trái. Tiếp tục đi thẳng cho đến khi sát bờ sông, khu vực xe sẽ nằm ngay trước mặt bạn.

- **Trích đoạn:** "...begin once again at the main entrance and head north along the main pathway. Keep walking until you notice an office building on your left hand side, which is the point where you need to turn left. From there, simply continue straight ahead... As you approach the river at the edge of the grounds, the area for vehicles in this price range will come into view right in front of you."

Câu 18

- **Đáp án:** I
- **Hướng dẫn:** Từ cổng chính đi dọc theo đường giữa. Khi đến chỗ đối diện với tòa nhà Office (Office nằm bên trái), bạn hãy rẽ vào con đường nhỏ rẽ nhánh sang bên phải. Đi thẳng con đường này đến tận cùng.
- **Trích đoạn:** "...start once again from the main entrance and walk straight ahead... until you come across the office building directly ahead of you. Opposite the office, you'll notice a short side road leading away from the main path. Take this road, and follow it straight through to the very end..."

Câu 19

- **Đáp án:** A
- **Hướng dẫn:** Khu vực này cực kỳ dễ tìm, nó nằm ở góc Tây Bắc của bản đồ, ngay bên dưới cây cầu và sát ngay bên cạnh cổng Bắc.
- **Trích đoạn:** "...look carefully towards the northwest corner of the grounds. It's positioned just beneath the bridge that crosses New North Road... This spot is also right next to the north gate..."

Câu 20

- **Đáp án:** B
- **Hướng dẫn:** Từ cổng chính đi thẳng tuốt lên hướng Bắc đến cuối con đường. Tại đó, rẽ phải. Đi theo đường này và nhìn sang bên phải, bãi xe máy nằm ở lưng chừng, ngay khúc giữa của đoạn đường.
- **Trích đoạn:** "...begin at the main entrance and head directly north, continuing straight all the way to the end of the central path. When you reach the far side, make a right turn. As you follow this road, keep an eye to your right hand side, because the motorbike area is located partway along, right in the middle of that stretch of road."

Câu 21: B

- **Trích đoạn:** "...when a witness gives evidence in a very self assured way, everyone takes them at their word."

- **Hướng dẫn:** Eleanor giải thích rằng khi nhân chứng đưa ra lời khai một cách rất tự tin, mọi người đều tin lời họ. Cụm "self assured way" hoàn toàn đồng nghĩa với "with confidence" trong đáp án B.

Câu 22: C

- **Trích đoạn:** Eleanor: "...some of the cases are more than ten years old now." | Jamie: "Well, it's the same problem with the survey reports..."
- **Hướng dẫn:** Cả hai đều phàn nàn và lo ngại về việc dữ liệu trong các vụ án và báo cáo khảo sát đã được thu thập từ khá lâu (hơn 10 năm trước), tương ứng với "gathered some time ago".

Câu 23: B

- **Trích đoạn:** "But it's the fact that it can happen in just a split second that makes the witness's account so unreliable."
- **Hướng dẫn:** Audio có nhắc đến bóng tối và khoảng cách xa để làm bối, nhưng Jamie chốt lại yếu tố quan trọng nhất làm lời khai kém tin cậy là do sự việc xảy ra quá nhanh. "A split second" (trong tích tắc) tương ứng với "how long the event lasts".

Câu 24: A

- **Trích đoạn:** "...most people focus on the photos and choose the most likely suspect from the bunch and forget about the actual incident and who they saw at the time."
- **Hướng dẫn:** Jamie chỉ trích rằng nhân chứng thường chỉ chăm chăm vào các bức ảnh mà quên mất sự việc thực tế cũng như người mà họ đã nhìn thấy lúc đó. Tức là họ đã thất bại trong việc đối chiếu bức ảnh với trí nhớ của mình ("fail to compare the photos with their memory").

Câu 25: C

- **Trích đoạn:** "...someone who's had nothing to do with the event, and they're asked to look at the photos and pick out the potential suspect."
- **Hướng dẫn:** "Naive observer" (người quan sát ngây thơ/vô tư) được Jamie hiểu là người không liên quan gì đến sự việc. Điều này đồng nghĩa với việc người đó không hề có mặt tại hiện trường vụ án ("was not present at the incident").

Câu 26: A

- **Trích đoạn:** "...it's simply that they're afraid of seeming unintelligent or lightweight." | Eleanor: "Yeah. People are reluctant to lose face."
- **Hướng dẫn:** Nhân chứng không chịu đối ý kiến ban đầu vì họ sợ trông kém thông minh, hơi hợm và không muốn bị "mất mặt" (lose face). Điều này khớp chuẩn xác với đáp án "do not want to appear foolish" (không muốn trông ngớ ngẩn).

Câu 27: A

- **Trích đoạn:** "It must be hard for them not to feel a bit scared about being in a formal setting like a court building."
- **Hướng dẫn:** Ở giai đoạn "Rapport", trẻ em thường gặp khó khăn vì cảm thấy sợ hãi khi ở trong một môi trường trang trọng (formal setting) như tòa án. Khớp với đáp án sợ hãi môi trường xa lạ ("unfamiliar environment").

Câu 28: E

- **Trích đoạn:** "...the handout discusses the issue of children simply not understanding the specialist language used..."
- **Hướng dẫn:** Ở giai đoạn "Open-ended questions", rắc rối xảy ra khi trẻ em không hiểu ngôn ngữ chuyên ngành ("specialist language"). Từ này chính là "terminology" (thuật ngữ).

Câu 29: C

- **Trích đoạn:** "...abstract concepts such as honesty haven't been fully grasped by young children. You mean they make things up?"
- **Hướng dẫn:** Sang giai đoạn "Closed questions", do chưa hiểu được các khái niệm trừu tượng như sự trung thực, trẻ em có xu hướng bịa chuyện. Tương ứng với việc các em chưa phân biệt được sự thật và lời nói dối ("truth and lies").

Câu 30: F

- **Trích đoạn:** "...children often become suspicious of the questioner."
- **Hướng dẫn:** Ở giai đoạn "Closure", khi người phỏng vấn cứ lặp lại câu hỏi, trẻ em thường trở nên nghi ngờ ("suspicious") người hỏi. Điều này đồng nghĩa với "Distrust" (Sự không tin tưởng).

Câu 31: birth

- **Trích đoạn:** "...babies can recall music that was played or sung to them prior to birth."
- **Hướng dẫn:** Bài nghe nhắc đến việc trẻ có thể nhớ được âm nhạc "prior to birth". Cụm "prior to" đồng nghĩa với "before" trong câu hỏi, nên đáp án là "birth".

Câu 32: changes

- **Trích đoạn:** "...recognising changes that have been made in musical sequences."
- **Hướng dẫn:** So với người lớn, trẻ làm tốt hơn trong việc nhận ra những thay đổi ("changes") trong các chuỗi âm nhạc. "Recognising" ứng với "notice" và "musical sequences" ứng với "patterns of music".

Câu 33: imitate

- **Trích đoạn:** "...by 12, they were able to imitate the melodies of songs sung to them."
- **Hướng dẫn:** "By 12" (12 tháng tuổi) tương đương với "Around one year old" trong đề bài. Trẻ có thể "imitate the melodies" (bắt chước các giai điệu). "Melodies" bằng nghĩa với "tunes", nên đáp án là động từ "imitate".

Câu 34: move

- **Trích đoạn:** "...children aged two tended to move a great deal."
- **Hướng dẫn:** Theo nghiên cứu của Moog, "children aged two" (Two-year-olds) có xu hướng "move a great deal" ("a great deal" = "a lot"). Do đó, đáp án cần điền là "move".

Câu 35: websites

- **Trích đoạn:** "...especially television themed tunes and songs on children's websites."
- **Hướng dẫn:** Bài nghe liệt kê các nguồn nhạc yêu thích của trẻ, trong đó "children's websites" tương đương với cụm "websites for them" trong câu hỏi.

Câu 36: driving

- **Trích đoạn:** "Many mothers and fathers use music to accompany daily routines, like having meals or driving their children around."
- **Hướng dẫn:** Đề bài nhắc đến thói quen của cha mẹ ("Parents usually play music...") trong các hoạt động hàng ngày. "Having meals" tương ứng với "mealtimes", vậy hoạt động diễn ra song song còn lại là "driving".

Câu 37: personality

- **Trích đoạn:** "...there is no clear link between the music they enjoy and their personality at this age."
- **Hướng dẫn:** Người nói khẳng định không có mối liên hệ rõ ràng ("no clear link" = "not directly related to") giữa âm nhạc chúng thích và tính cách. Do đó, từ cần điền là "personality".

Câu 38: social

- **Trích đoạn:** "One of the most important functions of music in children's lives is a social one."
- **Hướng dẫn:** Trong phần các điểm bổ sung, audio nhấn mạnh âm nhạc có một chức năng quan trọng là chức năng xã hội. "Social one" ở đây thay thế cho cụm "social role".

Câu 39: shared

- **Trích đoạn:** "In my view, music is something that really ought to be shared."

- **Hướng dẫn:** Giảng viên đưa ra quan điểm cá nhân ("The lecturer thinks..."), với cụm "ought to be" bằng với "should be". Vậy điều âm nhạc cần làm là được "shared" (chia sẻ).

Câu 40: feelings

- **Trích đoạn:** "...it gives parents a starting point for discussing their children's feelings."
- **Hướng dẫn:** Đề hỏi cha mẹ có thể dùng âm nhạc để làm gì ("talk about"). Audio nói việc này giúp cha mẹ "discussing their children's feelings", trong đó "discussing" = "talk about". Từ cần điền là "feelings".

IELTS**

TRANSCRIPT TEST 3

PART 1

[Speaker 1] [0:00 → 0:05]

The audio and test copyright belong to the Naugh Milk IELTS website.

[Speaker 2] [0:05 → 0:47]

IELTS listening. You will hear a number of different recordings, and you will have to answer questions on what you hear. There will be time for you to read the instructions and questions, and you will have a chance to check your work. All the recordings will be played once only. The test is in four parts. Write all your answers in the listening question booklet. At the end of the test, you will be given ten minutes to transfer your answers to an answer sheet. Now turn to part one on page two of your question booklet.

[Speaker 3] [0:48 → 1:04]

Part one. You will hear a woman called Julianna talking to a man called Price about setting up stalls at the Flipville Country Market. First, you have some time to look at question one and question two.

[Speaker 3] [1:13 → 1:24]

Now listen carefully and answer question one and question two. Flipville Country Market, Bryce speaking, how can I help?

[Speaker 4] [1:24 → 1:32]

Hi Bryce, it's Juliana. I was wondering if we could set up a couple of stalls at your market to sell some of our products.

[Speaker 3] [1:32 → 1:38]

Of course, happy to help. I'll just need a few details first. Could you give me your full name, please?

[Speaker 4] [1:39 → 1:41]

Sure. It's Juliana Baker.

[Speaker 3] [1:42 → 1:45]

Thanks, got that. And what's the name of your business?

[Speaker 4] [1:45 → 1:53]

It's Sunrise Farm. We only changed it recently from Sunrise Estate, so you might not have heard the new name yet.

[Speaker 3] [1:53 → 1:59]

Ah yes, I remember the old name. So you're based fairly close by, aren't you?

[Speaker 4] [1:59 → 2:02]

Exactly. We're only about five kilometers away.

[Speaker 3] [2:02 → 2:08]

Brilliant. We love to support local producers. Could I take your contact number?

[Speaker 4] [2:08 → 2:14]

Of course. It's 407551827.

[Speaker 3] [2:14 → 2:17]

Right, I've noted that down. Is that your mobile?

[Speaker 4] [2:18 → 2:19]

Yes, that's right.

[Speaker 3] [2:20 → 2:23]

Great. And could I have your address as well?

[Speaker 4] [2:23 → 2:28]

Yes, it's 798 Sycamore Road, Flippedville.

[Speaker 3] [2:28 → 2:38]

Perfect, thanks. Before you hear the rest of the conversation, you have some time to look at questions three to 10.

[Speaker 3] [3:13 → 3:24]

Now listen and answer questions three-ten. Now let's talk about what you'd actually like to sell. Well,

[Speaker 4] [3:24 → 3:47]

I've been to the market before and noticed there are already quite a few vegetable stalls. So, for our first stall, we'd like to sell flowers instead. We'll pick them fresh each morning before coming. We've been growing them for about a year now. We do grow fruit as well, but at the moment it's just for ourselves. Maybe later we'll sell that too.

[Speaker 3] [3:47 → 3:52]

Lovely, that'll make a nice addition. I'm sure people will be interested.

[Speaker 4] [3:53 → 3:54]

That's what we're hoping.

[Speaker 3] [3:55 → 3:58]

And will you be selling anything else from that stall?

[Speaker 4] [3:58 → 4:07]

Oh yes, my husband's really good at woodwork. He spends most of his spare time on it, and I've finally persuaded him to start selling what he makes.

[Speaker 3] [4:08 → 4:11]

That's great. What sort of things does he make?

[Speaker 4] [4:11 → 4:16]

Mainly furniture, all beautifully crafted from locally sourced wood.

[Speaker 3] [4:16 → 4:23]

Excellent. We already have some people selling glassware and ceramics, so your stall will fit in really well.

[Speaker 4] [4:24 → 4:29]

Glad to hear that. Would it be possible for us to choose where our stall is located?

[Speaker 3] [4:29 → 4:46]

Yes, no problem. The market stretches quite away. One ends by the town centre, the other's down by the river. We'd prefer the river end. It'd be lovely to have the view while we're working. It really is a nice spot. Now, what size stall would you like?

[Speaker 4] [4:46 → 4:49]

I'm not sure. What's the standard size?

[Speaker 3] [4:49 → 4:54]

The standard is 3.6 ms wide by 5.4 ms long.

[Speaker 4] [4:54 → 4:57]

That might not be big enough.

[Speaker 3] [4:57 → 5:02]

That's fine. We also offer a larger one, seven point five ms long.

[Speaker 4] [5:02 → 5:06]

That sounds better. We'll take the bigger one. Brilliant,

[Speaker 3] [5:06 → 5:11]

I'll put that down. You did say you wanted more than one stall, didn't you?

[Speaker 4] [5:12 → 5:15]

Yes, that's right. We also run a small cafe in town.

[Speaker 3] [5:15 → 5:18]

So will the second stall be for coffee?

[Speaker 4] [5:19 → 5:24]

Actually, we specialise in tea. It's all organic, and already quite popular locally.

[Speaker 3] [5:25 → 5:33]

Sounds great. Just to let you know, if you're serving food or drinks, you'll need a food licence it's one of the market rules.

[Speaker 4] [5:33 → 5:35]

No problem, we've already got one.

[Speaker 3] [5:36 → 5:39]

Excellent. And will you be selling anything else?

[Speaker 4] [5:39 → 5:47]

Probably. We've recently started making our own brand of chocolate, so we'll bring along a few varieties to see how they go.

[Speaker 3] [5:47 → 5:51]

Brilliant idea. Where would you like this stall to be?

[Speaker 4] [5:51 → 5:55]

Near the entrance, if possible. It should get the most footfall.

[Speaker 3] [5:55 → 6:01]

That's a really popular spot, but I'll see what I can do. Any other requirements?

[Speaker 4] [6:01 → 6:08]

Yes, we'll need a stall with electricity for our equipment. And we'll bring our own chairs, if that's Okay.

[Speaker 3] [6:08 → 6:20]

Absolutely fine. Now, let's move on to That is the end of Part one. You now have one minute to check your answers to Part one.

PART 2

[Speaker 1] [0:01 → 0:17]

Part two You will hear the organiser of an international event giving some information about it on a local radio programme. First, you have some time to look at questions 11 to 16.

[Speaker 1] [0:57 → 1:01]

Now listen carefully and answer questions 11 to 16.

[Speaker 2] [1:03 → 1:23]

Hello everyone. Next week sees the return of our Town's annual International Week, an event that's been running for several years now. I'm delighted to be joined today by the organizer of this much loved celebration, Lowell Moran. Lowell, could you tell us how it all began?

[Speaker 1] [1:23 → 2:19]

Thanks for having me. I'm really pleased to be here. Well, it all started five years ago on a cold February day. I was chatting with a few local business people about what we could do to brighten up August when the weather's decent and the children are off school until September. Someone suggested that, given how diverse our community is, we ought to hold an international event to celebrate it. The original idea was simply to invite people to share aspects of their home countries, and we all thought it was brilliant. The very first celebration was just a one day affair, featuring three countries, but it went down a storm. One of the town's biggest newspapers even covered it. The response was incredible. Loads of people wanted to get involved. So the following year, despite the higher costs, we stretched it to a full week. That's quite a progression.

[Speaker 2] [2:19 → 2:22]

So what form does the event take these days?

[Speaker 1] [2:23 → 4:02]

These days, the first six days each spotlight a different country, and then on the final day, weather permitting, we throw a street party near the town hall. There's live music from the local radio station, all sorts of food, and plenty of games. If it rains as it did last year, we simply move everything to the school gym. That worked perfectly well. Everyone still had a great time. Preparations kick off in January, when applications open for groups keen to host a themed day for their country. People don't need to belong to an official cultural group. Anyone who identifies with the country can send in a proper plan. The committee chooses the most creative ideas. Funding isn't a big issue at that stage. Because we do have access to grants, we also arrange a space for each group to run their activities. Sadly, we can't use the town stadium for the larger outdoor events this year, as it's already booked, but the community centre very kindly lets us use its open air car park instead. Local businesses have been hugely supportive as well. Lots of traders lend us things like tables and amplifiers free of charge for the week, and the committee deals with all the administration. The town library also makes a contribution by putting on displays of books linked to the countries we're featuring. It gives the whole celebration an extra educational angle. Before you hear the rest of the programme, you have some time to look at questions seventeen-twenty.

[Speaker 1] [4:19 → 4:24]

Now listen and answer questions seventeen-twenty.

[Speaker 2] [4:27 → 4:33]

Lowell, could you tell us what forms these cultural activities usually take during the themed days?

[Speaker 1] [4:33 → 4:49]

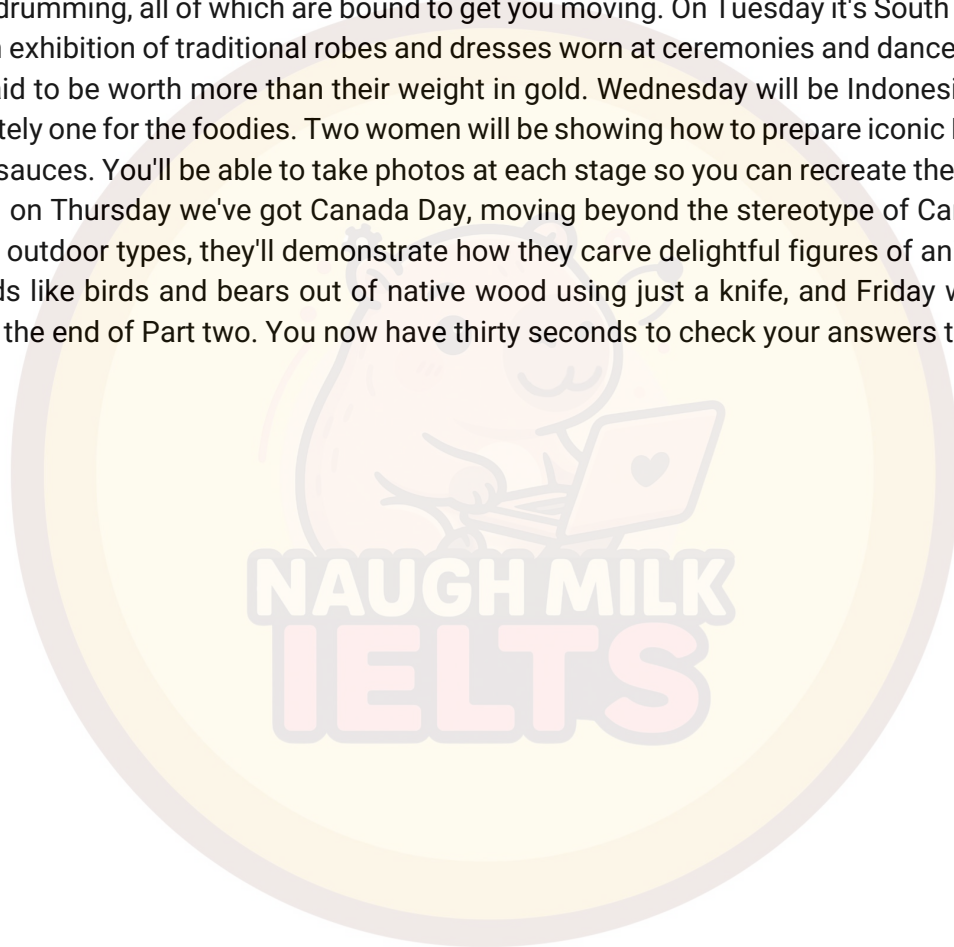

Each country's themed day usually includes something special, maybe a performance, an exhibition, or a demonstration. For example, people might show how to make traditional crafts or put on a photography exhibition of famous landmarks.

[Speaker 2] [4:49 → 4:54]

That sounds fantastic. Can you give us a sneak preview of this year's highlights?

[Speaker 1] [4:54 → 6:08]

We've got some brilliant events lined up. Monday is Mexico Day, and the group are preparing a show that promises to be as fiery as their famous chili peppers. Expect plenty of singing, playing songs, and drumming, all of which are bound to get you moving. On Tuesday it's South Africa Day, featuring an exhibition of traditional robes and dresses worn at ceremonies and dances. Some of them are said to be worth more than their weight in gold. Wednesday will be Indonesia Day, and that's definitely one for the foodies. Two women will be showing how to prepare iconic Indonesian dishes and sauces. You'll be able to take photos at each stage so you can recreate them easily at home. Then on Thursday we've got Canada Day, moving beyond the stereotype of Canadians as only rugged outdoor types, they'll demonstrate how they carve delightful figures of animals from local legends like birds and bears out of native wood using just a knife, and Friday will be Italy day. That is the end of Part two. You now have thirty seconds to check your answers to Part two.

PART 3

[Speaker 1] [0:01 → 0:18]

Part three You will hear a university student called Jonathan discussing his presentation on mosquito nets with his tutor Doctor Harper. First, you have some time to look at questions 20 one-twenty five.

[Speaker 1] [0:49 → 0:54]

Now listen carefully, and answer questions 20 one-twenty five.

[Speaker 2] [0:56 → 1:01]

Good morning Jonathan, come in. You emailed me about your presentation.

[Speaker 1] [1:01 → 1:09]

What's the topic again? Yes, Doctor Harper, it's for the product development course, but I'm a bit stuck.

[Speaker 2] [1:09 → 1:13]

Don't worry, have you narrowed it down to a particular product?

[Speaker 1] [1:13 → 1:16]

I've decided to focus on a type of mosquito net.

[Speaker 2] [1:17 → 1:19]

Really? What made you pick that?

[Speaker 1] [1:19 → 1:42]

Well, last summer I travelled across Africa with a friend who's studying medicine. We dropped by a medical centre in a region badly affected by malaria. While my friend was talking to a doctor, I got chatting with one of the administrators, and I discovered they've seen far fewer cases of malaria since these nets became widely available. That really grabbed my attention.

[Speaker 2] [1:43 → 1:50]

Fascinating! But mosquito nets aren't new, are they? I seem to remember they've been used in Japan for centuries.

[Speaker 1] [1:51 → 2:29]

That's right. In fact, legend has it Cleopatra used one in ancient Egypt, so that might be the earliest record. Later, they were also used in India, though it's possible they were invented there independently. At first, they were made from silk, then cotton, and nowadays they're usually synthetic fibres. The real breakthrough came in the mid-twentieth century when insecticide treated nets were developed for the military. The chemical they used back then was DDT, but it turned out to be harmful to people as well as mosquitoes.

[Speaker 2] [2:29 → 2:32]

And is that still a problem with modern nets?

[Speaker 1] [2:33 → 2:47]

Not at all. Thanks to new technology, the chemicals used today are completely safe for humans, even with daily use. They're also odourless the only drawback is that people have to spray the nets regularly.

[Speaker 2] [2:47 → 2:57]

Which must be tricky in remote areas, where supplies aren't easy to get hold of. Exactly. So, tell me more about the particular net you're looking at.

[Speaker 1] [2:58 → 3:16]

It's called 'OliSet', developed by a Japanese company. Unlike traditional nets, the insecticide is built into the fibres and released gradually rather than just sprayed on the surface. The overall amount of chemicals used isn't much different, though. I see.

[Speaker 2] [3:16 → 3:18]

So no need for constant re spraying.

[Speaker 1] [3:19 → 3:36]

Does it work against more mosquito species as well? That hasn't been fully proven yet, but what we do know is that oliSet nets are tougher and much less likely to tear they last at least five years, compared with one or two for most other nets.

[Speaker 2] [3:36 → 3:38]

That sounds very promising.

[Speaker 1] [3:40 → 3:47]

Before you hear the rest of the discussion, you have some time to look at questions 20 six-thirty.

[Speaker 1] [4:18 → 4:22]

Now listen and answer questions 26 to 30.

[Speaker 2] [4:24 → 4:28]

Now in your seminar, will you also set it in a wider context?

[Speaker 1] [4:29 → 4:38]

Yes, I'm planning to present it as a case study in product development. I'll begin with some background and explain why this innovation was necessary.

[Speaker 2] [4:39 → 4:39]

Such as?

[Speaker 1] [4:40 → 4:52]

I'll talk about vector borne diseases, especially malaria, and why there's such an urgent demand for new solutions. Some of the audience may not realise just how widespread the problem is.

[Speaker 2] [4:53 → 4:54]

That sounds sensible.

[Speaker 1] [4:54 → 5:03]

I've pulled together some statistics on global malaria cases each year. I want to show those the numbers are pretty shocking.

[Speaker 2] [5:03 → 5:15]

Quite right. Malaria is still one of the world's most serious health challenges. If you can also track down figures on the financial cost to affected countries, that would really strengthen your presentation.

[Speaker 1] [5:16 → 5:24]

Okay, I'll look into that. After that, I'll give a quick overview of the history of mosquito nets before introducing OLISSET.

[Speaker 2] [5:24 → 5:33]

Keep it short and clear. Bullet points on the key features and a simple comparison with older designs would work well. Right,

[Speaker 1] [5:33 → 5:47]

understood. Then I'll explain how OLISAT nets are made. That's fine. The project's funding mainly comes from government grants and private donors. Do you think I ought to mention that? Absolutely!

[Speaker 2] [5:47 → 5:58]

Funding is a key part of product development. It often determines whether a product is sustainable in the long run. By the way, do you know where the nets are manufactured? Yes,

[Speaker 1] [5:58 → 6:08]

over half are produced by a Tanzanian company called A to Z. They were able to buy specialised machinery with the help of an interest free loan.

[Speaker 2] [6:08 → 6:18]

Good. Try to include a short profile of the company: how many staff they've got, who the main people are in the project, that sort of thing, if you can find it.

[Speaker 1] [6:19 → 6:29]

Sure, I'll give that a go. One thing I'm uncertain about is the marketing strategy. I've gathered a lot of information, but I don't know if it fits.

[Speaker 2] [6:29 → 6:46]

I'd leave it out. You don't have time for everything, and you've already got plenty. But do make sure you include production figures. Did you check how many nets they make each year? Yes, I went through their website. It's over 30,000,000. Impressive!

[Speaker 1] [6:46 → 7:02]

I'm still not sure how to wrap it all up. Do you think it'd be appropriate to end with the product's future potential? That is the end of part three. You now have thirty seconds to check your answers to Part three.

PART 4

[Speaker 1] [0:01 → 0:12]

Part four. You will hear an anthropology lecturer talking about early migration to The Americas. First, you have some time to look at questions 31 to 40 on page six.

[Speaker 1] [0:32 → 0:36]

Now listen carefully and answer questions 31 to 40.

[Speaker 2] [0:37 → 5:30]

Scientists from several different disciplines anthropology, archaeology, and geology all agree that at some stage there was human migration from Asia to The Americas, but they disagree over when, how, or why these humans first came to The Americas. I'll run through some of the evidence briefly and try to explain the time frame, method, and reason for these migrations. For a long time, most scientists had accepted that the original route into The Americas was from Northern Asia to Alaska. In the Far North America, evidence suggests that humans arrived via a land bridge. This consisted of a dry grassland plain about 2,000 kilometers wide. They think this environment would have been similar to present day tundra, with long cool winters and perpetual winds, but crucially, no ice. Geologists estimate that the land bridge existed between seventy five thousand and fourteen thousand years ago. The theory is that these first humans were hunting animals, which they followed into what is now Alaska. Biological evidence as well as archaeological remains have been found which support this theory. For example, anthropologists have found a high incidence of similarly shaped teeth in people in Northern Asia and in North America. The archaeological evidence also indicates that from Alaska in North America, people began to travel far south. The problem is no one's sure yet what route people took or how humans would have been able to survive, because much of the land would have still been covered in glaciers, and it would have been very hard to find resources. The other problem with this theory was that the evidence from Alaska only dated back 13,000 years. This was in the form of weapons used for hunting. But evidence found at human settlements in other parts of The Americas dated further back than this. The most significant of these settlements is on Monte Verde site in Chile in South America. Evidence from the site includes biological remains which date back over 14,000 years, making Monte Verde the earliest known human settlement in The Americas. This meant the date of the arrival of humans in Alaska had to be revised backwards by about two thousand years. Some scientists also think that the first settlers moved down in haste from North To South America on the Pacific Side, and findings at Monte Verde would seem to support this view. Although no boats have been discovered yet to support this theory, we all know that earlier people in other parts of the world had made use of this technology. The site at Monte Verde was discovered in 1976, and excavations revealed a small settlement of 20 to 30 people living in a dozen huts along a small stream. Scientists were surprised to discover nine species of marine plants, including seaweed, material that the Monteverdeans must have brought from the sea, which is over 60 kilometers away. A variety of other items, including flat pebbles, were also found, which suggests the group had a tradition of exploring the sea. However, there are still a number of prominent archaeologists who don't accept that the first humans arrived via Alaska and have put forward a theory of transoceanic migration instead. They say that at this time, the climate in Alaska would have been too inhospitable for humans to survive in, and so the first people must

have arrived across the Pacific Ocean. Again, there's a lot of controversy surrounding this theory. Many scientists doubt that people at this time had the navigational expertise for such a long voyage. However, this idea does offer an alternative explanation as to how people were able to settle as far south as Monte Verde. People who support this theory believe that crossing the Pacific would have been possible because of a powerful current in the Pacific Ocean, which would have carried boats from Japan to America. Again, there's no real evidence to support this theory, but some archaeologists believe.

Câu 1: Farm

- Trích đoạn: "It's Sunrise **Farm**. We only changed it recently from Sunrise Estate..."
- Hướng dẫn: Người phụ nữ nói tên doanh nghiệp hiện tại của cô ấy là Sunrise Farm, đồng thời giải thích thêm là họ mới đổi tên từ Sunrise Estate để tránh gây nhầm lẫn.

Câu 2: 407551827

- Trích đoạn: "It's **407551827**." - "Is that your **mobile**?" - "Yes, that's right."
- Hướng dẫn: Người đàn ông hỏi xin số liên lạc, cô ấy đọc một dãy số. Sau đó, anh ta xác nhận lại xem đây có phải là số điện thoại di động (mobile) không và cô ấy đồng ý.

Câu 3: flowers

- Trích đoạn: "...for our first stall, we'd like to sell **flowers** instead. We'll pick them **fresh** each morning before coming."
- Hướng dẫn: Cô ấy nhận thấy chợ đã có nhiều quầy rau nên quyết định chọn bán hoa (flowers). Cô cũng nhấn mạnh rằng hoa sẽ được hái tươi (fresh) mỗi sáng. Audio có nhắc tới trái cây (fruit) nhưng hiện tại họ chỉ trồng để nhà dùng, chưa bán.

Câu 4: furniture

- Trích đoạn: "Mainly **furniture**, all beautifully crafted from locally sourced **wood**."
- Hướng dẫn: Khi được hỏi chồng cô ấy làm gì với đồ mộc (woodwork), cô trả lời chủ yếu là làm đồ nội thất (furniture) từ gỗ địa phương.

Câu 5: river

- Trích đoạn: "One ends by the town centre, the other's down by the **river**. We'd prefer the **river** end."
- Hướng dẫn: Chợ có hai đầu, một đầu gần trung tâm thị trấn và đầu kia gần sông. Người phụ nữ chọn vị trí ở phía cuối gần sông (river end) để có cảnh đẹp khi làm việc.

Câu 6: 7.5 / seven point five

- Trích đoạn: "We also offer a larger one, **seven point five** ms long." - "That sounds better. We'll take the **bigger** one."
- Hướng dẫn: Kích thước tiêu chuẩn ban đầu được nhắc đến là 3.6m x 5.4m, nhưng cô ấy chê nhỏ. Ban tổ chức đưa ra lựa chọn lớn hơn với chiều dài 7.5m, và cô đã chọn quầy lớn này.

Câu 7: tea

- Trích đoạn: "Actually, we specialise in **tea**. It's all **organic**..."

- Hướng dẫn: Người đàn ông đoán quầy thứ hai sẽ bán cà phê (coffee), nhưng cô ấy đúng chính lại là họ chuyên về trà (tea) và tất cả đều là hữu cơ (organic).

Câu 8: chocolate

- Trích đoạn: "We've recently started making our own brand of **chocolate**, so we'll bring along a few **varieties** to see how they go."
- Hướng dẫn: Ngoài trà, họ sẽ mang theo vài loại sô-cô-la (chocolate) do họ tự làm. Từ "varieties" (các loại) trong audio khớp với từ "diversity" (sự đa dạng) trong đề bài.

Câu 9: entrance

- Trích đoạn: "**Near the entrance**, if possible."
- Hướng dẫn: Khi được hỏi muốn đặt quầy thứ hai ở đâu, cô ấy yêu cầu vị trí gần lối vào (entrance) để thu hút lượng khách đi lại đông nhất.

Câu 10: electricity

- Trích đoạn: "Yes, we'll need a stall with **electricity** for our equipment."
- Hướng dẫn: Với yêu cầu đặc biệt cho quầy này, cô ấy nói cần một quầy có trang bị điện (electricity) để cắm các thiết bị của họ. (Audio có nhắc thêm ghế - chairs, nhưng là họ tự mang đi, không phải do chợ cung cấp).

Câu 11

- **Đáp án: B**
- **Hướng dẫn:** Cuộc trò chuyện diễn ra vào tháng 2, nhưng họ thống nhất chọn tháng 8 để tổ chức sự kiện vì thời tiết lúc đó đẹp và học sinh thì đang được nghỉ học cho tới tháng 9.
- **Trích đoạn:** "...started five years ago on a cold **February** day. I was chatting with a few local business people about what we could do to brighten up **August** when the **weather's decent and the children are off school** until September."

Câu 12

- **Đáp án: C**
- **Hướng dẫn:** Mặc dù báo chí có đưa tin (đáp án A) nhưng đó không phải nguyên nhân. Nguyên nhân chính khiến sự kiện kéo dài thành một tuần là do có quá nhiều người muốn tham gia ("Loads of people wanted to get involved" = "more people wanted to take part"). Chi phí thực tế bị đội lên (higher costs) chứ không hề được kiểm soát (đáp án B sai).
- **Trích đoạn:** "...One of the town's biggest newspapers even covered it. The response was incredible. **Loads of people wanted to get involved**. So the following year, despite the higher costs, we **stretched it to a full week**."

Câu 13

- **Đáp án:** A
- **Hướng dẫn:** Bình thường tiệc diễn ra trên phố gần tòa thị chính (town hall), nhưng nếu trời mưa giống như năm ngoái, họ sẽ dời mọi thứ vào nhà thể chất của trường học (school gym).
- **Trích đoạn:** "...If it rains as it did last year, we simply move everything to the **school gym**."

Câu 14

- **Đáp án:** A
- **Hướng dẫn:** Người tham gia không bắt buộc phải thuộc một tổ chức văn hóa chính thức nào. Bất kỳ ai cũng có thể tham gia miễn là gửi đến một kế hoạch bài bản/chỉn chu ("send in a proper plan" tương đương với "submit a detailed proposal").
- **Trích đoạn:** "People **don't need to belong to an official cultural group**. Anyone who identifies with the country can **send in a proper plan**."

Câu 15

- **Đáp án:** C
- **Hướng dẫn:** Sân vận động của thị trấn (town stadium) năm nay đã bị đặt kín chỗ, nên thay vào đó, họ mượn bãi đỗ xe ngoài trời của trung tâm cộng đồng (community centre car park).
- **Trích đoạn:** "...Sadly, we **can't use the town stadium** for the larger outdoor events this year... but the **community centre** very kindly lets us use its **open air car park** instead."

Câu 16

- **Đáp án:** B
- **Hướng dẫn:** Các doanh nghiệp địa phương hỗ trợ bằng cách cho mượn miễn phí bàn ghế và amply (chính là furniture and equipment). Các việc quản lý hành chính (administration) là do ủy ban lo, còn việc cung cấp sách là của thư viện.
- **Trích đoạn:** "**Local businesses** have been hugely supportive as well. Lots of traders **lend us things like tables and amplifiers** free of charge for the week..."

Câu 17

- **Đáp án:** A
- **Hướng dẫn:** Nhắc đến Mexico Day, người nói đề cập đến việc ca hát, chơi nhạc và đánh trống. Đây đều là các hoạt động thuộc về chủ đề Âm nhạc (music).
- **Trích đoạn:** "Monday is **Mexico Day**... Expect plenty of **singing, playing songs, and drumming**..."

Câu 18

- **Đáp án:** F
- **Hướng dẫn:** Trong ngày của Nam Phi, điểm nhấn là buổi triển lãm các loại áo choàng và váy truyền thống. Từ khóa này hướng thẳng đến chủ đề Trang phục (costume).
- **Trích đoạn:** "On Tuesday it's **South Africa Day**, featuring an exhibition of **traditional robes and dresses** worn at ceremonies..."

Câu 19

- **Đáp án:** E
- **Hướng dẫn:** Ngày của Indonesia được thiết kế dành cho những tâm hồn ăn uống (foodies), với hoạt động trình diễn cách chuẩn bị các món ăn và nước sốt đặc trưng (tương đương với chủ đề Nấu nướng - cookery).
- **Trích đoạn:** "Wednesday will be **Indonesia Day**, and that's definitely one for the **foodies**. Two women will be showing how to **prepare iconic Indonesian dishes and sauces**."

Câu 20

- **Đáp án:** C
- **Hướng dẫn:** Trong ngày của Canada, họ sẽ trình diễn cách tạc/điêu khắc các hình khối động vật từ gỗ bản địa chỉ bằng một con dao. Đây chính là nghệ thuật Điêu khắc gỗ (wood carving).
- **Trích đoạn:** "Then on Thursday we've got **Canada Day**... they'll demonstrate how they **carve delightful figures of animals... out of native wood** using just a knife."

Câu 21: A

- **Trích đoạn:** "While my friend was talking to a doctor, I got chatting with one of the **administrators**..."
- **Hướng dẫn:** Jonathan kể rằng trong khi bạn anh ấy nói chuyện với bác sĩ (bác bỏ đáp án B), anh ấy đã trò chuyện với một nhân viên quản lý/hành chính (administrator) tại trung tâm y tế. Điều này khớp với việc tình cờ trò chuyện với nhân viên văn phòng tại phòng khám ("casual chat with an office worker at a clinic").

Câu 22: C

- **Trích đoạn:** "In fact, legend has it Cleopatra used one in **ancient Egypt**, so that might be the **earliest record**."
- **Hướng dẫn:** Dù Nhật Bản và Ấn Độ cũng được nhắc đến, nhưng Jonathan xác nhận ghi chép sớm nhất (earliest record) về việc sử dụng màn chống muỗi là từ thời Nữ hoàng Cleopatra ở Ai Cập cổ đại (ancient Egypt).

Câu 23: B

- **Trích đoạn:** "The chemical they used back then was DDT, but it turned out to be **harmful to people** as well as mosquitoes."
- **Hướng dẫn:** Màn tẩm thuốc diệt côn trùng vào giữa thế kỷ 20 được phát triển cho quân đội (không phải bởi một người lính - bác bỏ A). Vấn đề là hóa chất này gây hại cho con người ("harmful to people"), tương ứng với việc tạo ra rủi ro sức khỏe ("created health risks for humans").

Câu 24: C

- **Trích đoạn:** "...the only drawback is that people have to spray the nets regularly." | Dr Harper: "Which must be tricky in remote areas, where **supplies aren't easy to get hold of**."
- **Hướng dẫn:** Hóa chất hiện đại an toàn và không mùi (bác bỏ A và B). Thử thách duy nhất là phải xịt lại màn thường xuyên, việc này rất khó ở vùng hẻo lánh vì nguồn cung cấp không dễ lấy ("supplies aren't easy to get hold of"). Tương ứng với việc khó kiếm hóa chất ("chemicals are not always easy to obtain").

Câu 25: A

- **Trích đoạn:** "...what we do know is that olyset nets are tougher and much less likely to tear they **last at least five years**, compared with one or two for most other nets."
- **Hướng dẫn:** Lượng hóa chất không khác biệt và chưa có chứng minh diệt được nhiều loại muỗi hơn (bác bỏ B và C). Điểm vượt trội của Olyset là độ bền, kéo dài ít nhất 5 năm so với 1-2 năm của màn thường. Tương ứng với việc sử dụng được lâu hơn rất nhiều ("remain serviceable for a much longer period").

Câu 26: G

- **Trích đoạn:** "If you can also track down figures on the **financial cost** to affected countries, that would really strengthen your presentation."
- **Hướng dẫn:** Trong phần "Key evidence", ngoài thống kê số ca bệnh, Giáo sư Harper khuyên nên tìm số liệu về "chi phí tài chính" (financial cost) đối với các quốc gia bị ảnh hưởng. Hậu quả về mặt tài chính tương ứng với "economic output" (sản lượng kinh tế / kinh tế nói chung).

Câu 27: D

- **Trích đoạn:** "Bullet points on the **key features** and a simple comparison with older designs would work well."
- **Hướng dẫn:** Trong phần giới thiệu về màn Olyset, Giáo sư khuyên nên đưa ra các gạch đầu dòng về "các tính năng chính" (key features). Từ này đồng nghĩa với "core functions" (các chức năng cốt lõi).

Câu 28: B

- **Trích đoạn:** "The project's **funding** mainly comes from government grants and private donors. ... Absolutely! **Funding** is a key part of product development."
- **Hướng dẫn:** Chuyển sang chi tiết sản xuất (Manufacturing details), Jonathan hỏi có nên nhắc đến nguồn tiền tài trợ từ chính phủ và tư nhân không, Giáo sư hoàn toàn đồng ý. "Funding" (tài trợ) khớp với "funding sources" (các nguồn tài trợ).

Câu 29: A

- **Trích đoạn:** "Try to include a short profile of the company: **how many staff they've got**, who the main people are in the project..."
- **Hướng dẫn:** Khi nhắc đến tổng quan về công ty sản xuất (company overview), Giáo sư khuyên nên đưa vào thông tin "họ có bao nhiêu nhân viên" (how many staff they've got). Số lượng nhân viên chính là "workforce composition" (thành phần lực lượng lao động).

Câu 30: F

- **Trích đoạn:** "But do make sure you include **production figures**. Did you check **how many nets they make** each year? ... It's over 30,000,000."
- **Hướng dẫn:** Ý cuối cùng được Giáo sư nhấn mạnh cần đưa vào từ số liệu chính thức là "production figures" / mỗi năm họ làm ra bao nhiêu chiếc màn. Điều này hoàn toàn khớp với "production volume" (khối lượng sản lượng).

Câu 31: ice

- **Trích đoạn:** "...with long cool winters and perpetual winds, but crucially, **no ice**."
- **Hướng dẫn:** Đề bài ghi "free from" (không có). Trong audio, người nói dùng từ "no" (không). Vậy thứ không có ở đây là "ice" (băng).

Câu 32: animals

- **Trích đoạn:** "The theory is that these first humans were hunting **animals**, which they **followed** into what is now Alaska."
- **Hướng dẫn:** Đề bài nói nhóm người đầu tiên đã đi theo ("followed") cái gì đó đến Alaska. Audio chỉ ra họ đang săn động vật và đã đi theo những con vật này ("followed"). Từ cần điền là "animals".

Câu 33: teeth

- **Trích đoạn:** "...anthropologists have found a high incidence of **similarly shaped teeth** in people in Northern Asia and in North America."
- **Hướng dẫn:** Đề bài yêu cầu tìm thứ có hình dạng giống nhau ("similar shaped"). Audio nhắc y hệt cụm "similarly shaped" và ngay sau đó là "teeth" (răng).

Câu 34: resources

- **Trích đoạn:** "...much of the land would have still been covered in glaciers, and it would have been **very hard to find resources**."
- **Hướng dẫn:** Cụm "difficult to find" trong câu hỏi tương đương với "very hard to find" trong bài nghe. Thứ khó tìm thấy dưới lớp sông băng là "resources" (tài nguyên).

Câu 35: weapons

- **Trích đoạn:** "This was **in the form of weapons** used **for hunting**."
- **Hướng dẫn:** Câu này khá dễ vì audio đọc gần như y hệt câu hỏi với các từ khóa "in the form of" và "for hunting". Cụm từ cần điền nằm ở giữa là "weapons" (vũ khí).

Câu 36: boats

- **Trích đoạn:** "Although **no boats** have been **discovered** yet to support this theory..."
- **Hướng dẫn:** Đề bài viết "no... have been found" (không có... được tìm thấy). Audio dùng từ đồng nghĩa "discovered" thay cho "found". Thứ chưa được tìm thấy là "boats" (thuyền).

Câu 37: plants

- **Trích đoạn:** "Scientists were surprised to discover nine species of **marine plants, including seaweed**..."
- **Hướng dẫn:** Đề bài nhắc đến nhiều loại ở dưới biển ("a variety of... in the sea") như rong biển ("such as seaweed"). Audio nhắc đến các loài thực vật biển ("marine plants"), với "marine" tương đương "in the sea", "including" tương đương "such as". Vì giới hạn ONE WORD ONLY, đáp án chỉ điền "plants".

Câu 38: climate

- **Trích đoạn:** "They say that at this time, the **climate** in Alaska would have been **too inhospitable** for humans to survive in..."
- **Hướng dẫn:** Đề bài có cụm "too bad" (quá khắc nghiệt/tồi tệ). Trong audio, diễn giả dùng từ mang nghĩa mạnh hơn là "too inhospitable" (quá khắc nghiệt) để mô tả khí hậu. Vậy từ cần điền là "climate".

Câu 39: navigational

- **Trích đoạn:** "Many scientists doubt that people at this time had the **navigational expertise** for such a long voyage."
- **Hướng dẫn:** Đề bài ghi "skills" (kỹ năng), tương đương với từ "expertise" (chuyên môn) trong audio. Từ bổ nghĩa đứng trước nó mô tả loại kỹ năng là "navigational" (thuộc về điều hướng/định vị). Lưu ý: điền "navigation" vẫn thường được chấp nhận, nhưng "navigational" là chính xác nhất theo audio.

Câu 40: current

- **Trích đoạn:** "...because of a **powerful current** in the Pacific Ocean..."
- **Hướng dẫn:** Đề bài dùng từ "strong" (mạnh mẽ), trong khi audio dùng từ đồng nghĩa là "powerful". Từ cần điền ngay sau đó là "current" (dòng hải lưu).

ĐÁP ÁN TEST 4

Part 1: Customer complaint form product return	Part 2: A Visitor's Guide to Gisborne	Part 3: The Painter David Cox	Part 4: St Ninian's Isle
1 Ruddick	11 C	21 B	31 bay
2 Garden Avenue	12 B	22 A	32 birds (hoặc seabirds)

NAUGH MILK
IELTS

TRANSCRIPT TEST 4
PART 1

[Speaker 1] [0:00 → 0:05]

The audio and test copyright belong to the Naugh Milk IELTS website.

[Speaker 2] [0:05 → 0:47]

IELTS listening. You will hear a number of different recordings, and you will have to answer questions on what you hear. There will be time for you to read the instructions and questions, and you will have a chance to check your work. All the recordings will be played once only. The test is in four parts. Write all your answers in the listening question booklet. At the end of the test, you will be given ten minutes to transfer your answers to an answer sheet. Now turn to part one on page two of your question booklet.

[Speaker 3] [0:48 → 1:01]

Part one. You will hear a conversation between a customer and a sales assistant in a shop. First, you have some time to look at questions one to five.

[Speaker 3] [1:26 → 1:31]

Now listen carefully and answer questions one to five.

[Speaker 5] [1:34 → 1:44]

Good morning, madam. Can I help you? Yes. Hello. I have a complaint to make about this vacuum cleaner. I'm wanting to return it, please. Oh, dear. I'm sorry to hear that.

[Speaker 4] [1:45 → 1:47]

Well, could I take down your details first?

[Speaker 5] [1:47 → 1:54]

Your name, please. It's Diane Ruddick. That's r u, d d, l c k.

[Speaker 4] [1:54 → 2:13]

Fine. Thanks. And your address? It's 34 Garden Avenue. I haven't heard of that one. That's here in Hamilton, is it? Yes. It is. It's just a small street. Right. And what number can I reach you on? That would be 970-7520,

[Speaker 5] [2:13 → 2:25]

and that's home because my mobile is not working at the moment. And at the office, I share a phone line, so it's better not to call me at work. Okay then. And now a few details about the product itself.

[Speaker 4] [2:26 → 2:28]

When did you buy it? Do you remember?

[Speaker 5] [2:28 → 2:39]

Yes. It says on the receipt hang on. I need my glasses to read it. Does that say the July 21? Oh, no. Sorry. It's the thirty first. Mhmm.

[Speaker 4] [2:39 → 2:47]

And I see you've got the vacuum with you. It looks like a Volta budget model. What's the size of the motor on that one?

[Speaker 5] [2:48 → 3:08]

It says 2,000 watts. Okay. And I can see that it's a nice bright red, so I'll just write that down. Yes. I like the color. And I got it for an excellent price too, Only a \$104 on sale, which was good considering that I'd nearly bought one for a \$130 in another shop.

[Speaker 3] [3:11 → 3:17]

Before you hear the rest of the conversation, you have some time to look at questions six to 10.

[Speaker 3] [3:42 → 3:46]

Now listen and answer questions six to 10.

[Speaker 5] [3:50 → 4:08]

Okay. Well, that all sounds very good. So what seems to be the matter with it? Does it not clean your floor properly? No. It does. But it's definitely faulty because there's a problem with the handle. Do you see? It's permanently stuck in this upright position. It won't fall back down into place as it should. Okay.

[Speaker 4] [4:08 → 4:16]

Well, that's annoying for you. There are a couple of possible solutions. One thing we could do is I could keep it here for now

[Speaker 5] [4:16 → 4:22]

and offer you a repair at no charge. No. Thanks. I think I'd like to exchange it for a better model.

[Speaker 4] [4:23 → 4:46]

Right. You'll have to stick with the Volta brand as that's all we stock. But if you like, I can show you the other options, and we can find the one that suits you best. Now would you want any special features? Some of them come with a dust bag which can be used again and again. That sounds like it would be useful. Now I'd better check the cost is alright for you, ma'am, as there will be a difference to pay.

[Speaker 5] [4:46 → 4:56]

Do you see this price label here? Yes. That'll be alright. My range was always from about 1 to \$200 maximum, so a 180 would be fine.

[Speaker 4] [4:57 → 5:06]

Well, it looks as though we've found you a better appliance. Now do you have a preference as to color? The Volta Ultima comes in three colorways.

[Speaker 5] [5:06 → 5:22]

As you can see, the sky blue is pretty. Yes. It looks good in that color, but I think I'll take the silver one, please. Although I do love that shade of purple. Right. We don't actually have one in stock, but they're coming in on Tuesday.

[Speaker 4] [5:22 → 5:25]

Would you like to come in and collect it then? No. I'd

[Speaker 3] [5:28 → 5:34]

That is the end of part one. You now have one minute to check your answers to part one.

PART 2

[Speaker 1] [0:00 → 0:04]

Now turn to section two on page three.

[Speaker 1] [0:09 → 0:26]

Section two. You will hear a radio announcer describing a city in New Zealand called Gisborne. First, you have some time to look at questions 11 to 16 on page three.

[Speaker 1] [0:56 → 1:01]

Now listen carefully and answer questions 11 to 16.

[Speaker 2] [1:04 → 4:33]

Greetings all you listeners out there. This is National Radio, and I'm Kevin Lai. This morning I'm going to tell you what's so special about the laid back city of Gisborne. You'll hear a little bit about its past in the old days, and a lot about what attractions it has to offer foreign and domestic visitors today. So listen up to learn more about what there is to do in this city and its surrounding region, where the economy is booming but the lifestyle remains unspoiled. The Gisborne region is where the legendary canoe sailed by Maori explorers first landed in New Zealand about fourteen hundred years ago, after its long and risky voyage over the sea. It is also the easternmost point of the country, which is what inspired its original name, Te Tarahiti, which in the Maori language means the coast where the sun rises across the waters. Gisborne was also the place where the European explorer Captain Cook first landed his boat upon discovering New Zealand, all the way from England back in 1769. Even in those early days, this district was a centre of horticulture, thanks to its fertile soil and subtropical climate. Soon after that, of course, the English settlers arrived, and soon Gisborne was shipping its products to larger settlements, such as Auckland and Wellington. This began with maize and root crops, but quickly expanded to butter, meat and wool from the agricultural settlements in the rich pastoral country near the famous Poverty Bay. Wharves and jetties were built beside the sea to service the coastal traders. Many of these wooden structures can still be seen on Gisborne beaches today. Today, Gisborne continues to export fresh produce to other regions of New Zealand. These wares include various award winning cheeses, and of course the delicious lobsters and snapper fish harvested by hand from the local reefs and waters. As for exports to Asian markets, there's an increasing demand for the region's oranges and lemons. Gisborne is also becoming well known nationally and internationally as the source of some top quality white and red grapes. Now, what's on in Gisborne? Well, first up, there's the annual Gisborne concert held every summertime. This is a great experience it's held at Waiahikia Vineyard, which is near the traditional Maori meeting house, or marae of the same name. They bring in a piano player and opera singers who perform on a purpose built stage in a kind of natural amphitheatre, in the middle of the rows of grapes. It's a fantastic concert like atmosphere, a really good night out. What to do on a rainy day? I'd suggest a visit to the show called The Beach, which is on in Gallery 1 at Tarahiti Museum. It's a big display, so it also takes up the hall next to Gallery 1, and it's divided into different sections of the local culture, like surfing, camping, fashion, and so on. If you buy the book of the exhibition, there are some interesting photographs in there.

[Speaker 1] [4:37 → 4:45]

Before you hear the rest of the program, you have some time to look at questions 17 to 20 on page four.

[Speaker 1] [5:16 → 5:21]

Now listen and answer questions 17 to 20.

[Speaker 2] [5:24 → 7:04]

There's a lot else to see in Gisborne as well. You shouldn't miss the Hot Springs Reserve, which has warm natural mineral pools and little houses where you can stay amongst the bush. Being very secluded and private, this resort is most favoured by newlyweds, who often book a cabin for their honeymoon. The water is very therapeutic too it's apparently good for your health to bathe there, though not recommended for pregnant women or the elderly. Around the corner is Mahia Peninsula, legendary as a New Year's Eve party destination for large crowds of university students after their graduation. The surfing and fishing here is excellent, and it's a safe spot for swimming and diving too. Now, also good for kids is taking a raft or jet boat ride on the Motu River. This sounds quite wild, doesn't it? But in fact, this activity is often used by local primary schools who take big groups of young children, several classes at a time, out here for a bit of fun while they're on their school camp. No parents required. You can have some time out, as this activity is a lot safer than it sounds, and is carefully supervised by the rafting company. Finally, don't let's forget the Eden Woodlands Park, which is really a huge tree nursery. You can walk for hours here in the peaceful green surroundings, along a variety of tracks. There's even a very nice walkway made wide enough for those in wheelchairs so that everyone can go along and enjoy mother nature at her best.

[Speaker 1] [7:08 → 7:13]

That is the end of section two. You now have half a minute to check your answers.

PART 3

[Speaker 1] [0:00 → 0:12]

Part three. You will hear two students, Lily and Jack, discussing the painter David Cox for a presentation they are preparing. First, you have some time to look at questions 21 to 25.

[Speaker 1] [0:45 → 0:49]

Now listen carefully and answer questions 21 to 25.

[Speaker 2] [0:51 → 0:59]

Right Jack, let's get started on this presentation about David Cox. I think if we divide the research, it will be much more efficient.

[Speaker 3] [0:59 → 1:10]

No problem, Lily. Yeah, we should get our notes in order. I found quite a bit, but some of the details are a bit fuzzy. Let's start from the beginning, with his early career.

[Speaker 2] [1:11 → 1:21]

Right. So initially, he was working for a theater company in London. I was reading that he left that job. The reason seems a bit unclear.

[Speaker 3] [1:22 → 1:32]

Well, I read that he initially took the job because it involved traveling around with the company, which he apparently enjoyed. So it wasn't the traveling he disliked.

[Speaker 2] [1:33 → 2:00]

And I didn't see anything that suggested he felt it was beneath him as a serious artist. The text I found implied the main issue was with the people he worked with. It said he had some personal disagreements with the other scene painters. Ah, yes, I remember that. Exactly. Now later on, took a teaching job in Hereford. I wonder why he accepted that. He was already an established painter in London.

[Speaker 3] [2:01 → 2:42]

Hereford was in a beautiful part of the country, but I don't think he had a prior connection to it. And while there were other artists there, I didn't get the sense that was the reason. But the book mentioned he had a young family to support, and a teaching position offered a steady income, which was probably very appealing. That makes sense. Agreed. Let's move on to what the critics and biographers said about his work. The art historian Greg Smith made an interesting point. He suggested that some of Cox's finished oil paintings, even the final versions, retain the loose energetic quality of an initial sketch.

[Speaker 2] [2:43 → 2:50]

Right, even though they are complete works. He didn't say anything about Cox taking a long time for each painting.

[Speaker 3] [2:50 → 3:07]

Precisely. And then there's his biographer, Nathaniel Solly, who commented on Cox's technique. He highlighted that Cox would often paint landscapes after he returned to his studio rather than working directly at the scene.

[Speaker 2] [3:07 → 3:14]

Yes, that was a key technique for him. It wasn't about combining materials or using a single dramatic color.

[Speaker 3] [3:15 → 3:20]

Now what about the famous critic John Ruskin? His comments on Cox were a bit weird.

[Speaker 2] [3:21 → 3:30]

At one point, he praised Cox's ability to capture the truth of nature, but then in another review, he almost denied his later, more expressive style.

[Speaker 3] [3:31 → 3:36]

It's not that they are easy to misinterpret. They just don't seem consistent.

[Speaker 2] [3:36 → 3:37]

Definitely.

[Speaker 1] [3:39 → 3:50]

Before you hear the rest of the talk, you have some time to look at questions 26 to 30. Now listen and answer questions 26 to 30.

[Speaker 2] [3:51 → 3:59]

Okay. Finally, let's talk about the specific paintings we must include. What about bathers disturbed by a bull?

[Speaker 3] [3:59 → 4:08]

Oh, that one. It's quite funny, isn't it? The scene of people scrambling out of the water in a panic, it comes across as humorous.

[Speaker 2] [4:08 → 4:11]

I'd agree with that. And sun, wind, and rain?

[Speaker 3] [4:11 → 4:17]

That's the one that critics frequently related to a famous painting by Turner, rain, steam, and speed.

[Speaker 2] [4:18 → 4:23]

Yes. The composition and theme are very similar. And next, crossing the sands.

[Speaker 3] [4:23 → 4:32]

That's a classic Cox subject. He loved painting scenes of travelers on foot, and this one perfectly shows people making their way across the vast sands.

[Speaker 2] [4:33 → 4:41]

Yes. He captured a theme of humble human endeavor against the elements that he frequently returned to, and the girl in a pinafore.

[Speaker 3] [4:42 → 4:53]

That's an interesting one because it's a portrait, or at least a single figure study. Cox was primarily a landscape painter, so this is quite uncommon subject matter for him.

[Speaker 2] [4:54 → 4:59]

Right. It's rare in his work. Lastly, junction of the seven and the y.

[Speaker 3] [5:00 → 5:08]

Ah, that's a powerful one. The way he's captured the stormy sky and the light breaking through the clouds is incredible.

[Speaker 2] [5:08 → 5:13]

Absolutely. It's a fantastic work. Well, I think that covers everything we need.

[Speaker 3] [5:14 → 5:19]

Yes. This has been really helpful. Let's put the presentation together tomorrow.

[Speaker 2] [5:20 → 5:21]

Perfect. See you then.

[Speaker 1] [5:23 → 5:29]

That's the end of part three. You now have half a minute to check your answers to part three.

PART 4

[Speaker 1] [0:00 → 0:08]

Part four. First, you have some time to look at questions 31 to 40.

[Speaker 1] [0:43 → 4:58]

Today, I'm going to introduce a small island called Saint Ninian's Isle, which lies off the coast of the Shetland Islands in Northern Scotland. Although it is quite small, it has become extremely important for historians and archaeologists because of several fascinating discoveries made there. Let's begin with the physical landscape of the island. Along this part of Scotland's coastline, there are a number of narrow sea inlets cutting into the land. In the local Scottish dialect, people use a special word to describe this kind of coastal feature. The term *voe* is used locally, and it refers to what most English speakers would simply call a bay. Another interesting point about the island today is that it does not have a permanent population anymore. No one lives there throughout the year. However, the island is far from empty because it supports a wide variety of wildlife, particularly seabirds that nest along the cliffs and rocky shores. These animals are now the island's most common inhabitants, meaning the place is largely populated by birds. Moving on to the archaeological findings, researchers have carried out several excavations in the ruins of early religious buildings on the island. During these investigations, they uncovered many remains that were clearly human. Among the discoveries were numerous bones, which provided valuable evidence about the people who once lived and worshiped there. Perhaps the most famous discovery, however, was made not by a professional archaeologist but by a local schoolboy. While exploring the island, he came across a small wooden container buried in the ground. When it was open, researchers found that every object inside had been made from the same precious metal. All of the items were crafted from silver, which immediately suggested that the collection was extremely valuable. Now let's look more closely at the objects discovered inside the wooden box because these items tell us a great deal about the people who owned them. First of all, the fact that the objects were made of precious metal immediately suggested that the owner was not an ordinary individual. Items like these would have required considerable wealth, and therefore, archaeologists believe that the person who possessed them must have held a relatively high status within the local community. When researchers examined the contents of the box more carefully, they discovered a group of eating vessels. Researchers counted eight pieces of tableware in total, most of which were small bowls. Most were probably used for everyday meals, although one was noticeably larger and may have been intended for ceremonial purposes. Another particularly interesting item was a spoon with a decorated handle. At the end of the handle, craftsman had carved the image of an animal. The design clearly represented a dog, and the carving showed the animal's head, a decorative style that can still be seen in later metalwork traditions. In addition to the bowls and spoons, archaeologists identified another unusual object among the collection. It was a small metal implement whose exact purpose is still debated. However, based on its shape and design, experts believe it functioned as a small tool designed to remove shellfish from their shells while eating. For many years, researchers assumed that the collection of objects must have belonged to a church since the items were discovered close to the ruins of religious buildings. However, more recent interpretations suggest a different explanation. The style and variety of the objects indicate that they were probably part of a private

collection owned by a family rather than property belonging to the church itself. The final mystery concerns why the items were hidden in the first place. Archaeologists believe that the owners deliberately buried the box in order to protect their valuables. At that time, communities in the region sometimes faced raids or attacks, so it is likely that the people who hid the treasure believed they were in danger and hoped to return later to retrieve it. Unfortunately, it seems that they never came back, leaving the treasure to remain hidden for centuries until it was eventually rediscovered. That is the end of part four. You now have one minute to check your answers to part four.

Câu 1: Ruddick

- Trích đoạn: "It's Diane **Ruddick**. That's **r u, d d, l c k**."
- Hướng dẫn: Khách hàng đánh vần họ (surname) của mình. Bạn chỉ cần nghe và ghi lại chính xác từng chữ cái.

Câu 2: Garden Avenue

- Trích đoạn: "And your address? It's 34 **Garden Avenue**."
- Hướng dẫn: Người bán hàng hỏi địa chỉ, và khách hàng đọc rõ số nhà 34 nằm trên đường Garden Avenue. Giới hạn từ là "NO MORE THAN TWO WORDS" nên điền "Garden Avenue" là chính xác.

Câu 3: home

- Trích đoạn: "That would be 970-7520, and that's **home** because my mobile is not working at the moment."
- Hướng dẫn: Khách hàng cung cấp số điện thoại và giải thích thêm đây là số điện thoại bàn ở nhà (home), do điện thoại di động (mobile) hiện đang bị hỏng.

Câu 4: 31st July / 31 July

- Trích đoạn: "Does that say the July 21? Oh, no. Sorry. It's the **thirty first**."
- Hướng dẫn: Lúc đầu người phụ nữ nhìn nhầm là ngày 21 tháng 7 (July 21), nhưng ngay sau đó cô ấy đã đọc kỹ lại biên lai và đính chính lại là ngày 31 (thirty first).

Câu 5: 104

- Trích đoạn: "And I got it for an excellent price too, Only a **\$104** on sale..."
- Hướng dẫn: Audio có nhắc đến giá \$130 ở một cửa hàng khác, nhưng giá mua thực tế trong đợt giảm giá (on sale) của vị khách là \$104. Dấu \$ đã có sẵn trên đề bài nên bạn chỉ cần điền số.

Câu 6: handle

- Trích đoạn: "But it's definitely faulty because there's a problem with the **handle**."
- Hướng dẫn: Khách hàng phản ánh rằng máy hút bụi bị lỗi vì có vấn đề ở phần tay cầm (handle), cụ thể là nó bị kẹt ở vị trí thẳng đứng và không gập xuống được.

Câu 7: repair

- Trích đoạn: "...offer you a **repair** at no charge. No. Thanks. I think I'd like to exchange it..."
- Hướng dẫn: Giải pháp đầu tiên người bán hàng đưa ra là sửa chữa miễn phí ("at no charge" tương đương với "free"), nhưng khách hàng đã từ chối nhận ("No. Thanks") và yêu cầu được đổi máy khác.

Câu 8: dust bag

- Trích đoạn: "Some of them come with a **dust bag** which can be used again and again. That sounds like it would be useful."
- Hướng dẫn: Người bán hàng giới thiệu tính năng một số máy có túi lọc bụi (dust bag) có thể sử dụng đi sử dụng lại nhiều lần ("used again and again" đồng nghĩa với "reusable" trong đề). Khách hàng thấy tính năng này rất hữu ích.

Câu 9: 180

- Trích đoạn: "My range was always from about 1 to \$200 maximum, so a **180** would be fine."
- Hướng dẫn: Khách hàng nói ngân sách tối đa là \$200, và mức giá được báo là \$180 thì hoàn toàn nằm trong khả năng chi trả ("would be fine").

Câu 10: silver

- Trích đoạn: "...the sky blue is pretty. Yes. It looks good in that color, but I think I'll take the **silver** one, please."
- Hướng dẫn: Audio lừa một chút khi nhắc đến màu xanh lam (sky blue) và khách hàng cũng khen nó đẹp, sau đó nhắc thêm cả màu tím (purple). Tuy nhiên, lựa chọn cuối cùng mà cô ấy chốt mua là màu bạc (silver).

Câu 11

- **Đáp án: C**
- **Hướng dẫn:** Người nói cho biết sẽ giới thiệu một chút về quá khứ, và phần nhiều tập trung vào những điểm tham quan (attractions) hấp dẫn du khách trong và ngoài nước hiện nay. Điều này tương đương với chủ đề du lịch (tourism).
- **Trích đoạn:** "...You'll hear a little bit about its past in the old days, and a lot about **what attractions it has to offer foreign and domestic visitors today.**"

Câu 12

- **Đáp án: B**
- **Hướng dẫn:** Tên gọi ban đầu của vùng này trong tiếng Maori có nghĩa là "bờ biển nơi mặt trời mọc" (the coast where the sun rises), đồng nghĩa với bờ biển phía đông (east coast).
- **Trích đoạn:** "...which in the Maori language means **the coast where the sun rises** across the waters."

Câu 13

- **Đáp án: A**

- **Hướng dẫn:** Những mặt hàng xuất khẩu ban đầu bắt nguồn từ các khu định cư nông nghiệp (agricultural settlements) với các sản phẩm như ngô, hoa màu, bơ, thịt và len. Điều này tương ứng với các nông trại (farms).
- **Trích đoạn:** "This began with maize and root crops, but quickly expanded to butter, meat and wool from the **agricultural settlements**..."

Câu 14

- **Đáp án:** A
- **Hướng dẫn:** Audio chỉ rõ rằng đối với các thị trường châu Á, nhu cầu đang tăng lên đối với mặt hàng cam và chanh của vùng này. (Hải sản và nho cũng được nhắc đến nhưng để xuất đi nơi khác hoặc nói chung chung).
- **Trích đoạn:** "As for **exports to Asian markets**, there's an increasing demand for the region's **oranges and lemons**."

Câu 15

- **Đáp án:** B
- **Hướng dẫn:** Buổi hòa nhạc mùa hè được tổ chức tại vườn nho (vineyard) mang tên Waiahikia. Lựa chọn C (Maori meeting house) chỉ là một địa điểm nằm gần đó để làm mốc, chứ không phải nơi tổ chức.
- **Trích đoạn:** "...there's the annual Gisborne concert held every summertime... it's **held at Waiahikia Vineyard**, which is near the traditional Maori meeting house..."

Câu 16

- **Đáp án:** A
- **Hướng dẫn:** Vào những ngày trời mưa, người nói gợi ý nên đi xem buổi trưng bày về văn hóa địa phương (local culture) được tổ chức tại Bảo tàng (Museum).
- **Trích đoạn:** "What to do on a **rainy day**? I'd suggest a visit to the show... at **Tararua Museum**... and it's divided into different sections of the **local culture**..."

Câu 17

- **Đáp án:** C
- **Hướng dẫn:** Khu bảo tồn suối nước nóng được yêu thích nhất bởi các cặp đôi mới cưới (newlyweds) đi hưởng tuần trăng mật. Tương đương với nhóm "recently married couples". (Audio cũng có nhắc đến "pregnant women" và "elderly" nhưng là để khuyên KHÔNG nên tắm ở đây).
- **Trích đoạn:** "...this resort is most favoured by **newlyweds**, who often book a cabin for their **honeymoon**."

Câu 18

- **Đáp án:** G
- **Hướng dẫn:** Bán đảo Mahia là điểm đến tiệc tùng huyền thoại dành cho đám đông sinh viên đại học (university students) sau khi tốt nghiệp. Nhóm này tương ứng với thanh niên / người trẻ (young adults).
- **Trích đoạn:** "...legendary as a New Year's Eve party destination for large crowds of **university students** after their graduation."

Câu 19

- **Đáp án:** F
- **Hướng dẫn:** Hoạt động chèo thuyền trên sông Motu thường được các trường tiểu học (primary schools) sử dụng để đưa các nhóm trẻ em nhỏ (young children) đi dã ngoại. Tương ứng với nhóm học sinh nhỏ tuổi (young school children).
- **Trích đoạn:** "...this activity is often used by **local primary schools** who take big groups of **young children**..."

Câu 20

- **Đáp án:** A
- **Hướng dẫn:** Công viên Eden Woodlands có những lối đi được làm đủ rộng dành cho người ngồi xe lăn (wheelchairs). Nhóm này tương ứng với người khuyết tật (disabled people).
- **Trích đoạn:** "There's even a very nice walkway made wide enough for **those in wheelchairs** so that everyone can go along..."

Câu 21: B

- **Trích đoạn:** "The text I found implied the main issue was with the people he worked with. It said he had some **personal disagreements with the other scene painters**."
- **Hướng dẫn:** Lily khẳng định rằng Cox không ghét việc đi lại (bác bỏ A) và cũng không coi công việc đó là thấp kém (bác bỏ C). Lý do chính khiến ông nghỉ việc là do có những bất đồng cá nhân với những họa sĩ vẽ phong nền khác ("disagreements with the other scene painters"). Điều này khớp hoàn toàn với đáp án B (không hòa hợp với đồng nghiệp).

Câu 22: A

- **Trích đoạn:** "...he had a young family to support, and a teaching position offered a **steady income**, which was probably very appealing."
- **Hướng dẫn:** Jack cho rằng Cox không có kết nối gì với Hereford từ trước và cũng không chuyển đến đó vì các họa sĩ khác (bác bỏ B và C). Lý do thực sự là ông cần nuôi gia đình và công việc giảng dạy mang lại một "khoản thu nhập ổn định" (steady income). Điều này tương ứng với lý do tài chính (financial reasons).

Câu 23: C

- **Trích đoạn:** "He suggested that some of Cox's finished oil paintings, even the final versions, **retain the loose energetic quality of an initial sketch.**"
- **Hướng dẫn:** Nhà sử học nghệ thuật Greg Smith nhận xét rằng một số bức tranh sơn dầu dù đã hoàn thiện của Cox vẫn giữ lại chất lượng phóng khoáng, tràn đầy năng lượng của một "bản phác thảo ban đầu" (initial sketch). Không có thông tin nào nhắc đến việc ông mất nhiều thời gian để vẽ (bác bỏ B). Đáp án C (nhìn giống như những bản phác thảo nhanh) là chính xác.

Câu 24: B

- **Trích đoạn:** "He highlighted that Cox would often **paint landscapes after he returned to his studio** rather than working directly at the scene."
- **Hướng dẫn:** Người viết tiểu sử Nathaniel Solly nhấn mạnh kỹ thuật của Cox là thường vẽ phong cảnh *sau* khi ông đã trở về xưởng vẽ của mình, thay vì ngồi vẽ trực tiếp tại hiện trường. Việc ghi nhớ cảnh vật rồi mang về xưởng để vẽ lại chính là "painting something from memory" (vẽ từ trí nhớ).

Câu 25: C

- **Trích đoạn:** "At one point, he **praised** Cox's ability... but then in another review, he **almost denied** his later, more expressive style." | Jack: "...They just **don't seem consistent.**"
- **Hướng dẫn:** Nhận xét của nhà phê bình John Ruskin lúc thì khen ngợi (praised), lúc lại gần như phủ nhận (denied). Jack chốt lại rằng các nhận xét này không hề nhất quán với nhau ("don't seem consistent"), tức là chúng mâu thuẫn với nhau (contradicted each other).

Câu 26: A

- **Trích đoạn:** "The scene of people scrambling out of the water in a panic, it comes across as **humorous.**"
- **Hướng dẫn:** Bức tranh "Bathers Disturbed by a Bull" (Những người đang tắm bị làm phiền bởi một con bò tót) miêu tả cảnh mọi người hoảng hốt chạy toán loạn khỏi mặt nước. Jack nhận xét bức tranh này mang lại cảm giác hài hước ("humorous"). Điều này tương ứng với đáp án A (truyền tải sự hài hước).

Câu 27: G

- **Trích đoạn:** "That's the one that critics frequently **related to a famous painting by Turner...**"
- **Hướng dẫn:** Bức tranh "Sun, Wind and Rain" được các nhà phê bình thường xuyên liên hệ/so sánh với một bức tranh nổi tiếng của họa sĩ Turner. Tương ứng với đáp án G (thường được so sánh với một bức tranh nổi tiếng của một họa sĩ khác).

Câu 28: F

- **Trích đoạn:** "He loved painting scenes of **travelers on foot...**" | Lily: "Yes. He captured a **theme** of humble human endeavor... that he **frequently returned to...**"
- **Hướng dẫn:** Bức "Crossing the Sands" vẽ lại cảnh những người lữ hành đi bộ. Lily đồng tình rằng đây là một chủ đề/hoạt động của con người mà Cox "thường xuyên lặp lại" (frequently returned to). Khớp với đáp án F (bao gồm một hoạt động của con người thường được Cox vẽ).

Câu 29: D

- **Trích đoạn:** "...Cox was primarily a landscape painter, so this is quite **uncommon subject matter** for him."
- **Hướng dẫn:** Cox chủ yếu là một họa sĩ vẽ tranh phong cảnh, nên bức "Girl in a Pinafore" (vẽ chân dung một nhân vật) là một chủ đề khá bất thường/hiếm thấy ("uncommon subject matter" / "rare") đối với ông. Tương ứng với đáp án D (là chủ đề bất thường đối với Cox).

Câu 30: E

- **Trích đoạn:** "The way he's captured the **stormy sky** and the **light breaking through the clouds** is incredible."
- **Hướng dẫn:** Trong bức "Junction of the Severn and the Wye", Jack khen ngợi cách Cox nắm bắt được bầu trời giông bão và ánh sáng xuyên qua những đám mây. Đây đều là những yếu tố liên quan đến thời tiết, tương ứng với đáp án E (miêu tả điều kiện thời tiết một cách tuyệt vời).

Câu 31: bay

- **Trích đoạn:** "The term **voe** is used locally, and it refers to what most English speakers would simply call a **bay**."
- **Hướng dẫn:** Đề bài hỏi "voe" trong phương ngữ Scotland có nghĩa là gì. Audio giải thích rằng nó dùng để chỉ thứ mà những người nói tiếng Anh thông thường gọi là "bay" (vịnh).

Câu 32: birds

- **Trích đoạn:** "These animals are now the island's most common inhabitants, meaning the place is largely populated by **birds**." (Bạn điền **seabirds** cũng hoàn toàn chính xác).
- **Hướng dẫn:** Đề bài nói hòn đảo không còn người ở, và sinh vật sống duy nhất thường được thấy là gì. Audio nhắc đến "wildlife" (động vật hoang dã), đặc biệt là chim biển ("seabirds"), và chốt lại rằng nơi này chủ yếu được cư trú bởi các loài chim ("birds").

Câu 33: bones

- **Trích đoạn:** "Among the discoveries were numerous **bones**, which provided valuable evidence..."
- **Hướng dẫn:** Đề bài nhắc đến việc khai quật tìm thấy một lượng lớn ("a large number of") cái gì đó của con người ("human..."). Trong audio, người nói dùng từ "numerous" (rất nhiều), tương đương "a large number of". Từ cần điền là "bones" (xương).

Câu 34: silver

- **Trích đoạn:** "All of the items were crafted from **silver**, which immediately suggested that the collection was extremely valuable."
- **Hướng dẫn:** Đề bài cho biết các đồ vật được làm hoàn toàn từ một loại kim loại quý. Audio nói rằng tất cả các món đồ ("all of the items") được chế tác từ bạc ("silver") và bộ sưu tập này cực kỳ có giá trị ("extremely valuable").

Câu 35: status

- **Trích đoạn:** "...archaeologists believe that the person who possessed them must have held a relatively high **status** within the local community."
- **Hướng dẫn:** Đề bài viết chủ nhân chắc hẳn phải có một cái gì đó cao ("high social..."). Audio nói y hệt rằng người sở hữu chúng hẳn phải giữ một địa vị ("status") tương đối cao trong cộng đồng địa phương ("local community" = "social").

Câu 36: bowls

- **Trích đoạn:** "Researchers counted eight pieces of tableware in total, most of which were small **bowls**."
- **Hướng dẫn:** Đề bài ghi hộp chứa tám cái gì đó dùng cho nghi lễ và sinh hoạt ("eight ceremonial and domestic..."). Audio nhắc đến việc đếm được tổng cộng 8 món đồ ăn ("eight pieces of tableware"), hầu hết là những chiếc bát ("bowls"), dùng cho bữa ăn hàng ngày và một cái lớn hơn cho mục đích nghi lễ ("ceremonial purposes").

Câu 37: head

- **Trích đoạn:** "The design clearly represented a dog, and the carving showed the animal's **head**..."
- **Hướng dẫn:** Đề bài mô tả cán thìa có chạm khắc một con vật đại diện cho một con chó. Audio làm rõ chi tiết chạm khắc này thể hiện bộ phận nào của con vật: phần đầu ("head").

Câu 38: tool

- **Trích đoạn:** "...experts believe it functioned as a small **tool** designed to remove shellfish from their shells while eating."

- **Hướng dẫn:** Đề bài nhắc đến một vật nhỏ ("small...") có thể được dùng khi ăn động vật có vỏ ("eating shellfish"). Audio mô tả đây là một công cụ ("tool") nhỏ được thiết kế để lấy thịt động vật có vỏ ra khỏi vỏ của chúng.

Câu 39: family

- **Trích đoạn:** "...they were probably part of a private collection owned by a **family** rather than property belonging to the church itself."
- **Hướng dẫn:** Đề bài hỏi các chuyên gia tin rằng các đồ vật này thuộc về ai thay vì thuộc về nhà thờ. Audio giải thích chúng có khả năng là bộ sưu tập cá nhân thuộc sở hữu của một gia đình ("family"). Cụm "rather than property belonging to the church" lặp lại y hệt cấu trúc của đề bài.

Câu 40: danger

- **Trích đoạn:** "...it is likely that the people who hid the treasure believed they were in **danger** and hoped to return later to retrieve it."
- **Hướng dẫn:** Đề bài hỏi kho báu có lẽ đã được cất giấu vì chủ nhân tin rằng họ đang ở trong tình trạng gì. Cụm "in danger" (gặp nguy hiểm) xuất hiện rõ ràng trong bài nghe kèm theo động cơ hy vọng sau này sẽ quay lại lấy.

ĐÁP ÁN TEST 5

Part 1: Job Requirement Form	Part 2: Trip to Mungo National Park	Part 3: Work experience programme	Part 4: Public Monument Assignment
1 Lamerton	11 (a) holiday / to have a holiday	21 C	31 success
2 42 West Lane	12 (over) 40,000 years	22 C	32 social
3 11 June / 11th June / June 11 / 11th	13 Walls of China	23 C	33 plans
4 cook	14 A	24 B	34 influence
5 equipment	15 C	25 C	35 materials
6 food handling	16 B	26 E	36 skills
7 first aid	17 C	27 H	37 reason
8 (college) tutor	18 D	28 A	38 emotional
9 0208685114	19 A	29 B	39 environment
10 color blindness / colour blindness	20 E	30 F	40 analysis

NAUGH MILK
IELTS

TRANSCRIPT TEST 5
PART 1

[Speaker 1] [0:00 → 0:05]

The audio and test copyright belong to the Naugh Milk IELTS website.

[Speaker 2] [0:05 → 0:47]

IELTS listening. You will hear a number of different recordings, and you will have to answer questions on what you hear. There will be time for you to read the instructions and questions, and you will have a chance to check your work. All the recordings will be played once only. The test is in four parts. Write all your answers in the listening question booklet. At the end of the test, you will be given ten minutes to transfer your answers to an answer sheet. Now turn to part one on page two of your question booklet.

[Speaker 2] [0:52 → 0:53]

Part one.

[Speaker 3] [0:54 → 1:02]

You will hear a woman calling an animal park to inquire about a job. First, you have some time to look at questions one to five.

[Speaker 3] [1:36 → 1:48]

Now we shall begin. You should answer the questions as you listen because you will not hear the recording a second time. Listen carefully and answer questions one to five.

[Speaker 4] [1:50 → 1:52]

Benders Animal Park. Hello.

[Speaker 5] [1:52 → 1:58]

Oh, hello. I'm ringing to ask whether you have any jobs available. What

[Speaker 4] [1:58 → 2:01]

sort of work are you looking for? Is that permanent

[Speaker 5] [2:01 → 2:08]

or part time? Or Actually, I'm just looking for temporary work. I'm a student.

[Speaker 4] [2:08 → 2:21]

Oh, right. I'll just get a form and ask you a few questions. Then I'll pass your application on to our recruitment section. Is that okay? Fine. Thank you. So starting with your name.

[Speaker 5] [2:22 → 2:24]

It's Jane Lamberton.

[Speaker 4] [2:24 → 2:30]

Is that l a, m m, e r t o n?

[Speaker 5] [2:30 → 2:38]

There's only one m in it. Oh, right. And your address? It's 42 West Lane.

[Speaker 4] [2:38 → 2:46]

Right. And is that in Exeter? Yes. Okay. And can you give me your mobile phone number?

[Speaker 5] [2:47 → 2:53]

07792430921.

[Speaker 4] [2:54 → 2:59]

Right. Now the next thing is when are you available to start work?

[Speaker 5] [2:59 → 3:11]

I finished college on the June 8 that's in three weeks' time but I can't start work till the eleventh because I've got a hospital appointment on the June 10. Ah,

[Speaker 4] [3:12 → 3:28]

problem. Now I need to ask you a few questions about the type of job that might be suitable. Do you have any particular kind of work in mind? It doesn't necessarily mean that you will get work in the field that you want, but I can record your preferences.

[Speaker 5] [3:28 → 3:45]

Well, I'd do anything, and I have worked as an assistant animal keeper before when I was still at school. But I'm studying at a catering college now, and I'd really like to get some experience as an assistant cook if possible. Right.

[Speaker 4] [3:45 → 3:50]

So that's your first choice. Have you done that kind of job before? No.

[Speaker 5] [3:50 → 3:55]

But I've helped my aunt sometimes. She runs a cafe in Exeter.

[Speaker 4] [3:55 → 3:58]

Would you say you've got any relevant skills then?

[Speaker 5] [3:59 → 4:04]

Well, I'm used to using the kind of equipment you usually find in a kitchen.

[Speaker 3] [4:06 → 4:11]

Before you hear the rest of the conversation, you have some time to look at questions six to 10.

[Speaker 3] [4:31 → 4:35]

Now listen and answer questions six to 10.

[Speaker 4] [4:36 → 4:47]

Okay. And I know you're still studying, but do you already have any qualifications related to that kind of work? A hygiene qualification, for example?

[Speaker 5] [4:47 → 4:55]

I haven't, no, but I've got a certificate in food handling. I did it before I decided to become a full time student.

[Speaker 4] [4:55 → 5:26]

Fine. Okay. That means you wouldn't need any specific training if you did get the kind of work you wanted. But you'd have to do a short course on first aid. All our new employees do that. It just takes half a day, and most people find it generally useful. Oh, yes, I'm sure it is. Well, that's about it, really. Oh, just one last thing. Can you give me the name of someone who would give you a reference, like a previous employer?

[Speaker 5] [5:26 → 5:31]

Or Oh, yes. You can put doctor Ruth Price.

[Speaker 4] [5:31 → 5:34]

Okay. Is that one of your college lecturers?

[Speaker 5] [5:35 → 5:44]

She's my college tutor. She's known me for over two years, and I'm sure she wouldn't mind. In fact, she's given me a reference before. Fine.

[Speaker 4] [5:45 → 5:47]

We'd probably contact her by phone.

[Speaker 5] [5:47 → 6:00]

Do you happen to know her number? I've got it on my phone. Yes. It's 0208685114. That's a landline.

[Speaker 4] [6:01 → 6:13]

Good. Well, as I say, I can't promise anything, but I'll pass your application on, and you should hear in a few days. Is there anything else? Just one thing.

[Speaker 5] [6:14 → 6:21]

I suffer from a particular type of color blindness, and sometimes employers have to make special arrangements for that.

[Speaker 4] [6:22 → 6:33]

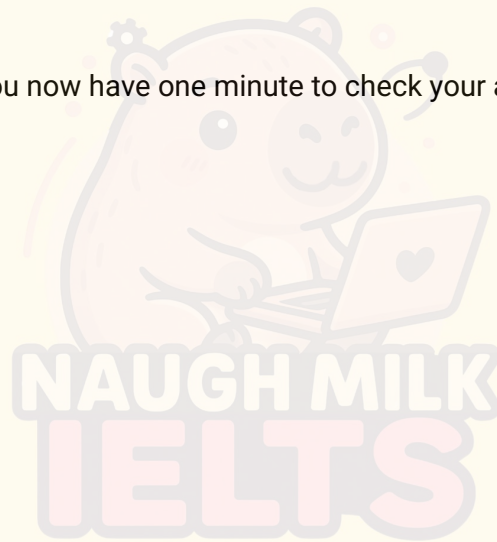

Okay. I'll make a note of that. It won't be a problem, but it's good that you've made us aware of it. You can provide us with more details if you're offered a job. Okay.

[Speaker 5] [6:33 → 6:35]

Thanks very much. Bye. Bye.

[Speaker 4] [6:40 → 6:48]

That is the end of part one. You now have one minute to check your answers to part one.

PART 2

[Speaker 1] [0:00 → 0:17]

Now turn to section two. Section two. You are going to hear an interviewer who is interviewing Alan. He made a great discovery of Mungo National Park. First look at questions 11 to 15.

[Speaker 1] [0:32 → 0:38]

As you listen to the first part of the interview, answer questions 11 to 15.

[Speaker 2] [0:40 → 1:01]

An event occurred in 1996 over a period of three days that attracted considerable attention at the time and led to a new find in Mungo National Park, which is the focal point of the Wollandera Lakes World Heritage Area in New South Wales, Australia. I talked to Alan Moore, the organizer of this trip, about his experience.

[Speaker 3] [1:02 → 2:28]

Alan, what was the purpose of your trip? Well, as you know, I love the Outback and lead tours of people wanting to go into more remote parts of the country. However, I thought it was time for me too to have a holiday. So I packed up my family and we went to Mungo National Park. Why did you choose this location? It holds a record of aboriginal life stretching back over 40,000 years. And, of course, I wanted my young kids to be amazed by the main feature of the park, the remarkable walls Of China as they're called, where wind and water erosion have exposed this long history. I see. What was the weather like? It was unusual for that time of year. The rain was just one continual downpour after another. We were always soaked to the skin. So we decided to cut our holiday short and only stayed three days in the end. However, it was eventful. The obvious problem was to get back to the nearest town, a small place called Boronga. But the dirt roads out there are always impassable after rain, so we settled down for a long wet wait in the park. We didn't really mind because the scenery was so interesting. However, the kids wandered away without our noticing and eventually, we realized they must be lost. So we used our two way radio to contact the park rangers and the police and a helicopter was sent. Luckily, the kids were found within a few hours, but they'd made an important discovery.

[Speaker 1] [2:29 → 2:32]

Now look at questions 16 to 20.

[Speaker 1] [2:52 → 2:57]

As the talk continues, answer questions 16 to 20.

[Speaker 2] [2:58 → 3:06]

So the trip was also eventful for another reason, wasn't it? Yes. Yes. They led us to some ancient aboriginal art.

[Speaker 3] [3:06 → 3:49]

The kids had taken shelter in a very small low cave that was difficult to see from the outside. We were lucky to have another family camping in our location. When they heard us calling the kids, they immediately helped us search for them. And as the hours went by, they also provided us with much needed support and encouragement. We really appreciated their help. And as we were already soaked through after looking for the kids for a couple of hours, they even made sure we had enough dry clothes to wear. The park ranger managed to get through to us to lead the search. And when the helicopter pilot notified us by two way radio that he'd seen the children but was

unable to land nearby, we were able to eventually find them very excited about what was in their little cave.

[Speaker 2] [3:50 → 3:52]

And what did you think of their cave?

[Speaker 3] [3:53 → 4:24]

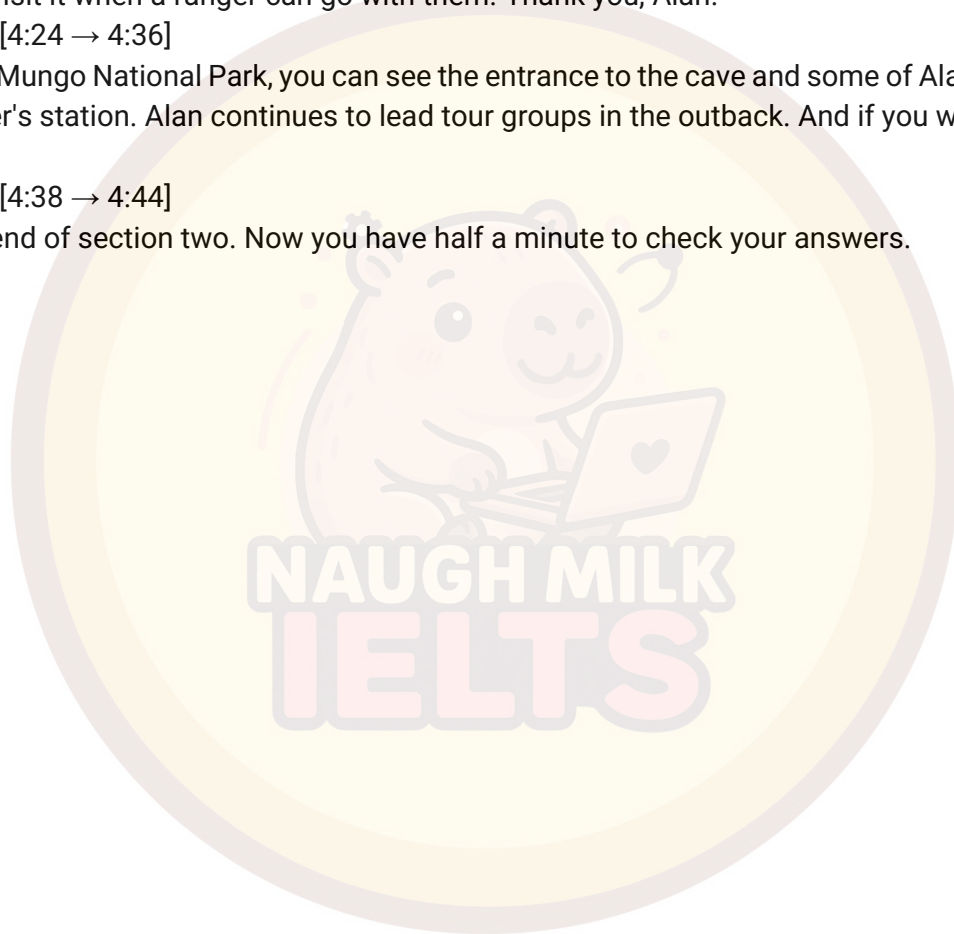

Well, after squeezing in, I must say I was impressed and managed to take a few photos of it before we left. There were many faint markings and dots on the wall. It was difficult to tell what they represented because they were so small but people from the museum who have since visited there said the markings were similar to some other findings in the area and later confirmed they were very old. Although it's now a protected site, the children like to call it their cave and are allowed to visit it when a ranger can go with them. Thank you, Alan.

[Speaker 2] [4:24 → 4:36]

If you go to Mungo National Park, you can see the entrance to the cave and some of Alan's photos at the ranger's station. Alan continues to lead tour groups in the outback. And if you want further information

[Speaker 1] [4:38 → 4:44]

This is the end of section two. Now you have half a minute to check your answers.

PART 3

[Speaker 1] [0:00 → 0:20]

Part three. You'll hear a third year student called Emma talking to a first year student called John about the work experience John must do as part of his software engineering course. First, you have some time to look at questions 21 to 24.

[Speaker 1] [0:51 → 0:55]

Now listen carefully and answer questions 21 to 24.

[Speaker 3] [0:58 → 1:18]

Hi, John. You wanted some advice about the work experience program? Yeah. I wanted to check I've understood what I'm supposed to do. Sure. For a start, we have to work for a company in the holidays between the first and second year, and again between the second and third year, right? Yes, usually you do around fifty days with two different employers,

[Speaker 2] [1:18 → 1:20]

like one hundred days in total.

[Speaker 3] [1:20 → 1:42]

I see. You know, there's one aspect of the Work Experience Programme I'm unhappy with. I mean, we have to attend a preparation course for it, and that it's a big investment in terms of time. What's the problem? Just the fact that no matter how well we perform on the programme, it makes no difference whatsoever to our final grade for our degree. It goes unrecognised.

[Speaker 2] [1:42 → 2:13]

I know, but there are lots of advantages too. Anyway, when does your preparation course for the work experience start? Soon. We're starting with a session on interview technique, how to respond to questions, that stuff. That can be useful. But I remember we had to make up a list of things we wanted to achieve during the time with the employer. That was a bit pointless. My thoughts exactly. You can't decide on your aims until you've started work for real. The tutor will give you some good advice about presenting your resume though, so don't miss that session. Okay.

[Speaker 3] [2:13 → 2:20]

When the work experience starts for real, it would be great if I could actually do a bit of software design. That's highly unlikely on a work experience course.

[Speaker 2] [2:21 → 2:38]

You'll be doing more basic things than that, but they might start you off on the IT help desk that's often where they need extra people. But then you'll move on to work in areas that suit your field of study. I mean, whatever you focused on this year at college, you need to be able to put it into practice during work experience.

[Speaker 3] [2:39 → 3:02]

There has to be a match. And then we do work experience again after we finish our second year, right? I saw somewhere you can expect to earn between \$20 to \$25 per hour. I suppose that's roughly what recent graduates get. Yes, not bad. But I also read employers don't necessarily have to pay you anything, because you're not technically a real employee when you're doing work experience. Correct,

[Speaker 2] [3:02 → 3:04]

but I haven't heard of that happening to anyone.

[Speaker 3] [3:05 → 3:13]

Unless you do IT work for some kind of volunteer organisation. I'd like to do that kind of thing, but not with my financial situation.

[Speaker 2] [3:13 → 3:14]

Right.

[Speaker 1] [3:17 → 3:23]

Before you hear the rest of the discussion, you have some time to look at questions 25 to 30.

[Speaker 1] [3:54 → 3:58]

Now listen and answer questions 25 to 30.

[Speaker 3] [4:01 → 4:09]

Okay. And once I've decided which company I want to do my work experience with, what's the process? Do I have to fill a form out first,

[Speaker 2] [4:09 → 4:20]

saying why I'd be interested to work for the company and what kind of qualifications I have? Yes, you can ask your tutor for a standard one to use, or download one off the department's website. Okay,

[Speaker 3] [4:20 → 4:34]

then after that do I have to sign something with the employer, like something that guarantees I'll be given the work over a specific period of time? Actually the next stage is you checking with the College that the kind of work you're applying for is appropriate,

[Speaker 2] [4:34 → 4:47]

so you'll need to send them a brief outline of what your responsibilities will be. All right. And then, if the College approves, they'll speak to the company and get the name and email address of the managers that will be in charge of you. Okay,

[Speaker 3] [4:48 → 4:51]

so after that is there some kind of interview? No,

[Speaker 2] [4:51 → 5:11]

but the company are legally responsible for you, and they don't want you getting hurt by any equipment so they'll set up a meeting. So we can talk about accident prevention and that kind of thing? Exactly. And once you've started, remember to keep writing down what you had to do every day. Be detailed so you can show which skills you developed. Right.

[Speaker 3] [5:11 → 5:15]

And at what point might I receive a payment? Not sure.

[Speaker 2] [5:15 → 5:26]

But once it's over, the college sends the employer a form, which they can choose to fill out or not, about how well you did and what they recommend you focus on next time. Do the tutors actually

[Speaker 1] [5:30 → 5:36]

That is the end of part three. You now have thirty seconds to check your answers to part three.

PART 4

[Speaker 1] [0:00 → 0:20]

Now turn to section four on page seven. Section four. You will hear a university lecturer talking to his students about an architectural studies assignment. First, you have some time to look at questions 31 to 40 on pages seven and eight.

[Speaker 1] [1:05 → 1:09]

Now listen carefully and answer questions 31 to 40.

[Speaker 2] [1:13 → 2:41]

Okay. Before this morning's lecture on successful design of public buildings, I want to draw your attention to your next assignment. So your assignment is on public monuments, and by that, I mean any structure or statue that is built to remind us of important events or of historic figures. The assignment should be divided into three sections. At the beginning of section one, you should identify the monument you're examining and say why you've chosen it. Include a comment on whether you think the monument works. By that, I mean its success. You may think it's wonderful. You may think it's a public eyesore, something that people hate looking at. Next, you should also include in this first section information about where the monument was built, its geographical site, and also a discussion of its social importance, how relevant it was for the people of the time. You should also include information on when it was built, its historical background, and make sure you illustrate the assignment appropriately too. I shall expect that. Insert any plans you can find, and make sure any photographs you use have captions and are clearly referred to in the text, or they will be meaningless. To end this section, you should include something about the record of the person who designed the monument, showing how the monument relates to his or her other work.

[Speaker 2] [2:46 → 5:02]

Right. In section two of the assignment, you'll need to give a detailed account of the design and construction of the monument. Firstly, I'll want to read about any particular influence you think is apparent in the design. More often than not, there will be something in it that links it to an established style, classical Greek, for example. Or it may reflect a movement, like Bauhaus or Art Nouveau. You decide. Secondly, I want information about the choice of materials, not only those which were used, but reasons why they may have been selected from others that were available at the time and in the area where the designer worked. Next, I'll want to mention of any particular skills that were necessary in the construction too. The third section is the most important one. Here, you'll go into much more critical detail. To add to your own comments, you'll need to carry out a survey for this section to be as comprehensive and rounded as possible. Ask yourself and others the following questions. Firstly, was the reason for erecting the monument a valid one? For example, was it one that ordinary members of the public, the man or woman on the street, can readily relate to, and did it justify how much public money it cost? Was it a waste, or does it represent a sound cultural investment? Then think about its emotional impact. When someone looks at it, how do they feel? Angry? Sad? Indifferent? And don't forget to consider how well the monument sits in its environment. Does it harmonize with it, or does it clash with it? And is that important? Does it add to the effect or take away from it? Right. Those guidelines should help. Oh, and remember, it is important to weigh up carefully how to make the maximum impact in this

kind of critique within the number of words allowable. You don't get extra marks for lots of factual information. You get those for a well constructed analysis. That's what counts, and that needs to be based on your personal opinion.

[Speaker 1] [5:06 → 5:11]

That is the end of section four. You now have half a minute to check your answers.

[Speaker 1] [5:42 → 5:50]

That is the end of the listening test. You now have ten minutes to transfer your answers to the listening answer sheet.

Câu 1: Lamerton

- Trích đoạn: "Is that **l a, m m, e r t o n**?" - "There's only **one m** in it."
- Hướng dẫn: Ban đầu, người phụ nữ giới thiệu tên mình nghe giống "Lamberton". Tuy nhiên, khi người đàn ông đánh vần thử với 2 chữ "m" (l-a-m-m-e-r-t-o-n), cô ấy đã đính chính lại là tên mình chỉ có một chữ "m" (one m). Do đó đáp án chính xác là Lamerton.

Câu 2: 42 West Lane

- Trích đoạn: "And your address? It's **42 West Lane**."
- Hướng dẫn: Khi được hỏi về địa chỉ, người phụ nữ đọc rõ số nhà 42 và tên đường là West Lane. Từ "Exeter" (tên thành phố) đã có sẵn trên đề bài.

Câu 3: 11 June / 11th June / June 11 / 11th

- Trích đoạn: "I finished college on the June 8... but I can't start work till the **eleventh** because I've got a hospital appointment on the June 10."
- Hướng dẫn: Audio đưa ra nhiều mốc thời gian để lừa (ngày 8 học xong, ngày 10 đi bệnh viện). Tuy nhiên, ngày thực tế cô ấy có thể bắt đầu làm việc (start work) là ngày 11 (the eleventh).

Câu 4: cook

- Trích đoạn: "...I'd really like to get some experience as an assistant **cook** if possible."
- Hướng dẫn: Cô gái cho biết hiện đang học trường cao đẳng về dịch vụ ăn uống (catering college) nên cô ưu tiên công việc phụ bếp (assistant cook).

Câu 5: equipment

- Trích đoạn: "...I'm used to using the kind of **equipment** you usually find in a kitchen."
- Hướng dẫn: Người đàn ông hỏi cô có kỹ năng nào liên quan không. Cô trả lời mình quen thuộc với việc sử dụng các loại thiết bị (equipment) thường thấy trong nhà bếp. Cụm "used to using" ở đây đồng nghĩa với "familiar with" trong đề bài.

Câu 6: food handling

- Trích đoạn: "...but I've got a certificate in **food handling**."
- Hướng dẫn: Người đàn ông hỏi cô có chứng chỉ vệ sinh (hygiene) không. Cô nói không, nhưng bù lại cô có một chứng chỉ về xử lý thực phẩm (food handling).

Câu 7: first aid

- Trích đoạn: "But you'd have to do a short course on **first aid**."

- Hướng dẫn: Người quản lý thông báo rằng cô sẽ không cần đào tạo chuyên môn cụ thể, nhưng bắt buộc phải tham gia một khóa học ngắn hạn về sơ cứu (first aid) dành cho nhân viên mới.

Câu 8: (college) tutor

- Trích đoạn: "Is that one of your college lecturers?" - "She's my **college tutor**."
- Hướng dẫn: Người giới thiệu (referee) của cô là Tiến sĩ Ruth Price. Khi được hỏi đó có phải giảng viên (lecturers) không, cô đính chính lại đây là cố vấn học tập / gia sư đại học (college tutor) của mình. Điền "tutor" hoặc "college tutor" đều được tính điểm.

Câu 9: 0208685114

- Trích đoạn: "Yes. It's **0208685114**. That's a landline."
- Hướng dẫn: Đây là câu kiểm tra kỹ năng nghe số điện thoại cơ bản, bạn chỉ cần nghe và chép lại chính xác từng con số.

Câu 10: color blindness / colour blindness

- Trích đoạn: "I suffer from a particular type of **color blindness**, and sometimes employers have to make special arrangements for that."
- Hướng dẫn: Ở phần yêu cầu khác, cô gái báo trước rằng mình mắc một dạng mù màu (color blindness) nên nhà tuyển dụng đôi khi cần có những sắp xếp đặc biệt. Bạn có thể viết theo chính tả Anh-Anh (colour) hay Anh-Mỹ (color) đều đúng.

Câu 11

- **Đáp án:** (a) holiday / to have a holiday
- **Hướng dẫn:** Mục đích chuyến đi lần này của Alan không phải là để dẫn khách tour như thường lệ, mà anh ấy cho rằng đã đến lúc bản thân cũng cần một kỳ nghỉ. Chú ý giới hạn từ là "NO MORE THAN THREE WORDS".
- **Trích đoạn:** "...I thought it was time for me too to **have a holiday**. So I packed up my family and we went to Mungo National Park."

Câu 12

- **Đáp án:** (over) 40,000 years
- **Hướng dẫn:** Công viên này lưu giữ hồ sơ về đời sống của người Thổ dân kéo dài hơn 40.000 năm trước.
- **Trích đoạn:** "It holds a record of aboriginal life stretching back **over 40,000 years**."

Câu 13

- **Đáp án:** Walls of China

- **Hướng dẫn:** Alan muốn bọn trẻ nhà mình được tận mắt chiêm ngưỡng điểm đặc trưng lớn nhất của công viên quốc gia này, một nơi có tên gọi là Walls of China (Bức tường Trung Hoa).
- **Trích đoạn:** "...amazed by the **main feature of the park**, the remarkable **Walls of China** as they're called..."

Câu 14

- **Đáp án:** A
- **Hướng dẫn:** Alan chia sẻ rằng thời tiết lúc đó rất bất thường so với thời điểm này trong năm, mưa tuôn xối xả hết trận này đến trận khác. Điều này cho thấy anh bị bất ngờ bởi lượng mưa (the amount of rain).
- **Trích đoạn:** "What was the weather like? **It was unusual** for that time of year. The **rain was just one continual downpour** after another."

Câu 15

- **Đáp án:** C
- **Hướng dẫn:** Vì đường xá lầy lội không thể qua lại, gia đình Alan quyết định ở lại chờ đợi trong công viên. Tuy nhiên, họ không hề cảm thấy bận tâm hay khó chịu ("didn't really mind") vì phong cảnh xung quanh quá thú vị. Cơn mưa không làm ảnh hưởng đến sự tận hưởng của anh ấy.
- **Trích đoạn:** "...we settled down for a long wet wait in the park. We **didn't really mind** because the **scenery was so interesting**."

Câu 16, 17, 18

- **Đáp án:** B, C, D (*Lưu ý: Có thể điền đảo lộn thứ tự các đáp án này*)
- **Hướng dẫn:** Alan kể về một gia đình khác cắm trại gần đó đã nhiệt tình giúp đỡ anh. Họ ngay lập tức hỗ trợ tìm kiếm bọn trẻ (đáp án B - willingly helped), cung cấp sự hỗ trợ và động viên tinh thần (đáp án C - kept our spirits up), và đảm bảo gia đình anh có quần áo khô để mặc (đáp án D - provided some dry clothes).
- **Trích đoạn:** * (B): "...they **immediately helped us search** for them."
 ○ (C): "...they also provided us with much needed **support and encouragement**."
 ○ (D): "...they even made sure we had enough **dry clothes** to wear."

Câu 19, 20

- **Đáp án:** A, E (*Lưu ý: Có thể điền đảo lộn thứ tự các đáp án này*)
- **Hướng dẫn:** Đối với các hình vẽ trong hang, Alan đã cố gắng chụp lại một vài bức ảnh trước khi rời đi (đáp án A). Sau này, các chuyên gia bảo tàng đã xác nhận rằng những hình vẽ đó đã rất cổ xưa / lâu đời (đáp án E - proved to be ancient). Các **đáp án khác sai**

vì: hình vẽ rất nhỏ, khó nhìn (loại B, C) và nó tương tự với các khám phá khác trong khu vực chứ không phải độc nhất (loại D).

- **Trích đoạn:** * (A): "...managed to **take a few photos** of it before we left."
 - (E): "...people from the museum... later confirmed they were **very old**."

Câu 21: C

- **Trích đoạn:** "Just the fact that no matter how well we perform on the programme, it **makes no difference whatsoever to our final grade** for our degree. It goes unrecognised."
- **Hướng dẫn:** John phàn nàn (unhappy) rằng cho dù họ có làm việc tốt đến đâu trong chương trình thực tập thì nó cũng không ảnh hưởng gì đến điểm số cuối cùng của bằng cấp (không được công nhận). Điều này hoàn toàn khớp với đáp án C (chương trình này không mang lại tín chỉ/điểm số - doesn't earn credit).

Câu 22: C

- **Trích đoạn:** Emma: "But I remember we had to **make up a list of things we wanted to achieve** during the time with the employer. That was a bit **pointless**." | John: "**My thoughts exactly**. You can't **decide on your aims** until you've started work for real."
- **Hướng dẫn:** Emma cho rằng việc lập danh sách những điều muốn đạt được là vô nghĩa (pointless). John hoàn toàn đồng ý và nói rằng không thể quyết định mục tiêu của mình (decide on your aims) khi chưa bắt đầu làm việc thực tế. Việc lập danh sách mục tiêu này tương đương với đáp án C (thiết lập mục tiêu cá nhân - Setting personal goals).

Câu 23: C

- **Trích đoạn:** "But then you'll move on to work in **areas that suit your field of study**. I mean, whatever you focused on this year at college, you need to be able to **put it into practice** during work experience."
- **Hướng dẫn:** Mặc dù lúc đầu có thể làm ở bộ phận hỗ trợ (help desk), nhưng Emma khẳng định sau đó John sẽ chuyển sang làm những công việc "phù hợp với lĩnh vực học tập" của mình và áp dụng những gì đã học vào thực tế. Điều này khớp chính xác với đáp án C.

Câu 24: B

- **Trích đoạn:** "But I also read **employers don't necessarily have to pay you anything**, because you're not technically a real employee when you're doing work experience."
- **Hướng dẫn:** John nói rằng anh đọc được thông tin là các nhà tuyển dụng không nhất thiết phải trả bất kỳ khoản lương nào vì sinh viên thực tập về mặt kỹ thuật không phải là nhân viên chính thức. Tương ứng với đáp án B (người sử dụng lao động không bắt buộc phải trả lương cho họ).

Câu 25: C

- **Trích đoạn:** "Do I have to fill a **form** out first, saying **why I'd be interested to work for the company and what kind of qualifications I have?**" | Emma: "Yes, you can ask your tutor for a standard one to use..."
- **Hướng dẫn:** John hỏi có phải điền một biểu mẫu nói rõ lý do muốn làm việc và trình độ chuyên môn của bản thân không, và Emma xác nhận. Biểu mẫu dùng để trình bày lý do muốn làm việc và bằng cấp chính là đơn xin việc ("application").

Câu 26: E

- **Trích đoạn:** "...so you'll need to send them a **brief outline of what your responsibilities will be.**"
- **Hướng dẫn:** Sau khi điền đơn, sinh viên phải gửi cho trường một bản tóm tắt ngắn gọn ("brief outline" = "short") về những trách nhiệm công việc của mình. Trách nhiệm công việc tương ứng với mô tả công việc ("job description").

Câu 27: H

- **Trích đoạn:** "And then, if the College approves, they'll speak to the company and get the **name and email address** of the managers that will be in charge of you."
- **Hướng dẫn:** Nếu trường chấp thuận, họ sẽ liên hệ với công ty để lấy tên và địa chỉ email của người quản lý. Tên và email chính là thông tin liên lạc ("contact details").

Câu 28: A

- **Trích đoạn:** "...they don't want you getting hurt by any equipment so they'll set up a meeting. | John: So we can talk about **accident prevention** and that kind of thing? | Emma: Exactly."
- **Hướng dẫn:** Công ty sẽ sắp xếp một cuộc họp để nói về việc phòng chống tai nạn ("accident prevention") và đảm bảo sinh viên không bị thương. Những chủ đề này thuộc về an toàn và sức khỏe lao động ("health and safety").

Câu 29: B

- **Trích đoạn:** "And once you've started, remember to **keep writing down what you had to do every day.**"
- **Hướng dẫn:** Emma nhắc John khi bắt đầu làm việc, hãy nhớ ghi chép lại những gì phải làm mỗi ngày. Việc ghi chép lại công việc hàng ngày chính là lập hồ sơ/nhật ký công việc ("record of work").

Câu 30: F

- **Trích đoạn:** "...the college sends the employer a form, which they can **choose to fill out or not**, about **how well you did and what they recommend you focus on next time**."
- **Hướng dẫn:** Vào cuối kỳ thực tập, trường gửi cho nhà tuyển dụng một biểu mẫu để họ nhận xét xem sinh viên làm tốt như thế nào và đưa ra lời khuyên. Biểu mẫu chứa những đánh giá và nhận xét này chính là phiếu phản hồi ("feedback"). Việc họ "có thể chọn điền hoặc không" (choose to fill out or not) chính là tính chất tự nguyện ("voluntary").

Câu 31: success

- **Trích đoạn:** "Include a comment on whether you think the monument works. By that, I mean its **success**."
- **Hướng dẫn:** Đề bài yêu cầu bạn đưa ra bình luận ("Comment on") về một khía cạnh của đài kỷ niệm. Trong audio, giảng viên nói hãy thêm một bình luận xem đài kỷ niệm có hoạt động hiệu quả không, và làm rõ ý đó là sự thành công ("success") của nó.

Câu 32: social

- **Trích đoạn:** "...information about where the monument was built, its geographical site, and also a discussion of its **social** importance..."
- **Hướng dẫn:** Đề bài liệt kê ba gạch đầu dòng tương đương với ba ý trong bài nghe: "geographical location" = "geographical site", "historical context" = "historical background". Ở khoảng giữa, audio nhắc đến "social importance" (tầm quan trọng về mặt xã hội), trong đó "importance" đồng nghĩa với "significance". Từ cần điền là "social".

Câu 33: plans

- **Trích đoạn:** "Insert any **plans** you can find, and make sure any photographs you use have captions..."
- **Hướng dẫn:** Đề bài yêu cầu minh họa bài tập ("Illustrate assignment") bằng hình ảnh ("photos") và một thứ nữa. Audio yêu cầu chèn thêm các bản vẽ/bản thiết kế ("plans") mà bạn tìm được, bên cạnh việc sử dụng những bức ảnh có chú thích ("photographs... have captions").

Câu 34: influence

- **Trích đoạn:** "...I'll want to read about any particular **influence** you think is apparent in the design."
- **Hướng dẫn:** Đề bài ghi là "[cái gì đó] của một phong cách cụ thể lên thiết kế" ("of any particular style on the design"). Audio nhắc đến việc muốn đọc về bất kỳ sự ảnh hưởng ("influence") cụ thể nào bộc lộ rõ trong thiết kế, và sau đó nói về việc liên kết nó với các phong cách ("style") đã có.

Câu 35: materials

- **Trích đoạn:** "Secondly, I want information about the choice of **materials**, not only those which were used..."
- **Hướng dẫn:** Đề bài hỏi về những thứ được sử dụng trong xây dựng ("used in construction"). Audio nhấn mạnh việc muốn có thông tin về sự lựa chọn vật liệu ("materials"), đặc biệt là những thứ đã được sử dụng.

Câu 36: skills

- **Trích đoạn:** "Next, I'll want to mention of any particular **skills** that were necessary in the construction too."
- **Hướng dẫn:** Đề bài yêu cầu điền một yếu tố chuyên môn cần thiết ("Specialist... required"). Trong audio, người nói dùng từ "particular" tương đương với "specialist" và "necessary" đồng nghĩa với "required". Từ còn thiếu là các kỹ năng ("skills").

Câu 37: reason

- **Trích đoạn:** "Firstly, was the **reason** for erecting the monument a valid one?"
- **Hướng dẫn:** Đề bài là "...cho việc xây dựng đài kỷ niệm" ("for-building the monument"). Audio đặt câu hỏi liệu lý do ("reason") của việc dựng lên ("erecting" = "building") đài kỷ niệm có hợp lý không.

Câu 38: emotional

- **Trích đoạn:** "Then think about its **emotional** impact. When someone looks at it, how do they feel?"
- **Hướng dẫn:** Đề bài hỏi tác động/hiệu ứng ("effect") gì đó lên công chúng ("members of the public"). Audio đề cập đến việc nghĩ về tác động cảm xúc ("emotional impact") và đặt câu hỏi mọi người cảm thấy thế nào khi nhìn vào nó. "Impact" bằng với "effect", đáp án là "emotional".

Câu 39: environment

- **Trích đoạn:** "And don't forget to consider how well the monument sits in its **environment**. Does it harmonize with it...?"
- **Hướng dẫn:** Đề bài hỏi đài kỷ niệm phù hợp/hòa hợp ("suits") với cái gì của nó. Audio khuyên nên xem xét đài kỷ niệm đặt trong môi trường/cảnh quan xung quanh ("environment") tốt đến mức nào, và liệu nó có hài hòa ("harmonize with") với cảnh quan đó không. Cụm "sits in / harmonize with" tương đương với "suits".

Câu 40: analysis

- **Trích đoạn:** "You don't get extra marks for lots of factual information. You get those for a well constructed **analysis**."

- **Hướng dẫn:** Đề bài lưu ý điểm cộng ("Credit") sẽ được cho nếu có một cái gì đó tốt ("good..."). Audio nói rằng bạn sẽ nhận được điểm thưởng ("extra marks" = "credit") cho một sự phân tích ("analysis") được xây dựng tốt ("well constructed" = "good").

TRANSCRIPT TEST 6

PART 1

[Speaker 1] [0:00 → 0:05]

The audio and test copyright belong to the Naugh Milk IELTS website.

[Speaker 2] [0:05 → 0:47]

IELTS listening. You will hear a number of different recordings, and you will have to answer questions on what you hear. There will be time for you to read the instructions and questions, and you will have a chance to check your work. All the recordings will be played once only. The test is in four parts. Write all your answers in the listening question booklet. At the end of the test, you will be given ten minutes to transfer your answers to an answer sheet. Now turn to part one on page two of your question booklet.

[Speaker 3] [0:48 → 1:03]

Part one. You will hear a woman called Miranda from Greenwell Garden Centers talking to a caller about a part time job. First, you have some time to look at questions one to six.

[Speaker 3] [1:30 → 1:34]

Listen carefully and answer questions one to six.

[Speaker 4] [1:37 → 1:41]

Greenwell Garden Centers, Miranda speaking. How can I help you today?

[Speaker 3] [1:41 → 1:45]

Hi, I'm calling about the part time job you advertised recently.

[Speaker 4] [1:46 → 1:48]

Oh, you mean the delivery driver role?

[Speaker 3] [1:49 → 1:59]

No, not that one. I'm actually asking about the general assistant position. My son's interested in it. I've already picked up an application form from one of your staff.

[Speaker 4] [1:59 → 2:12]

Got it. Well, we've got a vacancy coming up at our Newmarket Road branch when it opens next month, or there's one available right now at the Station Road branch. Is that the one you mean?

[Speaker 3] [2:13 → 2:15]

Yes, it's the current one I'm asking about.

[Speaker 4] [2:16 → 2:26]

Okay. So, in terms of working hours, we are really looking for someone who can do Monday and Wednesday afternoons, or Thursday and Friday afternoons.

[Speaker 3] [2:26 → 2:31]

He's busy volunteering during the week, could Sundays work instead?

[Speaker 4] [2:31 → 2:37]

Sure. As long as he can do a full day on Sunday, that's absolutely fine.

[Speaker 3] [2:37 → 2:39]

That's no problem at all.

[Speaker 4] [2:39 → 2:40]

Great.

[Speaker 3] [2:40 → 2:43]

Could you tell me a bit about what the job involves?

[Speaker 4] [2:44 → 3:04]

Of course. Let me just pull up the details. So, the main duties are working on the checkout, taking payments, and helping customers with their questions. Occasionally, people might ask about gardening products, and there's a fair bit of lifting too, because some of the stock's pretty heavy,

[Speaker 3] [3:04 → 3:19]

so he'll need to be reasonably fit. That's fine, he works out regularly and does lots of heavy jobs at home, but to be honest, he doesn't know much about plants, so he might not be able to answer specialist questions.

[Speaker 4] [3:19 → 3:28]

No worries about that. We don't expect new staff to know everything about gardening. Our senior team deals with most of those queries.

[Speaker 3] [3:28 → 3:31]

Okay, that's good to know. Anything else?

[Speaker 4] [3:32 → 3:52]

Yeah. During summer, we'll also need him to help with watering the plants. Sounds manageable. Perfect! Now, there are a few qualities we look for in candidates. First, good communication skills are a must, because first impressions really matter. How would you describe his personality?

[Speaker 3] [3:53 → 3:57]

He is polite and pretty sociable. I believe he'd be a good fit.

[Speaker 4] [3:58 → 4:08]

That's great. The other thing is basic maths. He needs to be comfortable working out discounts and so on. Oh, that's no issue, he's good at that.

[Speaker 3] [4:10 → 4:17]

Before you hear the rest of the conversation, you have some time to look at questions seven-ten.

[Speaker 3] [4:35 → 4:50]

Now listen and answer questions seven to 10. Is he still in school? Yes, but he's just finishing up for the summer. He's free for an interview this week if that works for you?

[Speaker 4] [4:50 → 4:54]

Let me check. How about Wednesday at 10AM?

[Speaker 3] [4:54 → 5:00]

That's actually the morning of his final exam. Could we make it later, say around 02:35?

[Speaker 4] [5:01 → 5:06]

I've got something then, but I can move it. Yeah, that time works.

[Speaker 3] [5:06 → 5:08]

Hope that's not too much trouble.

[Speaker 4] [5:08 → 5:11]

No problem at all. And what's his name?

[Speaker 3] [5:12 → 5:13]

Ethan Steele.

[Speaker 4] [5:13 → 5:22]

Got it. So, Ethan's interview will be with me, Miranda Rapana. That's spelled r a p a n a.

[Speaker 3] [5:23 → 5:26]

Sorry, let me write that down. I've got a terrible memory.

[Speaker 4] [5:27 → 5:37]

No worries. And can you remind him to call me the day before to confirm? My number's (213) 380-0874.

[Speaker 3] [5:38 → 5:40]

Will do. Anything else he needs to bring?

[Speaker 4] [5:40 → 5:45]

Just his passport, so we can check he's eligible to work here.

[Speaker 3] [5:45 → 5:49]

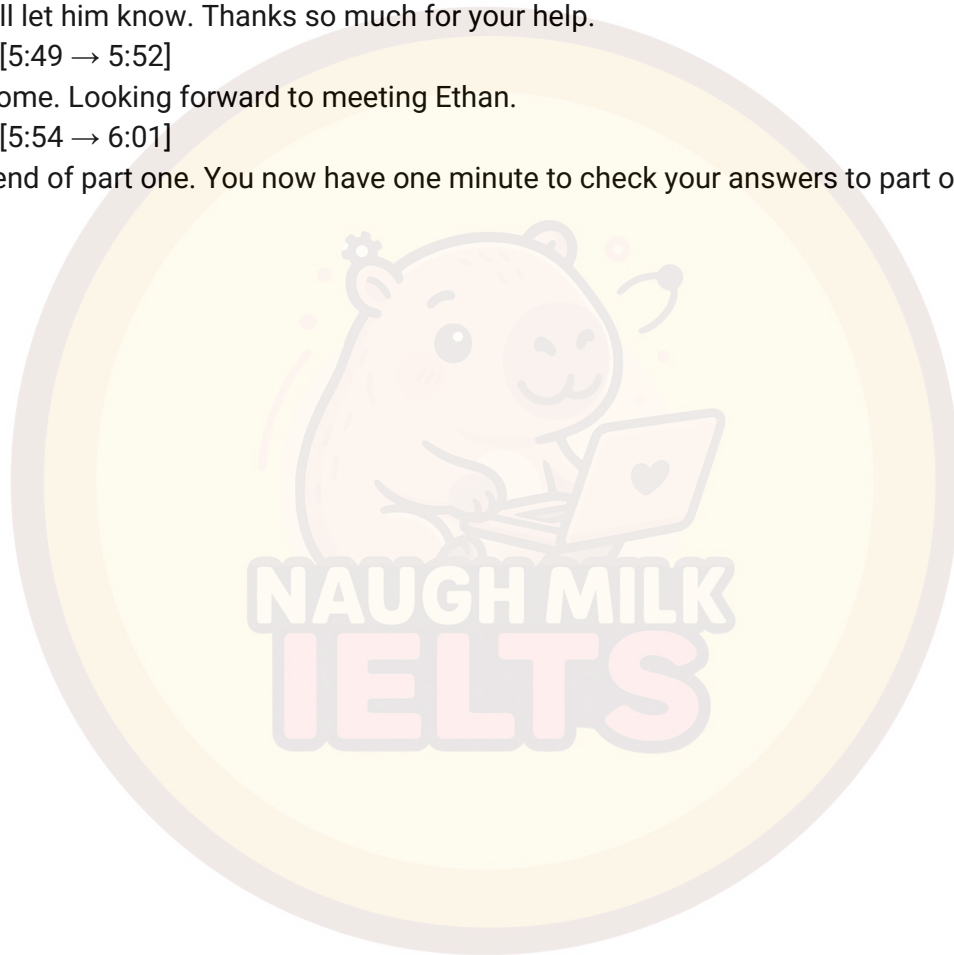

Of course, I'll let him know. Thanks so much for your help.

[Speaker 4] [5:49 → 5:52]

You're welcome. Looking forward to meeting Ethan.

[Speaker 3] [5:54 → 6:01]

That is the end of part one. You now have one minute to check your answers to part one.

PART 2

[Speaker 1] [0:00 → 0:15]

Part two You will hear Jesse Sampson, the coordinator of the Middletown Urban Farming Scheme, giving a talk about the programme. First, you have some time to look at questions eleven to sixteen.

[Speaker 1] [1:03 → 4:05]

Morning everyone, I'm Jesse Sampson, the coordinator of Middletown Urban Farming Scheme, or MUFS as we usually call it. This programme's been a real success in helping city residents grow their own fruit and vegetables, basically turning them into urban farmers if that's what they're into? You might be wondering who actually started MUFS? Well, the idea of urban farming has been around for ages, especially among town planners. But in our case, it was actually a bunch of local business owners, myself included, who decided to kick things off. Later on, some agriculture experts from the university jumped on board as well. Now what did MUFS set out to achieve? It wasn't about cutting carbon emissions or anything like that? At least not at the start. The main aim was to make better use of empty or unused land around the city. Over time, though, we realised there was another big plus encouraging people to eat fresh homegrown produce really helps improve their diets. So who's taking part? Well, schools have been very active, and we've also had a good response from company employees, so the message is definitely getting through there. But next year we'll be focusing on getting community centres for senior citizens involved because, so far, their participation's been pretty low. Now MUFS is built around a great group of gardening enthusiasts. They might not know every detail about every plot, but they really know their way around a garden. Most of them are amateurs, but they're more than happy to chat with members and share hands on tips. Just don't expect them to answer really technical questions like the Latin names of plants that's not their thing. We also want to make sure people with physical disabilities can join in. We're currently working on a scheme to loan out specially adapted gardening tools so those who can't use standard equipment aren't left out. That service isn't quite ready yet, but at the moment, we do provide free window boxes and large containers. Members just need to bring their own soil and compost. One thing I'm especially proud of is what we've done with local schools both primary and secondary. At first, teachers thought the scheme would just be handy for science lessons. And they were right about that. It hasn't lowered school meal costs like some hoped. But there's been an unexpected bonus. Students have become much more aware of their environment, and they really want to keep public spaces clean and tidy. Before you hear the rest of the talk, you have some time to look at questions seventeen-twenty.

[Speaker 1] [4:23 → 5:50]

Listen and answer questions seventeen-twenty. Outside schools, lots of businesses and organisations have been really generous, offering free resources and services. Let me give you a few examples. The City Hospital, for instance, they prepare thousands of meals every day for patients, runs a course led by their kitchen manager. It teaches our members how to cook a wide range of dishes using vegetables. The local government's also been very supportive. They own a big glass house that the Parks Department normally use to grow flower seedlings in winter. They've now given MUFS members free access to it so we can get our own seedlings off to a good start. And the university? They've been fantastic too. If our members send them a soil

sample, they'll run tests to figure out the best plants, fertilisers, and nutrients for that specific soil. Oh, and to top it off, a local supermarket is offering classes on how to lose weight and stay healthy with a sensible diet. Right, let's move on to the practical side of how the scheme works. That is the end of part two. You now have thirty seconds to check your answers to part two.

PART 3

[Speaker 1] [0:01 → 0:17]

Part three You will hear a business student called Olive discussing her advertising assignment with her tutor, Doctor Carlson. First, you have some time to look at questions 20 one-twenty six.

[Speaker 1] [0:44 → 0:56]

Now listen carefully and answer questions 20 one-twenty six. Morning Olive, I hear you wanted some feedback on your assignment?

[Speaker 2] [0:56 → 1:18]

That's right, I've analysed different media platforms for advertising and pulled out some key points. Great, let's start. For the introduction, I'm planning to highlight one main advantage of each medium. Like with trade publications, the big plus is you're reaching your target audience people already interested in the industry.

[Speaker 1] [1:18 → 1:26]

Exactly, that's why they're such a popular choice in the business community. So did you look at email advertising?

[Speaker 2] [1:26 → 1:36]

Yep, it's got lots of benefits, But the standout for me is how direct it is. You can send your message straight to people without going through any middlemen.

[Speaker 1] [1:37 → 1:41]

True, another bonus is you can give real time updates with the latest information.

[Speaker 2] [1:42 → 1:50]

Yeah, but I didn't really want to focus on that, because loads of media channels can do that now. Fair enough.

[Speaker 1] [1:50 → 1:52]

What about general interest magazines?

[Speaker 2] [1:52 → 2:08]

How do you see them? Well, their biggest strength is they last longer than most other print media. Unlike newspapers that get tossed quickly, magazines hang around because of their high production quality, glossy pages,

[Speaker 1] [2:08 → 2:19]

nice layouts, and things like that. Good point. Not the greenest option, but they often get passed on rather than binned right away. Moving on to websites.

[Speaker 2] [2:19 → 2:29]

The advantages are pretty obvious. They make a business look modern and professional, but what I really want to stress is that a website gives you access to international markets.

[Speaker 1] [2:30 → 2:35]

Exactly, basically no limits at all. Then there's cinema advertising.

[Speaker 2] [2:36 → 2:47]

The downside is the audience is too broad you can't really target a specific group. But the huge plus is people can't skip it they have to sit through the ad. Absolutely,

[Speaker 1] [2:48 → 2:53]

they can't just click away or walk out easily. I also thought about trade fairs,

[Speaker 2] [2:53 → 3:00]

but the problem is, they only last a couple of days, so I wasn't sure what to focus on. Any ideas?

[Speaker 1] [3:00 → 3:10]

Well, think about their practical benefits. They're a brilliant way to make new contacts, exchange information, even bump into someone who would be great to work with.

[Speaker 2] [3:11 → 3:12]

Oh, I didn't think of that.

[Speaker 1] [3:13 → 3:17]

Overall, Olive, your introduction sounds solid. Keep going.

[Speaker 2] [3:18 → 3:19]

Will do.

[Speaker 1] [3:21 → 3:27]

Before you hear the rest of the discussion, you have some time to look at questions 27 to 30.

[Speaker 1] [3:54 → 4:04]

Now listen and answer questions 20 seven-thirty. Right, let's talk about the main section of your assignment.

[Speaker 2] [4:05 → 4:08]

I've decided to focus on TV advertising.

[Speaker 1] [4:09 → 4:12]

Okay, what angles are you going to cover and why?

[Speaker 2] [4:12 → 4:49]

I'll start with budgeting. I've found some good tips for planning TV ad budgets. Some are obvious, like it's way cheaper if the company can produce the ad in house. But the most important one is setting aside a backup fund to keep campaigns running during a business downturn. That way, you can maintain brand presence, even if you have to cut back on frequency or stick to off peak hours. Something's better than nothing smart move. I also wanted to include something about TV companies making ads, but I'm not sure it fits.

[Speaker 1] [4:49 → 4:57]

Well, your reading list has an article on the benefits of working with TV companies to create ads. But does it really fit your focus?

[Speaker 2] [4:58 → 5:02]

Sort of. The thing is, I've only looked at American TV companies,

[Speaker 1] [5:03 → 5:09]

not European or Asian ones. Then it might pull you off track if you go into all that.

[Speaker 2] [5:09 → 5:12]

Yeah, I don't want to add another thousand words.

[Speaker 1] [5:13 → 5:19]

Fair enough. So, what methods do you think companies can use to check if their ads will work?

[Speaker 2] [5:19 → 5:28]

Past experience helps, but trends change. What worked last year might flop now because consumer behaviour shifts.

[Speaker 1] [5:28 → 5:30]

Very true. Anything else?

[Speaker 2] [5:31 → 5:37]

They could ask employees for keywords to describe the product and build those into the ad.

[Speaker 1] [5:37 → 5:43]

Or better still, show the ad to some clients, watch their reactions, and tweak it before launch.

[Speaker 2] [5:44 → 5:52]

Good idea! At the end of the day, customer feedback matters most. Oh, can I attach a video clip to my assignment?

[Speaker 1] [5:53 → 5:57]

Absolutely, great idea! Just make sure you explain why it's relevant.

[Speaker 2] [5:58 → 6:06]

Got it. I've got one where the actor has this squeaky voice that totally clashes with the product. It probably puts people off.

[Speaker 1] [6:07 → 6:15]

Perfect example: same thing happens when the background music's wrong, it kills the message. Include it but explain why.

[Speaker 2] [6:15 → 6:16]

No problem.

[Speaker 1] [6:16 → 6:20]

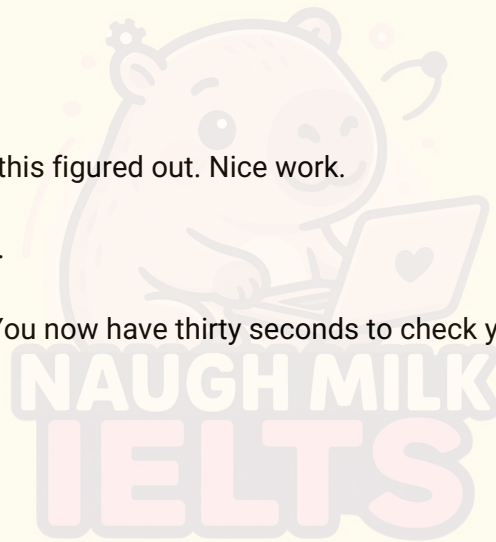

Looks like you've got most of this figured out. Nice work.

[Speaker 2] [6:20 → 6:22]

Thanks so much for your help.

[Speaker 1] [6:24 → 6:31]

That is the end of part three. You now have thirty seconds to check your answers to part three.

PART 4

[Speaker 1] [0:02 → 0:22]

Part four. You will hear a lecture given by a university researcher about the benefits of woodland, which aims to explain how forests contribute to human well-being, to children's education, and also to the economy. First, you have some time to look at questions 31 to 40.

[Speaker 1] [0:57 → 1:01]

Now listen carefully and answer questions 31 to 40.

[Speaker 2] [1:01 → 5:10]

Today, I'd like to discuss the wide ranging benefits that woodlands bring to people and societies. These advantages can be considered in terms of well-being, education, and even the economy. To begin with, within forest environments, plants release valuable oils with proven therapeutic properties. They are now incorporated into a range of medicines and beauty treatments worldwide. This demonstrates how natural resources from woodlands are not only important for traditional remedies, but also for modern industries. Moreover, the refreshing smell of trees and leaves is one of the forest's most powerful features. Many people say it brings an instant sense of tranquility. That sensory experience is one of the reasons why forest walks are becoming so popular among people living stressful urban lives. In addition, research shows that walking in forests can enhance sleep patterns. It allows the body to reset its rhythms and promotes overall well-being. These findings are supported by health studies showing that time spent in green spaces lowers stress hormones, which in turn improves the quality of rest. Equally significant is the cultural role of woodlands. In many regions, woodland areas preserve ancient stories that shaped local identity. Passing them on allows each generation to connect with its history. Forests, therefore, act as living museums where traditions and narratives are kept alive. What is more, there is a quiet magic that lingers among trees and streams. It reminds people of myths, legends, and hidden possibilities. For many, forests are not just physical spaces, but symbolic places of wonder that continue to inspire creativity and imagination. Turning now to the younger generation, young learners gain valuable experience by handling basic tools under supervision. This exposure helps them appreciate both safety and craftsmanship. Such hands on practice is difficult to achieve in classrooms but becomes natural in outdoor programs. In the same way, children also develop respect for the natural world. Instead of capturing them, children are guided to notice the movements of various insects. This method fosters respect for living things and builds awareness of ecosystems. Through these activities, children not only learn science but also build empathy for the environment. Finally, it is worth highlighting the economic perspective. Rural forests may generate more reliable wealth than metropolitan property. This stability results from renewable resources rather than fluctuating housing markets. In fact, long term investments in woodlands can provide steady returns through timber, ecotourism, and even carbon credits. In addition to financial profit, forests also support farming. Rows of trees around farmland create natural shade that lowers ground temperature. This cooling effect can reduce the demand for extra watering. By moderating the microclimate, woodlands help farmers save water and reduce costs. Moreover, pollination is another critical service. When the wind is reduced by planted trees, pollinators like bees can work more effectively. Their activity directly benefits farmers by raising

the quality and quantity of harvests. This shows how woodland management has positive ripple effects across the agricultural sector.

[Speaker 1] [5:11 → 5:13]

This is the end of the listening test.

[Speaker 2] [5:14 → 5:22]

That is the end of part four. You now have one minute to check your answers to part four.

Câu 1: Station

- Trích đoạn: "...or there's one available **right now** at the **Station** Road branch. Is that the one you mean? Yes, it's the **current one** I'm asking about."
- Hướng dẫn: Audio có lừa bằng chi nhánh "Newmarket Road" (sẽ mở vào tháng sau). Tuy nhiên, người mẹ xác nhận bà đang hỏi về vị trí trống hiện tại (available right now / current one) và đó là ở nhánh Station Road.

Câu 2: Sunday / Sundays

- Trích đoạn: "...could **Sundays** work instead? Sure. As long as he can do a **full day** on **Sunday**, that's absolutely fine."
- Hướng dẫn: Người mẹ hỏi liệu con trai có thể làm vào Chủ Nhật thay vì các ngày trong tuần không. Người quản lý đồng ý với điều kiện cậu bé làm trọn một ngày (full day).

Câu 3: lifting

- Trích đoạn: "...and there's a fair bit of **lifting** too, because some of the stock's pretty **heavy**..."
- Hướng dẫn: Quản lý mô tả công việc có khá nhiều việc phải nâng/vác (lifting) vì một số hàng hóa khá nặng (heavy).

Câu 4: watering

- Trích đoạn: "During **summer**, we'll also need him to help with **watering the plants**."
- Hướng dẫn: Thông tin rất rõ ràng và trực diện, vào mùa hè cậu bé sẽ cần giúp tưới cây (watering the plants).

Câu 5: communication

- Trích đoạn: "First, good **communication skills** are a must..."
- Hướng dẫn: Về phẩm chất ứng viên, người quản lý nhấn mạnh kỹ năng giao tiếp (communication skills) tốt là điều kiện bắt buộc đầu tiên.

Câu 6: maths

- Trích đoạn: "The other thing is basic **maths**. He needs to be comfortable working out discounts..."
- Hướng dẫn: Yêu cầu thứ hai là khả năng toán học cơ bản (basic maths) để có thể tính toán tiền giảm giá cho khách.

Câu 7: 2.35 / 02:35

- Trích đoạn: "Could we make it later, say around **02:35**? ... Yeah, that **time works**."

- Hướng dẫn: Quản lý đề xuất 10AM (10 giờ sáng) nhưng người mẹ xin lùi lịch phỏng vấn lại vào lúc 2:35 chiều (02:35) và đã được đồng ý. Chữ "pm" đã có sẵn trên đề bài nên bạn chỉ cần điền số.

Câu 8: Rapana

- Trích đoạn: "So, Ethan's interview will be with me, Miranda **Rapana**. That's spelled **r a p a n a**."
- Hướng dẫn: Đây là câu kiểm tra kỹ năng đánh vần tên họ của người phỏng vấn. Bạn chỉ cần nghe kỹ và chép lại chính xác từng chữ cái.

Câu 9: 2133800874

- Trích đoạn: "My number's **(213) 380-0874**."
- Hướng dẫn: Quản lý cung cấp số điện thoại để ứng viên gọi điện xác nhận trước ngày phỏng vấn. Bạn ghi lại chính xác dãy số này (có thể viết dính liền hoặc thêm khoảng trắng đều được chấp nhận).

Câu 10: passport

- Trích đoạn: "Anything else he needs to **bring**? Just his **passport**, so we can check he's eligible to work here."
- Hướng dẫn: Khi người mẹ hỏi cần mang theo (bring) giấy tờ gì, quản lý dặn cậu bé mang theo hộ chiếu (passport) để kiểm tra điều kiện làm việc hợp pháp.

Câu 11

- **Đáp án: B**
- **Hướng dẫn:** Dù ý tưởng làm nông nghiệp đô thị đã có từ lâu trong giới quy hoạch đô thị (town planners), nhưng những người thực sự bắt tay vào thành lập dự án này ("kick things off") lại là một nhóm các chủ doanh nghiệp địa phương (local business owners). Các chuyên gia đại học chỉ tham gia vào sau này.
- **Trích đoạn:** "...the idea of urban farming has been around for ages, especially among town planners. But in our case, it was actually a bunch of **local business owners**, myself included, who decided to **kick things off**. Later on, some agriculture experts from the university jumped on board as well."

Câu 12

- **Đáp án: A**
- **Hướng dẫn:** Mục tiêu ban đầu (at the start/original purpose) của dự án là tận dụng tốt hơn những khu đất trống hoặc không được sử dụng quanh thành phố. Việc giảm khí thải carbon không phải là mục tiêu, còn thói quen ăn uống lành mạnh hơn chỉ là một lợi ích cộng thêm nhận ra sau này ("another big plus").

- **Trích đoạn:** "It wasn't about cutting carbon emissions... At least not at the start. The **main aim** was to make **better use of empty or unused land** around the city."

Câu 13

- **Đáp án:** C
- **Hướng dẫn:** Trường học và nhân viên công sở đã tham gia rất tích cực. Tuy nhiên, vào năm tới, dự án sẽ tập trung thu hút nhóm hội người cao tuổi ở các trung tâm cộng đồng (senior citizens = elder citizens) vì sự tham gia của họ cho đến nay khá thấp.
- **Trích đoạn:** "...schools have been very active, and we've also had a good response from company employees... But **next year** we'll be **focusing on** getting community centres for **senior citizens** involved..."

Câu 14

- **Đáp án:** A
- **Hướng dẫn:** Những người đam mê làm vườn phần lớn là nghiệp dư, họ không thể trả lời các câu hỏi mang tính chuyên môn kỹ thuật sâu, nhưng họ rất sẵn lòng trò chuyện và chia sẻ những mẹo thực tế, tự tay làm (hands-on tips = practical gardening tips).
- **Trích đoạn:** "Most of them are amateurs, but they're more than happy to chat with members and **share hands on tips**. Just don't expect them to answer really technical questions..."

Câu 15

- **Đáp án:** B
- **Hướng dẫn:** Kế hoạch cho mượn các công cụ được thiết kế riêng cho người khuyết tật (đáp án A) vẫn chưa sẵn sàng. Đất và phân trộn (đáp án C) thì thành viên phải tự mang đến. Hiện tại ("at the moment"), dự án cung cấp miễn phí các khay trồng cây gắn cửa sổ và các chậu chứa lớn (plant containers).
- **Trích đoạn:** "We're currently working on a scheme to loan out specially adapted gardening tools... That service **isn't quite ready yet**, but **at the moment**, we do provide **free window boxes and large containers**. Members just need to bring their own soil and compost."

Câu 16

- **Đáp án:** C
- **Hướng dẫn:** Việc dự án hữu ích cho các tiết học khoa học (đáp án A) là điều giáo viên đã dự đoán trước. Chi phí bữa ăn (đáp án B) thì không hề giảm. Lợi ích bất ngờ (unexpected bonus = unforeseen advantage) chính là việc học sinh trở nên có ý thức cao hơn về môi trường xung quanh chúng.

- **Trích đoạn:** "At first, teachers thought the scheme would just be handy for science lessons. And they were right about that... But there's been an **unexpected bonus**. Students have become much **more aware of their environment**..."

Câu 17

- **Đáp án:** B
- **Hướng dẫn:** Bệnh viện thành phố hỗ trợ bằng cách tổ chức một khóa học do quản lý nhà bếp đứng lớp, dạy cho các thành viên cách nấu nhiều món ăn từ rau củ (cooking lessons).
- **Trích đoạn:** "The **City Hospital**... runs a course led by their kitchen manager. It **teaches our members how to cook** a wide range of dishes using vegetables."

Câu 18

- **Đáp án:** E
- **Hướng dẫn:** Chính quyền địa phương cho phép các thành viên MUFS được sử dụng miễn phí một nhà kính lớn (glass house = greenhouse facilities) để ươm cây con.
- **Trích đoạn:** "The **local government**'s also been very supportive. They own a **big glass house**... They've now given MUFS members **free access to it** so we can get our own seedlings off to a good start."

Câu 19

- **Đáp án:** C
- **Hướng dẫn:** Phía đại học sẽ giúp chạy các thử nghiệm trên mẫu đất mà thành viên gửi tới để tìm ra loại cây trồng và phân bón tốt nhất cho loại đất đó. Điều này tương ứng với phân tích đất và cho lời khuyên (soil analysis and advice).
- **Trích đoạn:** "And the **university**? ... If our members send them a **soil sample, they'll run tests to figure out the best plants, fertilisers, and nutrients** for that specific soil."

Câu 20

- **Đáp án:** D
- **Hướng dẫn:** Siêu thị địa phương cung cấp các lớp học về cách giảm cân và giữ gìn sức khỏe thông qua chế độ ăn uống hợp lý. Điều này tương đương với các khóa học về sức khỏe và thể chất (fitness and health courses).
- **Trích đoạn:** "...a local **supermarket** is offering classes on **how to lose weight and stay healthy** with a sensible diet."

Câu 21: B

- **Trích đoạn:** "...the big plus is you're reaching your target audience people **already interested in the industry**."

- **Hướng dẫn:** Đối với các ấn phẩm thương mại (trade publications), điểm cộng lớn nhất là tiếp cận được đúng tệp khán giả – những người "đã quan tâm đến ngành nghề đó" (already interested in the industry). Điều này tương ứng với đáp án B (hấp dẫn tệp khán giả thuộc các lĩnh vực cụ thể - sector-specific audiences).

Câu 22: D

- **Trích đoạn:** "You can send your message **straight to people without going through any middlemen.**"
- **Hướng dẫn:** Ưu điểm nổi bật nhất của email marketing theo Olive là tính trực tiếp. Bạn có thể gửi thông điệp thẳng đến mọi người mà "không cần qua bất kỳ người trung gian nào" (without going through any middlemen). "Middlemen" chính là từ đồng nghĩa của "intermediaries" (bên trung gian) trong đáp án D.

Câu 23: G

- **Trích đoạn:** "Well, their biggest strength is they **last longer than most other print media.**"
- **Hướng dẫn:** Sức mạnh lớn nhất của các tạp chí kiến thức chung (general-interest magazines) được Olive đề cập y hệt như đáp án G: chúng tồn tại lâu hơn hầu hết các phương tiện in ấn khác.

Câu 24: A

- **Trích đoạn:** "...what I really want to stress is that a website gives you access to **international markets.**" | Giáo sư Carlson: "Exactly, basically **no limits at all.**"
- **Hướng dẫn:** Trang web giúp doanh nghiệp tiếp cận thị trường quốc tế và Giáo sư Carlson cũng chốt lại là "về cơ bản không có giới hạn nào cả" (no limits at all). Điều này hoàn toàn khớp với đáp án A (không có giới hạn về mặt địa lý - no geographical limitations).

Câu 25: C

- **Trích đoạn:** "...the huge plus is people **can't skip it they have to sit through the ad.**" | Giáo sư Carlson: "Absolutely, they **can't just click away or walk out easily.**"
- **Hướng dẫn:** Đối với quảng cáo tại rạp chiếu phim, khán giả không thể bỏ qua (can't skip) hay dễ dàng bỏ ra ngoài, họ buộc phải ngồi xem hết quảng cáo. Nhóm khán giả bị "buộc phải xem" này trong tiếng Anh gọi là "captive viewers", tương ứng với đáp án C.

Câu 26: F

- **Trích đoạn:** "They're a brilliant way to **make new contacts**, exchange information, even **bump into someone who would be great to work with.**"
- **Hướng dẫn:** Các hội chợ thương mại (trade fairs) là cách tuyệt vời để tạo mối quan hệ mới, trao đổi thông tin và tình cờ gặp được những đối tác tiềm năng. Những hoạt động

này tạo nên các cơ hội mở rộng mạng lưới quan hệ xuất sắc (excellent networking opportunities) ở đáp án F.

Câu 27: B

- **Trích đoạn:** "But the **most important one** is **setting aside a backup fund** to keep campaigns running during a **business downturn**."
- **Hướng dẫn:** Lời khuyên ngân sách quan trọng nhất (most important) mà Olive tâm đắc là dành ra một khoản quỹ dự phòng (backup fund) để duy trì chiến dịch trong thời kỳ kinh doanh sa sút/đi xuống (business downturn). Từ "backup fund" tương ứng với "reserve extra funds", và "business downturn" tương ứng với "business slowdown" ở đáp án B.

Câu 28: C

- **Trích đoạn:** Giáo sư Carlson: "Then it might pull you off track if you go into all that." | Olive: "Yeah, I **don't want to add another thousand words**."
- **Hướng dẫn:** Dù Olive chỉ tập trung vào công ty Mỹ (không phải vì thiếu nguồn tài liệu như ý B), nguyên nhân cốt lõi để cô loại bỏ phần này là vì nghe lời khuyên của giáo sư và việc đào sâu thêm sẽ khiến cô phải "viết thêm một ngàn chữ nữa". Tức là, nó sẽ làm bài tập trở nên quá dài (make the assignment too long - đáp án C).

Câu 29: A

- **Trích đoạn:** Giáo sư Carlson: "Or better still, **show the ad to some clients, watch their reactions...**" | Olive: "Good idea! At the end of the day, **customer feedback matters most**."
- **Hướng dẫn:** Hai thầy trò đồng tình rằng cách tốt nhất để kiểm tra tính hiệu quả của quảng cáo là cho khách hàng xem, quan sát phản ứng của họ, bởi vì chốt lại thì "phản hồi của khách hàng là quan trọng nhất" (customer feedback matters most). Điều này khớp chuẩn với đáp án A (lấy ý kiến phản hồi từ khách hàng).

Câu 30: C

- **Trích đoạn:** "I've got one where the actor has this **squeaky voice that totally clashes with the product**."
- **Hướng dẫn:** Olive định dùng một đoạn video clip trong đó diễn viên có giọng nói the thé/lanh lảnh (squeaky voice) hoàn toàn "không ăn nhập/trái ngược" (clashes) với sản phẩm và khiến người xem khó chịu. "Giọng nói không ăn nhập" này chính là ví dụ điển hình cho "inappropriate voice-over" (lồng tiếng/giọng nói không phù hợp) ở đáp án C. (Giáo sư Carlson cũng bổ sung thêm việc âm nhạc sai lệch làm hỏng thông điệp, củng cố thêm vấn đề về âm thanh/giọng điệu).

Câu 31: oils

- **Trích đoạn:** "...plants release valuable **oils** with proven therapeutic properties. They are now incorporated into a range of **medicines and beauty treatments** worldwide."
- **Hướng dẫn:** Đề bài nhắc đến các thành phần từ thực vật ("plant-based") được dùng trong thuốc và mỹ phẩm ("medicines and cosmetics"). Audio sử dụng cụm tương đương là "medicines and beauty treatments". Từ cần điền là tinh dầu ("oils").

Câu 32: smell

- **Trích đoạn:** "Moreover, the refreshing **smell** of trees and leaves is one of the forest's most powerful features. Many people say it brings an **instant sense of tranquility**."
- **Hướng dẫn:** Đề bài nói điểm đặc trưng của rừng giúp du khách thư giãn ngay lập tức ("relax immediately"). Cụm này bằng nghĩa với "instant sense of tranquility" (cảm giác bình yên ngay tức thì). Điểm đặc trưng đó chính là mùi hương ("smell").

Câu 33: rest (hoặc sleep)

- **Trích đoạn:** "...research shows that walking in forests can enhance **sleep** patterns... which in turn improves the quality of **rest**."
- **Hướng dẫn:** Đề bài yêu cầu điền từ sau cụm "improve the quality of". Trong audio, người nói dùng chính xác cụm "improves the quality of rest" (và trước đó có nhắc đến "enhance sleep patterns"). Bạn điền "rest" hay "sleep" đều được tính là đáp án đúng.

Câu 34: stories

- **Trích đoạn:** "In many regions, woodland areas preserve ancient **stories** that shaped local identity. **Passing them on allows each generation...**"
- **Hướng dẫn:** "Safeguard" (bảo vệ/gìn giữ) tương đương với "preserve" trong audio. Yếu tố dân gian truyền thống ("traditional folk...") ứng với "ancient... that shaped local identity". Việc "truyền qua các thế hệ" ("passed down through generations") được diễn đạt bằng "Passing them on allows each generation". Đáp án là "stories" (những câu chuyện).

Câu 35: magic (hoặc wonder)

- **Trích đoạn:** "What is more, there is a quiet **magic** that lingers among trees and streams... For many, forests are not just physical spaces, but symbolic places of **wonder**..."
- **Hướng dẫn:** Đề bài nhắc đến cảm giác ("a sense of...") mà rừng mang lại. Audio nhắc đến việc rừng có "magic" (sự kỳ diệu) đọng lại, hoặc là nơi mang tính biểu tượng của "wonder" (sự diệu kỳ). Cả "magic" và "wonder" đều đáp ứng trọn vẹn ngữ cảnh của câu hỏi.

Câu 36: tools

- **Trích đoạn:** "...young learners gain valuable experience by handling basic **tools** under supervision. This exposure helps them appreciate both **safety** and craftsmanship."
- **Hướng dẫn:** Đề bài nhắc đến việc dạy trẻ em cách sử dụng cái gì đó một cách an toàn ("safely"). Audio diễn đạt bằng việc trẻ em xử lý các công cụ ("tools") dưới sự giám sát và hiểu được tầm quan trọng của sự an toàn ("appreciate safety"). Từ cần điền là "tools".

Câu 37: insects

- **Trích đoạn:** "Instead of capturing them, children are guided to **notice the movements of various insects.**"
- **Hướng dẫn:** Trong audio, "Observe" (quan sát) bằng nghĩa với "notice the movements of" (chú ý đến chuyển động của). "Without harming them" (không làm hại chúng) tương ứng với "Instead of capturing them" (Thay vì bắt giữ chúng). Đối tượng nhỏ bé trong rừng được quan sát ở đây là côn trùng ("insects").

Câu 38: property

- **Trích đoạn:** "Rural forests may generate **more reliable wealth than metropolitan property.**"
- **Hướng dẫn:** Đề bài dùng từ "outperform" (vượt trội hơn), tương đương với cụm "generate more reliable wealth than" (tạo ra sự cải đáng tin cậy hơn). "Urban" (thuộc về đô thị) bằng nghĩa với "metropolitan". Từ còn thiếu là "property" (bất động sản).

Câu 39: shade

- **Trích đoạn:** "Rows of trees around farmland create natural **shade** that lowers ground temperature. This cooling effect can **reduce the demand for extra watering.**"
- **Hướng dẫn:** "Farm shelterbelts" (vành đai cây chắn gió trên nông trại) được nhắc đến qua cụm "Rows of trees around farmland". Đề bài ghi "provide cooling..." tương đương "create natural shade that lowers ground temperature". Việc giảm nhu cầu tưới tiêu ("cut irrigation needs") ứng với "reduce the demand for extra watering". Đáp án cần điền là bóng râm ("shade").

Câu 40: pollinators

- **Trích đoạn:** "When the **wind is reduced** by planted trees, **pollinators** like bees can work more effectively."
- **Hướng dẫn:** Đề bài nói cây cối giúp giảm tốc độ gió ("reduce wind speed") và cung cấp môi trường tốt hơn cho ai/cái gì. Audio giải thích rằng khi gió được giảm ("wind is reduced"), các loài thụ phấn ("pollinators") như ong có thể làm việc hiệu quả hơn (từ đó mang lại mùa màng tốt hơn). Từ cần điền là "pollinators" (nếu bạn điền "pollination" - sự thụ phấn, giám khảo thường vẫn linh động chấp nhận).

ĐÁP ÁN TEST 7

IELTS**

TRANSCRIPT TEST 7
PART 1

[Speaker 1] [0:00 → 0:05]

The audio and test copyright belong to the Naugh Milk IELTS website.

[Speaker 2] [0:05 → 1:01]

IELTS listening. You will hear a number of different recordings, and you will have to answer questions on what you hear. There will be time for you to read the instructions and questions, and you will have a chance to check your work. All the recordings will be played once only. The test is in four parts. Write all your answers in the listening question booklet. At the end of the test, you will be given ten minutes to transfer your answers to an answer sheet. Now turn to part one on page two of your question booklet. Section one. You'll hear a woman telephoning a pharmacist about a program to help people with medication costs. First, you have some time to look at questions one to six on page two.

[Speaker 2] [1:32 → 1:41]

You will see that there is an example that has been done for you. On this occasion only, the conversation relating to this will be played first.

[Speaker 3] [1:44 → 1:49]

Good morning. Central Pharmacy. Tom speaking. How can I help you? Oh, hello.

[Speaker 4] [1:50 → 2:00]

I've just heard that there's a new government plan to help people with health problems to pay for medication. I wonder if you can tell me anything about it. Yes, certainly.

[Speaker 3] [2:00 → 2:09]

It's to help people buy drugs which have been prescribed by their doctor, and it's called the Prescription Drug Assistance, or the PDA for short.

[Speaker 2] [2:13 → 2:33]

The government has a new plan for medication, so plan has been written in the space. Now we shall begin. You should answer the questions as you listen because you will not hear the recording a second time. Listen carefully and answer questions one to six.

[Speaker 3] [2:37 → 2:42]

Good morning, Central Pharmacy. Tom speaking. How can I help you? Oh, hello.

[Speaker 4] [2:42 → 2:52]

I've just heard that there's a new government plan to help people with health problems to pay for medication. I wonder if you can tell me anything about it. Yes, certainly.

[Speaker 3] [2:53 → 3:00]

It's to help people buy drugs which have been prescribed by their doctor, and it's called the Prescription Drug Assistance,

[Speaker 4] [3:00 → 3:06]

or the PDA for short. Please, can you give me some details? I'm hoping I might qualify.

[Speaker 3] [3:06 → 3:13]

Of course! It's aimed at people who don't have sufficient income to pay for all their drugs themselves.

[Speaker 4] [3:13 → 3:19]

I see. And are all medical conditions and prescriptions covered by this program?

[Speaker 3] [3:20 → 3:27]

No, not exactly. The government has created a list of all the drugs that they'll pay for, and not all drugs are included.

[Speaker 4] [3:28 → 3:36]

Are there any exceptions to this? I mean, is it possible that other drugs might be paid for in certain circumstances?

[Speaker 3] [3:36 → 3:41]

Yes, it's possible, but you'll have to ask your doctor about this. Oh,

[Speaker 4] [3:42 → 3:49]

does the doctor need to obtain permission to include other drugs? That's right. How do I qualify for this?

[Speaker 3] [3:50 → 3:58]

Well, and I'm just looking on the website here, it says that applicants earning less than \$25,000 a year will qualify.

[Speaker 4] [3:58 → 4:11]

Okay, so far so good. My income's well below that level. I heard you have to be a resident of the country, which I am, is that right? Yes, that's a requirement.

[Speaker 3] [4:12 → 4:24]

And again, that's pretty reasonable. Then there's the question of age. If you're a senior, you aren't eligible either, though judging by your voice, I'm sure that doesn't apply to you. Not for a few years yet.

[Speaker 4] [4:24 → 4:33]

But why isn't that age group covered? Because there's a separate plan for them. Oh, I see. Let me think. Is there anything else I should know?

[Speaker 3] [4:34 → 4:47]

Well, the PDA is aimed at people with a permanent job. It doesn't apply if you're unemployed, for instance. Okay. And you can't have any kind of insurance to cover medical costs. Well, that's all right. I haven't got any.

[Speaker 2] [4:51 → 4:58]

Before you hear the rest of the conversation, you have some time to look at questions seven to 10 on page two.

[Speaker 2] [5:18 → 5:21]

Now listen and answer questions seven to 10.

[Speaker 4] [5:24 → 5:30]

Okay. So can you tell me how to go about applying for assistance?

[Speaker 3] [5:30 → 5:58]

This is where it gets very specific. You must provide identification, and it has to include your address where you live at the moment, of course. Sure. As well as that, PDA applicants need to provide some kind of statement from their bank. That's odd. Why does the government want that? Well, the PDA is only for people who have worked for at least two years, and to be sure that's the case, they'll have to check that you've paid tax for that period.

[Speaker 4] [5:58 → 6:01]

Wow. It's pretty complicated.

[Speaker 3] [6:01 → 6:09]

That's for sure. There's quite a lot to take in, so there's a number you can call if you want to get more information and advice on your own situation.

[Speaker 4] [6:10 → 6:12]

Oh, that'd be useful. What's the number?

[Speaker 3] [6:12 → 6:26]

You can call 608-0392. The staff have been fully trained on the PDA, so they're much better qualified than I am to assist you. You've been really helpful.

[Speaker 4] [6:26 → 6:29]

Thank you so much. No problem. Goodbye. Bye.

[Speaker 2] [6:32 → 6:37]

That is the end of section one. You now have half a minute to check your answers.

PART 2

[Speaker 1] [0:00 → 0:03]

Now turn to section two on page three.

[Speaker 1] [0:08 → 0:22]

Section two. You will hear a talk given to a group of tourists by the manager of a beach resort. First, you have some time to look at questions 11 to 17 on page three.

[Speaker 1] [0:57 → 1:01]

Now listen carefully and answer questions 11 to 17.

[Speaker 2] [1:05 → 4:00]

Welcome to Southern Wonders Beach Resort. I hope you had a pleasant journey getting here. And now before you retire to your beachside accommodation, here's a little bit of information about the facilities and the surrounding area. You'll find the cottages are located right on the beach. As you walk into the cottages, on your left, there's a board with practical information about staying in the cottages. If you need any more information, please come and see us at the reception desk. Your membership card will give you free access to all our sporting equipment for snorkeling, tennis, windsurfing, or water skiing. Just see Joe at the boat shed, and he'll fit you out with all the right gear. But remember, if it's water skiing you're after, you'll need to book the night before. For golf enthusiasts, there's our 18 hole course complete with man made lake and waterfall. In addition, if tennis is your game, our coach from The States is on hand to give you personal tuition if you're on the tennis court by 8AM. Now for those of you who are less sports minded but like the idea of a bit of an adventure, a trip to the limestone caves might be just the thing. These caves are extremely old and reveal fossilized remains dating back 35,000 years. I'm sure you'll be impressed by the way nature has created the stalactites and stalagmites over the years. A word of advice though, you'll need to wear a safety helmet and some sensible shoes in order to go down into the caves, and it gets quite cold and damp down there. Helmets are issued when you buy a ticket, so you just need to remember to bring some safe, sturdy shoes. A sweatshirt might also be a good idea. As I said, it can get a little chilly inside the caves. For a family outing, the wildlife park attached to the resort is highly recommended. This is a place where all the family can enjoy the native flora and fauna close-up. Little kids always love the animal feeding times, and they will have the chance to actually feed them themselves. The red kangaroo, which as you probably know is the largest of the marsupials, is actually taller than a person, and he's capable of leaping 30 feet. That's about 10 meters in one single bound, so watch out. The park also includes a crocodile farm. It's one of the few places in the Southern Hemisphere where you can have your photo taken with a crocodile. Well, near a crocodile anyway because the crocs are on the other side of the fence. Charlie, the biggest of the crocodiles, is well over 50 years old. They can live to a ripe old age.

[Speaker 1] [4:03 → 4:10]

Before you hear the rest of the talk, you have some time to look at questions 18 to 20 on page four.

[Speaker 1] [4:26 → 4:29]

Now listen and answer questions 18 to 20.

[Speaker 2] [4:33 → 5:36]

Finally, for the ultimate in relaxation, we do recommend you take a trip to the hills of the inland region to visit one of the farms or orchards. These farms provide 10% of Western Australia's primary exports, and because of the favorable geographical conditions and the talents of the farmers, they've become extremely successful in both the tourist and primary industries. Most farms extend hospitality to visitors by offering light meals and lunches, and if you like, you can go on a tour of a cider or cheese factory. That's always a very popular trip. And a local arts and craft industry has also sprung up, with some exhibitions being held in quite unusual environments. You might like to buy some of the pottery or items made from local wood. I'm sure you'd find they make a wonderful present for your friends back home. So don't forget, come and see us at reception if you need any more information about the tours. That's all I want to say at this stage.

[Speaker 1] [5:39 → 5:45]

That is the end of section two. You now have half a minute to check your answers.

PART 3

[Speaker 1] [0:00 → 0:03]

Now turn to section three on page five.

[Speaker 1] [0:08 → 0:27]

Section three. You will hear two business study students called Lindsey and Ben discussing their internships in which they worked for companies as part of their course. First, you have some time to look at questions 21 to 25 on page five.

[Speaker 1] [1:02 → 1:07]

Now listen carefully and answer questions 21 to 25.

[Speaker 2] [1:10 → 1:14]

Hi, Ben. I have so much to tell you. Me too.

[Speaker 3] [1:15 → 1:22]

How did your internship go? It was brilliant. I worked in a big department store. I thought you were going into your family business.

[Speaker 2] [1:23 → 1:47]

I decided I'd learn more in a company where I wasn't the boss's daughter, so I went to this store in my hometown. When I was in high school, I was a sales assistant there for a couple of summers, and I still knew some people there, so it was easy to set up. Our professor recommended working in a manufacturing company, and I contacted a couple of firms,

[Speaker 3] [1:48 → 1:53]

but it came to nothing. And did you learn much that helped with our classes? Sure.

[Speaker 2] [1:53 → 2:03]

There was a big problem while I was working there. Do you remember a massive advertising campaign for a new brand of sunglasses a few weeks ago?

[Speaker 3] [2:03 → 2:03]

Yeah.

[Speaker 2] [2:04 → 2:32]

Well, sales rocketed and we ran out. Customers started complaining and I was asked to track down a supply. I had to call around the manufacturers and wholesalers until I could find a batch. I managed to find a local one, then we had to pay them up front as they weren't our usual supplier. But my boss was pretty pleased with me. We were only out of stock for a few hours in the end. Great.

[Speaker 3] [2:33 → 2:35]

So what was the best thing about your internship?

[Speaker 2] [2:35 → 2:43]

For one thing, my coworkers were very helpful. I learned a lot from them. Mine were friendly enough,

[Speaker 3] [2:43 → 2:55]

but I wouldn't say I picked up much from them. The only good thing about it was having to deal with issues that came up. Classes just don't prepare you for a lot of them. Yeah, that's true.

[Speaker 2] [2:55 → 3:01]

Like the fact that sometimes you have to do two or three things at the same time because they're all urgent.

[Speaker 3] [3:01 → 3:02]

That's right.

[Speaker 2] [3:03 → 3:09]

Anyway, how was your internship, Ben? You were with a garden furniture manufacturer,

[Speaker 3] [3:09 → 3:41]

weren't you? That's right. My experience wasn't very good though. When I had an interview there a few months ago, they said I'd spend time in every section and sit in on meetings with clients, but hardly any of that happened. I was expected to spend most of my time filing papers and getting coffee for the managers. I was really annoyed. It wasn't even as though everyone was too busy to get their own coffee. That's awful. Yeah. Still, I got on okay with the other people there, so it wasn't as bad as it might have been.

[Speaker 2] [3:41 → 3:49]

I think the college should make sure students are placed in suitable companies for internships. Don't you?

[Speaker 3] [3:49 → 4:07]

Well, I like the current system where we arrange the internship ourselves, and then the college comes in and formalizes the arrangement. But they need to spell out the purpose of the internship and send the companies a list of their responsibilities. Too many businesses just think of us as free labor. Yes.

[Speaker 2] [4:08 → 4:17]

And it would be helpful if we had a couple of classes where we can learn about the company. Oh, I think it's easy enough to research that on the Internet. Maybe.

[Speaker 1] [4:21 → 4:28]

Before you hear the rest of the discussion, you have some time to look at questions 26 to 30 on page six.

[Speaker 1] [4:53 → 4:57]

Now listen and answer questions 26 to 30.

[Speaker 2] [5:00 → 5:15]

Are you going to do anything about your internship, Ben? You wouldn't want anyone going to the same company next year and having a similar experience, would you? No. Were you the first intern they had from this college?

[Speaker 3] [5:15 → 5:21]

No. There's someone in the year above us who was there. I should have asked her about it before I went.

[Speaker 2] [5:21 → 5:32]

Well, I think the first step is to talk to her. Then you need to make some notes and discuss the problem with the professor. He can advise you whether or not to take it any further.

[Speaker 3] [5:32 → 5:40]

If I decide to take it further, I think I should then contact the company itself and find out if they have any feedback about my internship.

[Speaker 2] [5:40 → 5:44]

Yes. There may be a valid reason why it was so poor.

[Speaker 3] [5:45 → 5:48]

Maybe it makes more sense to write to the chief executive.

[Speaker 2] [5:48 → 5:56]

I wouldn't make it too formal at this stage. If the college makes a complaint, they'll write to the chief executive. I don't think you should.

[Speaker 3] [5:57 → 6:03]

Okay. So the person I had most contact with, my line manager? That would be better.

[Speaker 2] [6:03 → 6:12]

But if you're still not satisfied, contact whoever it is in the college who's in charge of our internships. It's the head of the department, isn't it?

[Speaker 3] [6:12 → 6:20]

It was, but the college appointed an internship program organizer last fall. I've got their name on some paperwork somewhere.

[Speaker 2] [6:21 → 6:26]

One other thing you might want to do after that is check the law on internships.

[Speaker 3] [6:26 → 6:30]

I'll talk to one of the college's student advisers in the department.

[Speaker 2] [6:30 → 6:35]

She takes one of the same classes as me. Okay. Let's hope there isn't any trouble with that.

[Speaker 1] [6:39 → 6:44]

That is the end of section three. You now have half a minute to check your answers.

PART 4

[Speaker 1] [0:00 → 0:06]

Part four. First, you have some time to look at questions 31 to 40.

[Speaker 1] [0:46 → 5:16]

Good morning, everyone. Today's lecture is about the arrival and growing influence of an unusual crab species in northern waters. I'll begin with some general observations before moving into behavior, impacts, and long term management. To start, local fishermen say the creature has started showing up in spots where it was never recorded before. Tracking devices placed on several individuals revealed they originally traveled from an area located further south, although the reasons for leaving that region are still debated. Some oceanographers believe changes in water layers may have encouraged this new movement. Along with the shift in location, one worrying trend is the noticeable drop in octopuses, which disappear quickly whenever the crab population increases. Dive groups have reported fewer sightings on their usual routes, even in places that used to be reliable. Guides say visitors often ask why these clever animals are becoming harder to spot. Moving on, people who work at the harbor sometimes find discarded pieces of its shell, usually washed up after storms. These fragments feel surprisingly dense when handled, much heavier than most expect. The texture is so rugged that some compare it to building material rather than something from a living creature. In addition to this, younger crabs tend to remain in shallow inlets because these places offer hiding spots from larger predators. Seaweed clusters and rock edges create small pockets where they can rest safely. Only after they grow stronger do they begin moving toward deeper channels. When we look at their movement patterns, in some northern villages, people have noticed long tracks along the water's edge after large groups have passed through. These patterns often appear on exposed coastlines, especially in places where tides are strong. Photographers sometimes wait for these rare gatherings to capture unusual images. As the year progresses during the colder months, local crews often change their work routines because the animals become harder to find. As winter approaches, the crabs usually shift into darker, deeper waters where conditions are more stable. This movement makes it challenging for researchers to continue monitoring them. Now in terms of human activity, a number of crews mentioned that certain items on board have been causing unexpected delays during routine work. One recurring issue involves the nets, which often return in a condition that requires extra time to sort out. Because of this, some teams have begun experimenting with new equipment to avoid interruptions. At the same time, several groups in the area have been debating how recent changes in the sea might influence different activities onshore. Some believe these shifts could eventually reach the wider economy, though no one agrees on what that outcome might look like. A few remain optimistic, suggesting that unexpected benefits could appear over time. Finally, documents from decades ago describe a carefully organized operation that introduced the species into unfamiliar waters. According to those notes, a group of engineers handled the practical side of the initiative during its early stages. The long term effects of their involvement were not considered at the time. In recent years, several research groups have reviewed new data about how the species is spreading. A number of scientists argue that some surrounding habitats may struggle if certain trends

continue. Others think the situation can be stabilized with consistent monitoring and periodic adjustments. That concludes today's talk. Thank you for listening.

[Speaker 1] [5:21 → 5:28]

That is the end of part four. You now have one minute to check your answers to part four.

Câu 1: permission

- Trích đoạn: "Oh, does the doctor need to obtain **permission** to include other drugs? That's right."
- Hướng dẫn: Khách hàng hỏi liệu các loại thuốc nằm ngoài danh sách có được chi trả trong trường hợp ngoại lệ không. Người dược sĩ xác nhận là có thể, nhưng bác sĩ sẽ cần phải xin phép (permission) để đưa thêm các loại thuốc đó vào.

Câu 2: 25,000 / 25000

- Trích đoạn: "...it says that applicants earning less than **\$25,000** a year will qualify."
- Hướng dẫn: Dược sĩ đọc thông tin trên website và cho biết những ứng viên có thu nhập dưới (less than / under) \$25,000 một năm sẽ đủ điều kiện. Dấu \$ đã có sẵn trên đề bài nên bạn chỉ cần điền số.

Câu 3: resident

- Trích đoạn: "I heard you have to be a **resident** of the country, which I am, Is that right? Yes, that's a requirement."
- Hướng dẫn: Người phụ nữ hỏi xác nhận thông tin rằng người nộp đơn phải là cư dân (resident) của quốc gia, và người dược sĩ khẳng định đó là một yêu cầu bắt buộc.

Câu 4: senior

- Trích đoạn: "If you're a **senior**, you aren't eligible either... Because there's a separate plan for them."
- Hướng dẫn: Về độ tuổi, dược sĩ giải thích rằng nếu bạn là người cao tuổi (senior) thì sẽ không đủ điều kiện tham gia chương trình này, lý do là vì đã có một chương trình riêng biệt (separate plan) dành cho nhóm tuổi đó.

Câu 5: permanent

- Trích đoạn: "Well, the PDA is aimed at people with a **permanent** job."
- Hướng dẫn: Dược sĩ cung cấp thêm thông tin rằng chương trình PDA này hướng tới những người có công việc ổn định/lâu dài (permanent job), không áp dụng cho người thất nghiệp.

Câu 6: insurance

- Trích đoạn: "And you can't have any kind of **insurance** to cover medical costs."
- Hướng dẫn: Yêu cầu tiếp theo là người tham gia không được có bất kỳ loại bảo hiểm (insurance) nào để chi trả cho các chi phí y tế (tương đương với cụm "health insurance" trong đề).

Câu 7: address

- Trích đoạn: "You must provide identification, and it has to include your **address** where you live at the moment, of course."
- Hướng dẫn: Về giấy tờ tùy thân (identification), được sĩ nhấn mạnh rằng nó bắt buộc phải hiển thị địa chỉ (address) nơi người nộp đơn hiện đang sinh sống.

Câu 8: bank

- Trích đoạn: "As well as that, PDA applicants need to provide some kind of statement from their **bank**."
- Hướng dẫn: Chuyển sang loại giấy tờ thứ hai, người nộp đơn cần cung cấp một bản sao kê từ ngân hàng (bank) của họ (trong đề viết là "document" thay cho "statement").

Câu 9: tax

- Trích đoạn: "...and to be sure that's the case, they'll have to check that you've paid **tax** for that period."
- Hướng dẫn: Khách hàng thắc mắc tại sao lại cần sao kê ngân hàng. Được sĩ giải thích rằng việc này là để chính phủ kiểm tra xem người nộp đơn đã đóng thuế (tax) đầy đủ trong thời gian làm việc chưa ("up to date" tương đương với việc đã thanh toán đầy đủ các khoản thuế).

Câu 10: 608-0392 / 6080392

- Trích đoạn: "You can call **608-0392**."
- Hướng dẫn: Cuối cùng, được sĩ cung cấp một số điện thoại để khách hàng có thể gọi đến nhận thêm thông tin. Đây là dạng câu hỏi chép chính tả số cơ bản, bạn chỉ cần nghe và ghi chép lại chính xác.

Câu 11

- **Đáp án: B**
- **Hướng dẫn:** Người nói cho biết ngay khi bạn bước vào bên trong các căn nhà nghỉ (cottages), bạn sẽ thấy một tấm bảng thông tin nằm ở bên tay trái.
- **Trích đoạn:** "As you walk **into the cottages**, on your left, there's a **board with practical information**..."

Câu 12

- **Đáp án: B**
- **Hướng dẫn:** Audio nhấn mạnh rằng dù bạn được dùng miễn phí các thiết bị thể thao, nhưng riêng với môn trượt nước (water skiing), bạn bắt buộc phải đặt trước từ tối hôm trước.

- **Trích đoạn:** "But remember, if it's **water skiing** you're after, you'll need to **book the night before**."

Câu 13

- **Đáp án:** C
- **Hướng dẫn:** Người nói khuyên nên đội mũ bảo hiểm và đi giày phù hợp khi xuống hang. Mũ bảo hiểm sẽ được phát (issued) ngay khi bạn mua vé, còn giày thì bạn phải tự mang theo.
- **Trích đoạn:** "**Helmets are issued when you buy a ticket**, so you just need to remember to bring some safe, sturdy shoes."

Câu 14

- **Đáp án:** a family outing
- **Hướng dẫn:** Công viên động vật hoang dã được đặc biệt giới thiệu như một điểm đến lý tưởng cho chuyến dã ngoại của cả gia đình.
- **Trích đoạn:** "For **a family outing**, the wildlife park attached to the resort is **highly recommended**."

Câu 15

- **Đáp án:** feed
- **Hướng dẫn:** Trẻ em rất thích những giờ cho ăn, và các bé sẽ có cơ hội được tự tay cho các con vật ăn.
- **Trích đoạn:** "Little kids always love the animal feeding times, and they will have the chance to actually **feed them** themselves."

Câu 16

- **Đáp án:** a person
- **Hướng dẫn:** Chuột túi đỏ (Red Kangaroo) là loài thú có túi lớn nhất và thực tế nó còn cao hơn/lớn hơn cả một người bình thường.
- **Trích đoạn:** "The red kangaroo... is actually **taller than a person**..."

Câu 17

- **Đáp án:** 50 years
- **Hướng dẫn:** Charlie, con cá sấu lớn nhất ở đây, đã hơn 50 tuổi. Điều này đồng nghĩa với việc cá sấu có thể sống ít nhất là chừng đó thời gian. Chú ý yêu cầu giới hạn của đề bài là "NO MORE THAN THREE WORDS AND/OR A NUMBER".
- **Trích đoạn:** "Charlie, the biggest of the crocodiles, is **well over 50 years** old."

Câu 18, 19, 20

- **Đáp án:** B, C, E (*Lưu ý: Có thể điền đảo lộn thứ tự các đáp án này*)
- **Hướng dẫn:** Khi vào khu vực đồi núi nội địa (inland region), du khách có thể trải nghiệm 3 hoạt động: thưởng thức các bữa ăn nhẹ ở nông trại (đáp án B - light meals tương đương light refreshments), tham quan nhà máy sản xuất phô mai hoặc rượu táo (đáp án C - tour of a cheese factory tương đương observe cheese production), và mua các món đồ gỗ gồm sứ hay đồ gỗ thủ công về làm quà (đáp án E - buy a wonderful present tương đương buy a souvenir).
- **Trích đoạn:** * (B): "...offering **light meals** and lunches..."
 - (C): "...you can go on a tour of a cider or **cheese factory**."
 - (E): "You might like to **buy some of the pottery or items made from local wood**... they make a wonderful **present** for your friends..."

Câu 21: B

- **Trích đoạn:** "When I was in high school, I was a sales assistant there for a couple of summers, and I still **knew some people there**, so it was easy to set up."
- **Hướng dẫn:** Lindsey không chọn công ty gia đình (bác bỏ C) và cũng không chọn công ty do giáo sư giới thiệu (bác bỏ A). Lý do cô thực tập ở cửa hàng bách hóa là vì cô từng làm việc ở đó và "vẫn quen biết một vài người ở đó" (knew some people there). Điều này khớp với đáp án B (cô ấy có các mối quan hệ/người quen trong công ty - had contacts).

Câu 22: A

- **Trích đoạn:** "Well, sales rocketed and **we ran out**."
- **Hướng dẫn:** Doanh số bán kính rậm tăng vọt dẫn đến việc cửa hàng bị hết hàng ("ran out"). "Ran out" đồng nghĩa với sự thiếu hụt hàng tồn kho ("shortage of stock" - đáp án A).

Câu 23: C

- **Trích đoạn:** Ben: "The only good thing about it was having to **deal with issues** that came up. **Classes just don't prepare you** for a lot of them." | Lindsey: "**Yeah, that's true**."
- **Hướng dẫn:** Cả hai đồng tình rằng điều hữu ích nhất là phải giải quyết những vấn đề phát sinh thực tế mà các lớp học không hề trang bị trước cho họ. Điều này khớp chính xác với đáp án C (đối mặt với những thử thách không được giải quyết trong lớp học).

Câu 24: A

- **Trích đoạn:** "When I had an interview there a few months ago, **they said I'd spend time in every section** and sit in on meetings with clients, but **hardly any of that happened**."
- **Hướng dẫn:** Ben thất vọng vì lúc phỏng vấn công ty đã hứa hẹn sẽ cho anh trải nghiệm ở mọi bộ phận, nhưng thực tế hầu như không có điều đó xảy ra (hardly any of that happened). Tương ứng với đáp án A (công ty đã không giữ lời hứa với anh ấy). Việc rút

cà phê chỉ là chi tiết anh phải làm thay vì được làm việc đúng chuyên môn, chứ không phải vì họ không thân thiện hay không rảnh giúp đỡ (bác bỏ B, C).

Câu 25: A

- **Trích đoạn:** Ben: "But they need to spell out the purpose of the internship and **send the companies a list of their responsibilities.**" | Lindsey: "Yes."
- **Hướng dẫn:** Ben đề xuất rằng trường cần gửi cho các công ty danh sách trách nhiệm của chính họ đối với sinh viên thực tập, để tránh việc sinh viên bị coi là lao động miễn phí. Lindsey đồng tình ("Yes"). Điều này tương ứng với đáp án A (làm cho các công ty nhận thức được vai trò của chính họ).

Câu 26: E

- **Trích đoạn:** Ben: "There's **someone in the year above us who was there.**" | Lindsey: "Well, I think the first step is to **talk to her.**"
- **Hướng dẫn:** Lindsey khuyên bước đầu tiên Ben cần làm là nói chuyện với một người học khóa trên từng thực tập ở cùng công ty đó. "Người từng thực tập trước đó" chính là "previous intern".

Câu 27: G

- **Trích đoạn:** "Then you need to make some notes and discuss the problem with the **professor.**"
- **Hướng dẫn:** Bước tiếp theo, Lindsey khuyên Ben nên trình bày vấn đề với "giáo sư" (professor).

Câu 28: D

- **Trích đoạn:** Ben: "Okay. So the person I had most contact with, my **line manager?**" | Lindsey: "That would be better."
- **Hướng dẫn:** Ben đề xuất viết thư cho giám đốc điều hành (chief executive) nhưng Lindsey ngăn cản vì không nên làm quá trang trọng lúc này. Sau đó Ben chốt lại sẽ liên hệ với người quản lý trực tiếp của mình ("line manager"), và Lindsey đồng ý.

Câu 29: C

- **Trích đoạn:** Lindsey: "But if you're still not satisfied, contact whoever it is in the college who's in charge of our internships..." | Ben: "It was, but the college appointed an **internship program organizer** last fall."
- **Hướng dẫn:** Lindsey gợi ý liên hệ với trưởng khoa (head of department), nhưng Ben đính chính lại rằng từ mùa thu năm ngoái trường đã bổ nhiệm một vị trí mới là "người tổ chức chương trình thực tập" (internship program organizer).

Câu 30: F

- **Trích đoạn:** "I'll talk to one of the college's **student advisers** in the department."
- **Hướng dẫn:** Bước cuối cùng để hỏi thông tin về luật thực tập, Ben sẽ nói chuyện với "cố vấn sinh viên" (student advisor).

Câu 31: south

- **Trích đoạn:** "...revealed they originally traveled from an area located further **south**..."
- **Hướng dẫn:** Đề bài nói "from the far" (từ xa...). Audio đề cập đến việc những thiết bị theo dõi cho thấy chúng ban đầu di chuyển từ một khu vực nằm xa hơn về phía nam ("further south"). Từ cần điền là "south".

Câu 32: octopuses

- **Trích đoạn:** "...one worrying trend is the noticeable drop in **octopuses**, which disappear quickly whenever the crab population increases."
- **Hướng dẫn:** Đề bài nhắc đến các loài sinh vật biển địa phương bị đe dọa ("threatens local marine species such as..."). Audio nói về một xu hướng đáng lo ngại là sự sụt giảm đáng chú ý của loài bạch tuộc ("octopuses") khi quần thể cua tăng lên.

Câu 33: shell

- **Trích đoạn:** "...people who work at the harbor sometimes find discarded pieces of its **shell**, usually washed up after storms."
- **Hướng dẫn:** Đề bài đề cập đến một đặc điểm vật lý (thứ gì đó màu đỏ sẫm phát triển sau vài lần lột xác). Trong audio, phần này được paraphrase lại thành việc người ta tìm thấy những mảnh vỏ ("shell") của chúng rụng ra/bị vứt bỏ ("discarded pieces") dạt vào bờ. Từ phù hợp duy nhất là "shell".

Câu 34: shallow

- **Trích đoạn:** "...younger crabs tend to remain in **shallow** inlets because these places offer hiding spots from larger predators."
- **Hướng dẫn:** Đề bài dùng từ "Juvenile crabs" (cua non), tương đương với "younger crabs" trong audio. Nơi chúng ở lại có ít động vật săn mồi hơn ("predators are fewer" = "hiding spots from larger predators"). Đó là những vùng nước/vịnh nông ("shallow inlets"). Từ cần điền là "shallow".

Câu 35: coastlines

- **Trích đoạn:** "...people have noticed long tracks along the water's edge after large groups have passed through. These patterns often appear on exposed **coastlines**..."

- **Hướng dẫn:** Đề bài nhắc đến những dải/đoạn dài của cái gì đó ("long stretches of...") bị tác động khi chúng đi theo đàn lớn ("large groups"). Audio miêu tả chúng để lại những vệt dài ("long tracks") dọc theo mép nước trên các đường bờ biển ("coastlines").

Câu 36: winter

- **Trích đoạn:** "As **winter** approaches, the crabs usually shift into darker, deeper waters..."
- **Hướng dẫn:** Đề bài hỏi trong suốt thời gian nào ("During...") chúng có xu hướng di chuyển vào vùng nước sâu hơn ("move into deeper water"). Audio chỉ ra rằng khi mùa đông ("winter") đến gần, chúng chuyển sang vùng nước tối và sâu hơn ("shift into darker, deeper waters").

Câu 37: nets

- **Trích đoạn:** "One recurring issue involves the **nets**, which often return in a condition that requires extra time to sort out."
- **Hướng dẫn:** Đề bài nói ngư dân phàn nàn cái gì của họ thường xuyên bị hỏng ("frequently damaged"). Audio nhắc đến một vấn đề lặp đi lặp lại cản trở công việc của các đội tàu, đó là những tấm lưới ("nets") thường xuyên bị rối hoặc hỏng cần nhiều thời gian để xử lý.

Câu 38: economy

- **Trích đoạn:** "Some believe these shifts could eventually reach the wider **economy**, though no one agrees on what that outcome might look like."
- **Hướng dẫn:** Đề bài nhắc đến việc một số cộng đồng lo ngại ("concerned about") về tác động lên cái gì đó ở địa phương của họ ("local..."). Audio diễn đạt bằng việc một số người tin những thay đổi này có thể lan rộng và ảnh hưởng đến nền kinh tế ("economy").

Câu 39: engineers

- **Trích đoạn:** "According to those notes, a group of **engineers** handled the practical side of the initiative..."
- **Hướng dẫn:** Đề bài nói ai đó thuộc Liên Xô ("Soviet...") vào những năm 1960 đã cố tình mang loài cua này tới. Audio không dùng lại mốc thời gian này mà dùng cụm "documents from decades ago" (tài liệu từ nhiều thập kỷ trước), và nhắc đến việc một nhóm kỹ sư ("engineers") đã thực hiện dự án này.

Câu 40: scientists

- **Trích đoạn:** "A number of **scientists** argue that some surrounding habitats may struggle if certain trends continue."
- **Hướng dẫn:** Đề bài ghi các nhà gì đó về môi trường ("environmental...") cảnh báo tác động sinh thái có thể lớn hơn dự kiến. Audio dùng cụm "argue that some surrounding

habitats may struggle" để thể hiện sự lo ngại/cảnh báo này, và đối tượng đưa ra nhận định là các nhà khoa học ("scientists").

IELTS**

TRANSCRIPT TEST 8
PART 1

[Speaker 1] [0:00 → 0:05]

The audio and test copyright belong to the Naugh Milk IELTS website.

[Speaker 2] [0:05 → 0:56]

IELTS listening. You will hear a number of different recordings, and you will have to answer questions on what you hear. There will be time for you to read the instructions and questions, and you will have a chance to check your work. All the recordings will be played once only. The test is in four parts. Write all your answers in the listening question booklet. At the end of the test, you will be given ten minutes to transfer your answers to an answer sheet. Now turn to part one on page two of your question booklet. Part one. You hear a conversation about recycling and garbage collection services. First, you have some time to look at questions one to five.

[Speaker 2] [1:19 → 1:21]

Listen and answer questions one to five.

[Speaker 3] [1:22 → 1:33]

Hello. I recently moved into a new house in Avondale, and I'm trying to get a handle on the garbage collection and recycling services. Could you help me with that?

[Speaker 4] [1:34 → 1:55]

Certainly. We've recently adjusted our schedule to better meet community needs. While our collection in Avondale used to be on Thursdays, we've shifted to Tuesdays due to popular demand. We recommend setting out your garbage at the designated collection sites the night before to ensure timely pickup.

[Speaker 3] [1:56 → 2:01]

That's helpful. Thanks. What time should I expect the collection truck on that date?

[Speaker 4] [2:02 → 2:16]

Our trucks are scheduled to arrive and begin collection at 08:15AM. This timing helps avoid the rush hour, usually between 06:30AM and 07:30AM, and ensures that the roads are less congested.

[Speaker 3] [2:17 → 2:26]

That sounds well planned. I have an old TV that I need to dispose of. Do you recycle electronics?

[Speaker 4] [2:26 → 2:50]

Currently, we do not have the facilities to safely recycle electronic appliances like TVs. These items require special handling due to their components and materials. I recommend checking with local electronic stores or municipal waste facilities. They often offer electronics recycling programs.

[Speaker 3] [2:50 → 2:56]

Okay. I understand. Do you offer door to door garbage collection services?

[Speaker 4] [2:57 → 3:16]

Unfortunately, due to our current staffing challenges, we cannot provide door to door service. However, all major garbage collection sites are clearly marked on the map available on our website. This should help you locate the nearest disposal point conveniently.

[Speaker 3] [3:17 → 3:24]

Got it. Are there specific preparations we should make with our recycling to assist in the process?

[Speaker 4] [3:26 → 3:45]

Yes, actually. We highly recommend using the special waste sorting bags that are available for purchase at local grocery stores. These bags are designed to keep different types of recyclable materials separated, which greatly facilitates the recycling process at our facilities.

[Speaker 2] [3:45 → 3:52]

Before you hear the rest of the conversation, you have some time to look at questions six to 10.

[Speaker 2] [4:14 → 4:17]

Listen and answer questions six to 10.

[Speaker 3] [4:17 → 4:24]

That's a great initiative. What more can families do to improve the recycling process at home?

[Speaker 4] [4:25 → 4:45]

One of the most effective things families can do is to start by properly sorting their rubbish into categories such as plastics, metals, paper, and organics. This not only helps in reducing the contamination of recyclables, but also improves the efficiency of the recycling process.

[Speaker 3] [4:46 → 4:55]

That makes sense. For recyclables like cans, bottles, and glass, are there specific preparations we should follow?

[Speaker 4] [4:56 → 5:14]

Absolutely. Please ensure to remove any labels and rinse the bottles and cans before placing them in the recycling bin. This reduces contamination and the cost of recycling, and it ensures that more materials can be successfully reclaimed and reused.

[Speaker 3] [5:15 → 5:18]

Should I empty juice bottles that still contain liquids?

[Speaker 4] [5:19 → 5:40]

Yes. Please empty any containers of their contents before disposal. Liquids can damage the recyclable materials and may complicate the recycling process. Ensuring containers are empty also helps in reducing the weight of the recyclables, which lowers transportation costs.

[Speaker 3] [5:40 → 5:44]

And how should I handle paper products like pizza boxes?

[Speaker 4] [5:45 → 6:13]

Paper products can often be recycled, but please make sure they are free from food residue. Food contamination can render paper products nonrecyclable as it often leads to mold, which complicates the pulping process. Additionally, regarding egg cartons and similar items, please separate them from other paper recyclables because they are made from different materials that need to be processed separately.

[Speaker 3] [6:13 → 6:24]

That's very informative. Thank you for all your guidance. I'll definitely follow these instructions to help make the recycling process more effective.

[Speaker 4] [6:25 → 6:28]

You're very welcome. That's the end of part one.

[Speaker 2] [6:29 → 6:31]

You now have half a minute to check your answers.

PART 2

[Speaker 1] [0:00 → 0:16]

Part two. You will hear a trainer called Janice from an organization which provides relaxation classes talking to a group of employees at a company. First, you have some time to look at questions 11 to 15.

[Speaker 1] [0:41 → 0:46]

Now listen carefully and answer questions 11 to 15.

[Speaker 2] [0:49 → 3:21]

My name's Janice Martin, and I'm here to tell you about the relaxation programs we are going to offer staff at your company and what the benefits might be for you. First, a bit of background about who we are and what we offer. Many companies, large and small, are now offering relaxation programs for staff at all levels. Our first client was Cooper's, the multinational finance company. To begin with, we were called in by the chief executive to run programs for directors who were dealing with a particularly stressful time for the business, and it proved so popular that sometime later, we started running classes open to all employees. I expect you've all heard of Audiovac. With this company, it wasn't a decision from the top that resulted in running relaxation classes, but a few admin staff, mostly women, who thought it would be a good idea. I understand that some of them have found it so beneficial that they've organized relaxation classes in their children's schools. A different option, which we've been running for Duke hotels, is relaxation weekends. These are held at one of their hotels every month. The great thing about this scheme is that staff can bring their husbands or wives and children. Duke Hotels also offer this service for business clients who want to combine relaxation with training weekends for their staff at all levels in the company. We also run a range of courses for staff at First Bank. There are relaxation only groups, which are attended mainly by people in their forties and fifties, and more energetic yoga sessions for the physically fit. We're also considering holding yoga sessions, which we'll make sure appeal to both male and female members of staff. You may be surprised to hear that Carlton Football Club is another of our clients. We've had a contract to provide weekly sessions for the team for the last four years, and we've developed special techniques which the coaches can build into the footballer's daily training regime. They seem to find this really helpful.

[Speaker 1] [3:24 → 3:30]

Before you hear the rest of the talk, you have some time to look at questions 16 to 20.

[Speaker 1] [4:05 → 4:09]

Now listen and answer questions 16 to 20.

[Speaker 2] [4:12 → 6:48]

Now I'm sure you're all aware that relaxation practice, which usually includes both meditation and yoga, helps with stress reduction. But there are lots of other benefits too. For example, it's been found that it leads to an increase in the productivity of managers. The majority find they now focus on one thing at a time and don't allow themselves to get distracted by emails or phone calls if they're in a meeting working on a team project. We've also found that managers get better at making decisions as a direct result of learning how to control the mind during relaxation exercises. And this continues to increase with practice. As people get better at meditating, they're able to see things from other people's point of view more easily, and so benefit from advice they

might have ignored before when taking important decisions. One thing I've been frequently told by people I train is that relationships with colleagues who are also doing relaxation classes improve over time. I don't know if that's got anything to do with becoming a calmer, less aggressive person, But what I do know is that if people have got something more to talk about than just work, real friendships can develop no matter what job people are doing. So I hope I've persuaded you to come and try classes which start next week. To start with, we'll be doing sessions on Tuesdays, repeated on Fridays, both during the lunch break, and depending how it goes, we may introduce after work sessions later in the year. If large numbers of people are interested, we may eventually need to increase the number of sessions further as we avoid having too many in a group. Each session will contain both meditation and a bit of gentle yoga, nothing too energetic. You won't need to buy any special equipment for these sessions. The mats will be provided, and we'll be doing a lot of exercises sitting on chairs. You won't need to wear special sports clothes, but as your body temperature drops during meditation, you should wear something warm. So has anyone got any questions?

[Speaker 1] [6:52 → 6:58]

That is the end of part two. You now have thirty seconds to check your answers to part two.

PART 3

[Speaker 1] [0:00 → 0:14]

Part three. You will hear two students named Amy and Mike discussing Maori carvings. First, you have some time to look at questions 21 to 25.

[Speaker 1] [0:39 → 0:44]

Now listen carefully and answer questions 21 to 25.

[Speaker 2] [0:46 → 0:52]

Hi Mike, aren't these New Zealand carvings we've been studying in class fascinating?

[Speaker 3] [0:52 → 1:08]

Oh hi Amy, oh the Maori greenstone tikis, They're all a bit organic for my taste. You know, all curves and twisting shapes. I like modern stuff, geometric shapes, but I can see the skill involved in making them.

[Speaker 2] [1:09 → 1:29]

But the stories behind the tikis are what make them interesting. Besides, I imagine it would be difficult to create geometric patterns. The shape of each tiki seems to follow the natural contours of the stone. It's extremely hard, and it requires expertise and time to shape. That's

[Speaker 3] [1:29 → 1:48]

true. I suppose that's why modern greenstone carvings are so expensive, but there aren't that many genuine old ones around. Archaeologists rarely discover such treasures, which is odd given they are such a huge part of Maori culture. I wonder if archaeological

[Speaker 2] [1:48 → 2:05]

dig sites were raided and the tikis were taken to sell. I believe it's because the owners valued them, and so preserved them. Many of them would have been passed down through the generations and remain in the possession of the families today, like heirlooms.

[Speaker 3] [2:06 → 2:25]

Do you know what they were used for? I thought they were just an art form or a means of decoration, but Professor Maitou says that the Maori believed tikis were sacred and could be used as a pathway to their ancestors. They believed the dead could speak to them through these talismans.

[Speaker 2] [2:25 → 2:35]

So they don't represent tribes or anything? Interesting. How many different kinds are there? There must be hundreds of variations.

[Speaker 3] [2:35 → 2:47]

There are other greenstone carvings beside tikis, although I can't remember all their names. Traditional tikis themselves can be divided into two distinct groups, though.

[Speaker 2] [2:47 → 2:56]

Can they, by the materials? I've seen some with metal features. Or is it to do with size, or where they were made?

[Speaker 3] [2:57 → 3:02]

Actually, it is the ways that their feet, heads and hands are placed that make the major difference.

[Speaker 2] [3:03 → 3:11]

Is it easy to discern the difference between the ancient stones and more modern reproductions?
Are the styles very different?

[Speaker 3] [3:11 → 3:47]

Modern reproductions usually use a different type of stone, although they may be of the same design they may also be of a smaller size. But it's actually quite easy to tell if you are buying a genuine carving or a mass produced souvenir. How? Nowadays, they are produced by machine, using lasers even, so they have no blemishes. In genuine carvings, they aren't always perfect because the Maori used simple hand tools. For example, the hole that the cord is fed through isn't perfectly round.

[Speaker 2] [3:48 → 3:49]

That makes sense.

[Speaker 1] [3:52 → 3:59]

Before you hear the rest of the discussion, you have some time to look at questions 26 to 30.

[Speaker 1] [4:24 → 4:29]

Now listen carefully and answer questions 26 to 30.

[Speaker 2] [4:32 → 4:45]

Actually, it's amazing that they produce such detailed tikis with such simple tools and materials. Talk me through the process. I know the basic shape is carved from New Zealand greenstone.

[Speaker 3] [4:45 → 4:49]

Yes, but first they had to get a blank of the right size.

[Speaker 2] [4:49 → 4:58]

You mean a piece of stone of the right size and basic shape? That's right. They used a hard stone tool, something rough,

[Speaker 3] [4:58 → 5:17]

to wear a groove into a piece of greenstone. After they'd scored it with that, they could just snap it in two. I guess they could have used some kind of hammer though. They repeated the process until they had a piece of stone suitable for what they wanted to carve, usually flat pieces for tikis.

[Speaker 2] [5:18 → 5:24]

Right, because they're fairly small and quite thin, Then they started carving?

[Speaker 3] [5:24 → 5:48]

Not right away. Before they could start carving, they needed an absolutely smooth, flat surface. Nowadays, when we want to do something like that, we'd clamp the stone in a vice and use a sander, but they used a heavy block of sandstone and rubbed the piece of green stone on it over and over to prepare it for carving.

[Speaker 2] [5:48 → 5:56]

It must have been very time consuming. So how did they cut out the little details like hands and feet?

[Speaker 3] [5:56 → 6:32]

They had carving tools. They used small chips of stone glued and tied onto a wooden handle. Then they also used a piece of sharpened bone made into a point. Is that what they used to make the holes? Actually, they had a special tool to make holes. It was a stick tied between two heavy pebbles with a point at the end. They would wrap string around it, pull it back and forth to wear a

hole into the tiki. They used the same technique to make round shapes too, but didn't make the hole go all the way through.

[Speaker 2] [6:33 → 6:39]

And I've seen some tikis with coloured eyes or decorations. Are they painted?

[Speaker 3] [6:39 → 6:56]

Mostly they are inlaid with different coloured stone or mother of pearl from shells, or sometimes dyed pieces of bone. They were fixed in place using teratagum, a sticky plant resin. They used plants to make the natural strings too.

[Speaker 2] [6:57 → 7:00]

That's right. The Maori were very resourceful,

[Speaker 3] [7:00 → 7:02]

weren't they? They certainly were.

[Speaker 1] [7:06 → 7:14]

That is the end of part three. You now have thirty seconds to check your answers to part three.

PART 4

[Speaker 1] [0:00 → 0:07]

Section four. First, you have some time to look at questions 31 to 40 on page seven.

[Speaker 1] [0:57 → 1:01]

Now listen carefully and answer questions 31 to 40.

[Speaker 2] [1:05 → 4:04]

The investigation of the medieval town of Deborah on the Western bank of the Nile between the modern villages was deliberately planned to gather a maximum amount of information on the domestic aspects of medieval Nubian life. The objects found and the nature of some of the buildings were more elaborate than had been anticipated. The first tribe in this area dates back ten thousand years, although some experts argue it was fifteen thousand years ago. Though further empirical evidence is needed to support these two periods, the site was abandoned and covered with windblown sand just north of the student frontier, revealing a cemetery far larger than any previously found in Nubia. Research conducted by members of the expedition from 1972 to 1973 showed that although the tombs had been plundered and burned, the fragments of pottery and optics found were numerous, varied, and of high quality. Paintings dating from the same period were discovered as well. They were found on many temple walls in Nubia, signifying the unification of Upper Egypt, represented by the lotus, with Lower Egypt, represented by the papyrus. Modern physical anthropology goes beyond measuring indicators such as skull size or body weight. It attempts to reconstruct the entire biological structure of a population or a segment of a population. The expedition examined a total of 107 skeletons from children and women. Questions arose: where were the women buried, and why did some of the children receive the same distinctions as grown men? Several female corpses were found to have unusually large teeth among this period's skeletons. Surprisingly, a large number were found to have lost their teeth at a comparatively early age, 25 to 35. Additionally, archaeologists investigated the fingers and bones of women to find answers to these questions. A large collection of remains, representing fifteen forty six individuals, dating from the beginning to the end of the Christian period around fifteen hundred AD, was submitted for computer analysis. The age distribution shows that the Nubian population, as a rule, died at an early age. The expedition examined the tomb of an official in the Egyptian administration. We even have a clear enlargement of a photograph of his big toe, with detailed shape and fragments held in the museum. What we discovered was that culturally, there was no single Nubian people.

[Speaker 2] [4:07 → 5:33]

Moreover, the people of Nubia had met diverse environmental circumstances with a wide range of adaptive social responses. Researchers are in pursuit of the Nubian people's homeland, lost to floods, which are most likely the reason that pushed them to the edge. Dental problems were a major concern. Evidently small stones in the grain were not separated, and therefore the teeth were damaged from making bread from grain without separating them first. A diet of such bread eventually ground the teeth away, exposing their roots to decay. During the harvest, the heavier grain fell back to the threshing floor while the lighter chaff blew away. After collection, the grain was placed on the ground, ready for milling, using a stone shaped like a rolling pin with a curve to match. The grinding surface was rowed back and forth, grinding the grain into flour. On the other

hand, normal cavities were rare because of the absence of sugar. Egyptians had no sugar, nor could the average person afford it. Examination of mummies, both young and old, found severely worn teeth. Although Egyptians had specialists for many medical problems, dentistry was not one of these.

[Speaker 1] [5:36 → 5:41]

That is the end of section four. You now have half a minute to check your answers.

[Speaker 1] [6:12 → 6:20]

That is the end of the listening test. You now have ten minutes to transfer your answers to the listening answer sheet.

Câu 1: Tuesday / Tuesdays

- Trích đoạn: "While our collection in Avondale used to be on Thursdays, we've shifted to **Tuesdays** due to popular demand."
- Hướng dẫn: Audio nhắc đến thứ Năm (Thursdays) là lịch thu gom cũ để bẫy người nghe. Nhân viên nhấn mạnh rằng lịch hiện tại đã được chuyển sang thứ Ba (Tuesdays). Bạn có thể viết số ít hay số nhiều đều được.

Câu 2: 8.15 / 08:15 / 8:15

- Trích đoạn: "Our trucks are scheduled to arrive and begin collection at **08:15AM**."
- Hướng dẫn: Audio cho biết xe tải bắt đầu thu gom rác lúc 08:15 sáng. Các mốc 06:30 và 07:30 được nhắc đến sau đó chỉ là giờ cao điểm cần tránh. Chữ "a.m." đã có sẵn trên đề bài nên bạn chỉ cần điền số.

Câu 3: electronics / appliances

- Trích đoạn: "Do you recycle **electronics**?" - "Currently, we do not have the facilities to safely recycle electronic **appliances** like TVs."
- Hướng dẫn: Khách hàng hỏi thành phố có tái chế đồ điện tử (electronics) không. Nhân viên trả lời hiện tại họ không có cơ sở vật chất để xử lý các thiết bị/đồ dùng điện tử (appliances). Với giới hạn 1 từ, bạn điền "electronics" hay "appliances" đều chính xác.

Câu 4: map

- Trích đoạn: "...all major garbage collection sites are clearly marked on the **map** available on our website."
- Hướng dẫn: Nhân viên cho biết tất cả các điểm thu gom rác chính đều được đánh dấu rõ ràng trên bản đồ (map) có sẵn trên trang web. Cụm "via the internet" trong đề bài đã mang nghĩa tương đương với "website" trong audio, nên từ chính xác cần điền vào chỗ trống là "map".

Câu 5: grocery

- Trích đoạn: "We highly recommend using the special waste sorting bags that are available for purchase at local **grocery** stores."
- Hướng dẫn: Để hỗ trợ việc phân loại rác, nhân viên khuyên nên dùng loại túi chuyên dụng có thể mua tại các cửa hàng tạp hóa (grocery stores) ở địa phương.

Câu 6: categories

- Trích đoạn: "...start by properly sorting their rubbish into **categories** such as plastics, metals, paper, and organics."

- Hướng dẫn: Nhân viên hướng dẫn các gia đình nên bắt đầu bằng việc phân loại rác đúng cách thành các danh mục / nhóm (categories) khác nhau (như nhựa, kim loại, giấy...).

Câu 7: labels

- Trích đoạn: "Please ensure to remove any **labels** and rinse the bottles and cans..."
- Hướng dẫn: Trước khi vứt bỏ chai lọ và lon, cần phải đảm bảo đã gỡ bỏ hết các nhãn mác (labels).

Câu 8: juice

- Trích đoạn: "Should I empty **juice** bottles that still contain liquids?" - "Yes. Please empty any containers..."
- Hướng dẫn: Khách hàng hỏi có cần đổ hết chất lỏng trong các chai nước ép (juice bottles) không, và nhân viên xác nhận là có.

Câu 9: pizza

- Trích đoạn: "And how should I handle paper products like **pizza** boxes? ...please make sure they are free from food residue."
- Hướng dẫn: Khách hàng hỏi cách xử lý các hộp giấy như hộp đựng bánh pizza (pizza boxes). Nhân viên nhắc nhở phải đảm bảo chúng không còn cặn thức ăn thừa ("free from food residue" tương đương với "remove food" trong đề).

Câu 10: egg

- Trích đoạn: "Additionally, regarding **egg** cartons and similar items, please separate them from other paper recyclables..."
- Hướng dẫn: Cuối cùng, đối với các hộp đựng trứng (egg cartons), nhân viên yêu cầu phải tách riêng (separate) chúng khỏi các loại rác giấy tái chế khác.

Câu 11

- **Đáp án:** E
- **Hướng dẫn:** Tại Cooper's, ban đầu chương trình được tổ chức riêng cho các giám đốc (directors), một thời gian sau mới mở rộng cho tất cả nhân viên. Điều này tương ứng với việc ban đầu chương trình chỉ dành cho quản lý cấp cao (originally only for senior management).
- **Trích đoạn:** "To begin with, we were called in by the chief executive to run programs for **directors**... sometime later, we started running classes open to all employees."

Câu 12

- **Đáp án:** D

- **Hướng dẫn:** Ở Audiovac, việc tổ chức lớp học không phải là quyết định từ ban lãnh đạo mà xuất phát từ ý tưởng của một vài nhân viên hành chính. Điều này tương đương với việc chương trình được yêu cầu bởi nhân viên (requested by staff).
- **Trích đoạn:** "...With this company, it wasn't a decision from the top that resulted in running relaxation classes, but a few **admin staff**... who **thought it would be a good idea**."

Câu 13

- **Đáp án:** B
- **Hướng dẫn:** Duke Hotels tổ chức các kỳ nghỉ thư giãn vào mỗi tháng, và điểm tuyệt vời là nhân viên có thể mang theo vợ/chồng và con cái. Tương ứng với các kỳ nghỉ hàng tháng cho nhân viên và gia đình.
- **Trích đoạn:** "...relaxation weekends. These are held at one of their hotels **every month**. The great thing about this scheme is that staff can **bring their husbands or wives and children**."

Câu 14

- **Đáp án:** F
- **Hướng dẫn:** Tại First Bank, các nhóm thư giãn chủ yếu được tham gia bởi những người ở độ tuổi bốn mươi và năm mươi. Tương ứng với chương trình phổ biến nhất với nhóm tuổi 40+.
- **Trích đoạn:** "There are relaxation only groups, which are attended mainly by **people in their forties and fifties**..."

Câu 15

- **Đáp án:** A
- **Hướng dẫn:** Câu lạc bộ bóng đá Carlton đã ký hợp đồng sử dụng dịch vụ các buổi học hàng tuần từ bốn năm trước.
- **Trích đoạn:** "We've had a contract to provide weekly sessions for the team **for the last four years**..."

Câu 16

- **Đáp án:** C
- **Hướng dẫn:** Nhờ thư giãn, phần lớn các quản lý giờ đây có thể tập trung vào từng việc một và không để bản thân bị phân tâm. Điều này có nghĩa là khả năng tập trung của họ đã được cải thiện (ability to concentrate has improved).
- **Trích đoạn:** "The majority find they now **focus on one thing at a time** and **don't allow themselves to get distracted**..."

Câu 17

- **Đáp án:** A
- **Hướng dẫn:** Khả năng ra quyết định được hưởng lợi vì khi thiền tốt hơn, họ dễ dàng nhìn nhận vấn đề từ quan điểm của người khác và tiếp thu những lời khuyên mà trước đây họ có thể đã phớt lờ. Tương ứng với việc họ xem xét ý kiến của người khác cẩn thận hơn.
- **Trích đoạn:** "...they're able to **see things from other people's point of view more easily**, and so **benefit from advice** they might have ignored before..."

Câu 18

- **Đáp án:** C
- **Hướng dẫn:** Janice cho rằng tình bạn thực sự có thể nảy nở nếu mọi người có thêm chủ đề để nói chuyện với nhau thay vì chỉ nói về công việc. Tương ứng với việc có một mối quan tâm chung khác ngoài công việc (shared interest other than work).
- **Trích đoạn:** "...if people have got **something more to talk about than just work**, real friendships can develop..."

Câu 19

- **Đáp án:** B
- **Hướng dẫn:** Ban đầu ("To start with" = "at first"), các buổi học sẽ diễn ra vào thứ Ba và lặp lại vào thứ Sáu. Nghĩa là có 2 buổi một tuần (twice-weekly sessions). *Đáp án A sai vì mỗi buổi có cả thiền và yoga nhẹ nhàng. Đáp án C sai vì họ cố gắng tránh việc nhóm có quá đông người.*
- **Trích đoạn:** "To start with, we'll be doing sessions on **Tuesdays, repeated on Fridays...**"

Câu 20

- **Đáp án:** A
- **Hướng dẫn:** Người tham gia không cần mua thảm hay mặc đồ thể thao chuyên dụng (loại B và C), nhưng vì nhiệt độ cơ thể sẽ giảm xuống trong lúc thiền nên họ được khuyên nên mặc đồ ấm.
- **Trích đoạn:** "You won't need to buy any special equipment. The mats will be provided... You won't need to wear special sports clothes, but as your body temperature drops during meditation, you should **wear something warm.**"

Câu 21: A

- **Trích đoạn:** Mike: "...I can see the **skill involved** in making them." | Amy: "It's extremely hard, and it **requires expertise** and time to shape." | Mike: "That's true."
- **Hướng dẫn:** Mike khen ngợi kỹ năng chế tác những bức tượng này, và Amy đồng tình rằng nó cực kỳ khó, đòi hỏi chuyên môn (expertise) và thời gian. Sự đồng thuận này hoàn toàn khớp với đáp án A (đòi hỏi kỹ năng tuyệt vời để sản xuất). (Mike thích hình học hiện

đại chứ không thích hình dáng uốn lượn - bác bỏ B; Amy thấy câu chuyện thú vị nhưng Mike không thể hiện sự đồng tình về điểm này - bác bỏ C).

Câu 22: C

- **Trích đoạn:** "Many of them would have been **passed down through the generations** and remain in the possession of the families today, like **heirlooms**."
- **Hướng dẫn:** Mike thắc mắc liệu các di chỉ khảo cổ có bị trộm không (bác bỏ B), nhưng Amy giải thích lý do thực sự là vì người chủ rất trân trọng chúng, nên chúng được truyền qua nhiều thế hệ (passed down) và giữ lại như những vật gia truyền (heirlooms). Điều này tương ứng với đáp án C (phần lớn trở thành đồ vật được thừa kế).

Câu 23: B

- **Trích đoạn:** "...the Maori believed tikis were **sacred** and could be used as a **pathway to their ancestors**. They believed the dead could speak to them through these **talismans**."
- **Hướng dẫn:** Mike từng nghĩ chúng chỉ để trang trí (bác bỏ A) và Amy hỏi xác nhận lại là chúng không đại diện cho các bộ lạc (bác bỏ C). Thực tế, người Maori coi tiki là những vật thiêng liêng (sacred), là con đường kết nối với tổ tiên và là bùa hộ mệnh (talismans). Yếu tố tâm linh này tương ứng với đáp án B (đồ vật tôn giáo - religious objects).

Câu 24: C

- **Trích đoạn:** "Actually, it is the ways that their **feet, heads and hands are placed** that make the major difference."
- **Hướng dẫn:** Khi Amy hỏi có phải phân loại dựa vào chất liệu (bác bỏ B), kích cỡ hay nơi xuất xứ (bác bỏ A) không, Mike đính chính rằng điểm khác biệt chính nằm ở cách sắp xếp bàn chân, đầu và tay của tiki. Sự sắp xếp các bộ phận này chính là tư thế của cơ thể (the position of the body), tương ứng với đáp án C.

Câu 25: B

- **Trích đoạn:** "...Nowadays, they are **produced by machine**... so they have **no blemishes**. In genuine carvings, they aren't always perfect... the hole... **isn't perfectly round**."
- **Hướng dẫn:** Dù hàng phục chế có thể khác chất liệu hay kích thước (A và C), Mike nhấn mạnh cách *dễ dàng nhất* (quite easy to tell) để phân biệt là: đồ hiện đại làm bằng máy nên không có tí vết (no blemishes), trong khi đồ thật làm thủ công nên không hoàn hảo (ví dụ: lỗ khoan không tròn trịa). Sự không tí vết do làm bằng máy này tương ứng với đáp án B (chúng có hình dáng quá đều đặn - too regular in shape).

Câu 26: C

- **Trích đoạn:** "...they used a hard stone tool, something rough, to wear a groove into a piece of greenstone. After they'd **scored it** with that, they could just snap it in two."

- **Hướng dẫn:** Để tạo ra một phôi đá (blank), họ dùng một công cụ bằng đá cứng để tạo rãnh/vạch (scored it) rồi bẻ đôi. Dụng cụ này chính là công cụ vạch/khắc bằng đá (Stone scoring tool - đáp án C).

Câu 27: A

- **Trích đoạn:** "...they used a heavy **block of sandstone** and rubbed the piece of green stone on it over and over to **prepare it for carving**."
- **Hướng dẫn:** Để có bề mặt nhẵn nhụi sẵn sàng cho việc chạm khắc (prepare it for carving), họ dùng một khối đá sa thạch (block of sandstone) và chà xát viên đá xanh lên đó nhiều lần. Thao tác làm nhẵn bề mặt này ứng với đáp án A.

Câu 28: D

- **Trích đoạn:** "So how did they cut out the little **details** like hands and feet? ... Then they also used a piece of **sharpened bone made into a point**."
- **Hướng dẫn:** Để chạm khắc các chi tiết nhỏ (details) như tay và chân, họ dùng một mảnh xương được mài nhọn (sharpened bone made into a point). Tương ứng với đáp án D (Bone point).

Câu 29: E

- **Trích đoạn:** "Actually, they had a special tool to **make holes**. It was a **stick** tied between two heavy pebbles with a point at the end."
- **Hướng dẫn:** Dụng cụ đặc biệt để khoan lỗ (make holes) là một thanh gỗ (stick) buộc giữa hai viên sỏi nặng có đầu nhọn. Cách thức kéo dây qua lại để xoay thanh gỗ này chính là nguyên lý của mũi khoan bằng que (Stick drill - đáp án E).

Câu 30: B

- **Trích đoạn:** "They were **fixed in place** using teratagum, a **sticky plant resin**."
- **Hướng dẫn:** Để gắn/cố định (fixed in place) các đồ trang trí có màu sắc vào tượng, họ dùng nhựa cây có tính dính (sticky plant resin). Nhựa cây này có vai trò tương đương như keo dán thực vật (Plant glue - đáp án B).

Câu 31: 10,000 / ten thousand

- **Trích đoạn:** "The first tribe in this area dates back **ten thousand** years..."
- **Hướng dẫn:** Đề bài hỏi bộ tộc này sống từ bao nhiêu năm trước. Audio nói trực tiếp rằng bộ tộc đầu tiên ở khu vực này có từ mười nghìn năm trước ("ten thousand years").

Câu 32: 1972

- **Trích đoạn:** "Research conducted by members of the expedition from **1972** to 1973 showed that..."
- **Hướng dẫn:** Đề bài cho mốc kết thúc nghiên cứu là 1973 và cần tìm mốc bắt đầu. Audio đọc rõ khoảng thời gian diễn ra là từ năm 1972 đến 1973.

Câu 33: temple walls

- **Trích đoạn:** "Paintings dating from the same period were discovered as well. They were found on many **temple walls** in Nubia, signifying the unification of Upper Egypt..."
- **Hướng dẫn:** Đề bài nói các bức tranh chỉ ra sự thống nhất Ai Cập được tìm thấy ở đâu ("found on..."). Audio xác nhận chúng được tìm thấy trên nhiều bức tường đền thờ ("temple walls") và mang ý nghĩa thống nhất ("signifying the unification").

Câu 34: children and women

- **Trích đoạn:** "The expedition examined a total of 107 skeletons from **children and women**."
- **Hướng dẫn:** Đề bài hỏi nghiên cứu được thực hiện trên xương của ai. Từ "skeletons" (bộ xương) tương đương với "bones" (xương) trong câu hỏi. Audio liệt kê hai đối tượng là trẻ em và phụ nữ ("children and women"). Đề bài cho phép điền tối đa 3 từ (NO MORE THAN THREE WORDS) nên bạn điền cả cụm này là chính xác nhất.

Câu 35: fingers

- **Trích đoạn:** "Several female corpses were found to have unusually large **teeth**... Additionally, archaeologists investigated the **fingers** and bones of women..."
- **Hướng dẫn:** Đề bài liệt kê các bộ phận được nghiên cứu trên xác chết nữ gồm: răng ("teeth") và cái gì nữa. Audio nhắc đến việc phát hiện răng lớn, và ngay sau đó thêm thông tin (Additionally) rằng các nhà khảo cổ học cũng điều tra các ngón tay ("fingers") và xương của phụ nữ.

Câu 36: big toe

- **Trích đoạn:** "We even have a clear enlargement of a photograph of his **big toe**..."
- **Hướng dẫn:** Đề bài nhắc đến bức ảnh phóng to ("enlarged... picture") của một quan chức Ai Cập. Audio dùng cụm "enlargement of a photograph" và tiết lộ bức ảnh đó chụp ngón chân cái ("big toe") của người này.

Câu 37: homeland

- **Trích đoạn:** "Researchers are in pursuit of the Nubian people's **homeland**, lost to floods..."

- **Hướng dẫn:** Đề bài cho biết các nhà nghiên cứu đang tìm thấy cái gì của người Nubia bị ảnh hưởng bởi lũ lụt. Audio miêu tả họ đang truy tìm quê hương ("homeland") của người Nubia, nơi đã bị mất do lũ lụt ("lost to floods" = "affected by floods").

Câu 38: small stones

- **Trích đoạn:** "Evidently **small stones** in the grain were not separated, and therefore the teeth were damaged..."
- **Hướng dẫn:** Đề bài hỏi lý do răng bị mài mòn là do ngũ cốc không được loại bỏ cái gì. Audio giải thích rằng những hòn đá nhỏ ("small stones") lẫn trong ngũ cốc không được tách ra ("not separated" = "didn't remove out"), dẫn đến việc răng bị hỏng khi ăn.

Câu 39: ground

- **Trích đoạn:** "After collection, the grain was placed on the **ground**, ready for milling..."
- **Hướng dẫn:** Đề bài hỏi trong lúc thu hoạch ngũ cốc được đặt ở đâu ("put on the...") để xay xát ("for milling"). Audio trả lời rất sát là ngũ cốc được đặt trên mặt đất ("placed on the ground") để chuẩn bị xay. Do đề đã có chữ "the" nên bạn chỉ cần điền "ground".

Câu 40: sugar

- **Trích đoạn:** "On the other hand, normal cavities were rare because of the absence of **sugar**. Egyptians had no **sugar**..."
- **Hướng dẫn:** Đề bài kết luận vì thức ăn không có thứ gì đó ("didn't have...") nên người Ai Cập không bị sâu răng thông thường. Audio nói sự vắng mặt ("absence of") hoặc việc không có đường ("had no sugar") là nguyên nhân. Từ cần điền là "sugar".

TRANSCRIPT TEST 9
PART 1

[Speaker 1] [0:00 → 0:05]

The audio and test copyright belong to the Naugh Milk IELTS website.

[Speaker 2] [0:05 → 1:03]

IELTS listening. You will hear a number of different recordings, and you will have to answer questions on what you hear. There will be time for you to read the instructions and questions, and you will have a chance to check your work. All the recordings will be played once only. The test is in four parts. Write all your answers in the listening question booklet. At the end of the test, you will be given ten minutes to transfer your answers to an answer sheet. Now turn to part one on page two of your question booklet. Part one. You will hear a telephone conversation between a woman who wants to send her children to the Northside child care center and a man who is a receptionist of that child care center. Now answer all questions one to 10.

[Speaker 3] [1:04 → 1:08]

Hello. This is Northside Child Care. Can I help you?

[Speaker 4] [1:09 → 1:17]

Yes. I'm phoning to ask you some information about your center as I saw an advertisement on the Internet, and I think it's quite suitable for my situation.

[Speaker 3] [1:18 → 1:24]

Right. So you're interested in our child care services for your little ones. Right?

[Speaker 4] [1:25 → 1:30]

Yes. That's right. I have two daughters, Laura and Andrea, and a son, Thompson.

[Speaker 3] [1:30 → 1:34]

First of all, could I ask you some of your information before we start?

[Speaker 4] [1:35 → 1:37]

Yes. Of course. Where do you work?

[Speaker 3] [1:38 → 1:44]

It's quite important because I want to know whether it's possible for you to take your children to our center or not.

[Speaker 4] [1:46 → 1:52]

Well, I work in a hospital near the town. I think it takes around ten minutes by car to get there. Perfect.

[Speaker 3] [1:52 → 1:57]

And do you have other people who will pick up your children in the case you are busy and cannot take them?

[Speaker 4] [1:58 → 2:01]

Their uncle would do so. Great.

[Speaker 3] [2:01 → 2:04]

But in that case, you should also give us about his information.

[Speaker 4] [2:05 → 2:06]

Okay. No matter.

[Speaker 3] [2:07 → 2:14]

How many days a week that you would like to use our service? We offer different prices depending on how many days would register.

[Speaker 4] [2:15 → 2:27]

I think it's only Thursday because I have to go to another city to work on that day. For Monday and Tuesday, I can take care of them as I work from home, and the rest, their uncle will spend time playing with them.

[Speaker 3] [2:28 → 2:47]

Yes. The price is about \$70 for one day, including two meals, one in the morning and one in the afternoon. Just to let you know, our fee structure operates on a weekly basis, so we'll have a plan to prepare the meals for them. Okay. Let me ask you more details of your children.

[Speaker 4] [2:48 → 2:56]

Okay. How old is Laura? She is my first daughter, and she will be nine in the next three weeks, but currently, she is eight.

[Speaker 3] [2:57 → 3:03]

So I will put nine down. How about other children as I don't remember their names?

[Speaker 4] [3:04 → 3:08]

Andrea is now six years old, and Thompson is only four.

[Speaker 3] [3:08 → 3:09]

Great.

[Speaker 4] [3:10 → 3:23]

What foods that they cannot eat? They can eat most of the things. However, Andrea cannot eat foods with eggs because she has allergy to it, whereas my son Thompson doesn't like to eat fruits. He preferred drinking juice.

[Speaker 3] [3:23 → 3:25]

What are their hobbies?

[Speaker 4] [3:25 → 3:35]

Laura and Andrea like swimming and playing outdoors. While my son is quite introvert, He likes giving books to other children as a gift, just like cartoons or something like that.

[Speaker 3] [3:36 → 3:39]

So what classes do you want your children to join?

[Speaker 4] [3:40 → 3:50]

I expect a dancing class for my daughters, and, of course, it is not suitable for my son. I'm considering between playing tennis and guitar. Which class is available now?

[Speaker 3] [3:51 → 3:52]

The former.

[Speaker 4] [3:52 → 3:54]

Thank you very much. You're welcome.

[Speaker 3] [3:55 → 3:56]

See you soon.

[Speaker 4] [3:56 → 3:57]

Yes. Goodbye.

[Speaker 2] [4:00 → 4:05]

That is the end of section one. You now have half a minute to check your answers.

[Speaker 2] [4:35 → 4:38]

Now turn to section two on page three.

PART 2

[Speaker 1] [0:00 → 0:10]

Part two. You'll hear an HR representative of earn and learn giving some information about her company. First, you have some time to look at questions 11 to 16.

[Speaker 1] [0:33 → 0:37]

Now listen carefully and answer questions 11 to 16.

[Speaker 2] [0:39 → 3:16]

Welcome to all of you. Can everybody see and hear me? Good. I'm Sarah Connor, an HR representative of Earn and Learn. I have been asked today to talk to you about our company. So for those of you who don't know very much about the company, let me start by giving you some basic information about it. Earn and Learn started nearly twenty years ago. It is not a charity but a for profit company that enables promising entrepreneurs to make money while traveling. During the past ten years, it has grown rapidly and has gained great influence in most countries of the world. We have a partnership with the school and take a large number of recent graduates from the business school. So if you are a recent graduate, I'd say you can consider applying to our company. Before your application, you might be curious about what sort of places you could go to. There are four main locations, but you also have the freedom to submit a different location, and if they can make the necessary arrangements, you can go. The first country earn and learn. And learn established locations was The US, where you may choose from multiple locations as long as you can commit to their more rigid schedule of August to December. Also, you could do the Australia internship. That one is really cool. You work at a wildlife shelter and learn about the business practices of nonprofit organizations. You do have to be willing to commit eight months for that one, though. Perhaps that's a long time to be so far away, but I would say it is really an amazing opportunity. I don't know whether some of you are in decent physical shape. If so, the South Africa internship is another exciting one. You learn a lot about sustainable farming, but you would be doing some of the manual labor involved in maintaining a farm. Indeed, it's hard work, but I think you would definitely be able to do it. It may be wise to wait until after their summer is over so it's not so terribly hot. In addition, there is a most recently established location in India. This one gives you more of a study abroad feel, given that they arrange a host family for you to stay with. In the other locations, you live in an apartment with other interns, so this is definitely a unique experience.

[Speaker 1] [3:19 → 3:24]

Before you hear the rest of the talk, you have some time to look at questions 17 to 20.

[Speaker 1] [3:48 → 3:51]

Now listen and answer questions 17 to 20.

[Speaker 2] [3:55 → 5:23]

Regardless of where you go, at the end of the program, you get a global traveling certificate as long as you can explain your experience. You can provide a written log of what you did. I recommend writing journal or blog entries about what you do every day or a weekly summary of each day. Of course, you don't have to write up a formal report or anything like that, and you need to apply for it once you prepare to return. Some students may want to know whether this is a paid internship. Actually, you have to pay for the flight there yourself. But you have the opportunity to

create your own small business, which could earn you money if it's successful. So, basically, you pay for it all up front. But when you're there, you can find ways to make money. That is to say you pay for two thirds of the cost up front as a deposit and then give the final installment one month prior to your return. Finally, I have to remind you that you need a health check before you go to make sure you're not going to spread any communicable diseases. In addition, before you go, you don't have to attend any meetings or workshops. You'll meet everyone you'll be working with once you get there. Okay. Well, that's all I have time for today. Thanks for listening, and I'm happy to take any questions if you have them.

[Speaker 1] [5:26 → 5:31]

That is the end of part two. You now have half a minute to check your answers.

PART 3

[Speaker 1] [0:00 → 0:18]

Part three. You will hear two art history students called Tina and Dave preparing for a seminar on a nineteenth century English artist called Peter DeWint. First, you have some time to look at questions 21 to 26.

[Speaker 1] [1:03 → 1:07]

Now listen carefully and answer questions 21 to 26.

[Speaker 2] [1:12 → 1:15]

Hi, Tina. Shall we prepare for our seminar tomorrow?

[Speaker 3] [1:15 → 1:19]

You mean talk about the paintings of Peter de Wint? Yeah.

[Speaker 2] [1:19 → 1:22]

Let's start with background information.

[Speaker 3] [1:23 → 1:31]

I found a lot of sources about other English artists from the early nineteenth century, but not that much about DeWind.

[Speaker 2] [1:31 → 1:34]

Yeah. I know. I've only just discovered him myself.

[Speaker 3] [1:34 → 1:39]

I know. Most of the information about him came from his wife's writings.

[Speaker 2] [1:40 → 1:46]

Right. One thing I've noticed about his paintings is that they never seem to be signed.

[Speaker 3] [1:46 → 1:47]

Really?

[Speaker 2] [1:47 → 2:00]

That's interesting. I mean, it must have been a conscious decision, although signatures are really useful now for experts trying to distinguish forgeries from pictures that really are by famous artists.

[Speaker 3] [2:00 → 2:07]

Yes. Even during their lifetimes, artists had to be wary of forgeries.

[Speaker 2] [2:07 → 2:15]

But he had this idea that his paintings were signed all over, as he put it, because they were distinctly in his hand. Right.

[Speaker 3] [2:16 → 2:20]

So effectively, there was no point in signing them. I

[Speaker 2] [2:21 → 2:51]

was interested to read about what the professor said about the work de Wint did for Oxford University. Oh, yeah? He did some engravings of various buildings at the university throughout the eighteenth and nineteenth centuries, but they weren't well received. What the professor objected to was how inaccurately they represented the subject matter. I don't really understand that because to me, they look very accomplished and quite beautiful. He must have spent ages doing them.

[Speaker 3] [2:51 → 3:26]

And DeWint did a lot of pictures of the city of Lincoln and the region around it, didn't he? Especially his more high profile ones. It's surprising in a way because it's so flat, and other artists at that time would go and paint mountains, not flat, featureless landscapes. They wouldn't have seen much potential there, but DeWind managed to uncover all this great subject matter in little villages. Sure. So do you see him as Lincoln's artist then? No. Not really.

[Speaker 2] [3:27 → 4:12]

Admittedly, it's hard to think of a greater painter who's associated with the city. But if you look at a breakdown of the places featured in his pictures, Lincoln doesn't feature as highly as you might think. He did more of places like the Lake District. And London? Yes, where he lived too for a time. Oh, and did you know that DeWint was friends with the poet Keats? Yes. What a small world. And there are lots of references in Keats' poems to flowers and streams, exactly the kinds of thing that DeWint was painting. So Keats and DeWint must have influenced each other. What? I think that's stretching it a bit. Well, that's what the academic John Lord suggests in his essay.

[Speaker 3] [4:12 → 4:37]

Well, I see you've done your homework. I don't know. Maybe Lord does interpret some of DeWint's paintings as a response to Keats' poetry, but it's only his opinion. We still need to see if that theory stands up to scrutiny. I think you're being excessively trusting of Lord. Perhaps. Maybe that's true.

[Speaker 1] [4:40 → 4:46]

Before you hear the rest of the discussion, you have some time to look at questions 27 to 30.

[Speaker 1] [5:06 → 5:10]

Now listen and answer questions 27 to 30.

[Speaker 2] [5:13 → 5:17]

So we need to consider four different paintings.

[Speaker 3] [5:17 → 5:21]

Right. Let's start with Tawksi Castle.

[Speaker 2] [5:21 → 5:42]

Yes. The interesting thing here is the way he painted the ruined castle and the nearby village, which was built much later. He seems to be emphasizing the difference between them. Hard to say, but you might be right. And then there's still life. Right. Do you think that's the kind of thing he'd have sold or exhibited?

[Speaker 3] [5:42 → 5:50]

I don't know. Maybe not. It was, in all likelihood, just done to showcase his technique to one of his pupils.

[Speaker 2] [5:50 → 5:54]

Oh, right. He worked as an art tutor, did he? Yeah.

[Speaker 3] [5:55 → 6:01]

What about the cricketers? It makes living in a village seem really idyllic. Right.

[Speaker 2] [6:01 → 6:10]

I imagine things weren't quite as perfect as they look there. No. One of my favorite dewints is the burning of the houses of parliament. Oh, yes.

[Speaker 3] [6:11 → 6:30]

Because that fire actually happened, didn't it, in 1834. Yes. But unlikely to have been done on-site. I mean, it's quite plausible that he actually witnessed the event and then went back and did it in his studio later. Yeah. I guess you're right.

[Speaker 2] [6:31 → 6:33]

So what do you think to the

[Speaker 1] [6:36 → 6:43]

That is the end of part three. You now have thirty seconds to check your answers to part three.

PART 4

[Speaker 1] [0:02 → 0:16]

Section four. You'll hear a lecture on a very popular Canadian food product called maple syrup. First, you have some time to look at questions 31 to 40 on page seven.

[Speaker 1] [1:06 → 1:10]

Now listen carefully and answer questions 31 to 40.

[Speaker 2] [1:14 → 6:09]

Today, I'd like to talk about one of the world's most fascinating archaeological mysteries, the Nazca Lines in Peru. These enormous designs carved into the desert ground have puzzled scientists and visitors alike for decades. Let's take a closer look at their location construction, then move on to their purpose and theories, and finally explore recent discoveries and threats to their preservation. When we talk about where these lines were made, they actually lie deep in a remote desert area in Southern Peru. The climate there is extremely dry and hot, which helped the drawings survive for thousands of years. So instead of being in a forest or valley, they're spread across this vast sandy landscape. Archaeologists discovered that the ancient builders didn't have any advanced machines. They relied on very basic tools to create these enormous figures. Things like wooden stakes and ropes were enough for them to mark out straight paths over the ground. It's fascinating how such primitive equipment could lead to such precise designs. To make the drawings as accurate as possible, the Nazca people carefully set up wooden pegs across the land. They then pulled long ropes tight between those posts to mark out perfectly straight paths over the desert surface. It's amazing that such simple techniques could produce geometric patterns visible even from the sky. Instead of using metal wires or modern measuring tapes, they mainly relied on ropes made from cotton fibers. These natural materials allowed them to take exact measurements without the rope breaking or stretching too much. The consistency of these ropes was the secret behind the symmetry of many Nazca figures. The surface of the land was originally covered with dark stones that had been burnt by the sun. The artist cleared those rocks away to expose the lighter colored soil hidden below. This color contrast made the lines stand out sharply, creating shapes that could be seen clearly from above. Now moving on to their possible meanings and functions. Many of the giant animal drawings like the hummingbird or the monkey weren't just decorative art. Local people believed these creatures had spiritual powers connected with healing and traditional medicine. During ancient ceremonies, they probably used these animal shapes as sacred spaces for prayer or offerings to cure illness and protect their community. However, not all experts agree with that spiritual explanation. One leading theory suggests that the lines had a practical use rather than a religious one. Some researchers think they were part of an irrigation system, basically channels designed to stop floodwaters from ruining nearby crops. The layout of these lines seems to follow the paths of underground water, suggesting they serve to control heavy rain or runoff. Another reason the Nazca lines are still visible today is the area's unique environment. Because the region barely receives any rain, the designs have remained visible for centuries. The heat and dryness help to preserve the dark outer coating caused by dead insects and oxidized stones. Without that extreme arid environment, the drawings would probably have faded or disappeared long ago. Let's finish with what's been happening more recently. In recent years, researchers have started using drones to scan the vast

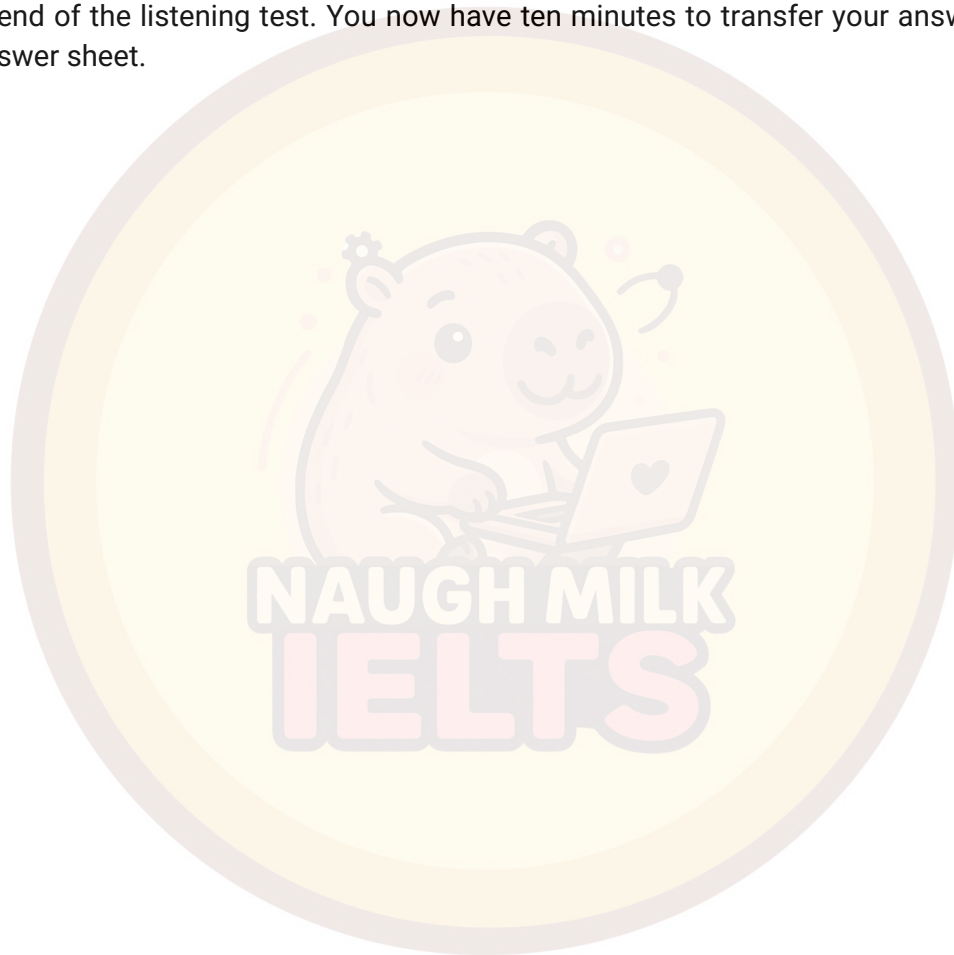

desert surface from above. Thanks to this modern technology, they've identified several new designs, one of which is a remarkable portrait that appears to show a human face. It's quite surprising because most of the older patterns were animals or geometric forms, not people. Unfortunately, this ancient site has begun to suffer from modern human activity. With more visitors arriving each year, the area is becoming damaged by the heavy footprint of tourism. Even though local authorities are trying to limit access, vehicles and careless visitors still pose a serious risk to the preservation of the lines.

[Speaker 1] [6:12 → 6:18]

That is the end of section four. You now have half a minute to check your answers.

[Speaker 1] [6:48 → 6:56]

That is the end of the listening test. You now have ten minutes to transfer your answers to the listening answer sheet.

Câu 1: hospital

- Trích đoạn: "Well, I work in a **hospital** near the town."
- Hướng dẫn: Khi nhân viên hỏi nơi làm việc, người mẹ xác nhận mình làm việc tại một bệnh viện (hospital) gần thị trấn. Chữ "the" đã có sẵn trên đề bài nên bạn chỉ cần điền "hospital".

Câu 2: uncle

- Trích đoạn: "And do you have other people who will pick up your children... Their **uncle** would do so."
- Hướng dẫn: Khi được hỏi có ai khác sẽ đón bạn trẻ trong trường hợp cô bạn không, người mẹ trả lời chú/bác (uncle) của chúng sẽ làm việc đó.

Câu 3: Thursday

- Trích đoạn: "I think it's only **Thursday** because I have to go to another city to work on that day."
- Hướng dẫn: Audio có nhắc đến Monday (thứ Hai) và Tuesday (thứ Ba), nhưng đó là những ngày người mẹ làm việc ở nhà và tự chăm sóc con. Ngày thực sự cần sử dụng dịch vụ trông trẻ là thứ Năm (Thursday).

Câu 4: week

- Trích đoạn: "Just to let you know, our fee structure operates on a **weekly** basis..."
- Hướng dẫn: Nhân viên thông báo cấu trúc học phí được thu theo tuần ("on a weekly basis" mang nghĩa tương đương với "every week"). Giới hạn của đề bài là 1 từ ("ONE WORD ONLY") nên đáp án chính xác là "week".

Câu 5: 9 / nine

- Trích đoạn: "...she will be nine in the next three weeks, but currently, she is eight. So I will put **nine** down."
- Hướng dẫn: Người mẹ nói con gái hiện tại 8 tuổi, nhưng sẽ sang 9 tuổi trong 3 tuần tới. Người nhân viên quyết định sẽ chốt ghi vào hồ sơ độ tuổi là 9 (nine). Bạn cần lưu ý để không bị lừa bởi số 8.

Câu 6: eggs

- Trích đoạn: "However, Andrea cannot eat foods with **eggs** because she has allergy to it..."
- Hướng dẫn: Chuyển sang cột thức ăn không thể ăn, mẹ bé cho biết Andrea không thể ăn các món có chứa trứng (eggs) vì bị dị ứng.

Câu 7: fruits

- Trích đoạn: "...whereas my son Thompson doesn't like to eat **fruits**."
- Hướng dẫn: Đối với bé trai Thompson, mẹ bé nói rằng cậu không thích ăn các loại trái cây (fruits), thay vào đó cậu thích uống nước ép hơn.

Câu 8: book / books

- Trích đoạn: "He likes giving **books** to other children as a **gift**..."
- Hướng dẫn: Trong mục sở thích, bé Thompson có sở thích tặng sách (books) cho những đứa trẻ khác như một món quà. (Đề bài có mao từ "a...", nhưng dựa theo phát âm của audio thì điền số ít "book" để hợp ngữ pháp hay số nhiều "books" bám sát audio đều sẽ được chấp nhận).

Câu 9: dancing

- Trích đoạn: "I expect a **dancing** class for my daughters..."
- Hướng dẫn: Người mẹ mong muốn đăng ký lớp học khiêu vũ/nhảy (dancing) cho hai cô con gái (Laura và Andrea).

Câu 10: tennis

- Trích đoạn: "I'm considering between playing **tennis** and guitar. Which class is available now? The **former**."
- Hướng dẫn: Câu này đòi hỏi một chút suy luận. Khách hàng phân vân giữa lớp quần vợt (tennis) và guitar. Nhân viên trả lời lớp có sẵn hiện tại là "the former" (từ này dùng để chỉ yếu tố được nhắc đến đầu tiên trong một cụm 2 yếu tố), tức là môn tennis.

Câu 11

- **Đáp án:** money
- **Hướng dẫn:** Mục tiêu của chương trình không phải là từ thiện, mà là giúp các doanh nhân triển vọng có thể kiếm tiền trong khi đi du lịch. (Giới hạn "ONE WORD ONLY").
- **Trích đoạn:** "...It is not a charity but a for profit company that enables promising entrepreneurs to **make money** while traveling."

Câu 12

- **Đáp án:** school
- **Hướng dẫn:** Công ty có sự hợp tác với nhà trường (partnership with = in cooperation with) và nhận một số lượng lớn sinh viên mới tốt nghiệp từ trường kinh doanh.
- **Trích đoạn:** "We have a **partnership with the school** and take a large number of recent graduates from the business school."

Câu 13

- **Đáp án:** E
- **Hướng dẫn:** Nếu chọn đi Mỹ, bạn phải cam kết theo một lịch trình cố định và cứng nhắc từ tháng 8 đến tháng 12. Điều này tương ứng với một khoảng thời gian cụ thể (specific time period).
- **Trích đoạn:** "...choose from multiple locations as long as you can commit to their more rigid **schedule of August to December.**"

Câu 14

- **Đáp án:** C
- **Hướng dẫn:** Đối với kỳ thực tập tại Úc, bạn phải sẵn sàng cam kết một khoảng thời gian tối thiểu là 8 tháng (minimum time requirement).
- **Trích đoạn:** "You do have to be willing to **commit eight months** for that one, though."

Câu 15

- **Đáp án:** F
- **Hướng dẫn:** Ở Nam Phi, bạn sẽ học được nhiều điều về canh tác bền vững và phải làm các công việc chân tay để duy trì trang trại. Điều này tương ứng với lĩnh vực nông nghiệp (agriculture).
- **Trích đoạn:** "You learn a lot about **sustainable farming**, but you would be doing some of the manual labor involved in maintaining a **farm.**"

Câu 16

- **Đáp án:** A
- **Hướng dẫn:** Kỳ thực tập ở Ấn Độ mang lại cảm giác giống như đi du học vì họ sẽ sắp xếp cho bạn ở chung với một gia đình bản xứ (host family = homestay).
- **Trích đoạn:** "This one gives you more of a study abroad feel, given that they **arrange a host family** for you to stay with."

Câu 17

- **Đáp án:** C
- **Hướng dẫn:** Bạn sẽ nhận được chứng chỉ đi lại toàn cầu miễn là bạn có thể giải thích/nói về trải nghiệm của mình (explain your experience). Việc viết nhật ký mỗi ngày chỉ là gợi ý (recommend) và có thể thay bằng tóm tắt hàng tuần (loại A), đồng thời cũng không bắt buộc phải viết báo cáo chính thức (loại B). Do đó C là đáp án đúng nhất.
- **Trích đoạn:** "...at the end of the program, you get a global traveling certificate **as long as you can explain your experience.**"

Câu 18

- **Đáp án:** B
- **Hướng dẫn:** Bạn cần nộp đơn xin cấp chứng chỉ ngay khi đang chuẩn bị cho việc trở về (prepare to return). Tức là lúc đó bạn vẫn đang trong chuyến đi chứ chưa thực sự về nước (while on the trip).
- **Trích đoạn:** "...and you need to **apply for it once you prepare to return.**"

Câu 19

- **Đáp án:** B
- **Hướng dẫn:** Bạn sẽ trả trước 2/3 chi phí như một khoản cọc, và sau đó thanh toán phần còn lại (final installment) vào thời điểm 1 tháng trước khi bạn trở về.
- **Trích đoạn:** "...and then **give the final installment one month prior to your return.**"

Câu 20

- **Đáp án:** A
- **Hướng dẫn:** Trước khi đi, bạn bắt buộc phải kiểm tra sức khỏe để đảm bảo không mang các bệnh truyền nhiễm. Bạn không cần tham gia bất kỳ hội thảo nào (loại B) và bạn sẽ chỉ gặp những người làm việc cùng sau khi đã đến nơi (loại C). (*Lưu ý: đề bài in chữ "Before your application" có thể là lỗi type của người ra đề, ý thực sự là "before you go" như trong audio.*)
- **Trích đoạn:** "Finally, I have to remind you that you **need a health check before you go** to make sure you're not going to spread any communicable diseases."

Câu 21: A

- **Trích đoạn:** "Most of the **information about him came from his wife's writings.**"
- **Hướng dẫn:** Tina chia sẻ rằng hầu hết thông tin về tiểu sử của De Wint đều bắt nguồn từ những bài viết của vợ ông. Điều này hoàn toàn khớp với đáp án A (Những chi tiết tiểu sử chính do vợ ông cung cấp).

Câu 22: C

- **Trích đoạn:** "But he had this idea that his paintings were **signed all over**, as he put it, because they were **distinctly in his hand.**"
- **Hướng dẫn:** Dave giải thích rằng De Wint coi những bức tranh của mình như đã được "ký tên ở khắp mọi nơi", bởi vì phong cách vẽ đặc trưng của riêng ông ("distinctly in his hand") đã quá đủ để nhận diện. Tina cũng đồng tình rằng việc ký tên là không cần thiết. Điều này khớp với đáp án C (Ông cho rằng phong cách vẽ đã giúp nhận diện các tác phẩm là của mình).

Câu 23: C

- **Trích đoạn:** "What the professor objected to was how **inaccurately they represented the subject matter.**"
- **Hướng dẫn:** Vị giáo sư phản đối/không tán thành các bức tranh khắc vì chúng khắc họa các tòa nhà một cách không chính xác (inaccurately). Điều này có nghĩa là các bức tranh không giống với các tòa nhà thực tế ("weren't close likenesses of the actual buildings"), tương ứng với đáp án C.

Câu 24: B

- **Trích đoạn:** "...other artists at that time would go and paint mountains... They **wouldn't have seen much potential there, but DeWint managed to uncover all this great subject matter** in little villages."
- **Hướng dẫn:** Trong khi các họa sĩ khác không thấy nhiều tiềm năng ở vùng Lincoln (vì địa hình bằng phẳng), De Wint lại có thể khám phá và tìm thấy rất nhiều chủ đề tuyệt vời để vẽ ở các ngôi làng nhỏ tại đây. Điều này khớp với đáp án B (Ông tìm thấy nhiều thứ để vẽ ở đó hơn các họa sĩ khác).

Câu 25: A

- **Trích đoạn:** "But if you look at a breakdown of the places featured in his pictures, **Lincoln doesn't feature as highly** as you might think. He **did more of places like the Lake District.**"
- **Hướng dẫn:** Dave không cho rằng De Wint là "họa sĩ của Lincoln" bởi vì nếu thống kê lại các địa danh trong tranh của ông, Lincoln không xuất hiện nhiều như mọi người nghĩ. Ông vẽ về các nơi khác như Lake District nhiều hơn. Khớp với đáp án A (Khá ít tranh của De Wint là về Lincoln).

Câu 26: C

- **Trích đoạn:** "We still need to see if that theory stands up to scrutiny. I think you're being **excessively trusting of Lord.**"
- **Hướng dẫn:** Tina chỉ trích Dave vì đã quá tin tưởng ("excessively trusting") vào giả thuyết của học giả John Lord mà chưa có sự kiểm chứng kỹ càng. Việc "quá tin tưởng" này đồng nghĩa với "chấp nhận ý kiến của một học giả quá dễ dàng" (accepting one scholar's opinions too readily - đáp án C).

Câu 27: E

- **Trích đoạn:** "...he painted the **ruined castle** and the **nearby village, which was built much later.** He seems to be **emphasizing the difference between them.**"
- **Hướng dẫn:** Bức tranh lâu đài Torksey vẽ một lâu đài đổ nát bên cạnh một ngôi làng được xây dựng sau này rất nhiều. De Wint dường như muốn nhấn mạnh sự khác biệt

giữa hai thời kỳ. Điều này ứng với đáp án E (làm nổi bật sự tương phản giữa quá khứ và hiện tại).

Câu 28: D

- **Trích đoạn:** "It was, in all likelihood, just done to **showcase his technique to one of his pupils.**"
- **Hướng dẫn:** Bức tranh tĩnh vật (Still Life) rất có thể chỉ được vẽ để trình diễn/khoe kỹ thuật của ông cho một trong những học trò (pupils) của mình xem. Điều này đồng nghĩa với việc nó được dùng như một công cụ hỗ trợ giảng dạy (teaching aid - đáp án D).

Câu 29: A

- **Trích đoạn:** Tina: "It makes living in a village seem really **idyllic.**" | Dave: "I imagine things **weren't quite as perfect as they look** there."
- **Hướng dẫn:** Bức tranh The Cricketers làm cho cuộc sống ở ngôi làng trở nên thật bình dị và thi vị (idyllic), nhưng thực tế thì mọi thứ không hoàn hảo như trong tranh. Việc khắc họa bức tranh làng quê quá hoàn hảo so với thực tế chính là mang "góc nhìn lý tưởng hóa về cuộc sống nông thôn" (an idealised view of rural life - đáp án A).

Câu 30: B

- **Trích đoạn:** "...it's quite plausible that he actually **witnessed the event and then went back and did it in his studio later.**"
- **Hướng dẫn:** Đối với bức tranh Vụ cháy Tòa nhà Quốc hội, Tina cho rằng rất có thể ông đã chứng kiến sự kiện đó rồi quay về xưởng vẽ để vẽ lại sau. Việc vẽ lại một sự kiện sau khi đã chứng kiến chính là vẽ từ trí nhớ (painted from memory - đáp án B).

Câu 31: desert

- **Trích đoạn:** "...they actually lie deep in a remote **desert** area in Southern Peru."
- **Hướng dẫn:** Đề bài yêu cầu tìm vị trí ở Peru ("Peruvian..."). Audio nhắc đến một khu vực sa mạc hẻo lánh ở miền Nam Peru ("Southern Peru"). Từ cần điền là "desert" (sa mạc).

Câu 32: tools

- **Trích đoạn:** "They relied on very basic **tools** to create these enormous figures."
- **Hướng dẫn:** Đề bài dùng từ "simple" (đơn giản). Trong audio, người nói dùng cụm tương đương là "very basic" để mô tả các công cụ ("tools").

Câu 33: straight

- **Trích đoạn:** "They then pulled long ropes tight between those posts to mark out perfectly **straight** paths over the desert surface."

- **Hướng dẫn:** Đề bài hỏi họ đã tạo ra những đường ("lines") như thế nào bằng cách căng dây. Audio nói họ đánh dấu những con đường/đường nét hoàn toàn thẳng ("straight paths"). Từ cần điền là "straight".

Câu 34: natural

- **Trích đoạn:** "...they mainly relied on ropes made from cotton fibers. These **natural** materials allowed them to take exact measurements..."
- **Hướng dẫn:** Đề bài cần một từ bổ nghĩa cho dây thừng làm từ bông ("cotton ropes"). Audio nói họ dựa vào dây thừng làm từ sợi bông ("ropes made from cotton fibers") và gọi đây là những vật liệu tự nhiên ("natural materials") giúp họ đo lường chính xác ("exact measurements" = "precise measurement"). Từ cần điền là "natural".

Câu 35: soil

- **Trích đoạn:** "The artist cleared those rocks away to expose the lighter colored **soil** hidden below."
- **Hướng dẫn:** Đề bài nhắc đến việc loại bỏ đá tối màu để lộ ra cái gì đó sáng màu bên dưới. Trong audio, "expose" bằng nghĩa với "reveal", "lighter colored" bằng với "light", và "hidden below" tương đương với "underneath". Thứ được làm lộ ra là đất ("soil").

Câu 36: medicine (hoặc healing)

- **Trích đoạn:** "Local people believed these creatures had spiritual powers connected with **healing** and traditional **medicine**."
- **Hướng dẫn:** Đề bài nói các hình động vật được liên kết ("linked to" = "connected with") với cái gì trong các nghi lễ địa phương ("ceremonies"). Audio đề cập đến việc chữa lành ("healing") và y học truyền thống ("traditional medicine"). Do giới hạn ONE WORD ONLY, bạn có thể điền "medicine" hoặc "healing" đều đúng.

Câu 37: floodwaters

- **Trích đoạn:** "...basically channels designed to stop **floodwaters** from ruining nearby crops."
- **Hướng dẫn:** Đề bài ghi lý thuyết cho rằng các kênh đào giúp ngăn chặn ("prevent") thiệt hại ("damage"). Audio dùng cụm "stop... from ruining", và nguyên nhân gây thiệt hại cần ngăn chặn là nước lũ ("floodwaters").

Câu 38: insects

- **Trích đoạn:** "The heat and dryness help to preserve the dark outer coating caused by dead **insects** and oxidized stones."
- **Hướng dẫn:** Đề bài nhắc đến khí hậu khô hạn bảo tồn màu đen/lớp phủ tối màu của cái gì. Audio đề cập đến lớp phủ ngoài tối màu ("dark outer coating" - tương đương "the

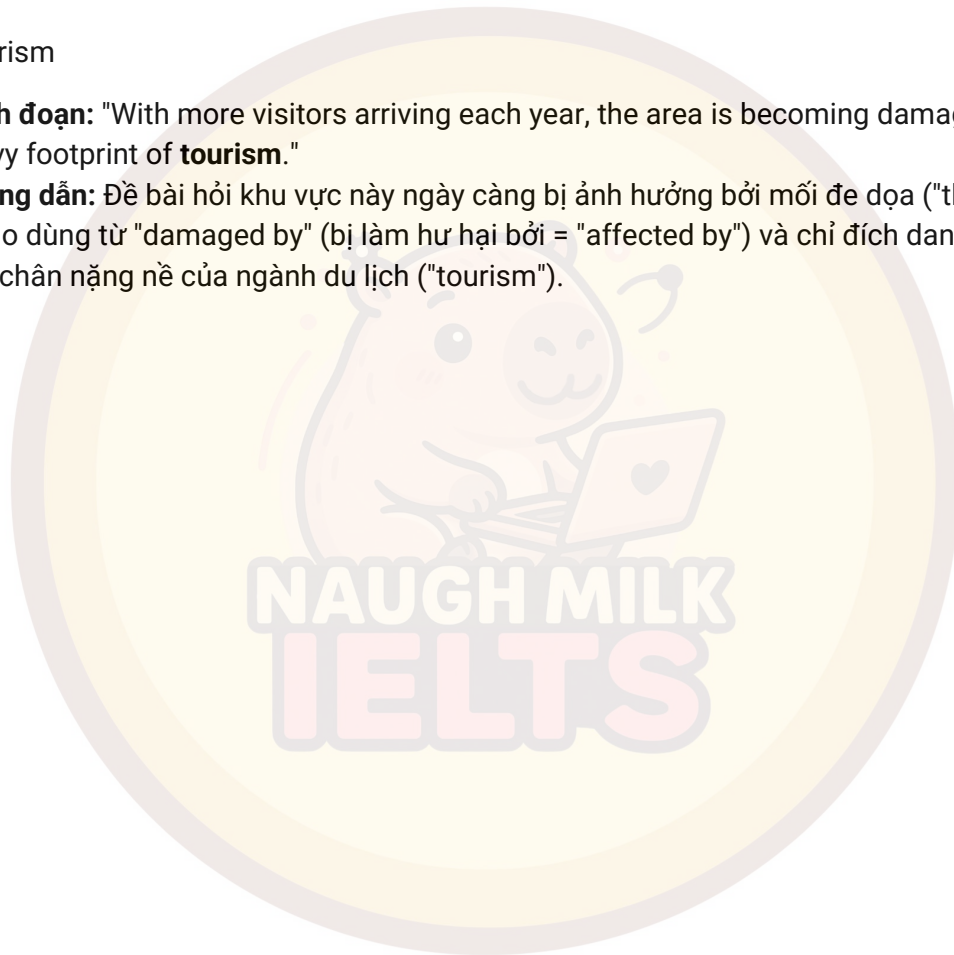

black of") được tạo ra bởi xác côn trùng chết ("dead insects") và đã bị oxy hóa. Từ cần điền là "insects".

Câu 39: portrait

- **Trích đoạn:** "...they've identified several new designs, one of which is a remarkable **portrait** that appears to show a human face."
- **Hướng dẫn:** Đề bài nhắc đến một cái gì đó hiếm gặp/đáng chú ý ("rare") về khuôn mặt người ("of a human face"). Audio sử dụng từ "remarkable" (đáng chú ý) và chỉ ra đó là một bức chân dung ("portrait").

Câu 40: tourism

- **Trích đoạn:** "With more visitors arriving each year, the area is becoming damaged by the heavy footprint of **tourism**."
- **Hướng dẫn:** Đề bài hỏi khu vực này ngày càng bị ảnh hưởng bởi mối đe dọa ("threat") gì. Audio dùng từ "damaged by" (bị làm hư hại bởi = "affected by") và chỉ đích danh là do dấu chân nặng nề của ngành du lịch ("tourism").

NAUGH MILK
IELTS

TRANSCRIPT TEST 10
PART 1

[Speaker 1] [0:00 → 0:05]

The audio and test copyright belong to the Naugh Milk IELTS website.

[Speaker 2] [0:05 → 0:51]

IELTS listening. Version three zero seven eight one. You will hear a number of different recordings, and you will have to answer questions on what you hear. There will be time for you to read the instructions and questions, and you will have a chance to check your work. All the recordings will be played once only. The test is in four parts. Write all your answers in the listening question booklet. At the end of the test, you will be given ten minutes to transfer your answers to an answer sheet. Now turn to part one on page two of your question booklet.

[Speaker 2] [0:56 → 1:09]

Part one. You will hear a reporter from a community newspaper phoning a woman who is organizing a local fair. First, you have some time to look at questions one to six.

[Speaker 2] [1:39 → 1:44]

Now listen carefully and answer questions one to six.

[Speaker 3] [1:47 → 1:48]

Good morning. Is that miss Flint?

[Speaker 4] [1:49 → 1:50]

Yes. Speaking.

[Speaker 3] [1:51 → 2:03]

It's Rick Graham here from the community newspaper. We want to print an article about the local fair to encourage more people to come. Could I ask you a few questions about the event?

[Speaker 4] [2:03 → 2:04]

Yes. Of course.

[Speaker 3] [2:05 → 2:11]

So the fair's on Saturday, isn't it? And I know that every year the fair raises money for something local.

[Speaker 4] [2:12 → 2:23]

Yes, that's right. Last year we were able to help the school, and this time, after careful thought, we've decided to support the hospital because that's obviously important. Okay.

[Speaker 3] [2:24 → 2:30]

I'll make a note of that. And then in terms of attendance, how many people do you think will come?

[Speaker 4] [2:30 → 2:44]

Well, it depends a bit on the weather. If it rains for twenty four hours before the event, it does put some people off. But in the past, we've had approximately 3,000 visitors, and I expect it'll be roughly the same this time.

[Speaker 3] [2:45 → 2:50]

So that's why you need a big venue. It's at Battersby Park. Right?

[Speaker 4] [2:50 → 2:52]

Yes. It's the same place every year.

[Speaker 3] [2:53 → 2:58]

I'm actually new to the area. Could you spell that for me? Sure. It's Battersby,

[Speaker 4] [2:59 → 3:04]

B A, T T, E R S B Y. Great. Thanks.

[Speaker 3] [3:05 → 3:10]

Okay. So if my readers come to the fair, what sort of activities can they do?

[Speaker 4] [3:11 → 3:36]

Well, we've got lots of things. One example is what we're calling the swap shop. Children can bring in a toy from home that they don't want anymore and exchange it for something else. That's a good idea. Then in the afternoon there's going to be a basketball competition. That's mixed teams, boys and girls. After that, we'll be doing the same thing again, but this time it'll be soccer. Unfortunately,

[Speaker 3] [3:36 → 3:46]

the cricket pitch is closed for maintenance at the moment. I'll mention that in the article. And then anything else, what can I tell people that'll really make them want to come to the fair?

[Speaker 4] [3:47 → 4:16]

Well, for the first time this year, we'll have some classic vehicles for you to ride in. One of the highlights is you'll be able to ride right around the park in an ambulance. It was built in the 1950s, so it's a chance to experience how they did things in the past. That should be quite exciting, with the lights flashing and bells going. Exactly. Then we've also got an international visitor coming, Kiko Mahara, who's going to be running a workshop on making models.

[Speaker 3] [4:17 → 4:23]

Oh, I've heard of her. She uses paper to create the most amazing little animals, planes, all sorts of things.

[Speaker 4] [4:24 → 4:27]

That's right. I think it'll be a lot of fun.

[Speaker 2] [4:30 → 4:36]

Before you hear the rest of the conversation, you have some time to look at questions seven to 10.

[Speaker 2] [4:57 → 5:00]

Now listen and answer questions seven to 10.

[Speaker 4] [5:03 → 5:38]

Then there are also things to buy because of course we're trying to raise money. So for example? Well, starting in the main tent, this is the place you want to come if you're looking for previously owned clothing. There'll be a good range, but no shoes this time it's just too difficult to keep them in pairs. Okay. Then down by the playground there'll be coffee for sale all day. It makes a nice break from the shopping, and we always do really well with that. Sandwiches and hot food are by the duck pond. Okay.

[Speaker 3] [5:38 → 5:39]

Got that.

[Speaker 4] [5:39 → 5:53]

Is there anything else, missus Flint? Well, we're trying something new this year, and it's going to be around the fountain. This one will interest the gardeners because we're going to sell a range of plants there. It's a bit of an experiment.

[Speaker 3] [5:54 → 5:56]

I'm sure it'll be a success.

[Speaker 4] [5:56 → 6:05]

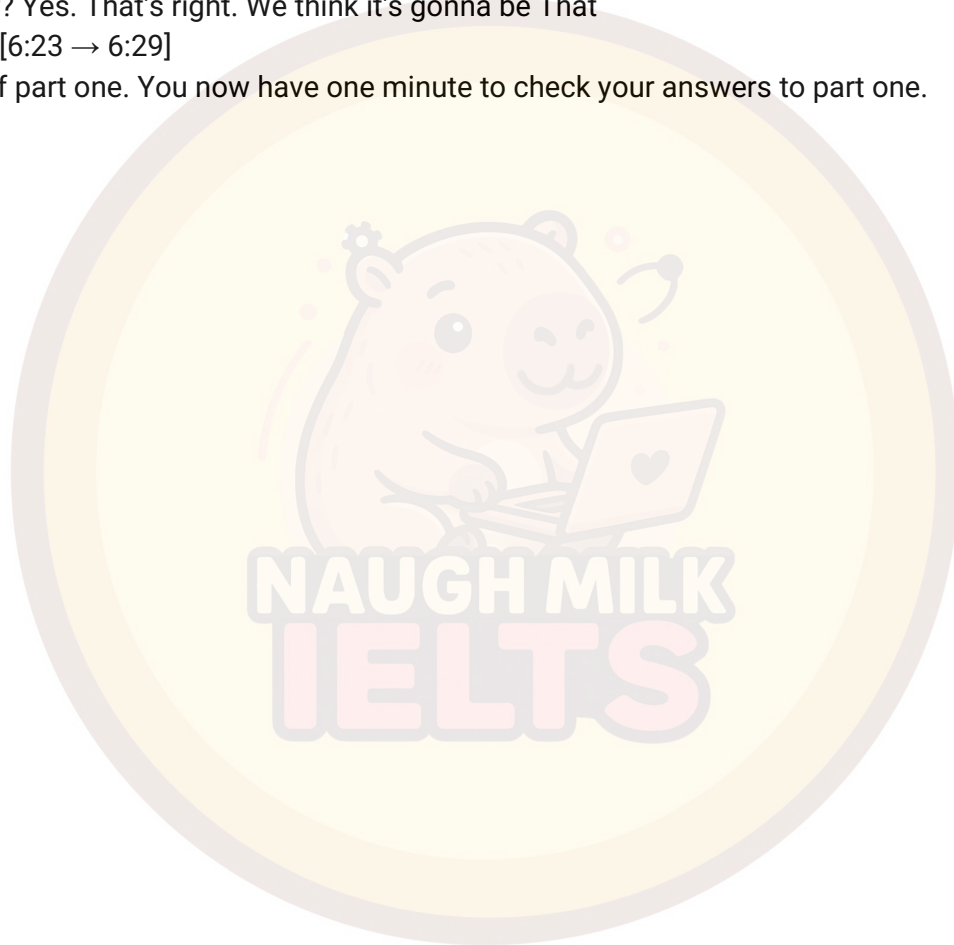

Oh, just one more thing. We're always looking for more volunteers to help run the fair. So could you ask people who want to volunteer to phone me?

[Speaker 3] [6:05 → 6:20]

Yeah. Sure. What's the number, missus Friend? It's 02745489017. And you're happy for that to go in the paper? Yes. That's right. We think it's gonna be That

[Speaker 2] [6:23 → 6:29]

is the end of part one. You now have one minute to check your answers to part one.

PART 2

[Speaker 1] [0:00 → 0:10]

Part two. You will hear a woman introducing a new fitness center to the local residents. First, you have some time to look at questions 11 to 15.

[Speaker 1] [0:33 → 0:37]

Now listen carefully and answer questions 11 to 15.

[Speaker 2] [0:38 → 2:42]

Good morning, everyone. We are gathered today for the unveiling of our new fitness center. Our business started in 2006 when we recognized the need for a new modern and affordable fitness center for those living in the area. We pulled resources together and started a small centre just off this road to your left. We have been there over the years until we decided we needed more room and more facilities due to the increasing numbers. This new facility is estimated to contain at least a thousand people at a time and is equipped with the latest state of the art fitness facilities you can think of. From the entrance, just to your right, you would get to the meeting room where we hold team meetings sometimes. In the past, our customers usually came in through the West Gate and went to the first room on their left to exercise. Well, this room used to be the gym room, but now it's the women's fitting room. Our female customers can change and try on clothes there. The gym room would be the big room on your right as you enter from the West Gate. It houses state of the art gym equipment as well as provides an arena for working out. At the top right corner of the map, we have the men's fitting room where men can change with some privacy. Some squash members say they would like to have classes at the room between two fitting rooms as it would be more convenient to change after sweating. Well, we will have a discussion about it and inform you if any changers happen. Now our squash court is still at the other wing, situated directly opposite the West Gate. The larger building behind it is the largest in the state for skating courses.

[Speaker 1] [2:43 → 2:55]

It provides adequate conditioning and the properly selected tracks for beginners. Before you hear the rest of the talk, you have some time to look at questions 16 to 20.

[Speaker 1] [3:18 → 3:22]

Now listen and answer questions 16 to 20.

[Speaker 2] [3:22 → 5:30]

Why invest a lot in fitness and sports? Well, we have observed that in our society, the rate at which people develop preventable diseases is alarming. Statistics show that there is a very strong link between sedentary lifestyle and these diseases. We have set up this centre to correct and combat it while making sure it is open accessible and affordable to all. To develop overall strength in the individual, the fitness machines are built to help those who always complain of muscle weakness to overcome their challenges. We also have rooms for mat exercises. Many people always think that such exercises are only good for limbs and shoulders. Well, actually for anyone who wants to have a flexible body, these exercises such as plank and crunches are a good choice. You don't need any high end fitness equipment. We also have an expanse of space just behind the building that we use for cycling exercises. This sport is good to help develop strength in the legs, and it is equally a good way of freeing the mind. Many members hope that such exercises will help them

lose weight. I'm afraid they don't work that way. We offer aerobics for those interested in raising their heart rate. It is a great sport to train your mind and also makes blood flow more efficient and faster. Contrary to what most people think, weight training does little to help you lose weight, but it does help you develop solid mental coordination and to stay focused without getting distracted so easily. So as we unveil this center today, we're glad that you can also be a part of this step in the right direction. Thank you all for honoring us.

[Speaker 1] [5:30 → 5:35]

That's the end of part two. You now have half a minute to check your answers.

PART 3

[Speaker 1] [0:00 → 0:12]

Section three. You will hear a tutor and two students discussing the crop rice. First, you have some time to look at questions 21 to 24.

[Speaker 1] [0:27 → 0:29]

Now listen carefully

[Speaker 2] [0:35 → 0:52]

morning, everyone. So following on from our tutorial on European agriculture last week, Davy and Eric are going to talk about the most commonly grown crop in Asia, which is, of course, rice. Eric, can you tell us what you've been working on? Yes, sure.

[Speaker 3] [0:52 → 1:10]

We've been looking at the role of rice in a number of countries how it's grown, ways of increasing production. As I'm sure you know, rice is the staple diet throughout Asia, and, in fact, 90% of the world's rice is grown and eaten there. Daisy's got some background on that.

[Speaker 4] [1:11 → 1:37]

Well, rice was originally a wild plant which started out in the tropical regions of Asia, but there are literally hundreds of varieties today, and each with different qualities. For instance, one will survive floods, while another will grow in relatively dry conditions. A third has a really lovely smell. But wherever it grows, rice needs a lot of water.

[Speaker 2] [1:38 → 1:42]

What do you mean by a lot? Well, it takes about 5,000

[Speaker 3] [1:42 → 1:57]

litres to get a kilogram of rice. This can be supplied either naturally or by irrigation. And as most rice growing countries suffer from unpredictable weather, including drought, water management really is the key.

[Speaker 4] [1:57 → 2:44]

Research has become so important now that each rice growing country in Asia has its own research institute, whether we're talking about Japan, China or Bangladesh, and they're all coordinated by a group in The Philippines called the International Rice Research Institute. Interesting. Bangladesh, for instance, has been successfully using different rice varieties and fertilisers for thirty years, but because it's such a flat, Delta country, it's very difficult for the water to drain away after the monsoon season, so they need to find special rice crops that can survive the floods, and with global warming the situation is more urgent than ever.

[Speaker 1] [2:48 → 2:54]

Before you hear the rest of the discussion, you have some time to look at questions 25 to 30.

[Speaker 1] [3:09 → 3:13]

Now listen and answer questions 25 to 30.

[Speaker 3] [3:17 → 3:35]

Now I'd like to move on to our comparative study. As you can imagine, China is the world's biggest rice producing country. Collectively, the Chinese people probably eat more than 3,000,000,000 bowls of rice every day. Quite a statistic. And of course, rice plays an important cultural role too.

[Speaker 4] [3:36 → 3:52]

We then compared China to Thailand. You know, even though Thailand only has about 64,000,000 people, it's the world's number one exporter of rice not China, as you might imagine. Is that so? Yes.

[Speaker 3] [3:52 → 4:10]

They send their rice everywhere, in particular to Europe as well as Africa and The Middle East. Apparently, the fact that jasmine rice is growing in popularity is one reason why Thailand's rice export industry is doing so well. People want something a bit different.

[Speaker 4] [4:10 → 4:18]

And of course Thailand is well suited to rice growing good climatic conditions and lots of fresh water.

[Speaker 3] [4:19 → 4:42]

Going back to China for a minute, we should mention that at the Rice Research Institute in Guangzhou, they're working on ways of improving rice yields using less water. By yields, you mean the amount they can grow? Yes. They're trying to find ways to get more rice from less land, improve the taste, but also have other things in it besides carbohydrates,

[Speaker 2] [4:42 → 4:47]

so that it's healthier, better for you. Good idea, considering it's the staple food.

[Speaker 3] [4:47 → 5:00]

And then you've got Japan, which is totally self sufficient when it comes to rice. This is basically because they have a high tariff on imported rice, so everyone buys the home grown product, and they don't export much.

[Speaker 4] [5:00 → 5:13]

Yes, but you know, even though rice is a kind of sacred crop there, consumption is only half what it was in the 1960s. This trend isn't evident in Thailand or China.

[Speaker 2] [5:13 → 5:17]

Interesting that you mentioned how rice is almost sacred in Japan,

[Speaker 4] [5:17 → 5:34]

because I believe in Thailand it also plays an important cultural role. Absolutely. They have the Royal Ploughing Ceremony every year, which the king always attends, and he actually scatters a new stock of seed to the farmers, who pour into Bangkok for the event.

[Speaker 2] [5:35 → 5:39]

What about the global interest in organic farming?

[Speaker 3] [5:39 → 6:08]

Is there such a thing as organically grown rice? Yes, indeed. And the Japanese are getting quite a taste for it, apparently. There's an experimental farm near the city of Akita in the Japanese rice belt, famous for its sake, by the way, which has pioneered organic rice production, and now it's sold all across the country. It's a bit like the recent popularity of jasmine rice in Thailand, but that's for the export market, of course. Interesting how attitudes change, isn't it?

[Speaker 1] [6:11 → 6:16]

That is the end of section three. You now have half a minute to check your answers.

[Speaker 1] [6:46 → 6:48]

Now turn to section four.

PART 4

[Speaker 1] [0:00 → 0:16]

Part four. You will hear a talk given by a lecturer about cloud science, which is about the origins of studying clouds and other aspects associated with it. First, you have some time to look at questions 31 to 40.

[Speaker 1] [1:01 → 1:06]

Now listen carefully and answer questions 31 to 40.

[Speaker 2] [1:07 → 4:34]

Today, we're exploring the fascinating history and implications of cloud science. This field has had a profound impact on meteorology, culture, and even human psychology. Let's start by going back to the early nineteenth century when the first major strides in cloud classification were made. A British scientist laid the foundation of modern cloud science by introducing a system to categorize clouds based on their shapes. He identified three main types. One of them, which he called cumulus, was noted for its towering vertical appearance and likened to a tower because of its cone shaped form that stretches high into the atmosphere. Another type, in contrast, was more spread out and flat, resembling a sheet that blankets the sky. This innovative classification helped scientists understand atmospheric behavior, but it wasn't without criticism. Many scholars questioned the terminology he used as it mixed Latin and English. Some critics argued that his language choices were awkward and reflected his challenges as a non native English speaker. Despite these initial hurdles, the scientist became widely celebrated for his work. He even turned to the arts, composing poetry that reflected his admiration for clouds, blending his scientific insights with a deep appreciation for their beauty. Moving beyond its scientific origins, the study of clouds began influencing cultural and artistic movements, especially in Britain. The newly established system of cloud classification had a significant impact on Romantic era painters who started incorporating intricate cloud formations into their landscapes. This was a powerful example of how scientific observation could inspire creativity. Meanwhile, scientists of the time sought practical applications for their newfound knowledge. They experimented with altering weather patterns, attempting to increase rainfall or even create fog in controlled environments. To achieve these goals, they employed innovative methods such as launching rockets filled with substances intended to influence atmospheric conditions. As we move into the twentieth century, cloud science continued to evolve, but not without challenges. One of the most notable experiments involved using silver iodide to seed clouds and encourage rainfall. However, this practice raised environmental concerns. For instance, in Australia, researchers discovered that a lake had been polluted as a direct result of these activities, sparking debates about the sustainability of weather modification. In response, scientists began exploring alternative approaches. One promising method involves using salt particles instead of chemicals, which poses less risk to ecosystems while achieving similar results. Lastly, cloud science has shed light on the relationship between weather and human behavior. Recent studies have revealed that changes in atmospheric conditions can significantly affect cognitive functions. For example, shifts in humidity or temperature have been shown to influence people's memory, either enhancing or impairing it depending on the circumstances. This underscores the interconnectedness of our environment, our minds, and the skies above.

[Speaker 1] [4:34 → 4:36]

That is the end of part four.

[Speaker 1] [4:41 → 4:47]

That is the end of section four. You now have half a minute to check your answers.

[Speaker 1] [5:17 → 5:25]

That is the end of the listening test. You now have ten minutes to transfer your answers to the listening answer sheet.

Câu 1: hospital

- Trích đoạn: "...we've decided to support the **hospital** because that's obviously important."
- Hướng dẫn: Người tổ chức cho biết năm ngoái họ quyên tiền cho trường học, nhưng năm nay sau khi suy nghĩ kỹ, họ quyết định hỗ trợ cho bệnh viện (hospital).

Câu 2: Battersby

- Trích đoạn: "It's **Battersby, B A, T T, E R S B Y.**"
- Hướng dẫn: Phóng viên hỏi cách đánh vần tên công viên vì anh ấy mới chuyển đến khu vực này. Bạn chỉ cần chú ý lắng nghe và chép lại chính xác từng chữ cái.

Câu 3: toy

- Trích đoạn: "Children can bring in a **toy** from home that they don't want anymore and exchange it for something else."
- Hướng dẫn: Tại gian hàng "swap shop", trẻ em có thể mang một món đồ chơi (toy) không dùng nữa từ nhà đến để trao đổi (exchange đồng nghĩa với swap) lấy một món đồ khác.

Câu 4: soccer

- Trích đoạn: "Then in the afternoon there's going to be a basketball competition... After that, we'll be doing the same thing again, but this time it'll be **soccer.**"
- Hướng dẫn: Vào buổi chiều sẽ diễn ra giải đấu bóng rổ, và ngay sau đó là môn bóng đá (soccer). Audio có nhắc thêm sân cricket hiện đang đóng cửa để bảo trì nên bạn đừng để bị lừa nhé.

Câu 5: ambulance

- Trích đoạn: "...you'll be able to ride right around the park in an **ambulance.** It was built in the 1950s..."
- Hướng dẫn: Hội chợ có những phương tiện cổ điển (classic vehicles) và một trong những điểm nhấn là người tham gia có thể đi vòng quanh công viên trên một chiếc xe cứu thương (ambulance) được sản xuất từ những năm 1950.

Câu 6: paper

- Trích đoạn: "She uses **paper** to create the most amazing little animals, planes, all sorts of things."
- Hướng dẫn: Chuyên gia Kiko Mahara sẽ tổ chức một buổi hội thảo (workshop) hướng dẫn làm các mô hình (động vật, máy bay...) cực kỳ thú vị bằng giấy (paper).

Câu 7: clothing

- Trích đoạn: "...starting in the main tent, this is the place you want to come if you're looking for previously owned **clothing**."
- Hướng dẫn: Tại lều chính (main tent), họ sẽ bán đồ đã qua sử dụng (previously owned đồng nghĩa với second-hand). Cụ thể ở đây là quần áo (clothing). Audio có nhắc đến giày (shoes) nhưng ngay sau đó đính chính là lần này không bán giày vì khó giữ chúng theo dõi.

Câu 8: coffee

- Trích đoạn: "Then down by the playground there'll be **coffee** for sale all day."
- Hướng dẫn: Ngay khu vực sân chơi (by the playground) sẽ có bán cà phê (coffee) xuyên suốt cả ngày để mọi người nghỉ ngơi sau khi mua sắm.

Câu 9: plants

- Trích đoạn: "This one will interest the gardeners because we're going to sell a range of **plants** there."
- Hướng dẫn: Ở khu vực đài phun nước (around the fountain), ban tổ chức sẽ thử nghiệm bán nhiều loại cây (plants) khác nhau để thu hút những người yêu thích làm vườn.

Câu 10: 02745489017

- Trích đoạn: "It's **02745489017**."
- Hướng dẫn: Để đăng ký làm tình nguyện viên, người gọi cung cấp số điện thoại của bà Flint. Đây là dạng câu hỏi số điện thoại cơ bản, bạn chỉ cần tập trung nghe và ghi lại chính xác dãy số.

Câu 11: meeting room

- **Đáp án:** G
- **Hướng dẫn:** Từ lối vào chính (Entrance) ở góc dưới cùng, rẽ ngay sang bên phải, bạn sẽ thấy phòng họp. Đó chính là vị trí G.
- **Trích đoạn:** "From the entrance, **just to your right**, you would get to the **meeting room**..."

Câu 12: women's fitting room

- **Đáp án:** H
- **Hướng dẫn:** Khi khách hàng đi vào từ Cổng Tây (West Gate), căn phòng đầu tiên nằm bên tay trái của họ trước đây là phòng gym, nhưng bây giờ đã trở thành phòng thay đồ nữ. Nhìn trên bản đồ, đi từ West Gate vào thì bên trái là vị trí H.
- **Trích đoạn:** "...came in through the West Gate and went to the **first room on their left**... now it's the **women's fitting room**."

Câu 13: fitness room

- **Đáp án:** C
- **Hướng dẫn:** Vẫn đi vào từ Cổng Tây (West Gate), căn phòng lớn nằm ở phía bên tay phải của bạn là phòng gym (fitness room). Nhìn trên bản đồ, phòng lớn bên phải Cổng Tây chính là C.
- **Trích đoạn:** "The gym room would be the **big room on your right** as you **enter from the West Gate**."

Câu 14: men's fitting room

- **Đáp án:** F
- **Hướng dẫn:** Rất rõ ràng, phòng thay đồ nam nằm ở góc trên cùng bên phải của bản đồ.
- **Trích đoạn:** "At the **top right corner of the map**, we have the **men's fitting room**..."

Câu 15: squash court

- **Đáp án:** B
- **Hướng dẫn:** Sân chơi bóng quần (squash court) nằm ở khu vực khác, đối diện trực tiếp với Cổng Tây (West Gate). Phía sau nó là một tòa nhà lớn hơn dành cho môn trượt băng (A). Nhìn trên bản đồ, ngay trước West Gate có vị trí B (đối diện cổng), và tòa A lớn hơn nằm sau B. Vậy B là đáp án chính xác.
- **Trích đoạn:** "Now our squash court is still at the other wing, situated **directly opposite the West Gate**. The **larger building behind it** is the largest in the state for skating courses."

Câu 16: fitness machines

- **Đáp án:** F
- **Hướng dẫn:** Máy tập thể dục được thiết kế để giúp phát triển sức mạnh tổng thể của người tập, giúp họ vượt qua vấn đề yếu cơ. (develop overall strength = build up overall strength).
- **Trích đoạn:** "To **develop overall strength** in the individual, the **fitness machines** are built to help those who always complain of muscle weakness..."

Câu 17: mat exercises

- **Đáp án:** D
- **Hướng dẫn:** Nhiều người lầm tưởng tập trên thảm chỉ tốt cho tay và vai (đáp án A lừa), nhưng thực tế nó là lựa chọn tuyệt vời cho những ai muốn có một cơ thể dẻo dai (have a flexible body = help body flexibility).
- **Trích đoạn:** "...actually for anyone who wants to **have a flexible body**, these exercises such as plank and crunches are a good choice."

Câu 18: cycling class

- **Đáp án:** C
- **Hướng dẫn:** Đạp xe giúp phát triển sức mạnh ở phần chân (legs = lower limbs). Audio cũng lừa ở chỗ nhiều người mong đạp xe giúp giảm cân (lose weight), nhưng người nói đã bác bỏ điều này ("I'm afraid they don't work that way").
- **Trích đoạn:** "This sport is good to help **develop strength in the legs...**"

Câu 19: aerobics class

- **Đáp án:** B
- **Hướng dẫn:** Lớp thể dục nhịp điệu dành cho những ai muốn tăng nhịp tim của họ (raising their heart rate = increase heartbeat).
- **Trích đoạn:** "We offer aerobics for those interested in **raising their heart rate.**"

Câu 20: weight training

- **Đáp án:** E
- **Hướng dẫn:** Tập tạ làm được rất ít trong việc giúp bạn giảm cân (lừa đáp án G), nhưng nó thực sự giúp bạn giữ được sự tập trung cao độ, không dễ bị xao nhãng (stay focused = improve concentration).
- **Trích đoạn:** "...weight training does little to help you lose weight, but it does help you develop solid mental coordination and to **stay focused** without getting distracted so easily."

Câu 21: B

- **Trích đoạn:** "For instance, one will survive floods, while another will grow in relatively dry conditions. A third has a really lovely smell."
- **Hướng dẫn:** Daisy nói rằng lúa gạo vốn là một loại cây hoang dã ở khu vực nhiệt đới châu Á (bác bỏ A vì không phải mọc khắp nơi). Cô cũng nêu ví dụ về các đặc tính khác nhau của lúa: một loại chịu được lũ, loại khác mọc ở điều kiện khá khô hạn (tức là cần ít nước hơn), và loại thứ ba thì có mùi thơm (bác bỏ C vì không phải tất cả đều có mùi thơm). Như vậy, loại mọc ở điều kiện khô hạn (dry conditions) tương ứng với đáp án B (một số loại cần ít nước hơn các loại khác).

Câu 22: C

- **Trích đoạn:** "...And as most rice growing countries suffer from unpredictable weather, including drought, water management really is the key."
- **Hướng dẫn:** Erik cho biết thời tiết thất thường, bao gồm cả hạn hán, là một vấn đề. Do đó, "water management" (quản lý nước) chính là chìa khóa (is the key). Việc quản lý tài nguyên nước chính là ưu tiên (priority) đối với nông dân. Tương ứng với đáp án C.

Câu 23: A

- **Trích đoạn:** "...and they're all coordinated by a group in The Philippines called the International Rice Research Institute."
- **Hướng dẫn:** Daisy giải thích rằng mỗi quốc gia trồng lúa ở châu Á (như Nhật Bản, Trung Quốc, Bangladesh) đều có viện nghiên cứu riêng. Tuy nhiên, tất cả đều được điều phối bởi một nhóm ở Philippines có tên là Viện Nghiên cứu Lúa gạo Quốc tế (International Rice Research Institute).

Câu 24: B

- **Trích đoạn:** "...it's very difficult for the water to drain away after the monsoon season, so they need to find special rice crops that can survive the floods..."
- **Hướng dẫn:** Theo Daisy, các nhà khoa học ở Bangladesh cần tìm kiếm những giống lúa đặc biệt có thể sống sót qua các trận lũ lụt ("survive the floods"). Điều này khớp chính xác với đáp án B (một giống lúa có khả năng chống chịu ngập lụt - strain of rice resistant to flooding). Các ý về phân bón và biến đổi khí hậu có được nhắc đến nhưng không phải là mục tiêu tìm kiếm của họ (bác bỏ A và C).

Câu 25: B

- **Trích đoạn:** "As you can imagine, China is the world's biggest rice producing country."
- **Hướng dẫn:** Erik khẳng định Trung Quốc là quốc gia sản xuất lúa gạo lớn nhất thế giới ("biggest rice producing country"). Việc sản xuất nhiều nhất tương ứng với câu "grow the most rice" (trồng nhiều lúa nhất).

Câu 26: C

- **Trích đoạn:** "You know, even though Thailand only has about 64,000,000 people, it's the world's number one exporter of rice not China, as you might imagine."
- **Hướng dẫn:** Daisy cho biết Thái Lan mới là quốc gia xuất khẩu gạo số một thế giới ("number one exporter"), chứ không phải Trung Quốc. Điều này khớp với câu "export the most rice" (xuất khẩu nhiều gạo nhất).

Câu 27: B

- **Trích đoạn:** "...at the Rice Research Institute in Guangzhou... They're trying to find ways to get more rice from less land, improve the taste, but also have other things in it besides carbohydrates, so that it's healthier, better for you."
- **Hướng dẫn:** Quay trở lại nói về Trung Quốc (Guangzhou), Erik chia sẻ rằng họ đang tìm cách để gạo không chỉ có mỗi carbohydrate mà còn thêm các chất khác vào để tốt cho sức khỏe hơn ("healthier"). Việc làm cho gạo tốt cho sức khỏe hơn tương đương với việc tăng giá trị dinh dưỡng ("increase the nutritional value").

Câu 28: A

- **Trích đoạn:** "And then you've got Japan... consumption is only half what it was in the 1960s. This trend isn't evident in Thailand or China."
- **Hướng dẫn:** Khi nhắc đến Nhật Bản, Daisy nhận định rằng lượng tiêu thụ (consumption) hiện nay chỉ bằng một nửa so với những năm 1960. Tức là lượng gạo ăn hiện nay ít hơn so với trước đây ("Less rice is eaten than in the past").

Câu 29: C

- **Trích đoạn:** "...because I believe in Thailand it also plays an important cultural role. Absolutely. They have the Royal Ploughing Ceremony every year..."
- **Hướng dẫn:** Daisy và Giáo sư nhắc đến Thái Lan, nơi có Lễ hội Cày bừa Hoàng gia (Royal Ploughing Ceremony) diễn ra hàng năm ("every year") với sự tham gia của nhà vua. Lễ hội cày bừa này là một nghi thức nông nghiệp liên quan đến lúa gạo, tương đương với "annual rice festival" (lễ hội lúa gạo thường niên).

Câu 30: A

- **Trích đoạn:** "...There's an experimental farm near the city of Akita in the Japanese rice belt... which has pioneered organic rice production, and now it's sold all across the country."
- **Hướng dẫn:** Khi Giáo sư hỏi về gạo hữu cơ, Erik cho biết Nhật Bản đang đi tiên phong trong việc sản xuất gạo hữu cơ và hiện nó được bán rộng rãi khắp cả nước (all across the country). Gạo hữu cơ chính là "một loại gạo mới" (new type of rice) và việc được bán khắp nước Nhật tương đương với việc "phổ biến ở địa phương" (popular locally).

Câu 31: tower

- **Trích đoạn:** "...likened to a **tower** because of its cone shaped form..."
- **Hướng dẫn:** Đề bài dùng từ "resembling" (trông giống với), tương đương với cụm "likened to" (được ví như) trong audio. Đám mây được ví như một cái tháp ("tower") có hình nón ("cone shaped"). Từ cần điền là "tower".

Câu 32: sheet

- **Trích đoạn:** "Another type, in contrast, was more spread out and flat, resembling a **sheet** that blankets the sky."
- **Hướng dẫn:** Đề bài nói loại mây thứ ba được so sánh ("compared to" = "resembling") với một thứ gì đó phẳng ("flat"). Audio miêu tả nó giống như một dải khăn/tấm vải ("sheet") bao phủ bầu trời.

Câu 33: terminology

- **Trích đoạn:** "Many scholars questioned the **terminology** he used as it mixed Latin and English."

- **Hướng dẫn:** Đề bài nói nhà khoa học đối mặt với sự chỉ trích ("faced criticism") về cái gì đó được dùng để gọi tên các đám mây. Audio dùng từ "questioned" (đặt nghi vấn/chỉ trích) về các thuật ngữ ("terminology") mà ông ấy sử dụng.

Câu 34: poetry

- **Trích đoạn:** "He even turned to the arts, composing **poetry** that reflected his admiration for clouds..."
- **Hướng dẫn:** Đề bài ghi ông đã sáng tác ("composed") cái gì đó để ca ngợi vẻ đẹp của những đám mây. Audio sử dụng cấu trúc tương đương là "composing **poetry**" (làm thơ) thể hiện sự chiêm ngưỡng ("admiration" = "praising") của ông đối với chúng.

Câu 35: system

- **Trích đoạn:** "The newly established **system** of cloud classification had a significant impact on Romantic era painters..."
- **Hướng dẫn:** Đề bài nhắc đến một thứ gì đó đã ảnh hưởng ("influenced" = "had a significant impact on") đến nghệ thuật Anh. Khung chủ ngữ trong audio là hệ thống phân loại mây mới được thiết lập ("The newly established system of cloud classification"). Do giới hạn ONE WORD ONLY, từ chính xác nhất cần điền là "system" (hoặc "classification" cũng thường được chấp nhận, nhưng "system" sát cấu trúc chủ ngữ hơn).

Câu 36: fog

- **Trích đoạn:** "...attempting to increase rainfall or even create **fog** in controlled environments."
- **Hướng dẫn:** Đề bài liệt kê các thí nghiệm thay đổi thời tiết: tăng hoặc giảm lượng mưa hoặc tạo ra cái gì ("or..."). Audio nhắc đến việc tăng lượng mưa ("increase rainfall") hoặc thậm chí là tạo ra sương mù ("create fog").

Câu 37: rockets

- **Trích đoạn:** "...they employed innovative methods such as launching **rockets** filled with substances intended to influence atmospheric conditions."
- **Hướng dẫn:** Đề bài nói thứ gì đó đôi khi được sử dụng ("employed") để phân phát vật liệu nhân tạo. Audio nhắc đến việc họ phóng những quả tên lửa ("rockets") chứa đầy các chất nhằm thay đổi thời tiết.

Câu 38: lake

- **Trích đoạn:** "For instance, in Australia, researchers discovered that a **lake** had been polluted as a direct result of these activities..."

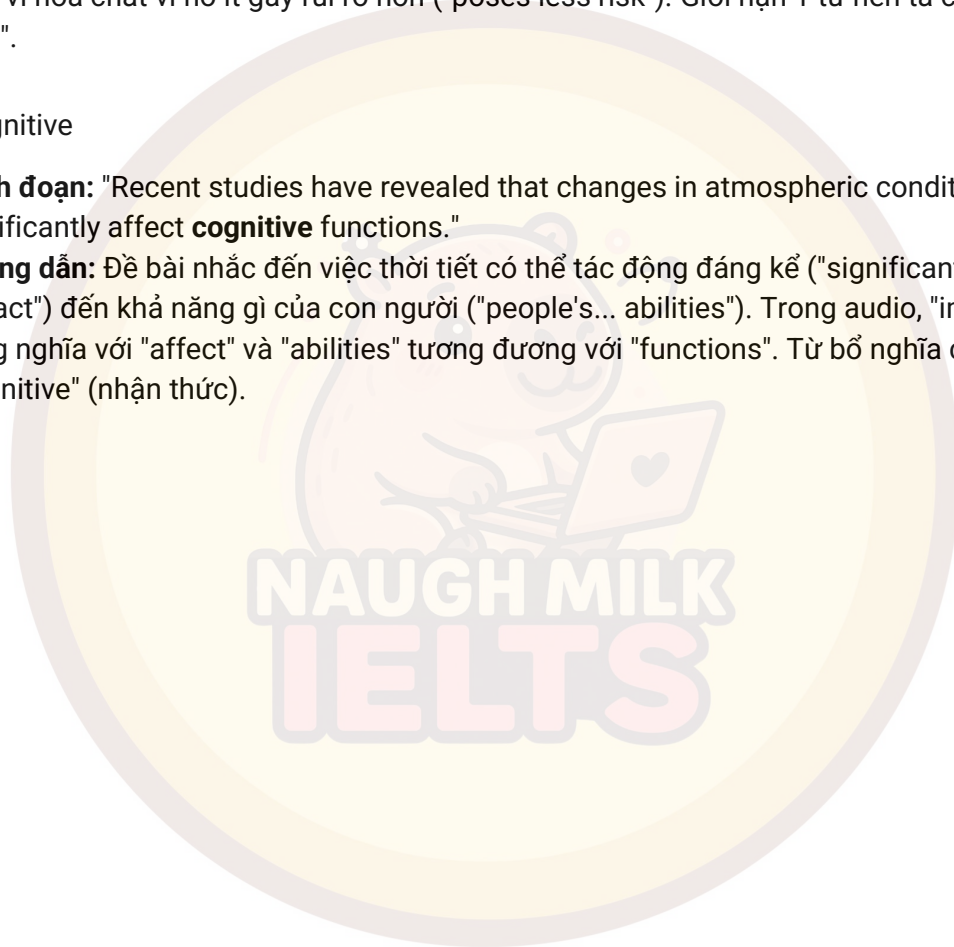

- **Hướng dẫn:** Đề bài nhắc đến tình trạng ô nhiễm nước được quan sát thấy ở một cái gì đó tại Úc. Audio miêu tả các nhà nghiên cứu ở Úc phát hiện ra rằng một hồ nước ("lake") đã bị ô nhiễm.

Câu 39: salt

- **Trích đoạn:** "One promising method involves using **salt** particles instead of chemicals, which poses less risk to ecosystems..."
- **Hướng dẫn:** Đề bài nói về việc sử dụng thứ gì đó như một giải pháp thay thế an toàn hơn ("safer alternative"). Audio đề cập đến phương pháp dùng các hạt muối ("salt particles") thay vì hóa chất vì nó ít gây rủi ro hơn ("poses less risk"). Giới hạn 1 từ nên ta chỉ điền "salt".

Câu 40: cognitive

- **Trích đoạn:** "Recent studies have revealed that changes in atmospheric conditions can significantly affect **cognitive** functions."
- **Hướng dẫn:** Đề bài nhắc đến việc thời tiết có thể tác động đáng kể ("significantly impact") đến khả năng gì của con người ("people's... abilities"). Trong audio, "impact" bằng nghĩa với "affect" và "abilities" tương đương với "functions". Từ bổ nghĩa cần điền là "cognitive" (nhận thức).

ĐÁP ÁN TEST 11

Part 1: Car Club Scheme	Part 2: Market Manager	Part 3: Potential Community Centre	Part 4: A better way to learn Mathematics
1 Islip	11 C	21 F	31 carpet
2 school	12 B	22 I	32 graphs
3 computer	13 A	23 J	33 budget
4 phone	14 A	24 D	34 estimate

NAUGH MILK
IELTS

TRANSCRIPT TEST 11

PART 1

[Speaker 1] [0:00 → 0:05]

The audio and test copyright belong to the Naugh Milk IELTS website.

[Speaker 2] [0:05 → 1:03]

IELTS listening. You will hear a number of different recordings, and you will have to answer questions on what you hear. There will be time for you to read the instructions and questions, and you will have a chance to check your work. All the recordings will be played once only. The test is in four parts. Write all your answers in the listening question booklet. At the end of the test, you will be given ten minutes to transfer your answers to an answer sheet. Now turn to part one on page two of your question booklet. Part one. You will hear a telephone conversation between a customer who is interested in joining a car club scheme and an agent of the car club. First, you have some time to look at questions one to four.

[Speaker 2] [1:23 → 1:27]

Now listen carefully and answer questions one to four.

[Speaker 4] [1:30 → 1:43]

Good morning. CityWise Car Club. Lorna speaking. How can I help you? Good morning. I was wondering if I could get some more information about joining your car club. How does the scheme work exactly? Of course.

[Speaker 3] [1:44 → 1:57]

Well, the main thing is that each member of the car club has access to our fleet of cars whenever they need one. So once you've joined, you just go along and pick one up at a convenient location and drop it off when you're done.

[Speaker 4] [1:57 → 2:09]

This means you no longer need to own your own car. I've had a look at your website, and it says you have cars in locations all over The UK. But I'd like to know which would be the closest to me. Certainly.

[Speaker 3] [2:09 → 2:13]

If I can have your postcode, I can tell you that. I'm in London.

[Speaker 4] [2:14 → 2:19]

So that's NW52JX.

[Speaker 3] [2:19 → 2:26]

Okay. So the closest location would be three streets away on Islip Street. Sorry.

[Speaker 4] [2:26 → 2:29]

Could you spell that, please? Certainly.

[Speaker 3] [2:29 → 2:38]

That's I S L I P, Islip Street. It's not far from where you live. It's less than a mile away.

[Speaker 4] [2:38 → 2:43]

Okay. I know what you mean. It's not far from the school where I work.

[Speaker 3] [2:44 → 3:12]

And how easy is it to pick up a car? Well, once you have your membership card, you just go along to the nearest location and find a car there. Then you simply place your membership card over the card reader on the windscreen in order to unlock the car. So then you can just get in. Then isn't there a computer inside the car or something? Yes. You enter a number on that, and it releases the immobilization, which means the engine will start. Right.

[Speaker 4] [3:13 → 3:15]

So how do I book a car?

[Speaker 3] [3:15 → 3:25]

The easiest way is online on our website. What about by phone? You can do it that way, but you will need to pay a small surcharge to use this facility.

[Speaker 2] [3:28 → 3:34]

Before you hear the rest of the conversation, you have some time to look at questions five to 10.

[Speaker 2] [4:04 → 4:08]

Now listen and answer questions five to 10.

[Speaker 4] [4:11 → 4:22]

Okay. Now what about the cost? How much can I expect to pay per hour? I've seen various prices advertised, and I'm a little confused.

[Speaker 3] [4:22 → 4:32]

Well, it depends on the size of the car among other things, which I'll come to in a minute. But prices start at £3.96 an hour. Really?

[Speaker 4] [4:32 → 4:50]

As little as that, no matter what vehicle I choose? No, sir. The larger cars cost up to £5.96. Right. So how does using this scheme mean I save thousands of pounds a year, like you say on your website? Well, it means you don't need to own your own car.

[Speaker 3] [4:50 → 4:58]

So we take into account all the things car owners have to pay. But, of course, the amount you save depends on the kind of car you drive.

[Speaker 4] [4:58 → 5:14]

But I suppose I still have to pay for the fuel, don't I? Actually, you don't. That's all covered in the cost. Wow. That is good. So if I decide to join, do my wife and son also need their own membership cards? Yes, they will.

[Speaker 3] [5:14 → 5:24]

However, they will get a discount on the standard rate. I should add, though, that there is an additional membership fee of £10 a month for drivers under the age of 20.

[Speaker 4] [5:24 → 5:28]

Oh, why is that? It seems a bit unfair. I know.

[Speaker 3] [5:29 → 5:52]

But I'm afraid we don't have any choice. It's because for younger drivers, we have to pay a lot more for insurance costs. Is there any other way of saving money? Well, we have a frequent user's card, which costs an additional £12.50 per month, but it entitles you to 20% off the hourly rates. This means you save more money the more you use the car. Okay.

[Speaker 4] [5:53 → 6:00]

Now what else do I need to know? What about pets? Can we take them in the car? I'm afraid not.

[Speaker 3] [6:01 → 6:16]

There's all sorts of problems with allergies and things. Okay. That's good to know at least. And lastly, we have good green credentials. Taking public transport more and only using a car when you really need one is better for the environment.

[Speaker 4] [6:16 → 6:19]

And that's always a good thing in my wife's eyes.

[Speaker 3] [6:20 → 6:26]

Okay. Well, I have all I need. Do call back if you have any more questions, and thanks for calling.

[Speaker 2] [6:29 → 6:35]

That is the end of part one. You now have one minute to check your answers to part one.

PART 2

[Speaker 1] [0:00 → 0:16]

Part two. You will hear a radio program in which a woman called Tracy, who is a market manager in New Zealand, talks about her work. First, you have some time to look at questions 11 to 16.

[Speaker 1] [0:48 → 0:52]

Now listen carefully and answer questions 11 to 16.

[Speaker 2] [0:56 → 1:13]

Have you ever thought of having your own stall in a market? Here in the studio, we have Tracy Cartwright, who's the manager of not one, but two of the city street markets. Tracy, what got you interested in markets?

[Speaker 3] [1:13 → 3:10]

Well, I've always liked them. When I was younger, I went traveling in Europe and Turkey, and I went to lots of markets and bazaars there. And I loved the atmosphere. Then after I came back to New Zealand, I got married, and we bought a house near Mahana Market in the south of this city. My husband was working in IT, and he actually designed the market's website. In the evenings, when the kids were in bed, I used to do a bit of sewing and knitting, clothes and things I designed myself, and a friend of mine who had a stall at the market offered to display some of them. And to my amazement, the customers loved them. Then I saw in the paper that they were looking for a new market manager, and I thought I'd apply. In fact, the market was having some financial problems, and it was looking as if it might have to close down. The two previous managers had shared the job, but they'd both had to leave at the same time for different reasons. I'd worked in merchandising before, so I had the right sort of experience. I was delighted when I got the job, but I realized I needed to find a new focus for the market. It had been selling all sorts of things household goods and clothing, and produce from the area like apples and grapes and tomatoes and so on. But to attract the tourists, I decided it'd be better to specialize in things like pottery and jewelry made by the people in the region. One innovation I've made is to have entertainers. We're open to all individuals and groups who want to showcase their talent for an hour or two. We've had singers, clowns, comedians, all sorts. So get in touch if you're interested in performing. Who knows? It could lead to fame and fortune.

[Speaker 2] [3:11 → 3:15]

And you've now set up a second market? That's right.

[Speaker 3] [3:15 → 3:59]

I realized that quite a few of the people who had stalls at the market were actually based in the north of the city, and they said they thought there'd be plenty of customers interested in buying their wares up there as well. And, of course, it'd mean less travelling for them. So I contacted the local authorities, and they were very helpful. And we had the new market set up within six months. We've also recently started a kids' market in cooperation with the local primary school. That's just once a month. The children bring along their old toys and books, and even clothes they've grown out of, and they sell them to the public and get to keep the money they make. It really teaches them about how money works.

[Speaker 1] [4:03 → 4:10]

Before you hear the rest of the talk, you have some time to look at questions 17 to 20.

[Speaker 1] [4:30 → 4:34]

Now listen and answer questions 17 to 20.

[Speaker 3] [4:37 → 5:16]

All the same, being a market manager can be a tough job. I need to be there in very good time in the morning, even before the stall holders, and I don't get home until late, so that can be quite a challenge. And there's a lot of paperwork and planning, especially if I want to make any changes to the way the market works. I'm quite well organized, though, so I don't mind that. But I do get fit up with having to make sure all the stallholders keep to the rules that the council impose on us. I'd thought I might have problems if there were disagreements between stallholders, but in fact, that hasn't ever happened.

[Speaker 2] [5:17 → 5:22]

And what advice would you give to someone wanting to have a stall in a market?

[Speaker 3] [5:23 → 6:02]

It doesn't really matter if you start off with a specialized market or in a more general one, but you must have a really attractive set up. That's essential, and make sure your display stands out. Once you've established that, you needn't make many changes to it. People will recognize you and the source of things you display. And make sure your prices are appropriate. You need to do some research there before you start. You might find things don't sell all that quickly at the beginning, but it's important not to give up. Some people might look and go away, but then come back later.

[Speaker 1] [6:05 → 6:12]

That is the end of section two. You now have half a minute to check your answers.

PART 3

[Speaker 1] [0:00 → 0:02]

Now turn to section three.

[Speaker 1] [0:07 → 0:23]

Section three. You will hear two town planning students called Lindy and Baz talking about a project they have been given. First, you have some time to look at questions 21 to 27.

[Speaker 1] [0:58 → 1:03]

Now listen carefully and answer questions 21 to 27.

[Speaker 3] [1:06 → 1:28]

Baz, about this project we've been set Yeah. So let me make sure I fully understand it, Lindy. An industrialist who lived in the town has just died, and he's left his large house to the city council. The council intends to convert the Ground Floor into a community center. That's all true, isn't it? Right.

[Speaker 2] [1:28 → 1:32]

It's the big house at the end of Blackthorn Avenue. Okay.

[Speaker 3] [1:32 → 1:40]

And for our project, we have to imagine we're responsible for turning it into a community centre and write a detailed report.

[Speaker 2] [1:40 → 1:50]

Is that right? That's right. First, we have to decide what facilities we want and where they should go. Here's a floor plan of the house. Alright.

[Speaker 3] [1:51 → 1:55]

Now I think it's really important to have a coffee lounge. Do you agree? Definitely.

[Speaker 2] [1:56 → 2:02]

What about having it in the corner room beside the existing kitchen? It's the obvious place.

[Speaker 3] [2:02 → 2:13]

But the front door opens into quite a big space, and it will be nice and welcoming if people are there drinking coffee and chatting rather than walking into a large empty space.

[Speaker 2] [2:14 → 2:42]

I see what you mean. Okay. I agree. I think it needs a technology room where people can access laptops or tablets and maybe get training too. Good idea. How about the room next to the kitchen in the East Wing? I'm not sure. It might be noisy or even have steam from the kitchen, which wouldn't be good. Let's put it in the West Wing, the room you go into just after the bend in the corridor. Okay.

[Speaker 3] [2:43 → 2:49]

What do you think about having a music room where people can download music and listen through headphones?

[Speaker 2] [2:50 → 3:22]

Yes. It'd be nice to be able to sit and listen and look out onto the courtyard and garden. How about putting it at the far end of the West Wing? There are quite large windows there and a door into the garden. Right. And maybe a TV room too? Maybe the first room to the right when you go in through

the front door. Shouldn't it be one of the larger rooms? I don't really think so. It could be quite cozy, and people who want to watch different channels could use a computer or a tablet. Okay.

[Speaker 3] [3:22 → 3:30]

Near the entrance then. What do you think about having a reading room with newspapers and magazines?

[Speaker 2] [3:30 → 3:39]

Uh-huh. Let's put that in the East Wing next to the existing kitchen. People can look across the corridor into the courtyard.

[Speaker 3] [3:39 → 3:50]

But if the kitchen's going to be renovated, that room could become a canteen. It's quite big. No. Let's have the reading room at the far end of the East Wing with a view of the garden.

[Speaker 2] [3:51 → 3:56]

Right. What do you think about having a meeting room? Essential, I'd say.

[Speaker 3] [3:57 → 4:03]

I think that room that sticks out into the courtyard opposite the front door would be rather nice for meetings.

[Speaker 2] [4:03 → 4:13]

Yes. It's got a door out into the courtyard and light coming in on three sides. Then the community center will need a manager who'll need an office.

[Speaker 3] [4:13 → 4:18]

Where shall we put that? Maybe the large room in the corner to the left?

[Speaker 2] [4:19 → 4:27]

I think it'd be better to have it nearer the front door so the manager can keep an eye on people going in and out. I see what you mean.

[Speaker 3] [4:27 → 4:40]

Okay. So the room on the left of the entrance area as you go in. Yes. That'd be best. Anything else? I can't think of anything for the moment, but we can always come back to this later.

[Speaker 1] [4:43 → 4:50]

Before you hear the rest of the discussion, you have some time to look at questions 28 to 30.

[Speaker 1] [5:05 → 5:09]

Now listen and answer questions 28 to 30.

[Speaker 2] [5:13 → 5:31]

Let's sort out what we need to do before we start writing our report, shall we, Baz? We should probably write a section in it about community centres in general, what sort of facilities they provide, how they're funded, and so on. I wouldn't mind doing that, if that's okay with you, Lindy. Alright.

[Speaker 3] [5:31 → 5:38]

And we need to look into the planning regulations to see how to get permission for changing the way the building's used.

[Speaker 2] [5:39 → 5:45]

From residential to a community center, you mean? Yes. I quite fancy doing that. Fine.

[Speaker 3] [5:45 → 5:53]

I've thought a bit about how to research the history of the house, starting when it was built in the eighteenth century.

[Speaker 2] [5:53 → 6:00]

It would be good if we could talk to some people who used to live there, or neighbors who knew it. Good idea.

[Speaker 3] [6:00 → 6:11]

We can work on that together as it will be quite a big job to track people down, interview them, look at documents in the library's local history collection, and so on. That's fine by me.

[Speaker 1] [6:15 → 6:21]

That is the end of section three. You now have half a minute to check your answers.

PART 4

[Speaker 1] [0:02 → 0:16]

Section four. You'll hear a lecture on a very popular Canadian food product called maple syrup. First, you have some time to look at questions 31 to 40 on page seven.

[Speaker 1] [1:06 → 1:10]

Now listen carefully and answer questions 31 to 40.

[Speaker 2] [1:12 → 4:37]

So today, I want to show you how mathematics can be approached in a more practical and engaging way. The lecture is divided into six sections, each illustrating how numbers influence our daily lives and decision making. To begin, let's consider our homes. Imagine you're renovating a room. You'll need to know the surface area of the floor before you buy any covering. Without these calculations, you may spend too much or too little, and the shop assistant won't be able to cut the right amount of carpet for you. Another example comes from the media. Open any newspaper, and you'll find visual illustrations of trends in unemployment, climate, or health. These pictures aren't random decoration. They are graphs designed to summarize numbers in a way the general public can understand. The second area relates to money. Every household faces the challenge of balancing income and expenditure. Creating a financial plan, often called a household budget, allows people to decide how much they can safely spend. But it's not just about tracking what you already use. You also need to make predictions about the future. For example, if you're planning a holiday, you must try to estimate how much it will cost in advance. Otherwise, you may end up in debt. Now let's turn to research. Scientists and social researchers rarely examine an entire population. Instead, they focus on a smaller group that represents the whole. This limited set of people or objects is known as a sample, and it provides insight without overwhelming the researcher. Of course, no matter how carefully the investigation is carried out, its reliability depends on where the information comes from. If you base your conclusions on weak or biased sources, the findings may be meaningless. The fourth area is technology. In the past, calculations were done with pen and paper, which was slow and error prone. Today, computers connected through the Internet can process enormous amounts of data instantly, helping us analyze everything from traffic patterns to consumer spending. However, technology is not perfect. Consider the diagrams we use to communicate numerical information. If a chart is poorly designed, for instance, if it uses the wrong scale or distorts proportions, it can lead the reader to completely false conclusions. Moving on to society, governments depend heavily on numbers to plan for the future. For example, by studying changes in birth rates, officials can decide how many schools will be required in 10 time or how many hospitals will be needed in twenty. Without this information, long term planning would be impossible. Finally, mathematics is also about clarity. Suppose you want to present a large collection of statistics in the simplest way. Instead of writing long sentences, you can organize the numbers into a table, which allows readers to see the pattern immediately. So mathematics is a powerful tool we rely on.

[Speaker 1] [4:39 → 4:44]

That is the end of section four. You now have half a minute to check your answers.

[Speaker 1] [5:15 → 5:23]

That is the end of the listening test. You now have ten minutes to transfer your answers to the listening answer sheet.

Câu 1: Islip

- **Trích đoạn:** "Okay. So the closest location would be three streets away on **Islip** Street... That's **I S L I P**, Islip Street."
- **Hướng dẫn:** Tư vấn viên cho biết địa điểm gần nhất nằm trên đường Islip và đánh vần rõ ràng là I-S-L-I-P.

Câu 2: school

- **Trích đoạn:** "It's not far from the **school** where I work."
- **Hướng dẫn:** Người đàn ông xác nhận địa điểm đó không xa trường học (school) nơi ông ấy làm việc. Cụm "not far from" hoàn toàn đồng nghĩa với "near".

Câu 3: computer

- **Trích đoạn:** "Then isn't there a **computer** inside the car or something? Yes. You enter a number on that..."
- **Hướng dẫn:** Người đàn ông hỏi có phải có một chiếc máy tính (computer) bên trong xe không, và người tư vấn xác nhận là người dùng sẽ nhập mã số lên chiếc máy tính đó để khởi động động cơ.

Câu 4: phone

- **Trích đoạn:** "What about by **phone**? You can do it that way, but you will need to pay a small surcharge to use this facility."
- **Hướng dẫn:** Khi người đàn ông hỏi về việc đặt xe qua điện thoại (phone), tư vấn viên cho biết anh có thể làm cách đó nhưng sẽ phải trả thêm một khoản phụ phí nhỏ ("small surcharge" tương đương với "small charge").

Câu 5: 5.96

- **Trích đoạn:** "The larger cars cost up to **£5.96**."
- **Hướng dẫn:** Audio có nhắc đến mức giá bắt đầu là £3.96 để bắt. Tuy nhiên, đề bài hỏi mức giá tối đa (maximum cost). Tư vấn viên xác nhận mức giá có thể lên tới (up to) £5.96 cho các loại xe lớn hơn.

Câu 6: fuel

- **Trích đoạn:** "But I suppose I still have to pay for the **fuel**, don't I? Actually, you don't. That's all **covered** in the cost."
- **Hướng dẫn:** Người đàn ông hỏi có phải trả thêm tiền nhiên liệu (fuel) không. Tư vấn viên trả lời là không cần vì nó đã được bao gồm ("covered" đồng nghĩa với "included") trong giá gốc.

Câu 7: discount

- **Trích đoạn:** "So if I decide to join, do my wife and son also need their own membership cards? Yes, they will. However, they will get a **discount** on the standard rate."
- **Hướng dẫn:** Vợ và con trai của ông ấy (family members) sẽ nhận được một khoản giảm giá (discount) so với mức phí tiêu chuẩn.

Câu 8: insurance

- **Trích đoạn:** "It's because for younger drivers, we have to pay a lot more for **insurance** costs."
- **Hướng dẫn:** Khoản phụ thu £10 mỗi tháng áp dụng cho tài xế dưới 20 tuổi là để bù đắp vào chi phí bảo hiểm (insurance) đắt đỏ hơn đối với nhóm này.

Câu 9: 12.50

- **Trích đoạn:** "Well, we have a frequent user's card, which costs an additional **£12.50** per month..."
- **Hướng dẫn:** Tư vấn viên giới thiệu thẻ dành cho người dùng thường xuyên (frequent users card) với mức phí đóng thêm ("additional" đồng nghĩa với "extra") là £12.50 mỗi tháng.

Câu 10: environment

- **Trích đoạn:** "Taking public transport more and only using a car when you really need one is **better for the environment**."
- **Hướng dẫn:** Cuối cùng, tư vấn viên nhấn mạnh rằng chương trình chia sẻ xe này mang lại lợi ích và tốt hơn cho môi trường (environment). Cụm "better for" tương ứng với "good for" trong đề bài.

Câu 11: C

- **Trích đoạn:** "...I used to do a bit of sewing and knitting, **clothes and things I designed myself**, and a friend of mine who had a stall at the market offered to **display some of them**."
- **Hướng dẫn:** Chồng của Tracy là người thiết kế trang web (bác bỏ A) và bạn của cô ấy mới là người có quầy hàng (bác bỏ B). Sự tham gia đầu tiên của Tracy là cô ấy tự thiết kế, may vá quần áo/đồ đạc và nhờ người bạn bày bán giúp. Việc này hoàn toàn tương ứng với đáp án C (cô ấy làm ra những món đồ để bán ở đó).

Câu 12: B

- **Trích đoạn:** "In fact, the market was having some financial problems, and it was looking as if it **might have to close down**."

- **Hướng dẫn:** Tracy nộp đơn xin việc vì thấy quảng cáo trên báo, không phải vì người quản lý cũ yêu cầu (bác bỏ C). Các quản lý cũ nghỉ việc vì những lý do khác nhau, không có thông tin về việc họ cãi nhau (bác bỏ A). Lý do thực sự là khu chợ đang gặp vấn đề tài chính và có nguy cơ "phải đóng cửa" (might have to close down). Khớp với đáp án B (chợ bị đe dọa đóng cửa).

Câu 13: A

- **Trích đoạn:** "...I decided it'd be better to specialize in things like **pottery and jewelry made by the people in the region.**"
- **Hướng dẫn:** Khu chợ trước đây từng bán đủ loại hàng hóa đa dạng và trái cây tươi rau củ (bác bỏ B, C). Định hướng mới (new focus) của Tracy để thu hút khách du lịch là chuyên bán các mặt hàng như đồ gốm và trang sức do chính người dân trong vùng làm ra. Những món đồ này chính là "hàng thủ công sản xuất tại địa phương" (locally produced crafts - đáp án A).

Câu 14: A

- **Trích đoạn:** "We're **open to all individuals and groups** who want to showcase their talent..."
- **Hướng dẫn:** Về phần giải trí, Tracy nói rằng khu chợ luôn "chào đón tất cả các cá nhân và nhóm" (open to all individuals and groups) muốn thể hiện tài năng. Điều này đồng nghĩa với đáp án A (bất cứ ai cũng được hoan nghênh đến biểu diễn). Việc trở nên nổi tiếng chỉ là một lời nói đùa/động viên ("could lead to fame"), chưa ai thực sự trở nên nổi tiếng (bác bỏ C).

Câu 15: B

- **Trích đoạn:** "I realized that quite a few of the **people who had stalls at the market...** said they thought there'd be plenty of customers interested in buying their wares up there as well."
- **Hướng dẫn:** Ý tưởng mở khu chợ thứ hai bắt nguồn từ chính những "người có quầy hàng tại chợ" (people who had stalls at the market) vì họ cho rằng sẽ có nhiều khách hàng ở khu vực phía Bắc. Những người có quầy hàng chính là các tiểu thương (traders at Mahana Market - đáp án B).

Câu 16: B

- **Trích đoạn:** "The children bring along their **old toys and books**, and even clothes they've grown out of, and they **sell them to the public** and get to keep the money they make."
- **Hướng dẫn:** Tại Kids' Market, bọn trẻ mang theo đồ chơi, sách truyện cũ, quần áo cũ của mình và "bán cho công chúng" (sell them to the public). Tiền thu được chúng sẽ được giữ lại, không phải gây quỹ cho trường (bác bỏ C) và cũng không phải đồ chúng tự làm ra

(bác bỏ A). Việc bán những món đồ cũ của mình chính là bán tài sản cá nhân (sell their own possessions - đáp án B).

Câu 17 & 18: A, D (hoặc D, A)

- **Trích đoạn 1:** "I need to be there in **very good time in the morning**... and **I don't get home until late**, so that can be **quite a challenge**."
- **Trích đoạn 2:** "But I do **get fed up** with having to make sure all the stallholders **keep to the rules that the council impose on us**."
- **Hướng dẫn:** Tracy cho biết việc phải đến thật sớm và về rất muộn là một "thử thách" (challenge), tương ứng với đáp án **D** (bắt đầu sớm và làm việc nhiều giờ). Ngoài ra, cô cảm thấy chán nản ("get fed up") với việc phải đảm bảo các chủ quầy hàng "tuân thủ các quy tắc" (keep to the rules), điều này tương ứng với đáp án **A** (đảm bảo các quy định được tuân thủ). Công việc giấy tờ (admin) cô không ngại vì cô có óc tổ chức, còn xung đột giữa các tiểu thương chưa bao giờ xảy ra (bác bỏ B và C).

Câu 19 & 20: B, E (hoặc E, B)

- **Trích đoạn 1:** "...but you must have a really **attractive set up**. That's essential, and make sure your **display stands out**."
- **Trích đoạn 2:** "You might find things don't sell all that quickly at the beginning, but **it's important not to give up**."
- **Hướng dẫn:** Lời khuyên đầu tiên của Tracy là việc "thiết lập và bày biện nổi bật/hấp dẫn" (attractive set up / display stands out) là điều thiết yếu. Điều này tương ứng với đáp án **E** (chăm chút cách trình bày/trưng bày đồ vật trên quầy). Lời khuyên thứ hai là lúc đầu hàng có thể bán chậm nhưng "quan trọng là không được bỏ cuộc" (not to give up). Điều này khớp với đáp án **B** (đừng nản lòng nếu lúc đầu bạn không bán được nhiều). Việc chọn loại chợ nào không quan trọng (bác bỏ C), giá cả cần phù hợp chứ không cần thấp (bác bỏ D) và cô cũng khuyên không cần phải thay đổi cách bày biện thường xuyên (bác bỏ A).

Câu 21: F

- **Trích đoạn:** "But the front door opens into quite a big space, and it will be nice and welcoming if people are there drinking coffee... rather than walking into a large empty space."
- **Hướng dẫn:** Ban đầu, ý tưởng đặt Coffee lounge là phòng bên cạnh nhà bếp (phòng B). Nhưng sau đó, họ thống nhất chọn khu vực ngay sau cửa chính (front door). Phòng F chính là không gian rộng lớn ngay khi mở cửa chính vào, phù hợp làm sảnh chào đón.

Câu 22: I

- **Trích đoạn:** "Let's put it in the West Wing, the room you go into **just after the bend in the corridor.**"
- **Hướng dẫn:** Đối với phòng công nghệ, họ không chọn phòng ở cánh Đông cạnh nhà bếp (phòng B) vì sợ ồn. Họ chuyển sang cánh Tây (West Wing), và chọn căn phòng ngay sau khúc cua hành lang ("after the bend"). Khúc cua hành lang nằm giữa H và I, và phòng ngay sau khúc cua đó là I.

Câu 23: J

- **Trích đoạn:** "How about putting it at the **far end of the West Wing?** There are quite large windows there and **a door into the garden.**"
- **Hướng dẫn:** Phòng nhạc được gợi ý đặt ở góc trong cùng của cánh Tây (far end of the West Wing) với đặc điểm là có cửa sổ lớn và "một cánh cửa dẫn ra vườn". Nhìn trên bản đồ, phòng J nằm ở cuối cánh Tây và có cánh cửa (kí hiệu nét đứt có khoảng hở nhỏ) mở ra Garden.

Câu 24: D

- **Trích đoạn:** "...the **first room to the right when you go in through the front door.**"
- **Hướng dẫn:** Phòng TV được chốt lại vị trí là "căn phòng đầu tiên bên phải khi đi vào từ cửa chính". Cửa chính (front door) nằm ở giữa, đi vào và rẽ ngay sang bên phải chính là phòng D.

Câu 25: A

- **Trích đoạn:** "No. Let's have the reading room at the **far end of the East Wing** with a **view of the garden.**"
- **Hướng dẫn:** Sau khi loại trừ phòng cạnh nhà bếp (phòng B) vì dự định làm căn tin, họ chọn đặt phòng đọc sách ở phía cuối của cánh Đông ("far end of the East Wing") và có view nhìn ra khu vườn. Đó chính là phòng A.

Câu 26: E

- **Trích đoạn:** "I think that **room that sticks out into the courtyard opposite the front door** would be rather nice for meetings."
- **Hướng dẫn:** Vị trí tuyệt vời nhất cho phòng họp là căn phòng "nhô ra ngoài khoảng sân trong" (sticks out into the courtyard) và "đối diện cửa chính" (opposite the front door). Nhìn trên sơ đồ, căn phòng E có hình dạng nhô hẳn ra khu vực Courtyard và nằm ngay trực đối diện với cửa chính.

Câu 27: G

- **Trích đoạn:** "So the **room on the left of the entrance area** as you go in."

- **Hướng dẫn:** Văn phòng cho quản lý lúc đầu được định đặt ở phòng lớn góc trái (phòng H). Tuy nhiên, họ quyết định chuyển nó đến gần cửa chính hơn để dễ quan sát. Vị trí chốt lại là "căn phòng bên trái khu vực lối vào" khi vừa bước vào. Bước qua front door, phòng bên trái chính là G.

Câu 28: B

- **Trích đoạn:** "We should probably write a section in it about community centres in general... **I wouldn't mind doing that**, if that's okay with you, Lindy. Alright."
- **Hướng dẫn:** Công việc tìm hiểu về các trung tâm cộng đồng (investigate other community centers) được Baz chủ động nhận làm ("I wouldn't mind doing that") và Lindy đồng ý. Đáp án là B.

Câu 29: A

- **Trích đoạn:** "And we need to look into the planning regulations... Yes. **I quite fancy doing that**. Fine."
- **Hướng dẫn:** Việc tìm hiểu các quy định quy hoạch (planning regulations) được Lindy nhận trách nhiệm vì cô ấy nói "I quite fancy doing that" (Tôi khá thích làm việc đó). Baz đồng ý ("Fine"). Đáp án là A.

Câu 30: C

- **Trích đoạn:** "**We can work on that together** as it will be quite a big job to track people down..."
- **Hướng dẫn:** Cuối cùng, việc nghiên cứu lịch sử ngôi nhà (research the history of the house) được thống nhất là cả hai sẽ làm cùng nhau ("work on that together") vì đây là một công việc lớn. Đáp án là C (cả Lindy và Baz).

Câu 31: carpet (hoặc covering)

- **Trích đoạn:** "You'll need to know the surface area of the floor before you buy any **covering**... and the shop assistant won't be able to cut the right amount of **carpet** for you."
- **Hướng dẫn:** Người nói đưa ra ví dụ về việc cải tạo phòng, bạn cần tính toán diện tích mặt sàn trước khi mua đồ trải sàn (covering). Cụ thể hơn, nếu không tính toán, nhân viên bán hàng sẽ không thể cắt đúng lượng thảm (carpet) cho bạn. Do giới hạn điền 1 từ (ONE WORD ONLY), từ "carpet" hoặc "covering" đều được chấp nhận, nhưng "carpet" cụ thể và sát nghĩa nhất với việc đo diện tích sàn.

Câu 32: graphs

- **Trích đoạn:** "Open any newspaper, and you'll find visual illustrations of trends... They are **graphs** designed to summarize numbers in a way the general public can understand."

- **Hướng dẫn:** Báo chí thường trình bày thông tin dưới dạng các hình ảnh minh họa trực quan. Người nói khẳng định những hình ảnh này không phải là trang trí ngẫu nhiên, mà chúng là các biểu đồ ("graphs") được thiết kế để tóm tắt các con số. Từ này hoàn toàn khớp với "in the form of..." (dưới dạng...).

Câu 33: budget

- **Trích đoạn:** "Every household faces the challenge of balancing income and expenditure. Creating a financial plan, often called a household **budget**, allows people to decide how much they can safely spend."
- **Hướng dẫn:** Mỗi hộ gia đình đều phải đối mặt với thách thức cân đối thu chi. Việc lập một kế hoạch tài chính (hay còn gọi là ngân sách gia đình - "budget") sẽ cho phép họ quyết định mức chi tiêu an toàn, tương đương với việc "kiểm soát" (control) tiền bạc của mình. (Nếu bạn điền "expenditure" cũng có thể hợp lý về nghĩa, nhưng "budget" là danh từ chính được nhấn mạnh cho việc lập kế hoạch kiểm soát).

Câu 34: estimate

- **Trích đoạn:** "...if you're planning a holiday, you must try to **estimate** how much it will cost in advance."
- **Hướng dẫn:** Đối với các chi phí trong tương lai ("future expenses") như một kỳ nghỉ ("holidays"), người nói khuyên rằng bạn phải cố gắng ước tính/dự tính ("estimate") trước xem nó sẽ tốn bao nhiêu tiền để tránh rơi vào cảnh nợ nần.

Câu 35: sample

- **Trích đoạn:** "Instead, they focus on a smaller group that represents the whole. This limited set of people or objects is known as a **sample**..."
- **Hướng dẫn:** Các nhà nghiên cứu hiếm khi khảo sát toàn bộ dân số. Thay vào đó, họ tập trung vào một nhóm nhỏ hơn để đại diện cho toàn thể. Tập hợp giới hạn những người hoặc vật này được gọi là một mẫu ("sample").

Câu 36: sources

- **Trích đoạn:** "...its reliability depends on where the information comes from. If you base your conclusions on weak or biased **sources**, the findings may be meaningless."
- **Hướng dẫn:** Kết quả đáng tin cậy ("reliable results") phụ thuộc vào việc thông tin đến từ đâu. Nếu dựa vào các nguồn ("sources") yếu kém hoặc thiên vị, kết quả sẽ trở nên vô nghĩa. Điều này đồng nghĩa với việc cần có những nguồn thông tin đáng tin cậy ("trustworthy sources").

Câu 37: Internet

- **Trích đoạn:** "Today, computers connected through the **Internet** can process enormous amounts of data instantly..."
- **Hướng dẫn:** Ở phần Công nghệ (Technology), người nói nhắc đến việc ngày nay các máy tính được kết nối thông qua mạng Internet có thể xử lý lượng dữ liệu khổng lồ ngay lập tức, giúp việc phân tích toán học trở nên dễ dàng và dễ tiếp cận hơn so với quá khứ.

Câu 38: chart

- **Trích đoạn:** "If a **chart** is poorly designed, for instance, if it uses the wrong scale or distorts proportions, it can lead the reader to completely false conclusions."
- **Hướng dẫn:** Một biểu đồ ("chart") được thiết kế kém (sử dụng sai tỷ lệ hoặc bóp méo hình ảnh) có thể dẫn người đọc đến những kết luận hoàn toàn sai lầm. "Poorly designed" và "false conclusions" tương ứng với việc một biểu đồ gây hiểu lầm ("misleading") có thể tạo ra ấn tượng sai lệch về dữ liệu.

Câu 39: birth

- **Trích đoạn:** "For example, by studying changes in **birth** rates, officials can decide how many schools will be required..."
- **Hướng dẫn:** Chính phủ sử dụng số liệu thống kê để lập kế hoạch cho tương lai. Ví dụ cụ thể được đưa ra là việc nghiên cứu những thay đổi trong tỷ lệ sinh ("birth rates") để quyết định cần xây bao nhiêu trường học.

Câu 40: table

- **Trích đoạn:** "Instead of writing long sentences, you can organize the numbers into a **table**, which allows readers to see the pattern immediately."
- **Hướng dẫn:** Để trình bày các số liệu phức tạp một cách rõ ràng nhất, thay vì viết những câu dài dòng, bạn có thể sắp xếp các con số vào một bảng ("table"). Điều này giúp người đọc nhìn ra quy luật ngay lập tức, tương ứng với việc làm cho các dữ kiện phức tạp trở nên dễ hiểu.

ĐÁP ÁN TEST 12

Part 1: South City International Club Enquiry	Part 2: Fitchton Railway Station	Part 3: A Study on Volcanoes	Part 4: Field Trial – Heat Pump Technology
1 15	11 G	21 B	31 homes
2 ice skating	12 B	22 A	32 solar
3 Sundays / Sunday	13 C	23 C	33 experience
4 16 October / October 16	14 F	24 C	34 boiler
5 3	15 D	25 B	35 air
6 drinks / free drinks	16 A	26 B	36 bacteria
7 museum / local museum	17 A	27 A	37 radiators
8 A	18 C	28 C	38 training
9 C	19 A	29 E	39 simple
10 E	20 C	30 F	40 supervisor

**NAUGH MILK
IELTS**

TRANSCRIPT TEST 12
PART 1

[Speaker 1] [0:00 → 0:05]

The audio and test copyright belong to the Naugh Milk IELTS website.

[Speaker 2] [0:05 → 0:47]

IELTS listening. You will hear a number of different recordings, and you will have to answer questions on what you hear. There will be time for you to read the instructions and questions, and you will have a chance to check your work. All the recordings will be played once only. The test is in four parts. Write all your answers in the listening question booklet. At the end of the test, you will be given ten minutes to transfer your answers to an answer sheet. Now turn to part one on page two of your question booklet.

[Speaker 2] [0:52 → 0:53]

Part one.

[Speaker 3] [0:53 → 1:03]

You will hear a man inquiring about joining a club. First, you have some time to look at questions one to seven.

[Speaker 3] [1:39 → 1:43]

Listen carefully and answer questions one to seven.

[Speaker 4] [1:45 → 1:50]

Hello, South City International Club. How can I help you?

[Speaker 5] [1:50 → 1:54]

Oh, good morning. I want to find out about joining the club.

[Speaker 4] [1:55 → 2:00]

Right. I can help you there. I'm the club secretary, and my name's Mary.

[Speaker 5] [2:00 → 2:06]

Hi, Mary. My name's Jim Hunter. Can you tell me about the events you have there?

[Speaker 4] [2:07 → 2:21]

Sure. There are several events here. Let me give you some details. First of all, we have a library. You can use all the facilities there, and opening times are from 11AM to 6PM.

[Speaker 5] [2:21 → 2:21]

Thank you.

[Speaker 4] [2:22 → 2:55]

Just to note, there's a deposit of \$15 for using the library, which is returnable, of course, as long as there's no damage. That sounds fine. What else do you have? Well, we also have an ice skating center, which is next to a telephone booth. The admission fee is \$3. It's only open on Sundays. Also, we have a special offer for new members. If you come to the center with a guest, then the guest can experience one class for free. That is really a big attraction for me.

[Speaker 5] [2:55 → 3:02]

I remember walking past there yesterday. I saw a poster about swimming. Do you have any swimming classes?

[Speaker 4] [3:03 → 3:07]

Yes. That is a new class. It starts on the October 16.

[Speaker 5] [3:08 → 3:10]

Right. Is it very expensive?

[Speaker 4] [3:10 → 3:24]

Well, the joining fee is only \$1. Oh, no. I'm sorry. It's recently gone up by \$2. So it's now \$3 for each person. And we don't provide any swimming suits here, so you need to bring your own.

[Speaker 5] [3:25 → 3:31]

I see. What about dance lessons? You mentioned that you have classes once a week. Yes.

[Speaker 4] [3:32 → 3:44]

The dance classes are very popular here. It's a little expensive. The joining fee is \$5, but that includes free drinks. We open all day, and you can bring your own water and food.

[Speaker 5] [3:44 → 3:51]

Well, it's still more expensive than I thought. I'm a student here, and I'm only here for six months.

[Speaker 4] [3:52 → 4:14]

Ah, then we offer you a great way to learn about Britain. We usually visit the Grand Hotel, a historical site, but this time, we are going to the local museum. The joining fee is \$3. It is open between 10:30AM and 03:30PM during weekdays, and on weekends, it's half an hour earlier.

[Speaker 5] [4:15 → 4:18]

That should be alright. I could come in my free periods.

[Speaker 3] [4:21 → 4:28]

Before you hear the rest of the conversation, you have some time to look at questions eight to 10.

[Speaker 3] [4:44 → 4:48]

Now listen and answer questions eight to 10.

[Speaker 5] [4:51 → 4:59]

By the way, I'm quite interested in tennis. I enjoy playing with my friends after work. Do you have tennis events I could join?

[Speaker 4] [4:59 → 5:16]

No. I'm afraid we don't. Perhaps you are thinking about North City Centre. They've got a lot of events we don't have and vice versa. But we organize events such as movie watching as long as there are over 30 viewers, and we have a lecture every four weeks.

[Speaker 5] [5:16 → 5:18]

Do you have any yoga classes?

[Speaker 4] [5:19 → 5:30]

Yes. We do have some yoga lessons, but the timetable is still in discussion. However, we arrange a Saturday excursion every month. You can come and check it out.

[Speaker 5] [5:30 → 5:36]

Great. I heard there would be other outdoor activities like a tour or something.

[Speaker 4] [5:36 → 5:47]

Yes. That's right. We will offer a night city tour if you are interested. And as well as that, there's a cultural evening event once a month. That sounds good.

[Speaker 5] [5:47 → 5:53]

But it is a pity that there's no tennis at your club. I will pass on your feedback to management.

[Speaker 4] [5:53 → 6:07]

So if you would like to join in the club, you need to fill out a form and pay \$108 if you are over 19 and \$95 if you are under. Both will need to be submitted to the club office. They will help you apply for the membership card.

[Speaker 5] [6:08 → 6:16]

Okay. Thanks for that information. I think I have all I need for now. Thank you for calling South City International Club.

[Speaker 4] [6:16 → 6:17]

Bye.

[Speaker 3] [6:20 → 6:26]

That is the end of section one. You now have half a minute to check your answers.

PART 2

[Speaker 1] [0:00 → 0:13]

You will hear a railway station staff member introducing the activities that passengers can do while waiting for their trains. First you have some time to look at questions 11 to 15.

[Speaker 1] [0:38 → 2:00]

Now listen carefully and answer questions 11 to 15. Dear passengers, welcome to Fitchton Railway Station. I'm sorry to inform you that the train to London is delayed. It will take off two hours later at 11:45AM. Please accept our apologies. In the meantime, allow me to introduce Fitchton Railway Station, so you can make the most of your time while waiting for the train. The main entrance of the station is on Fitchton Road. If you want to take a bike ride around here, walk down Fitchton Road and pass the taxi stop. You can find a bike rack on the right. But if you just want to stay in the station, it's okay. You can find a luggage locker when you enter the station it's on the left. You can put your luggage there. If you don't feel very well, or you need to buy some medicine, there's a chemist in the farthest corner of the station, opposite to the cafe. And you can have a cup of coffee at the cafe if you want. The big area near the cafe is the waiting room, where you can have a seat and relax. If you want to use the toilet, make a left when you enter the station, then turn right. Go straight until you walk past Platform 2 it's right there at the end. The news agency is in the Southeast corner of the station.

[Speaker 1] [2:03 → 2:09]

Before you hear the rest of the talk, you have some time to look at questions 16 to 20.

[Speaker 1] [2:35 → 2:38]

Now listen and answer questions 16 to 20.

[Speaker 1] [2:41 → 4:19]

If you don't want to stay in the station, you can also have a look around the station. But make sure to get back in time for the train, I'm sure you don't want to miss it. The Fitchton College is within walking distance from the station, the view is quite good there. The town library is also just down the road if you want to read. Oh, there's also an art exhibition at the moment, you can go and check it out. The store across the street opens throughout the day, and you can find all kinds of stuff there. You don't want to buy any gifts for your friends there though, most items will be difficult to carry on a bike. But our local food is something I recommend. It would be too late if you want them once you are on the train. You can buy some at the foodies shop, which is right next to the station. If you're looking for anything to wear during the trip, you'd better go to the department store, but I'm afraid there isn't enough time for that. You can send some postcards with local pictures on them to your friends and family. You can buy them in the community college which is near the museum. The old cinema behind the museum cannot compete against the new theatre in the shopping centre, so the current owner plans to make it an accommodation block instead. In the back of the train station you can see a statue of Richard Travolt, a local government minister who is famous for completing a lot of construction projects in our city. Again, I'd like to remind you the train will leave at 11:45. Please get back in time, and I hope you enjoy your time at Fitchton. That's the end of section two. You now have half a minute to check your answers.

PART 3

[Speaker 1] [0:00 → 0:14]

Section three. You will hear Tim and Jenny, two students, talking about their geography assessment. First, you'll have some time to look at questions 21 to 25.

[Speaker 1] [0:39 → 0:44]

Now listen carefully and answer questions 21 to 25.

[Speaker 3] [0:47 → 1:04]

Hi, Jenny. Hi, Tim. How are you doing? I'm okay, but I'm really stressed out about our geography assessment next week. Have you done any work on it yet? I've looked at it a little bit, but it would be helpful to discuss it with someone else. Do you want to chat about it with me?

[Speaker 2] [1:05 → 1:09]

That would be great. Do you know what the rules are for the test?

[Speaker 3] [1:09 → 1:20]

For our assessment last term, we were all required to collect raw data in order to achieve a pass. However, this term, the tutor has said that it won't be necessary for us to do this.

[Speaker 2] [1:21 → 1:31]

I read through the notes, and they said that we are all going to be given a set of instructions that we can choose to follow if we wish, but it's not mandatory, and we can complete the exam as we wish.

[Speaker 3] [1:32 → 1:40]

I don't think that the rules will be too strict. As long as we don't copy the answers from anyone else's exam paper, I think we'll be sure to pass.

[Speaker 2] [1:41 → 1:50]

Yes. I agree. Shall we put together a slideshow presentation with information on all of the volcanoes? I think it will really help us to revise the facts.

[Speaker 3] [1:50 → 1:59]

Okay. Great. Let's start with Pompeii. It's the most well known of all the volcanoes, so it should be easy to find lots of information about it online.

[Speaker 2] [2:00 → 2:13]

I'll avoid including some of the images in the presentation as many people were killed, and some of them can be quite disturbing. We're lucky to have a double free period today, so we will have plenty of time to revise this together.

[Speaker 3] [2:13 → 2:28]

Okay. Next up is Mount Phago. This is an ancient mythical volcano, the location of which is unclear. There are mountainous regions in both Mexico and The USA, both of which are rumored to be the site of this volcano.

[Speaker 2] [2:28 → 2:45]

It's not very scientific to list two separate locations for one volcano, but since no one has been able to prove which is the correct one, we're left with no choice. It's interesting that there is no other example of a volcano in existence today that is surrounded by so much mystery.

[Speaker 3] [2:45 → 3:06]

Absolutely. I think we should include some information about Mount Etna in Sicily, which is famous for the stunning panoramas that one can appreciate from its peak. According to Google, it's a relatively new volcano compared to others in the surrounding region, which may be why it has very few of the features found in older volcanoes.

[Speaker 2] [3:07 → 3:09]

Oh, how interesting.

[Speaker 3] [3:09 → 3:19]

Shall we include information on Mount Hurtin? I don't think that any of the other students have carried out much research into it even though it has a lot of unique features.

[Speaker 2] [3:19 → 3:29]

I think we should leave it out. Since it's a man made volcano, it's not that relevant to our syllabus and probably won't be included in any of the exam questions.

[Speaker 1] [3:32 → 3:39]

Before you hear the rest of the conversation, you have some time to look at questions 26 to 30.

[Speaker 1] [4:04 → 4:08]

Now listen and answer questions 26 to 30.

[Speaker 2] [4:11 → 4:15]

Have you gotten feedback from your tutor on your presentation last week?

[Speaker 3] [4:15 → 4:31]

Yes, I have, but I don't think he was very impressed. He was satisfied by the amount of research that I had prepared before I started, but he criticized the fact that I was mostly summarizing the facts instead of giving my own opinion.

[Speaker 2] [4:31 → 4:32]

Oh, that's a shame.

[Speaker 3] [4:33 → 4:51]

It was frustrating that he criticized my work. But in the end, I learned a lot from my tutor's feedback. He advised me that next time, I should present my work as a short documentary film, which he thinks will help me to strengthen my arguments. What topic was your presentation based on?

[Speaker 2] [4:51 → 5:24]

I chose to write about the lack of knowledge that most people have about volcanoes and the fact that they see them in such a negative way. During documentaries and lectures, the scientific experts often neglect to mention the many positive features that volcanoes possess. That sounds really interesting. Well done. I think everyone enjoyed watching, but I was really nervous about talking in front of an audience. I also felt very underprepared since I didn't finish writing the presentation until the night before and, therefore, had no time to rehearse it.

[Speaker 3] [5:25 → 5:32]

I'm sure it was great. Is there any other information that you think we should include in our slideshow for revision?

[Speaker 2] [5:32 → 5:49]

Yes. I think it's important that we list all of the differences between active and extinct volcanoes as there will definitely be a question on this topic. There are no documentaries on the subject, but there's a very informative website that discusses the geological structure of each volcano type.

[Speaker 3] [5:49 → 5:54]

Okay. Well, I'll continue collecting images, and you can carry on with the online research.

[Speaker 1] [5:58 → 6:04]

That is the end of section three. You now have half a minute to check your answers.

[Speaker 1] [6:34 → 6:36]

Now turn to section four.

PART 4

[Speaker 1] [0:00 → 0:15]

Part four. You will hear a student who's studying energy technology reporting on a field trial of heat pumps. First, you have some time to look at questions 31 to 40.

[Speaker 1] [1:05 → 1:10]

Now listen carefully and answer questions 31 to 40.

[Speaker 2] [1:13 → 3:26]

I'm going to talk about a field trial that was carried out on heat pumps, but first some background. The UK has adopted a very ambitious target for reducing carbon emissions. 27% of British carbon dioxide emissions come from the energy used in homes, so around a quarter of all reductions must also come from that sector rather than industry. So it's not surprising that the government, private companies, and independent agencies have been looking into green energy alternatives. At present, the most popular green energy, from a range which includes wind, biomass heating, and ground heat, is solar. This has been the most readily accepted by the public. However, the field trial I've looked at researched heat pump technology. Heat pump technology is relatively new to The UK market, and because there is such limited experience of this technology, people have been reluctant to invest in it. So a field trial was needed to monitor this in a sample of heat pumps in real situations. The heat pumps in this trial are used for the same reason you'd use a boiler, but rather than burning a fuel to produce heat, they move heat from a low temperature heat source and pump it to a higher temperature, where it can be used to provide central heating or domestic hot water. Most heat pumps take heat from either the ground or the air, but water from ponds or rivers may occasionally be used. The general advice in The UK is that the temperature of the hot water stored in a cylinder should be periodically put up to 60 degrees centigrade to kill off bacteria. It is sometimes necessary to use an electric immersion heater to achieve this temperature, as most heat pump installations will be designed to produce domestic hot water at temperatures between fifty and fifty five degrees centigrade.

[Speaker 2] [3:31 → 5:24]

For this field trial, 83 UK sites were monitored, and they provided a wide spectrum of performance results, even in installations that seemed similar. Some installations performed as well as heat pumps studied in European field trials, but many failed to meet these levels. This field trial monitored two central heating systems: radiators and the increasingly popular underfloor systems. The observations of the field trial led to some key conclusions. One was that heat pumps are sensitive pieces of equipment. In some of the early installations, there were problems because the engineers hadn't fitted the heat pump correctly. This observation emphasizes the need for better training for everyone involved in the installation. Many different systems were monitored in the field trial, and it was found that in most cases designs which were simple were more efficient. So this is something which both pump manufacturers and installers should bear in mind. Many customers mistakenly came to the conclusion that their system wasn't working as well as they'd expected. However, when this was further investigated, it was found that they had not realized how to regulate the controls properly. There had been a failure to explain this insufficient detail to the householders. And it was often the case that for the installation, all sorts of workmen might be involved. For example, a groundworks contractor, a plumber, a heat pump

installer, and an electrician. It was obvious that a supervisor should be appointed to oversee and be responsible for the whole installation. So what are the implications of this technology on a wider

[Speaker 1] [5:27 → 5:34]

That is the end of part four. You now have one minute to check your answers to part four.

Câu 1: 15

- Trích đoạn: "Just to note, there's a deposit of **\$15** for using the library..."
- Hướng dẫn: Người quản lý nhắc nhở rằng cần đóng một khoản tiền cọc (deposit) là \$15 để sử dụng thư viện. Ký hiệu \$ đã có sẵn trên đề bài nên bạn chỉ cần điền số 15.

Câu 2: ice skating

- Trích đoạn: "Well, we also have an **ice skating** center..."
- Hướng dẫn: Người tư vấn giới thiệu thêm rằng câu lạc bộ có một trung tâm trượt băng (ice skating center). Từ "centre" đã có sẵn trên đề nên đáp án là "ice skating".

Câu 3: Sundays / Sunday

- Trích đoạn: "It's only open on **Sundays**."
- Hướng dẫn: Khung giờ mở cửa của trung tâm trượt băng được xác nhận rất rõ ràng là chỉ mở vào các ngày Chủ Nhật (Sundays).

Câu 4: 16 October / October 16

- Trích đoạn: "It starts on the **October 16**."
- Hướng dẫn: Người khách hỏi về các lớp bơi lội (swimming classes) và được thông báo rằng khóa học mới sẽ bắt đầu vào ngày 16 tháng 10.

Câu 5: 3

- Trích đoạn: "Well, the joining fee is only \$1. Oh, no. I'm sorry. It's recently gone up by \$2. So it's now **\$3** for each person."
- Hướng dẫn: Audio đưa ra bảy giá ban đầu là \$1, sau đó đính chính là vừa tăng thêm \$2. Cuối cùng, mức phí chính xác hiện tại được chốt lại là \$3 cho mỗi người.

Câu 6: drinks / free drinks

- Trích đoạn: "The joining fee is \$5, but that includes free **drinks**."
- Hướng dẫn: Lớp khiêu vũ có phí tham gia là \$5 và người quản lý nhấn mạnh rằng mức giá này đã bao gồm đồ uống (drinks) miễn phí.

Câu 7: museum / local museum

- Trích đoạn: "We usually visit the Grand Hotel, a historical site, but this time, we are going to the local **museum**."
- Hướng dẫn: Người tư vấn giải thích rằng thông thường họ sẽ tới khách sạn Grand Hotel, nhưng lần này hoạt động đó đã được thay thế bằng chuyến tham quan bảo tàng địa phương (local museum).

Câu 8, 9, 10: A, C, E (Có thể điền theo thứ tự bất kỳ)

- Trích đoạn:
 - "...and we have a **lecture** every four weeks." (Đáp án A)
 - "...However, we arrange a **Saturday excursion** every month." (Đáp án C)
 - "...And as well as that, there's a **cultural evening** event once a month." (Đáp án E)
- Hướng dẫn: Đề bài yêu cầu chọn 3 sự kiện được tổ chức "every month" (mỗi tháng / định kỳ hàng tháng).
 - **A (Lecture):** Tổ chức "every four weeks" (mỗi 4 tuần), tương đương với việc tổ chức hàng tháng.
 - **C (Saturday excursion):** Được xác nhận trực tiếp là tổ chức "every month".
 - **E (Culture evening):** Được nhắc đến là tổ chức "once a month" (một lần một tháng).
 - *Vì sao các đáp án khác sai:* Môn Tennis (D) không được tổ chức tại câu lạc bộ. Film watching (B) và Night tour (F) có tổ chức nhưng là dưới dạng điều kiện (trên 30 người xem / nếu có người quan tâm) chứ không cố định hàng tháng. Yoga classes (G) thì lịch trình vẫn đang trong quá trình thảo luận.

Câu 11

- **Đáp án:** G
- **Hướng dẫn:** Từ lối vào chính trên đường Fitchton, nếu đi dọc xuống và vượt qua trạm taxi (taxi stop), bạn sẽ thấy bãi đậu xe đạp ở bên phải. Vị trí G nằm ngay sát bên phải của trạm taxi.
- **Trích đoạn:** "...walk down Fitchton Road and **pass the taxi stop**. You can find a bike rack **on the right**."

Câu 12

- **Đáp án:** B
- **Hướng dẫn:** Ngay khi bước vào nhà ga (từ lối vào chính), bạn sẽ thấy ngay tủ khóa hành lý nằm ở bên tay trái. Vị trí B nằm hoàn toàn khớp với miêu tả này.
- **Trích đoạn:** "You can find a luggage locker **when you enter the station it's on the left**."

Câu 13

- **Đáp án:** C
- **Hướng dẫn:** Tiệm thuốc nằm ở góc xa nhất của nhà ga. Bỏ qua các góc đã được xác định (F là toilet, D là sạp báo), vị trí C nằm ở góc trên cùng bên phải là sự lựa chọn duy nhất và hợp lý nhất cho "góc xa nhất" (farthest corner).
- **Trích đoạn:** "...there's a chemist in the **farthest corner of the station**, opposite to the cafe."

Câu 14

- **Đáp án:** F
- **Hướng dẫn:** Lộ trình rất rõ ràng: từ lối vào rẽ trái, sau đó rẽ phải (đi thẳng lên phía Bắc). Cứ đi thẳng ngang qua Platform 2 (Sân ga 2), nhà vệ sinh nằm ngay vị trí cuối cùng của đoạn đường đó.
- **Trích đoạn:** "...**make a left** when you enter the station, then **turn right**. Go straight until you **walk past Platform 2** it's right there **at the end**."

Câu 15

- **Đáp án:** D
- **Hướng dẫn:** Sạp báo nằm ở góc Đông Nam của nhà ga. Theo la bàn trên bản đồ, góc Đông Nam chính là góc dưới cùng bên phải.
- **Trích đoạn:** "The news agency is in the **Southeast corner** of the station."

Câu 16

- **Đáp án:** A
- **Hướng dẫn:** Người nói nhắc đến thư viện thị trấn (town library) là nơi để đọc sách, và ngay sau đó bổ sung thông tin "Oh, there's also an art exhibition...", ám chỉ cuộc triển lãm nghệ thuật hiện đang diễn ra ngay tại thư viện này.
- **Trích đoạn:** "The **town library** is also just down the road if you want to read. Oh, there's also an **art exhibition** at the moment..."

Câu 17

- **Đáp án:** A
- **Hướng dẫn:** Audio khuyên hành khách không nên mua quà/đồ lưu niệm vì khó mang theo, thay vào đó món đồ được gợi ý (recommend) cao nhất để mua mang về chính là thức ăn địa phương.
- **Trích đoạn:** "You don't want to buy any gifts for your friends there though... But our **local food** is something I **recommend**."

Câu 18

- **Đáp án:** C
- **Hướng dẫn:** Bạn có thể mua những tấm bưu thiếp lưu niệm này tại trường cao đẳng cộng đồng (community college).
- **Trích đoạn:** "You can send some **postcards**... You can buy them in the **community college** which is near the museum."

Câu 19

- **Đáp án:** A
- **Hướng dẫn:** Rạp chiếu phim cũ không thể cạnh tranh lại rạp hát mới, vì vậy chủ sở hữu dự định sẽ cải tạo nó thành một khu nhà ở (accommodation block tương đương với a housing area).
- **Trích đoạn:** "...the current owner plans to make it an **accommodation block** instead."

Câu 20

- **Đáp án:** C
- **Hướng dẫn:** Bức tượng được mô phỏng theo Richard Travolt, một bộ trưởng chính quyền địa phương. Bộ trưởng chính phủ chính là một chính trị gia (politician). Audio có nhắc tới "construction projects" (dự án xây dựng) để lừa bạn chọn đáp án B (kỹ sư - engineer).
- **Trích đoạn:** "...you can see a statue of Richard Travolt, a **local government minister** who is famous for completing a lot of construction projects..."

Câu 21: B

- **Trích đoạn:** "As long as we don't **copy the answers from anyone else's exam paper**, I think we'll be sure to pass."
- **Hướng dẫn:** Jenny nói rằng miễn là họ không chép (copy) bài thi của người khác, cô ấy tin chắc họ sẽ qua môn. Điều này có nghĩa là sinh viên có thể bị trượt nếu sao chép bài của người khác (copy other people's work).

Câu 22: A

- **Trích đoạn:** "I'll avoid including some of the images in the presentation as many people were killed, and some of them can be quite **disturbing**."
- **Hướng dẫn:** Tim nói sẽ tránh đưa hình ảnh của ngọn núi lửa đầu tiên (Pompeii) vào bài vì có nhiều người chết và hình ảnh có thể "disturbing" (gây ám ảnh, khó chịu). Việc hình ảnh mang tính rùng rợn, khó chịu đồng nghĩa với việc chúng không hấp dẫn/không bắt mắt (not attractive).

Câu 23: C

- **Trích đoạn:** "It's not very scientific to list two separate locations for one volcano, but since no one has been able to prove which is the correct one, we're **left with no choice**."
- **Hướng dẫn:** Khi nhắc đến núi Fago có 2 vị trí được đồn đại (Mexico hoặc Mỹ), Tim nói rằng việc liệt kê 2 vị trí thì không khoa học lắm, nhưng vì không ai chứng minh được vị trí nào mới đúng nên họ "không có lựa chọn nào khác" (left with no choice). Điều này ngụ ý rằng họ đành chấp nhận sự thiếu rõ ràng này, tức là vị trí chính xác ở đâu không quan trọng/không thành vấn đề (it does not matter where the volcano is) và họ vẫn sẽ đưa nó vào bài.

Câu 24: C

- **Trích đoạn:** "...which is famous for the **stunning panoramas** that one can appreciate from its peak."
- **Hướng dẫn:** Jenny muốn đưa núi Etna vào bài vì nó nổi tiếng với khung cảnh toàn cảnh tuyệt đẹp ("stunning panoramas"). Cụm từ này đồng nghĩa hoàn toàn với "stunning views" ở đáp án C.

Câu 25: B

- **Trích đoạn:** "Since it's a man made volcano, it's **not that relevant** to our syllabus..."
- **Hướng dẫn:** Tim đề nghị bỏ núi Herton ra khỏi bài vì nó là núi lửa nhân tạo, do đó nó không thực sự liên quan đến giáo trình của họ ("not that relevant"). Khớp với đáp án B (irrelevant to their topic).

Câu 26: B

- **Trích đoạn:** "...he criticized the fact that I was mostly summarizing the facts **instead of giving my own opinion.**"
- **Hướng dẫn:** Jenny kể rằng bài thuyết trình trước của cô bị giáo viên chỉ trích vì cô chỉ tóm tắt các sự kiện thay vì đưa ra ý kiến cá nhân ("instead of giving my own opinion"). Việc thiếu ý kiến cá nhân tương ứng với "lacked his/her own points".

Câu 27: A

- **Trích đoạn:** "He advised me that next time, I should present my work as a **short documentary film...**"
- **Hướng dẫn:** Giáo viên khuyên Jenny trong lần tới nên trình bày bài làm dưới dạng một bộ phim tài liệu ngắn ("a short documentary film"). Tương ứng với đáp án A (make a short film).

Câu 28: C

- **Trích đoạn:** "...the scientific experts often **neglect** to mention the many **positive features** that volcanoes possess."
- **Hướng dẫn:** Tim viết về việc mọi người thiếu kiến thức và thường nhìn núi lửa theo hướng tiêu cực, lý do là vì các chuyên gia khoa học thường bỏ qua việc nhắc đến các đặc điểm tích cực của chúng. Do đó, người dân cũng bỏ qua các khía cạnh tích cực này (neglect the positive aspect).

Câu 29: E

- **Trích đoạn:** "I also felt very **underprepared** since I didn't finish writing the presentation until the night before..."

- **Hướng dẫn:** Tim cảm thấy rất lo lắng một phần vì anh ấy thấy mình chưa chuẩn bị kỹ ("underprepared") do mãi đến đêm hôm trước mới viết xong bài và không có thời gian luyện tập. "Underprepared" khớp với đáp án E (did not prepare beforehand - đã không chuẩn bị trước).

Câu 30: F

- **Trích đoạn:** "I think it's important that we **list all of the differences** between active and extinct volcanoes as there will definitely be a question on this topic."
- **Hướng dẫn:** Tim cho rằng điều quan trọng là họ phải liệt kê được tất cả những điểm khác biệt ("list all of the differences") giữa núi lửa đang hoạt động và núi lửa đã tắt. Điều này tương ứng với đáp án F (xác định sự khác biệt giữa chúng - identify the differences between them).

Câu 31: homes

- **Trích đoạn:** "27% of British carbon dioxide emissions come from the energy **used in homes**, so **around a quarter** of all reductions must also come from that sector..."
- **Hướng dẫn:** Đề bài nhắc đến mục tiêu giảm khoảng 25% ("approximately 25%") lượng khí thải carbon từ năng lượng được tiêu thụ ("consumed in") ở đâu đó. Audio nói rằng khoảng một phần tư ("around a quarter" = 25%) sự cắt giảm phải đến từ năng lượng được sử dụng trong các hộ gia đình ("used in homes"). Từ cần điền là "homes".

Câu 32: solar

- **Trích đoạn:** "At present, the **most popular green energy**... is **solar**."
- **Hướng dẫn:** Đề bài cần tìm loại năng lượng xanh phổ biến nhất ("Most popular 'green' energy"). Trong audio, người nói liệt kê một loạt các loại năng lượng xanh và chốt lại loại phổ biến nhất hiện nay là năng lượng mặt trời ("solar").

Câu 33: experience

- **Trích đoạn:** "...because there is such **limited experience** of this technology, people have been **reluctant to invest** in it."
- **Hướng dẫn:** Đề bài chỉ ra việc ít đầu tư ("Little investment") là do thiếu ("lack of") cái gì đó. Audio giải thích rằng mọi người ngần ngại đầu tư ("reluctant to invest") vì kinh nghiệm sử dụng công nghệ này còn rất hạn chế ("limited experience" = "lack of experience"). Từ cần điền là "experience".

Câu 34: boiler

- **Trích đoạn:** "The heat pumps in this trial **are used for the same reason you'd use a boiler**..."

- **Hướng dẫn:** Đề bài nói máy bơm nhiệt phục vụ cùng một mục đích ("serve the same purpose as") với cái gì. Audio dùng cấu trúc tương đương "được sử dụng vì cùng một lý do bạn dùng một cái nồi hơi" ("are used for the same reason you'd use a boiler"). Từ cần điền là "boiler".

Câu 35: air

- **Trích đoạn:** "Most heat pumps **take heat from** either the **ground** or the **air**..."
- **Hướng dẫn:** Đề bài viết máy bơm lấy nhiệt ("get heat from" = "take heat from") từ lòng đất ("earth" = "ground") hoặc từ đâu. Cấu trúc song song "either the ground or the..." trong audio cho biết đáp án còn lại là không khí ("air").

Câu 36: bacteria

- **Trích đoạn:** "...the temperature of the hot water stored in a cylinder should be periodically put up to **60 degrees centigrade to kill off bacteria**."
- **Hướng dẫn:** Đề bài nói nước được đun nóng đến 60°C để tiêu diệt ("destroy") cái gì. Audio dùng cụm "kill off" thay cho "destroy", và đối tượng cần tiêu diệt ở nhiệt độ 60 độ C là vi khuẩn ("bacteria").

Câu 37: radiators

- **Trích đoạn:** "This field trial monitored two **central heating systems: radiators** and the increasingly popular **underfloor systems**."
- **Hướng dẫn:** Đề bài liệt kê hai hệ thống sưởi trung tâm được giám sát ("Central heating systems monitored: ... and under-floor heating"). Audio nhắc đến "underfloor systems" (hệ thống sưởi dưới sàn), vậy hệ thống còn lại được nhắc tới ngay trước đó là lò sưởi ("radiators").

Câu 38: training

- **Trích đoạn:** "This observation emphasizes the need for **better training** for everyone involved in the installation."
- **Hướng dẫn:** Đề bài yêu cầu điền thứ cần được cải thiện ("improved..."). Trong audio, người nói nhấn mạnh nhu cầu cần có sự đào tạo tốt hơn ("better training") cho những người tham gia lắp đặt (do lỗi lắp máy bơm không đúng cách). "Better" đồng nghĩa với "improved", nên đáp án là "training".

Câu 39: simple

- **Trích đoạn:** "...it was found that in most cases designs which were **simple** were **more efficient**."

- **Hướng dẫn:** Đề bài cho biết các thiết kế như thế nào thì hoạt động tốt nhất ("performed best"). Audio dùng cụm "more efficient" (hiệu quả hơn/tốt hơn) để nhận xét về những thiết kế đơn giản ("simple").

Câu 40: supervisor

- **Trích đoạn:** "It was obvious that a **supervisor** should be appointed to **oversee and be responsible for** the whole installation."
- **Hướng dẫn:** Đề bài nói cần có một ai đó để điều phối ("coordinate") việc lắp đặt. Audio nói cần chỉ định một người giám sát ("supervisor") để quan sát và chịu trách nhiệm ("oversee and be responsible for" = "coordinate") cho toàn bộ quá trình lắp ráp.

ĐÁP ÁN TEST 13

Part 1: Lifeguard Application	Part 2: The Elmsden Way	Part 3: Presentation on Volcanoes	Part 4: Providing IT support for University Teachers

NAUGH MILK
IELTS

TRANSCRIPT TEST 13
PART 1

[Speaker 1] [0:00 → 0:05]

The audio and test copyright belong to the Newark Milk IELTS website.

[Speaker 2] [0:05 → 0:47]

IELTS listening. You will hear a number of different recordings, and you will have to answer questions on what you hear. There will be time for you to read the instructions and questions, and you will have a chance to check your work. All the recordings will be played once only. The test is in four parts. Write all your answers in the listening question booklet. At the end of the test, you will be given ten minutes to transfer your answers to an answer sheet. Now turn to part one on page two of your question booklet.

[Speaker 3] [0:47 → 1:01]

Part one. You will hear a man phoning an aquatic center inquiring about a part time job as a lifeguard. First, you have some time to look at questions one to five.

[Speaker 3] [1:31 → 1:35]

Now listen carefully and answer questions one to five.

[Speaker 3] [1:39 → 1:43]

Hello. North Bay Aquatic Centre. Jane is speaking.

[Speaker 4] [1:44 → 1:51]

Oh, hello. I'm calling to apply for a part time lifeguard position. Am I speaking to the right person?

[Speaker 3] [1:51 → 2:08]

Yes, you are. We are currently recruiting lifeguards for two different positions. But first, I'll have to jot down some of your personal information before we officially invite you for an interview. Is that alright?

[Speaker 4] [2:08 → 2:10]

Sure. No problem.

[Speaker 3] [2:10 → 2:12]

May I have your name, please?

[Speaker 4] [2:13 → 2:15]

It's Peter. Peter Smith.

[Speaker 3] [2:15 → 2:19]

Okay. And what is your current address?

[Speaker 4] [2:19 → 2:24]

It's 130 South Main Street, Lake Elsinore.

[Speaker 3] [2:25 → 2:27]

I'm sorry. Elsinore?

[Speaker 4] [2:27 → 2:35]

Oh, it's E L S I N O R E, Elsinore.

[Speaker 3] [2:35 → 2:39]

Right, got it. What is your phone number?

[Speaker 4] [2:39 → 3:00]

My home phone number is 77099500362. Actually, it's easier to reach me by my cell phone number. It's 077896245. I'm mainly out these days.

[Speaker 3] [3:00 → 3:04]

Right. Can you tell me about your work experience?

[Speaker 4] [3:05 → 3:15]

Well, I now work as a waiter. And that's just a part time gig. It requires serving customers, and I also have some cleaning duties.

[Speaker 3] [3:15 → 3:19]

Okay. Do you have any other part time job?

[Speaker 4] [3:19 → 3:34]

No. But I'm majoring in physical education right now. I'm learning exercise physiology, sports nutrition, and individual fitness activities, and I want to become a baseball coach for a local high school.

[Speaker 3] [3:35 → 3:41]

So do you have any other relevant work experience to a lifeguard position?

[Speaker 4] [3:42 → 3:52]

Oh, right. I also worked part time as a rescue diver for a local beach last summer. I'm certified for open water rescue missions.

[Speaker 3] [3:52 → 4:06]

Excellent. That's exactly what we're looking for. Before you hear the rest of the conversation, you have some time to look at questions six to 10.

[Speaker 3] [4:46 → 4:49]

Now listen and answer questions six to 10.

[Speaker 3] [4:53 → 5:02]

Before we continue, I need to know a few more things to ensure that you are qualified for maintaining water safety during work.

[Speaker 4] [5:02 → 5:04]

Okay, go ahead.

[Speaker 3] [5:04 → 5:24]

As a lifeguard, you will spend most of your time monitoring the area near the water and reducing risks to everyone here. So we are looking for someone who can stay focused. Do you have difficulties concentrating or any related disorders?

[Speaker 4] [5:24 → 5:29]

No, I don't have any medical disorders relating to that sort of problem.

[Speaker 3] [5:30 → 5:41]

We're also expecting someone with good eyesight, because a lifeguard must be able to recognize and respond to any struggling swimmers quickly.

[Speaker 4] [5:41 → 5:47]

I have sharp vision. I mean, both eyes are twenty ten without correction.

[Speaker 3] [5:47 → 5:52]

Good. Do you have relevant skills in terms of lifeguarding?

[Speaker 4] [5:52 → 5:57]

I'm good at diving. You know my previous job requires training in that.

[Speaker 3] [5:58 → 6:04]

We only need lifeguards with certification. I assume you already have one, right?

[Speaker 4] [6:05 → 6:25]

Yes. To get the certificate, I received training for Waterfront Lifeguarding two years ago. The training includes things like providing first aid and emergency care, but mine is about to expire in November. Oh, wait, let me check. It's a month earlier, in October.

[Speaker 3] [6:25 → 6:37]

Okay, you're good for now before it expires. But if you want to work here for the whole year, you'll have to renew it. I see. What time do you prefer to work?

[Speaker 4] [6:38 → 6:44]

I already work part time in a restaurant on weekdays, so I'd like to work on the weekend.

[Speaker 3] [6:44 → 6:48]

We already have enough people working here on Sundays.

[Speaker 4] [6:48 → 6:50]

I can work on Saturday mornings then.

[Speaker 3] [6:51 → 6:52]

Right.

[Speaker 4] [6:52 → 6:56]

And I can start from 06:00 in the morning. I'm a morning person.

[Speaker 3] [6:57 → 7:02]

Sounds great. Where did you hear about our recruitment information from?

[Speaker 4] [7:02 → 7:08]

I heard it on radio this morning while driving. I wouldn't say I like reading newspapers.

[Speaker 3] [7:08 → 7:14]

Thank you for calling. We'll notify you about the interview details in two days.

[Speaker 4] [7:15 → 7:16]

Thank you. Bye.

[Speaker 3] [7:16 → 7:27]

Goodbye. That is the end of part one. You now have half a minute to check your answers to part one.

[Speaker 2] [7:58 → 8:01]

Now turn to section two on page three.

PART 2

[Speaker 1] [0:00 → 0:14]

Part two. You will hear part of a radio program about a new route for cyclists called the Elmsdon Way. First, you have some time to look at questions 11 to 14.

[Speaker 1] [0:44 → 0:49]

Now listen carefully and answer questions 11 to 14.

[Speaker 2] [0:52 → 3:06]

Welcome to our holiday special. Today, I'll be talking about a new cycle route in this area called the Elmsdon Way. It's well signposted, so you can see exactly where to go, And it's an easy ride with no steep hills. It's 35 kilometers long from Elmsdon to Langton, and consists partly of cycle paths and partly of roads. Let me outline the route briefly, starting at Elmsdon Railway Station. The first part is a cycle path running eastwards roughly parallel to the rail track. Almost immediately the railway curves away and goes around the southern side of a little lake, but the cycle path takes the northern route around the lake. Keep your eyes open for the swans that nest there. The path then joins the road, and the next landmark is a group of massive rocks that tower over the countryside. You'll see them to the east of the road just before the road goes under the railway. They're imposing. Soon you'll come to a fork in the road where you'll leave the road and head off towards the river. But if you want to make a detour to Corley Nature Reserve, go straight on instead of leaving the road here. Continuing along the cycle path, you'll reach the River Cleave. The cycle path follows the river southwards. After a bit, you'll see the Ashington China factory, which closed in 1962. It now offers guided tours to the public, which is worth a visit. Right after the factory, there's a bridge over the river, and you carry on with farmland to the north right after the bridge and the Langton Forest to the South. Somewhere between the cycle route and the railway line cited a statue of Captain Cook, which dates back to the eighteenth century. The route ends at Langton Village, where you'll find a railway station. So you can either catch the train here or cycle back to Elmsdon.

[Speaker 1] [3:09 → 3:16]

Before you hear the rest of the program, you have some time to look at questions 15 to 20.

[Speaker 1] [3:46 → 3:51]

Now listen and answer questions 15 to 20.

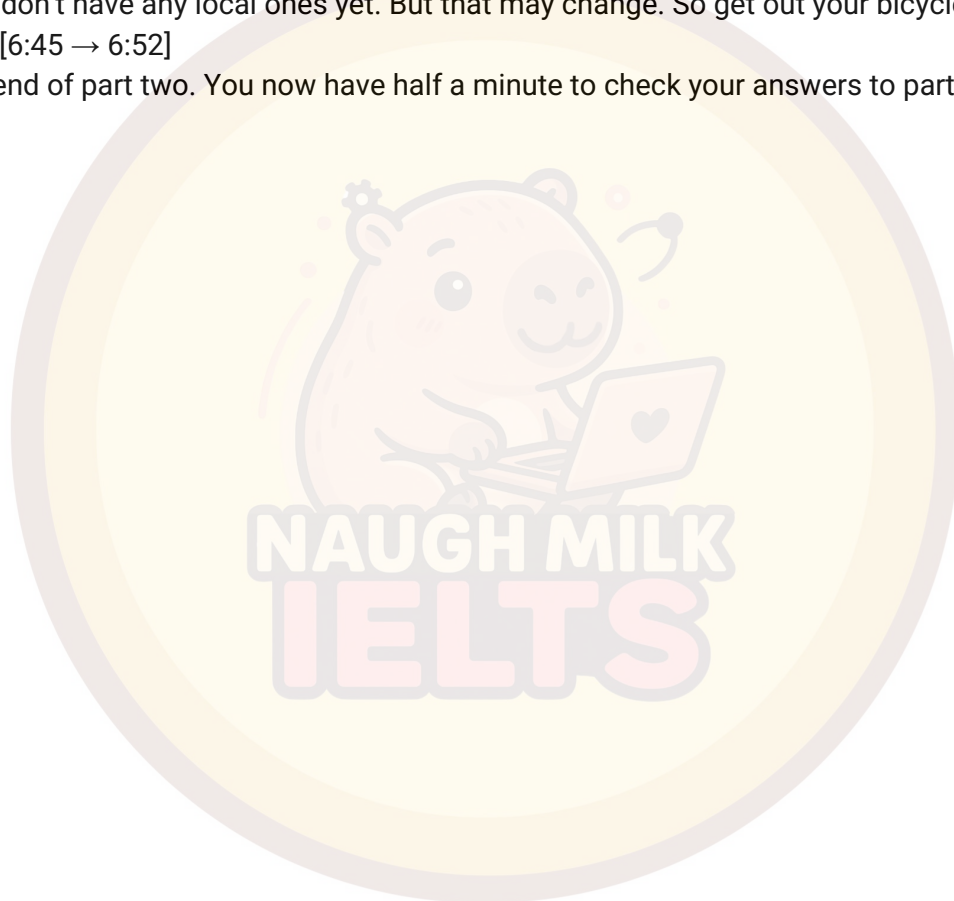

[Speaker 2] [3:54 → 6:42]

One point to remember when cycling on the Elmsdon Way is to keep your eyes open for sheep which occasionally stray onto the cycle path from the adjoining fields. So be careful to avoid accidents. The park is well constructed so wet or muddy conditions do not affect it. There'll be old cars or tractors when you're cycling on roads but most traffic has been diverted to the main road that bypasses the whole area. Now a bit more about some of the places you'll see. The starting point, Elmsdon Station, was quite busy in the early twentieth century with services to several major cities, but it was closed in the nineteen fifties. Eventually, a small company was set up to turn it into a sort of railway museum, maintaining it in the style of the nineteen fifties, and the station was ready for trains to start using it again earlier this year. It's only used by a few local trains though. There's a visitor's center at the station which houses a small exhibition about the history of railway transport all over the world and a facility for hiring bikes if you don't have one

of your own. A small shop just across the road from the station also sells refreshments. As I said, you can cycle to Langton and return to Welmston by train or the other way because you can take your cycle on the train. There's no need to make a reservation. There's plenty of room and no extra charge. However, the service is limited and the trains between these places don't run on weekdays. If you want to see the River Elm there's a footpath from Elmsdon Station and you can safely leave your bike in the car park there. Leave yourself plenty of time though. Going down is easy but climbing up is pretty steep, so walking back up to the top can take quite a while, but it's worth the effort. The scenery is lovely and the footpath runs right next to the river down to a waterfall. Finally, there are many other cycle paths if you like to do more cycling in the area. We'll be talking on the radio about them and you'll be able to get fuller details in the Saturday edition of the local paper. The National Cycle Network also has some details on its website. Although, I have to say, they don't have any local ones yet. But that may change. So get out your bicycle.

[Speaker 1] [6:45 → 6:52]

That is the end of part two. You now have half a minute to check your answers to part two.

PART 3

[Speaker 1] [0:00 → 0:17]

Part three. You will hear two students, Erica and Ian, discussing their presentation on volcanoes in their geology course. First, you have some time to look at questions 21 to 25.

[Speaker 1] [1:07 → 1:22]

Now listen carefully and answer questions 21 to 25. Hey, Ian. How far along are you on preparing the presentation on volcanoes next week?

[Speaker 2] [1:22 → 1:23]

Not much.

[Speaker 1] [1:24 → 1:26]

Maybe we can straighten things out first?

[Speaker 2] [1:27 → 1:52]

Sure. I decided to start with shield Volcano. The name derives from its similarity in shape to a warrior's shield lying face up. The Hawaiian shield volcanoes are the most famous examples. Professor Joan mentioned that many scholars have already done quite a lot of research in this field. We could retell conclusions from published papers.

[Speaker 1] [1:52 → 2:02]

I'm not sure. I mean, is that even allowed? I know we don't have to use first hand data we collect but copy in others?

[Speaker 2] [2:02 → 2:16]

Come on. It's not like we are using their findings as our own. The professor said it would be okay as long as we cited our sources. Oh, okay. Do you have any ideas about stratovolcanoes?

[Speaker 1] [2:17 → 2:45]

Stratovolcanoes, also known as composite volcanoes, develop over many thousands of years through repeated eruptions and other volcanic activity. But the current information I have at hand is only very vague. Fuller descriptions are needed for this. I'm sure you can find them.

Alright then. Leave that to me. Have you read anything about rhyolite caldera complexes?

[Speaker 2] [2:46 → 2:56]

Yeah. They are the most explosive volcanoes on earth, and don't even look like volcanoes. The origin of these volcanoes, like Yellowstone,

[Speaker 1] [2:56 → 3:15]

is associated with a hot spot. You've got most of the information correct. Unfortunately, the last bit you mentioned is wrong. The origin of this type of volcano remains a mystery. The hotspot origin theory doesn't work for most other rhyolite calderas.

[Speaker 2] [3:15 → 3:21]

Right. I'll change that part. What about the position on monogenetic fields?

[Speaker 1] [3:21 → 3:40]

It's shocking to see the photos of these immense volcanoes. There are numerous monogenetic fields in the American Southwest and Mexico, but I got all the information from a website without specifying its source. We'll have to examine the content again later.

[Speaker 2] [3:41 → 3:45]

Okay. I can help with that. Lastly,

[Speaker 1] [3:45 → 3:50]

we have cinder cones. What do you have on that? Well,

[Speaker 2] [3:50 → 4:02]

this type of volcano is usually tiny to the other volcanoes, and thus sounds less attractive.

Maybe we should leave it out. It seems pretty unimportant to me. I agree.

[Speaker 1] [4:02 → 4:14]

It's impossible to cover everything. Before you hear the rest of the conversation, you have some time to look at questions 26 to 30.

[Speaker 1] [4:54 → 4:58]

Now listen and answer questions 26 to 30.

[Speaker 2] [5:01 → 5:06]

Erica, can you work on the delivery part? I don't want to do it anymore.

[Speaker 1] [5:07 → 5:09]

I'm okay with that, but why is that?

[Speaker 2] [5:10 → 5:19]

I was marked so low for the last presentation and didn't even have a clue why. Maybe it's because I didn't include enough data on it.

[Speaker 1] [5:19 → 5:37]

Well, I'm not sure about that. I think maybe you did not prepare the topic well enough. You tried to explain the contributing factor forming the ring of fire in the Pacific Ocean, but you just read everything out loud without fully comprehending it yourself.

[Speaker 2] [5:38 → 5:41]

Right. That must have been it.

[Speaker 1] [5:41 → 5:48]

We also have to look for supporting materials to illustrate the formation of different volcanoes.

[Speaker 2] [5:48 → 5:50]

What about documentaries?

[Speaker 1] [5:50 → 6:00]

They can be an excellent way to illustrate the volcanic eruption, but that might be too long for our presentation. We've only got twenty minutes.

[Speaker 2] [6:01 → 6:04]

Have you considered adding photos to our handouts?

[Speaker 1] [6:05 → 6:21]

That's an option. But people may focus on these photos rather than paying attention to what we have to say. Maybe we can search online for part of a film about volcanoes and add it to the end of our presentation.

[Speaker 2] [6:21 → 6:26]

That would be better. So how should we start our presentation?

[Speaker 1] [6:26 → 6:33]

Maybe we can first introduce some terms like extinct volcanoes and dormant volcanoes.

[Speaker 2] [6:34 → 6:35]

Why is that?

[Speaker 1] [6:35 → 6:58]

Even though they are widely accepted terms among ordinary people, academia wouldn't accept them because there are no set definitions. For example, an extinct volcano would be one nobody expects to erupt again, but there have been several eruptions from widely acknowledged extinct volcanoes.

[Speaker 2] [6:58 → 7:05]

That's an excellent way to start our presentation. What did the professor say about your last presentation?

[Speaker 1] [7:05 → 7:18]

There is still room for improvement. She said that I had an in-depth analysis and provided enough statistics, but I didn't carry on and discuss my take on it. Right.

[Speaker 2] [7:19 → 7:25]

So maybe we could also discuss the impact volcanoes have on humans and our planet?

[Speaker 1] [7:25 → 7:53]

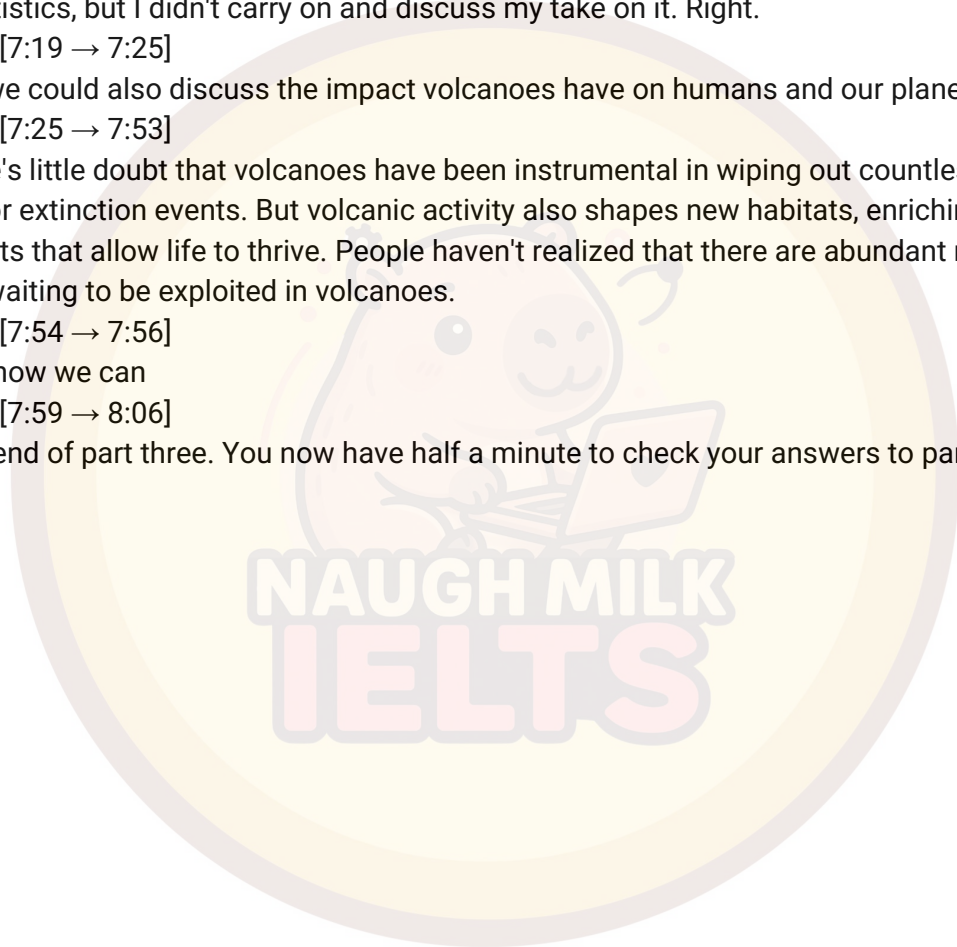

Yeah. There's little doubt that volcanoes have been instrumental in wiping out countless species during major extinction events. But volcanic activity also shapes new habitats, enriching the soil with nutrients that allow life to thrive. People haven't realized that there are abundant mineral resources waiting to be exploited in volcanoes.

[Speaker 2] [7:54 → 7:56]

I agree. So now we can

[Speaker 1] [7:59 → 8:06]

That is the end of part three. You now have half a minute to check your answers to part three.

PART 4

[Speaker 1] [0:00 → 0:10]

Part four. You will hear part of a lecture related to how technology contributes to education. First, you have some time to look at questions 31 to 40.

[Speaker 2] [0:50 → 4:29]

Hello and welcome to today's seminar about education. Education is a lifelong process. There is no limit on when to start and stop, and we have been using technology so much these days in each and every sector of our lives, including education. Have we ever taken out a second to wonder if it's leaving a positive impact on our work, or it's just that we have been relying on it so much that we've become used to it. Yes, there used to be some problems here. Earlier, there was a lot of debate about technology and education amongst the faculty at our school. Everyone had their own views. At first, some believed that the use of email made students and teachers interact with each other rather less, and this was not a good thing. In terms of characteristics to consider when seeking mentors, this practice involves a kind of software which allows students, as well as teachers, to talk and discuss with each other more easily, and they said they enjoy this way of communication. But gradually, as technology was embraced by more educational institutes, they realised the importance of technology in education. The main benefit is that there is a strong relationship with the local economy when it comes to the effectiveness of the use of IT in education. In the more developed areas, the schools and institutions have better access to more advanced technology, and the teachers are better trained to use the technology to improve the quality of their classes. In contrast, in some less developed regions and remote areas where technology is not so common, the effectiveness can't be guaranteed. However, wherever they are, the most common example for teachers using technology in education is the usage of computers in their methods of incorporating computers into teaching. In most classrooms, the mode offers students a channel to post any work that they are proud of, whether it's a nice photograph that they take, a case study they do, a song they record, or even just a great idea they have, so it gives them a chance to showcase their strength and build up their confidence. Many students use this feature to show the best of themselves. It also provides students an opportunity to choose what they learn on the Internet, so they no longer have to sit in the classroom listening to something they aren't bored with and they don't have to wait all night trying to register for their favorite elective courses. Compared with the traditional platform, it is more flexible. The open source which the new mode provides is free for students to use when they are trying to look up online for their papers or researchers and the data will not easily be found on the Internet because only registered users have access to the database. By the way, all the materials are original works of teachers or scholars, so there is no need to worry about the quality of the content, and with the overwhelming amount of unwanted information on the Internet, this mode gives students a new search engine they can use on campus, so information like advertisements and sceptical sources will be filtered easily. This is a perfect example that can offer some hope of reducing problems. Apart from that, students can arrange their daily activities and improve their time management skills by simply ticking the boxes in the timetable online. They can set up their own starting time and their deadline for each assignment.

[Speaker 1] [4:30 → 4:36]

That is the end of section four. You now have half a minute to check your answers.

[Speaker 1] [5:06 → 5:14]

That is the end of the listening test. You now have ten minutes to transfer your answers to the listening answer sheet.

Câu 1: Elsinore

- Trích đoạn: "Oh, it's **EL SINORE**, Elsinore."
- Hướng dẫn: Người quản lý nghe không rõ tên địa danh nên khách hàng đã đánh vần lại. Bạn chỉ cần tập trung nghe và ghi chép chính xác từng chữ cái.

Câu 2: 077896245

- Trích đoạn: "Actually, it's easier to reach me by my **cell phone** number. It's **077896245**."
- Hướng dẫn: Audio có đưa ra số điện thoại bàn (home phone) trước để bẫy, nhưng ngay sau đó khách hàng nhấn mạnh nên gọi vào số di động (cell phone) của anh ấy. Bạn cần ghi lại dãy số thứ hai.

Câu 3: waiter

- Trích đoạn: "Well, I now work as a **waiter**. And that's just a **part time gig**."
- Hướng dẫn: Người đàn ông cho biết hiện tại anh đang làm một công việc bán thời gian (part time gig) với vị trí bồi bàn (waiter).

Câu 4: baseball

- Trích đoạn: "...and I want to become a **baseball** coach for a local high school."
- Hướng dẫn: Anh ấy bày tỏ mong muốn trong tương lai sẽ trở thành huấn luyện viên môn bóng chày (baseball) cho một trường trung học ở địa phương.

Câu 5: beach

- Trích đoạn: "I also worked part time as a rescue diver for a local **beach** last summer."
- Hướng dẫn: Kinh nghiệm làm việc liên quan tiếp theo là anh từng làm thợ lặn cứu hộ bán thời gian tại một bãi biển (beach) ở địa phương vào mùa hè năm ngoái.

Câu 6: diving

- Trích đoạn: "Do you have relevant skills in terms of lifeguarding? - I'm good at **diving**."
- Hướng dẫn: Khi được hỏi về các kỹ năng liên quan đến công việc cứu hộ, anh chàng tự tin khẳng định mình rất giỏi lặn (diving) vì công việc trước đây có yêu cầu huấn luyện kỹ năng này.

Câu 7: October

- Trích đoạn: "...but mine is about to expire in November. Oh, wait, let me check. It's a month earlier, in **October**."
- Hướng dẫn: Audio có bẫy tháng 11 (November), nhưng sau khi tự kiểm tra lại, anh ấy đính chính là chứng chỉ sẽ hết hạn (expire) sớm hơn 1 tháng, tức là vào tháng 10 (October).

Câu 8: Saturday

- Trích đoạn: "I can work on **Saturday** mornings then."
- Hướng dẫn: Anh ấy muốn làm vào cuối tuần, nhưng Chủ Nhật (Sundays) đã đủ người làm nên anh ấy chốt lại là sẽ làm việc vào các buổi sáng thứ Bảy (Saturday).

Câu 9: 6 / six

- Trích đoạn: "And I can start from **06:00** in the morning."
- Hướng dẫn: Anh ấy nói mình là người dậy sớm và có thể bắt đầu làm việc từ 6 giờ sáng. Chữ "o'clock" đã có sẵn trên đề bài nên bạn chỉ cần điền số 6 hoặc chữ "six" đều được.

Câu 10: radio

- Trích đoạn: "I heard it on **radio** this morning while driving. I wouldn't say I like reading newspapers."
- Hướng dẫn: Người đàn ông cho biết mình nghe thông tin tuyển dụng trên đài phát thanh (radio) trong lúc lái xe chứ không phải đọc báo (newspapers).

Câu 11

- **Đáp án: B**
- **Hướng dẫn:** Trên đường đi, bạn sẽ thấy những tảng đá khổng lồ nằm ở phía Đông (bên phải) của con đường, ngay trước khi con đường chui xuống dưới đường ray xe lửa (goes under the railway). Vị trí B nằm đúng phía Đông của con đường xám và ngay trước đường ray.
- **Trích đoạn:** "...the next landmark is a group of **massive rocks**... You'll see them to the **east of the road just before the road goes under the railway.**"

Câu 12

- **Đáp án: C**
- **Hướng dẫn:** Khi đến một ngã ba (fork in the road), đường dành cho xe đạp (đường nét đứt) rẽ về phía sông. Nếu bạn muốn đến Khu bảo tồn thiên nhiên Corley, thay vì rẽ theo đường xe đạp, hãy tiếp tục đi thẳng trên con đường chính. Điểm C nằm ngay trên đường chính (đường xám liền) ở đoạn đi thẳng này.
- **Trích đoạn:** "...come to a fork in the road where you'll leave the road and head off towards the river. But if you want to make a detour to **Corley Nature Reserve, go straight on instead of leaving the road here.**"

Câu 13

- **Đáp án: F**

- **Hướng dẫn:** Tuyến đường xe đạp chạy dọc theo con sông về phía Nam. Bạn sẽ thấy nhà máy gốm Ashington nằm ngay sát trước cây cầu bắc qua sông. Điểm F là vị trí duy nhất nằm trên đường xe đạp ngay trước cây cầu.
- **Trích đoạn:** "The cycle path follows the river southwards. After a bit, you'll see the **Ashington China factory... Right after the factory, there's a bridge** over the river..."

Câu 14

- **Đáp án:** I
- **Hướng dẫn:** Ngay sau khi qua cầu, con đường chạy giữa vùng đất nông nghiệp ở phía Bắc và khu rừng Langton ở phía Nam. Nhìn trên bản đồ sau khi qua cầu, G ở phía Bắc và I ở phía Nam. Vậy khu rừng nằm ở vị trí I.
- **Trích đoạn:** "...and you carry on with farmland to the north right after the bridge and the **Langton Forest to the South.**"

Câu 15

- **Đáp án:** C
- **Hướng dẫn:** Người nói cảnh báo người đạp xe phải cẩn thận với những con cừu thi thoảng đi lạc từ các cánh đồng lân cận vào đường dành cho xe đạp. Điều này tương ứng với việc có thể có động vật trên đường (animals on the cycle path).
- **Trích đoạn:** "One point to remember when cycling... is to **keep your eyes open for sheep which occasionally stray onto the cycle path** from the adjoining fields."

Câu 16

- **Đáp án:** C
- **Hướng dẫn:** Nhà ga này được duy trì theo phong cách những năm 1950 (nên không phải được hiện đại hóa - loại B), và nó đã sẵn sàng để các chuyến tàu bắt đầu sử dụng lại vào đầu năm nay. Nghĩa là nó mới được mở cửa trở lại gần đây (reopened recently).
- **Trích đoạn:** "...and the station was ready for trains to **start using it again earlier this year.**"

Câu 17

- **Đáp án:** A
- **Hướng dẫn:** Trung tâm du khách có không gian trưng bày về lịch sử giao thông đường sắt trên *toàn thế giới* (không phải lịch sử địa phương - loại C) và có cung cấp dịch vụ cho thuê xe đạp. Nước giải khát (refreshments) được bán ở một cửa hàng nhỏ bên kia đường (loại B).
- **Trích đoạn:** "There's a visitor's center at the station which houses... a **facility for hiring bikes** if you don't have one of your own."

Câu 18

- **Đáp án:** B
- **Hướng dẫn:** Việc mang xe đạp lên tàu là miễn phí và không cần đặt trước (loại A và C). Tuy nhiên, dịch vụ này có giới hạn và các chuyến tàu không chạy vào các ngày trong tuần (don't run on weekdays), đồng nghĩa với việc bạn phải đi vào cuối tuần.
- **Trích đoạn:** "There's no need to make a reservation... no extra charge. However, the service is limited and the **trains between these places don't run on weekdays.**"

Câu 19

- **Đáp án:** A
- **Hướng dẫn:** Người nói khuyên nên để dư dả thời gian vì đường đi xuống thì dễ nhưng lúc leo lên lại rất dốc, do đó việc đi bộ quay trở lại đỉnh có thể mất khá nhiều thời gian.
- **Trích đoạn:** "...climbing up is pretty steep, so **walking back up to the top can take quite a while...**"

Câu 20

- **Đáp án:** A
- **Hướng dẫn:** Nếu muốn biết thêm về các tuyến đường khác, bạn sẽ tìm thấy chi tiết đầy đủ trên ấn bản ngày thứ Bảy của tờ báo địa phương. Trang web của Mạng lưới xe đạp quốc gia chưa có thông tin về khu vực này (loại C).
- **Trích đoạn:** "...you'll be able to **get fuller details in the Saturday edition of the local paper.**"

Câu 21: B

- **Trích đoạn:** "We could **retell conclusions from published papers.**"
- **Hướng dẫn:** Đối với núi lửa hình khiên (shield volcanoes), lan đề xuất rằng họ có thể kể lại/lặp lại các kết luận từ những bài báo đã được xuất bản của các học giả khác. Điều này hoàn toàn khớp với đáp án B (lặp lại nghiên cứu của người khác - repeat other people's studies).

Câu 22: E

- **Trích đoạn:** "But the current information I have at hand is only very vague. **Fuller descriptions are needed** for this."
- **Hướng dẫn:** Erica phàn nàn rằng thông tin cô đang có về núi lửa dạng tầng (stratovolcanoes) còn rất mơ hồ và họ cần những mô tả đầy đủ hơn ("fuller descriptions"). Điều này tương ứng với đáp án E (cần thêm chi tiết - need more details).

Câu 23: C

- **Trích đoạn:** "Unfortunately, **the last bit you mentioned is wrong**... The hotspot origin theory doesn't work for most other rhyolite calderas."
- **Hướng dẫn:** Ian cho rằng nguồn gốc của núi lửa rhyolite caldera liên quan đến điểm nóng (hot spot), nhưng Erica ngay lập tức sửa lại rằng phần thông tin cuối cùng cậu ấy nhắc đến là sai ("wrong"). Thông tin sai lệch này khớp với đáp án C (thông tin không chính xác - inaccurate information).

Câu 24: G

- **Trích đoạn:** "...but I got all the information from a website without specifying its source. **We'll have to examine the content again later.**"
- **Hướng dẫn:** Với loại monogenetic fields, Erica nói rằng cô lấy thông tin từ một trang web không rõ nguồn gốc nên họ sẽ phải kiểm tra lại nội dung sau ("examine the content again"). Điều này đồng nghĩa với đáp án G (kiểm tra lại - check again).

Câu 25: F

- **Trích đoạn:** Ian: "Maybe we should **leave it out**. It seems pretty unimportant to me." | Erica: "**I agree.**"
- **Hướng dẫn:** Cả hai đồng ý sẽ bỏ qua loại cinder cones ("leave it out") vì nó nhỏ và không quan trọng. Việc quyết định "bỏ ra ngoài/không nhắc tới" tương ứng với đáp án F (không cần nói về nó - no need to talk about it).

Câu 26: B

- **Trích đoạn:** "...you just read everything out loud **without fully comprehending it yourself.**"
- **Hướng dẫn:** Erica nhận xét rằng lý do Ian bị điểm thấp ở bài thuyết trình trước là vì cậu ấy chỉ đọc to mọi thứ lên mà không thực sự tự mình hiểu rõ về nó ("without fully comprehending it yourself"). Điều này khớp với đáp án B (Cậu ấy đã không hiểu lý do chính yếu).

Câu 27: C

- **Trích đoạn:** "Maybe we can search online for **part of a film about volcanoes** and add it to the end of our presentation."
- **Hướng dẫn:** Ian đề xuất phim tài liệu (nhưng bị chê dài - loại A), sau đó đề xuất thêm ảnh vào tài liệu phát tay (nhưng bị chê làm xao nhãng - loại B). Cuối cùng, Erica gợi ý tìm "một đoạn phim ngắn về núi lửa" trên mạng và Ian đồng ý. "Part of a film" tìm "online" chính là các đoạn video trên mạng (Internet video clips - đáp án C).

Câu 28: A

- **Trích đoạn:** "Even though they are **widely accepted terms among ordinary people, academia wouldn't accept them** because there are no set definitions."
- **Hướng dẫn:** Erica đề xuất mở đầu bằng hai thuật ngữ (núi lửa đã tắt và ngủ đông) để chỉ ra rằng: dù người bình thường (ordinary people) chấp nhận rộng rãi những từ này, nhưng giới học thuật (academia) lại không chấp nhận vì thiếu định nghĩa chuẩn mực. Sự đối lập giữa người bình thường và giới học thuật chính là việc phân biệt giữa thuật ngữ phổ thông và thuật ngữ khoa học (đáp án A).

Câu 29: C

- **Trích đoạn:** "She said that I had an in-depth analysis and provided enough statistics, but **I didn't carry on and discuss my take on it.**"
- **Hướng dẫn:** Giáo sư nhận xét bài của Erica phân tích sâu và đủ số liệu (bác bỏ B), nhưng lỗi là cô ấy đã không tiếp tục thảo luận về góc nhìn/ý kiến cá nhân của mình ("my take on it"). Việc không thảo luận ý kiến cá nhân tương ứng với đáp án C (Cô ấy không phát triển đầy đủ quan điểm cá nhân).

Câu 30: C

- **Trích đoạn:** Erica: "People **haven't realized** that there are **abundant mineral resources waiting to be exploited** in volcanoes." | Ian: "**I agree.**"
- **Hướng dẫn:** Erica nói rằng mọi người chưa nhận ra được có nguồn tài nguyên khoáng sản dồi dào đang chờ được khai thác trong các ngọn núi lửa, và Ian đồng ý. Việc con người "chưa nhận ra tài nguyên dồi dào" đồng nghĩa với việc núi lửa chưa được công nhận đầy đủ về giá trị của chúng (đáp án C).

Câu 31: email

- **Trích đoạn:** "At first, some believed that the use of **email** made students and teachers interact with each other rather less..."
- **Hướng dẫn:** Đề bài nhắc đến việc sử dụng một thứ gì đó không giúp được sinh viên tương tác ("failed to help... interact") với giáo viên. Audio nói rằng một số người từng tin việc sử dụng thư điện tử ("email") làm cho sinh viên và giáo viên ít tương tác với nhau hơn.

Câu 32: communication

- **Trích đoạn:** "...allows students, as well as teachers, to talk and discuss with each other more easily, and they said they enjoy this way of **communication.**"
- **Hướng dẫn:** Đề bài ghi sinh viên thích ("enjoy") sự gì đó với giáo viên. Audio giải thích sinh viên và giáo viên có thể nói chuyện và thảo luận dễ dàng hơn, và họ thích cách giao tiếp ("communication") này.

Câu 33: relationship

- **Trích đoạn:** "The main benefit is that there is a strong **relationship** with the local economy..."
- **Hướng dẫn:** Đề bài cần tìm một từ đi với "tight... with the local economy" (chặt chẽ với nền kinh tế địa phương). Audio dùng từ "strong" (mạnh mẽ) thay cho "tight", và chỉ ra đó là một mối quan hệ ("relationship").

Câu 34: methods

- **Trích đoạn:** "...the most common example for teachers using technology in education is the usage of computers in their **methods** of incorporating computers into teaching."
- **Hướng dẫn:** Đề bài nhắc đến việc máy tính thường được dùng để phát triển cái gì đó trong giảng dạy ("teaching..."). Audio đề cập đến ví dụ phổ biến nhất là việc sử dụng máy tính trong các phương pháp ("methods") đưa công nghệ vào việc dạy học.

Câu 35: confidence

- **Trích đoạn:** "...gives them a chance to showcase their strength and build up their **confidence**."
- **Hướng dẫn:** Đề bài nói công nghệ mới xây dựng/tăng cường ("builds up greater...") cái gì cho sinh viên. Audio chỉ ra rằng nền tảng này cho họ cơ hội thể hiện thế mạnh và xây dựng sự tự tin ("confidence").

Câu 36: flexible

- **Trích đoạn:** "Compared with the traditional platform, it is more **flexible**."
- **Hướng dẫn:** Đề bài so sánh với cách dạy truyền thống ("traditional teaching"), cách mới thì ra sao. Audio nói y hệt là so với nền tảng truyền thống ("traditional platform"), nó linh hoạt hơn ("flexible").

Câu 37: content

- **Trích đoạn:** "...so there is no need to worry about the quality of the **content**..."
- **Hướng dẫn:** Đề bài nói cách thức này cung cấp cho sinh viên một thứ gì đó chất lượng ("quality..."). Audio khẳng định rằng không cần phải lo lắng về chất lượng ("quality") của nội dung ("content") vì tất cả đều là tác phẩm gốc.

Câu 38: problems

- **Trích đoạn:** "This is a perfect example that can offer some hope of reducing **problems**."
- **Hướng dẫn:** Đề bài nói nó được xem là giải pháp mới cho những cái gì đó mới ("solution to new..."). Audio diễn đạt bằng việc đây là một ví dụ hoàn hảo mang lại hy vọng giảm

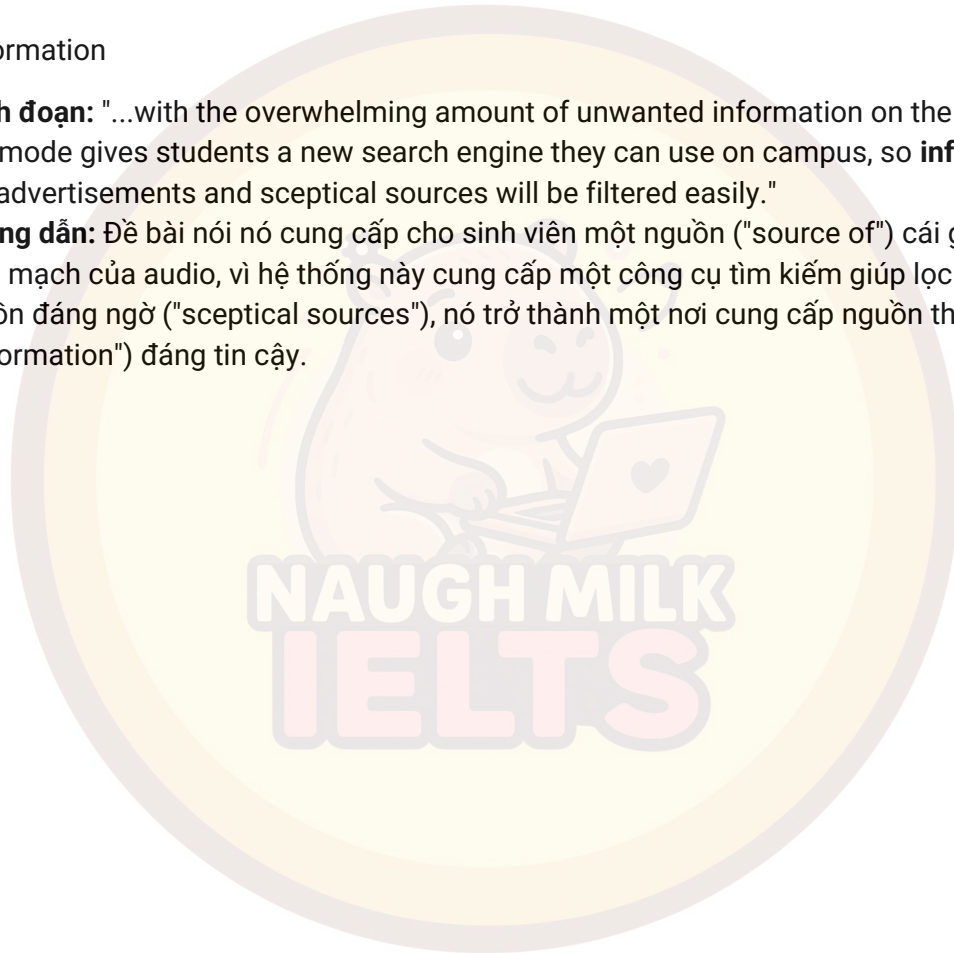

thiếu các vấn đề ("reducing problems" mang nét nghĩa tương đương với việc mang tới giải pháp - "solution"). Từ cần điền là "problems".

Câu 39: time

- **Trích đoạn:** "Apart from that, students can arrange their daily activities and improve their **time** management skills..."
- **Hướng dẫn:** Đề bài ghi hệ thống này giúp nuôi dưỡng/phát triển ("nurtures") kỹ năng quản lý ("management skills") cái gì. Audio cho biết sinh viên có thể cải thiện ("improve" = "nurtures") kỹ năng quản lý thời gian ("time").

Câu 40: information

- **Trích đoạn:** "...with the overwhelming amount of unwanted information on the Internet, this mode gives students a new search engine they can use on campus, so **information** like advertisements and sceptical sources will be filtered easily."
- **Hướng dẫn:** Đề bài nói nó cung cấp cho sinh viên một nguồn ("source of") cái gì đó. Dựa theo mạch của audio, vì hệ thống này cung cấp một công cụ tìm kiếm giúp lọc bỏ các nguồn đáng ngờ ("sceptical sources"), nó trở thành một nơi cung cấp nguồn thông tin ("information") đáng tin cậy.

NAUGH MILK
IELTS

TRANSCRIPT TEST 14
PART 1

[Speaker 1] [0:00 → 0:05]

The audio and test copyright belong to the Newark Milk IELTS website.

[Speaker 2] [0:05 → 0:47]

IELTS listening. You will hear a number of different recordings, and you will have to answer questions on what you hear. There will be time for you to read the instructions and questions, and you will have a chance to check your work. All the recordings will be played once only. The test is in four parts. Write all your answers in the listening question booklet. At the end of the test, you will be given ten minutes to transfer your answers to an answer sheet. Now turn to part one on page two of your question booklet.

[Speaker 3] [0:47 → 1:05]

Section one. You will hear a telephone conversation between a man who works for a library service and a woman who wants to join a library. First, you have some time to look at questions one to five on page two.

[Speaker 3] [1:30 → 1:40]

You will see that there is an example that has been done for you. On this occasion only, the conversation relating to this will be played first.

[Speaker 4] [1:43 → 1:45]

Good morning. Library services.

[Speaker 5] [1:45 → 1:55]

Oh, good morning. My family and I have recently moved to the area, and we'd like to find where our nearest library is. We don't have a car. Right.

[Speaker 4] [1:55 → 2:02]

So whereabouts are you? In Perthon, in the West. Fine. So I'll just get the details on screen for you.

[Speaker 3] [2:05 → 2:28]

The woman is asking about libraries in the West of the area, so West has been written in the space. Now we shall begin. You should answer the questions as you listen because you will not hear the recording a second time. Listen carefully and answer questions one to five.

[Speaker 4] [2:31 → 2:33]

Good morning. Library services.

[Speaker 5] [2:33 → 2:46]

Oh, good morning. My family and I have recently moved to the area, and we'd like to find where our nearest library is. We don't have a car. Right. So whereabouts are you? In Persian, in the West.

[Speaker 4] [2:46 → 2:58]

Fine. So I'll just get the details on screen for you. Okay. Your nearest one is the Minack Library. Minack? Yes. In Skellen Street.

[Speaker 5] [2:58 → 3:01]

Can you spell that? It's

[Speaker 4] [3:01 → 3:15]

S K E L L A R N Street. Got that. It's very easy to find because it's beside a park. Oh, I think I know that area.

[Speaker 5] [3:15 → 3:25]

There's a sports center near there, isn't there? I don't know of one. Oh, I'm probably mistaken. Anyway, it's probably a bit far for us to walk from home.

[Speaker 4] [3:25 → 3:33]

Are there any buses? Yes. It's well served by public transport. There's a stop about five minutes walk away. Oh, right.

[Speaker 5] [3:33 → 3:39]

And when does the library open? We'll most often want to come at the weekend.

[Speaker 4] [3:39 → 3:41]

I'm afraid it's not open on Sunday.

[Speaker 5] [3:41 → 3:42]

Saturday?

[Speaker 4] [3:43 → 3:48]

Opens at 09:00, closes at 04:30. We shut at five on weekdays.

[Speaker 5] [3:48 → 3:59]

That's fine. Now I've got two kids, 14 and nine, and I wondered whether you have any special activities for them. In our last place, we had an art club.

[Speaker 4] [3:59 → 4:05]

Well, the library does run a drama club, but that would only be suitable for your younger child.

[Speaker 5] [4:05 → 4:13]

It's open for five to 13 year olds. But pity it's not open to both of them. Have you anything they could both go to?

[Speaker 4] [4:13 → 4:23]

Well, there's no reading club that would suit them both. Oh, but there's a singing club that's held every second Saturday afternoon for children of all ages up to 16.

[Speaker 5] [4:23 → 4:24]

Excellent.

[Speaker 3] [4:28 → 4:36]

Before you hear the rest of the conversation, you have some time to look at questions six to 10 on page two.

[Speaker 3] [5:01 → 5:04]

Now listen and answer questions six to 10.

[Speaker 5] [5:08 → 5:14]

Now because we're new to the area, I'm also wanting to get involved in local activities.

[Speaker 4] [5:14 → 5:28]

Well, Minak does some sessions for adults as well. There's a book of the month club. That's good. And I know that about once every twelve months, they have a session where you can meet artists, you know, from the local area.

[Speaker 5] [5:28 → 5:38]

How interesting. Well, that sounds like a full program. Now while I'm on the phone, can I check what the facilities are? Can you take out CDs?

[Speaker 4] [5:39 → 6:25]

Not CDs, I'm afraid, but films, yes. Right. I'll make a note of that. Anything else you need to know? Oh, yes. We have 10 computers, and we also stock several magazines, including business, health care and hobbies. Same as my last place. And there is a new drop off facility where you can post any item through the door if it's after hours. All you have to do is attach a note to it with the number on your card clearly written. That sounds good. And we do have a small shop on the premises where we sell postcards. We don't have many, but it's a popular service. Oh, that's a good idea. They're very popular. We also have an impressive range of maps of the surrounding area for sale. Well, it sounds like you've got

[Speaker 3] [6:28 → 6:34]

That is the end of section one. You now have half a minute to check your answers.

PART 2

[Speaker 1] [0:00 → 0:15]

Section two. You will hear the organizer of a family camp talking to a group of people who will be staying at a campsite. First, you have some time to look at questions 11 to 16 on page three.

[Speaker 1] [0:46 → 0:50]

Now listen carefully and answer questions 11 to 16.

[Speaker 2] [0:53 → 3:10]

Hello, everyone, and welcome to this orientation session prior to our camp next week. Thank you for coming along to find out what you and your children will be doing on this year's camp. To start off with, let's tell you a bit about the campsite itself so that you'll be able to find your way around once you get there. Firstly, we'll be arriving by bus into the car park, which if you look at the plan you have in front of you, you'll see at the top of the picture on the left hand side. Now if you cross the road from the car park, the first building you'll come to is the toilet block. It's been recently upgraded, so it's very nice and clean in there now with plenty of facilities. And built onto that, so this is across the road from the community hall, is the new shower block. The hot water does run out occasionally, but usually there's enough to cope with a group your size. If you now move to the bottom left of your map, among the pine trees, there is a special flat site set up for pitching tents with power points and outdoor taps for water. Now let's go back and move along the top of your map. There's another area of Pine Forest, and then over on the far right hand side, there's a block of small cabins. Note that this is different from the main accommodation block, which doesn't appear on this map, but is further over again to the right. Now let's look down from there over the road, so we're moving clockwise round your map. Okay? In this next block beside the flower beds, we have a lovely place for barbecues where you can cook in the open air. What else to tell you about? Below the flower bed and across Lakeside Drive, you'll see a trail for mountain biking, which is always a popular activity. Moving on now. In the middle of the campsite, you'll see the lake where you can canoe, and above that, again, the community hall. So that completes your introduction to the campsite. I hope you found that useful.

[Speaker 1] [3:14 → 3:21]

Before you hear the rest of the talk, you have some time to look at questions 17 to 20 on page four.

[Speaker 1] [3:42 → 3:46]

Now listen and answer questions 17 to 20.

[Speaker 2] [3:49 → 5:13]

Now let's think about what you need to bring with you. I'm sure you're all wondering what you need to pack. The lake is a bit cold for swimming at this time of year, so you can leave your togs out of the suitcase. While we're on the subject of weather too, usually, I recommend that campers bring sunblock with them. But I guess now that we're into April, that too can be left behind. Let me think. Some campers like a torch, but, actually, the days are still so long that it's light outside till quite late, and the blocks all have outside lighting now. So I'd say that a pair of earplugs are more useful, as in my experience, a lot of talking goes on after lights out. But in April, if it's wet, it can get muddy around the campsite, so to bring boots isn't a bad idea. Finally, can you all please prepare something for the final night concert? Bring your musical instruments or whatever else

you need. You can't have a camp without a good sing along. That's our favorite activity. Maybe you could recite a poem, act out a skit or charades for us if you're brave enough to try that, or failing that, perhaps you can tell a joke or a funny story. But, actually, people much prefer to see some good dancing. I'll look forward to seeing you all perform next week.

[Speaker 1] [5:17 → 5:22]

That is the end of section two. You now have half a minute to check your answers.

PART 3

[Speaker 1] [0:01 → 0:15]

Section three. You will hear two music students discussing the results of a survey they have done. First, you have some time to look at questions 21 to 26 on page five.

[Speaker 1] [0:46 → 0:50]

Now listen carefully and answer questions 21 to 26.

[Speaker 2] [0:53 → 1:00]

So, Gareth, we need to organize the findings from our survey on music students for the final presentation.

[Speaker 3] [1:00 → 1:15]

Yes, Lorna. I think we've got some very interesting results. Obviously, we need to start by saying that we interviewed all the third year students doing a music degree and state the objective of our research project, that is, to find out about their attitudes to performing.

[Speaker 2] [1:16 → 1:33]

And then we should talk about the students' musical backgrounds before coming to university. The most important points to make are that although most people have actually composed music during the course, that wasn't the case when they arrived. And the other thing they had in common was the piano.

[Speaker 3] [1:33 → 1:50]

Well, they'd had access to a piano at some point, but not all had studied it formally. I thought the most interesting finding was that before coming here, almost everyone was involved in a chamber orchestra or band or singing in a choir and playing in front of live audiences.

[Speaker 2] [1:50 → 1:58]

But varying enormously in size. Some had only played in tiny venues. I think it's worth saying that. Okay.

[Speaker 3] [1:58 → 2:10]

And as you might expect from people wanting to study music, they all had a degree of proficiency in at least two instruments. But in most cases, one of the instruments was dominant. Right.

[Speaker 2] [2:11 → 2:30]

We need to talk about attitudes to music practice. The most striking thing here is that even students who you'd expect to practice for hours every day until they get it perfect say it's being terrified of failing that really makes them practice. I know I'm the same. Me too. It's

[Speaker 3] [2:30 → 2:39]

interesting what was said about practicing alone. Some people preferred that because they could focus more on their weak points. But that wasn't a majority view.

[Speaker 2] [2:39 → 2:46]

What most of them agree on is that there's nothing more rewarding than mastering something that's really hard to learn. That's right.

[Speaker 3] [2:47 → 2:53]

Okay. After that, we should talk a bit about the pieces that students select for assessed performances.

[Speaker 2] [2:53 → 3:07]

There wasn't quite so much consensus on this, was there? A few people prefer to do pieces which are relatively unknown, while others choose the ones they think will show off their technical ability, but they were in the minority.

[Speaker 3] [3:07 → 3:19]

I think the first thing to say is that a high percentage said they would always try to learn their pieces by heart because it's too easy to get lost if you're trying to read and play when you're nervous. Okay.

[Speaker 2] [3:20 → 3:28]

And quite a lot of them said it helps to listen to other people playing your chosen piece, preferably recordings, but even just other students.

[Speaker 1] [3:32 → 3:40]

Before you hear the rest of the discussion, you have some time to look at questions 27 to 30 on page six.

[Speaker 1] [4:00 → 4:04]

Now listen and answer questions 27 to 30.

[Speaker 2] [4:07 → 4:21]

So finally, we need to look at the findings for students' attitudes to performing. We should point out that this includes informal and formal public performances as well as assessed ones. Yes. That's important.

[Speaker 3] [4:22 → 4:26]

I expected to find that performing solo would make students very nervous,

[Speaker 2] [4:26 → 4:34]

but in fact, that isn't the case. They do find it hugely challenging to start with, but they appreciate the challenge and find it stimulating.

[Speaker 3] [4:35 → 5:00]

Right. I was surprised by what students said about deciding which pieces to perform. I thought they'd all say this was easy. For me, it's always been quite straightforward. Which pieces do I like best, and which pieces can I play well? And my repertoire is quite limited anyway. But the most commonly cited answer was that it took them ages to make their minds up. I suppose it's because there are so many factors involved.

[Speaker 2] [5:00 → 5:35]

You need to consider your audience, the venue, the time available to learn the piece, especially if it's complicated. You need to think about all these things, and you can't do that in a hurry. That's true. Then there's performing with musicians from a different genre, like a classical musician playing with a jazz group. That can really be fun. But most of the music students had never even considered it. Right. For performing with musicians who play the same instrument, almost everyone put the same thing. Yes. They all said it was incredibly helpful

[Speaker 3] [5:35 → 5:41]

and not at all intimidating, which says a lot for the department's ethos. Yes. That's a good point.

[Speaker 2] [5:41 → 5:44]

Okay. What I think we should sort out now

[Speaker 1] [5:48 → 5:53]

That is the end of section three. You now have half a minute to check your answers.

[Speaker 1] [6:23 → 6:26]

Now turn to section four on page seven.

PART 4

[Speaker 1] [0:02 → 0:17]

Section four. You will hear a lecturer giving a talk to some engineering students about ethics in engineering. First, you have some time to look at questions 31 to 40 on page seven.

[Speaker 1] [1:07 → 1:12]

Now listen carefully and answer questions 31 to 40.

[Speaker 2] [1:15 → 4:24]

Good afternoon. Today, we're starting a series of lectures on ethics in engineering. That is engineering principles relating to right and wrong conduct and the sorts of moral responsibilities that you will have to uphold in your professional lives. I'm going to start by giving you a brief outline of the history of ethics in engineering. It was, of course, only in the nineteenth century that engineering really emerged as a profession. Initially, ethical issues were considered to be a personal matter, something to be decided in accordance with one's own principles and values. However, things gradually changed as the profession grew and as engineering projects became larger and more complex. A need began to be felt for a more codified set of principles that all engineers would agree to follow. Unfortunately, it took three major disasters to bring about this change in attitude. All three of these involved the collapse of bridges. The first, known as the Ashtabula River Railroad disaster, happened in 1876 in The USA, and we now think it was probably caused by metal fatigue. Then in 1879, there was a second disaster, this time in Scotland. This occurred because engineers had failed to correctly calculate the effects that wind would have on the structure. The third collapse occurred in nineteen o seven in Canada. This was also due to an engineering design problem. The weight of the structure was so great that it could not support itself, and it collapsed. Public outcry over disasters such as these eventually led to the establishment of professional societies for engineers in most industrializing societies. Another different type of disaster also had an impact on the development of professional engineering organizations, and I'd like to talk about this in a little more detail. This incident, which happened early in the twentieth century, is known as the Boston molasses disaster. At the time, molasses was used rather than sugar as the principal sweetener in The USA. It was also used in the manufacture of a number of other important products. One company in the city of Boston had a large amount of molasses waiting to be transferred to another factory. The molasses, more than 8,000,000 liters of thick sticky liquid, was stored in a tank. Suddenly, this collapsed, unleashing a wave of molasses up to five meters high. Nearby buildings were swept off their foundations and crashed to the ground. The wave also swept away a considerable stretch of railway track. Many streets round the factory were covered with a thick layer of sticky brown molasses.

[Speaker 2] [4:30 → 6:05]

Local residents were furious as they felt that the company was to blame. They banded together and succeeded in bringing about a trial, charging the company with negligence. After three years, the company was found responsible for the accident and required to pay out in damages the equivalent of 6 or \$7,000,000 in today's money. Even today, no one is absolutely sure about the immediate causes of the accident. However, it is certainly clear that not enough safety tests were carried out. Had these been done in accordance with the standards now applicable, then the accident would almost certainly have been prevented. It seems that the collapse was probably

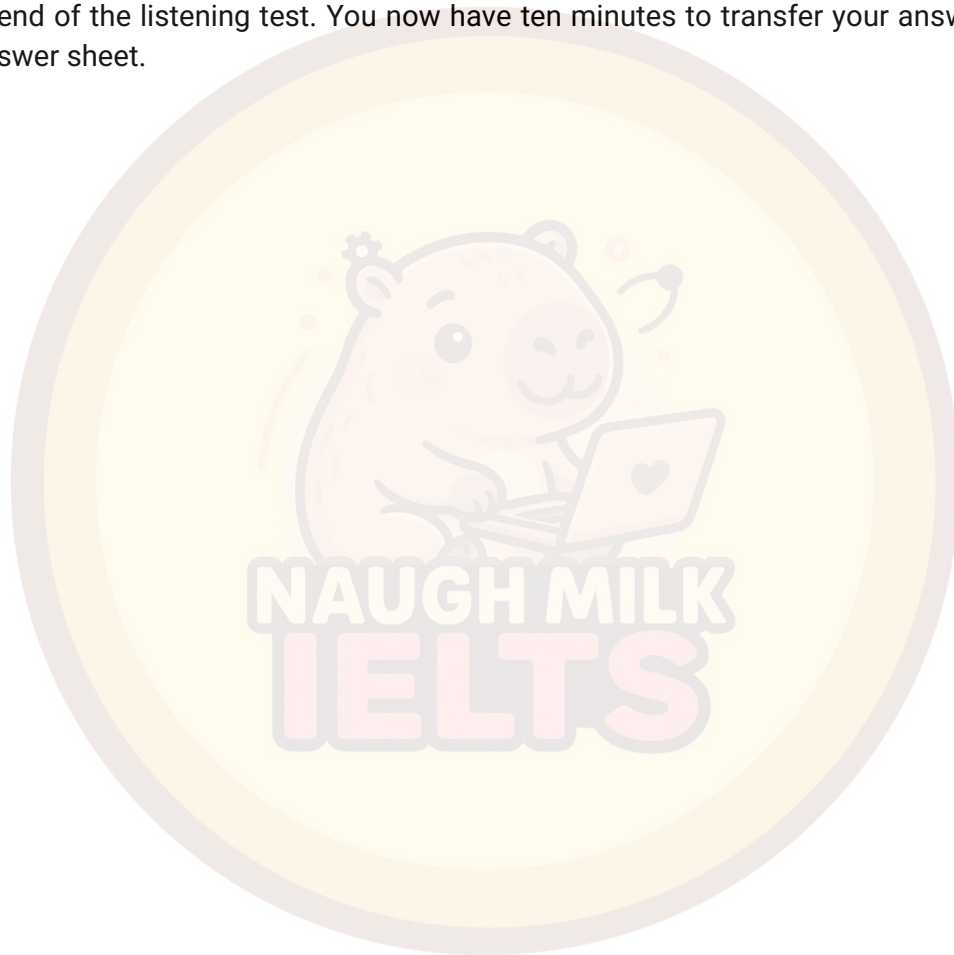

brought about by fermentation of the molasses, which led to an increase in pressure. This increase probably exerted too much force against a fatigue crack or some other weakness. However, this was one of the main incidents which led to increased legislation in the nineteen twenties to regulate engineers and the engineering profession. It is the reason why we can now only operate if we have gained a license. This requires us always to be conscientious about doing everything necessary to avoid disasters, however time consuming or expensive this may sometimes seem. Let's move on now to another

[Speaker 1] [6:08 → 6:14]

That is the end of section four. You now have half a minute to check your answers.

[Speaker 1] [6:44 → 6:52]

That is the end of the listening test. You now have ten minutes to transfer your answers to the listening answer sheet.

Câu 1: Skellarn

- Trích đoạn: "Can you spell that? It's **S K E L L A R N** Street."
- Hướng dẫn: Người quản lý đọc tên đường là Skellen, sau đó đánh vần lại từng chữ cái. Đây là dạng câu hỏi đánh vần cơ bản, bạn chỉ cần chú ý lắng nghe và chép lại chính xác.

Câu 2: park

- Trích đoạn: "It's very easy to find because it's beside a **park**."
- Hướng dẫn: Người tư vấn chỉ đường cho biết thư viện rất dễ tìm vì nó nằm ngay bên cạnh một công viên (park). Từ "beside" trong audio đồng nghĩa với "next to" trong đề bài. Audio có nhắc đến "sports center" (trung tâm thể thao) nhưng đó là do người phụ nữ nhầm lẫn, bạn đừng để bị lừa nhé.

Câu 3: 4.30 / 4:30

- Trích đoạn: "Saturday? Opens at 09:00, closes at **04:30**."
- Hướng dẫn: Khách hàng hỏi giờ mở cửa vào thứ Bảy (Saturday). Người quản lý trả lời thư viện đóng cửa lúc 4:30 ("closes" mang ý nghĩa tương đương "open until"). Audio có bẫy giờ đóng cửa lúc 5 giờ ("shut at five"), nhưng đó là vào các ngày trong tuần (weekdays). Chữ "p.m." đã có sẵn trên đề bài nên bạn chỉ cần điền số.

Câu 4: drama

- Trích đoạn: "Well, the library does run a **drama** club... It's open for five to 13 year olds."
- Hướng dẫn: Người mẹ hỏi về các hoạt động cho trẻ em và nhắc đến câu lạc bộ mỹ thuật (art club) ở nơi ở cũ. Người quản lý cho biết thư viện hiện có một câu lạc bộ kịch (drama club) dành cho trẻ từ 5 đến 13 tuổi.

Câu 5: singing

- Trích đoạn: "Oh, but there's a **singing** club that's held every second Saturday afternoon..."
- Hướng dẫn: Quản lý giới thiệu thêm một câu lạc bộ ca hát (singing club) được tổ chức vào mỗi chiều thứ Bảy cách tuần. Cụm "every second Saturday" trong audio đồng nghĩa với "every other Saturday" trong đề bài.

Câu 6: artists

- Trích đoạn: "...about once every twelve months, they have a session where you can meet **artists**, you know, from the local area."
- Hướng dẫn: Chuyển sang hoạt động cho người lớn, quản lý nhắc đến một buổi giao lưu được tổ chức khoảng 12 tháng một lần ("once every twelve months" tương đương "about one a year"), nơi người tham gia có thể gặp gỡ các nghệ sĩ (artists) địa phương.

Câu 7: films

- Trích đoạn: "Can you take out CDs? Not CDs, I'm afraid, but **films**, yes."
- Hướng dẫn: Người phụ nữ hỏi có thể mượn đĩa CD không (cụm "take out" dùng trong ngữ cảnh thư viện đồng nghĩa với "borrow"). Quản lý trả lời là không có CD, nhưng có thể mượn phim (films).

Câu 8: magazines

- Trích đoạn: "...and we also stock several **magazines**, including business, health care and hobbies."
- Hướng dẫn: Quản lý cung cấp thêm thông tin rằng thư viện có dự trữ sẵn vài loại tạp chí (magazines) khác nhau. Cụm "stock several" mang ý nghĩa tương đương với "Various... are available".

Câu 9: number

- Trích đoạn: "All you have to do is attach a note to it with the **number** on your card clearly written."
- Hướng dẫn: Để trả sách ngoài giờ qua hộp thư (drop off facility), người mượn chỉ cần đính kèm một tờ giấy ghi rõ mã số (number) trên thẻ của mình.

Câu 10: maps

- Trích đoạn: "We also have an impressive range of **maps** of the surrounding area for sale."
- Hướng dẫn: Tại cửa hàng của thư viện, ngoài bưu thiếp (postcards), họ còn bán rất nhiều các loại bản đồ (maps) của khu vực xung quanh ("an impressive range" đồng nghĩa với "wide range" trong đề bài).

Câu 11

- **Đáp án: A**
- **Hướng dẫn:** Từ bãi đậu xe (car park) ở góc trên bên trái, băng qua đường, tòa nhà đầu tiên bạn gặp là khu nhà vệ sinh. Vị trí A khớp với miêu tả này vì nó nằm ngay đối diện bãi xe qua con đường.
- **Trích đoạn:** "...cross the road from the car park, the **first building** you'll come to is the **toilet block**."

Câu 12

- **Đáp án: C**

- **Hướng dẫn:** Khu nhà tắm được xây liền với khu nhà vệ sinh (vị trí A) và nằm đối diện với hội trường cộng đồng (community hall) qua con đường. Vị trí C đáp ứng hoàn hảo hai dữ kiện này.
- **Trích đoạn:** "And **built onto that**, so this is **across the road from the community hall**, is the new **shower block**."

Câu 13

- **Đáp án:** G
- **Hướng dẫn:** Di chuyển xuống góc dưới cùng bên trái của bản đồ, nằm giữa những cây thông (pine trees) là một khu đất bằng phẳng dành để dựng lều. Vị trí G nằm chính xác tại khu vực này.
- **Trích đoạn:** "If you now move to the **bottom left** of your map, **among the pine trees**, there is a special flat site set up for **pitching tents**..."

Câu 14

- **Đáp án:** D
- **Hướng dẫn:** Đi dọc theo mép trên của bản đồ, đi qua một khu rừng thông nữa, bạn sẽ thấy một dãy cabin nhỏ nằm ở tận cùng bên phải. Vị trí D nằm ở góc trên cùng bên phải.
- **Trích đoạn:** "...move along the **top of your map**. There's another area of Pine Forest, and then over on the **far right hand side**, there's a block of small **cabins**."

Câu 15

- **Đáp án:** F
- **Hướng dẫn:** Từ khu cabin (D), di chuyển theo chiều kim đồng hồ xuống phía dưới qua một con đường. Tại khu vực tiếp theo nằm bên cạnh các luống hoa (các hình tròn màu cam), đó là khu vực nướng BBQ. Vị trí F nằm ngay cạnh các luống hoa này.
- **Trích đoạn:** "...let's **look down from there over the road**, so we're moving clockwise... In this next block **beside the flower beds**, we have a lovely place for **barbecues**..."

Câu 16

- **Đáp án:** H
- **Hướng dẫn:** Nằm bên dưới các luống hoa và băng qua đường Lakeside Drive, bạn sẽ thấy con đường mòn dành cho xe đạp địa hình. Vị trí H nằm ngay dưới con đường Lakeside Drive.
- **Trích đoạn:** "**Below the flower bed and across Lakeside Drive**, you'll see a **trail for mountain biking**..."

Câu 17, 18

- **Đáp án:** A, E (Lưu ý: Có thể điền đảo lộn thứ tự các đáp án này)

- **Hướng dẫn:** Người nói khuyên nên mang theo nút bịt tai (earplugs) vì ban đêm thường khá ồn ào do nhiều người nói chuyện. Ngoài ra, mang theo ủng (boots) cũng là ý hay vì khu cắm trại có thể nhiều bùn lầy nếu trời mưa. Đồ bơi, kem chống nắng hay đèn pin đều được nhắc đến nhưng bị bác bỏ vì không cần thiết vào thời điểm này.
- **Trích đoạn:** * (A): "...I'd say that a pair of **earplugs are more useful**, as in my experience, a lot of talking goes on after lights out."
 - (E): "...it can get muddy around the campsite, so to bring **boots isn't a bad idea**."

Câu 19, 20

- **Đáp án:** B, D (*Lưu ý: Có thể điền đảo lộn thứ tự các đáp án này*)
- **Hướng dẫn:** Người tổ chức nhắc đến việc hát hò cùng nhau (sing along) là hoạt động được yêu thích nhất (favorite activity). Mặc dù có gợi ý thêm về việc đọc thơ, diễn kịch hay kể chuyện cười, nhưng người nói khẳng định mọi người thực sự thích xem nhảy múa (dancing) hơn cả.
- **Trích đoạn:** * (D): "You can't have a camp without a good **sing along**. That's our **favorite activity**."
 - (B): "...But, actually, people **much prefer** to see some good **dancing**."

Câu 21 & 22: C, D (hoặc D, C)

- **Trích đoạn:** "...almost everyone was involved in a chamber orchestra or band or singing in a choir and **playing in front of live audiences**." | "...they all had a degree of proficiency in **at least two instruments**."
- **Hướng dẫn:** Gareth chỉ ra rằng điểm thú vị nhất là hầu hết mọi người đều đã từng tham gia ban nhạc/dàn hợp xướng và **biểu diễn trước khán giả trực tiếp** ("playing in front of live audiences"), tương ứng với đáp án **D** (đã từng biểu diễn trước công chúng). Điểm chung thứ hai là họ đều thành thạo **ít nhất hai loại nhạc cụ** ("at least two instruments"), khớp với đáp án **C** (có thể chơi nhiều hơn một loại nhạc cụ). Việc học piano chính thức (bác bỏ E) và sáng tác nhạc (bác bỏ A) đều không phải là đặc điểm chung trước khi nhập học.

Câu 23 & 24: C, E (hoặc E, C)

- **Trích đoạn:** "...say it's being **terrified of failing** that really makes them practice." | "What most of them agree on is that there's nothing more rewarding than **mastering something that's really hard to learn**."
- **Hướng dẫn:** Lorna chia sẻ rằng điều đáng chú ý là chính **nỗi sợ thất bại** ("terrified of failing") mới là thứ thúc đẩy họ luyện tập, khớp với đáp án **C** (được thúc đẩy bởi nỗi sợ hãi). Bên cạnh đó, đa số đồng tình rằng cảm giác thỏa mãn nhất là **chinh phục được một bài nhạc rất khó học** ("mastering something that's really hard to learn"), hoàn toàn tương

ứng với đáp án **E** (thích thú với thử thách của một bản nhạc khó). Việc thích tập một mình (đáp án A) hay tập luyện mỗi ngày (đáp án B) không phải là ý kiến của số đông.

Câu 25 & 26: A, C (hoặc C, A)

- **Trích đoạn:** "...a high percentage said they would always try to **learn their pieces by heart...**" | "And quite a lot of them said it **helps to listen to other people playing your chosen piece...**"
- **Hướng dẫn:** Gareth cho biết tỷ lệ lớn sinh viên luôn cố gắng **học thuộc lòng bản nhạc của mình** ("learn their pieces by heart") để tránh bị lạc nhịp khi lo lắng. Việc học thuộc lòng đồng nghĩa với việc **chơi nhạc từ trí nhớ** ("play pieces from memory" - đáp án **C**). Ngoài ra, rất nhiều sinh viên nói rằng việc **nghe người khác chơi bản nhạc mình đã chọn** ("listen to other people playing your chosen piece") rất có ích, khớp với đáp án **A**. Những người chọn bản nhạc ít người biết hay chọn nhạc để phô diễn kỹ thuật chỉ chiếm thiểu số.

Câu 27: B

- **Trích đoạn:** "They do find it **hugely challenging** to start with, but they **appreciate the challenge** and find it stimulating."
- **Hướng dẫn:** Mặc dù ban đầu việc biểu diễn solo (Performing solo) được cho là **vô cùng thử thách/khó khăn** ("hugely challenging"), nhưng các sinh viên lại **trân trọng thử thách đó** và thấy nó thú vị/kích thích ("appreciate the challenge and find it stimulating"). Điều này hoàn toàn khớp với đáp án **B** (Khó nhưng thú vị - difficult but enjoyable).

Câu 28: E

- **Trích đoạn:** "...But the most commonly cited answer was that it **took them ages** to make their minds up." | "...and you **can't do that in a hurry.**"
- **Hướng dẫn:** Về việc quyết định chọn bản nhạc nào để biểu diễn, câu trả lời phổ biến nhất là họ phải **mất rất nhiều thời gian** ("took them ages") để quyết định và **không thể làm vội vàng được** ("can't do that in a hurry"). Điều này tương ứng với đáp án **E** (Tốn nhiều thời gian - time consuming).

Câu 29: G

- **Trích đoạn:** "Then there's performing with musicians from a different genre... But **most of the music students had never even considered it.**"
- **Hướng dẫn:** Khi nhắc đến việc biểu diễn cùng các nhạc công ở thể loại khác (từ một nhánh âm nhạc khác), Lorna cho biết **hầu hết sinh viên âm nhạc thậm chí chưa bao giờ nghĩ đến điều đó** ("never even considered it"). Vì họ chưa bao giờ làm hoặc nghĩ đến, nên nó là việc **rất hiếm khi xảy ra** (happens infrequently - đáp án **G**).

Câu 30: A

- **Trích đoạn:** "For performing with musicians who play the same instrument... They all said it was **incredibly helpful**..."
- **Hướng dẫn:** Đối với việc biểu diễn cùng những người chơi chung một loại nhạc cụ, tất cả sinh viên đều cho rằng điều đó **vô cùng hữu ích** ("incredibly helpful"). "Helpful" (hữu ích) là từ đồng nghĩa hoàn hảo với "beneficial" (có lợi/bổ ích) trong đáp án **A**.

Câu 31: personal

- **Trích đoạn:** "Initially, ethical issues were considered to be a **personal** matter..."
- **Hướng dẫn:** Đề bài nói ban đầu ("At first") các kỹ sư xem đạo đức là một vấn đề ("issue") gì đó. Audio diễn đạt bằng việc các vấn đề đạo đức ban đầu ("Initially") được xem là một vấn đề cá nhân ("personal matter"). Từ cần điền là "personal".

Câu 32: bridges

- **Trích đoạn:** "All three of these involved the collapse of **bridges**."
- **Hướng dẫn:** Câu này khá trực tiếp. Đề bài đề cập đến ba thảm họa liên quan đến sự sụp đổ ("collapse") của cái gì. Audio nói y hệt rằng cả ba thảm họa này đều liên quan đến sự sụp đổ của những cây cầu ("bridges").

Câu 33: wind

- **Trích đoạn:** "This occurred because engineers had failed to correctly calculate the effects that **wind** would have on the structure."
- **Hướng dẫn:** Đề bài chỉ ra rằng sự tác động ("impact") của thứ gì đó lên cấu trúc đã bị tính toán sai ("miscalculated"). Audio dùng cụm "failed to correctly calculate" (không tính toán chính xác) thay cho "miscalculated", và "effects" thay cho "impact". Nguyên nhân là do ảnh hưởng của gió ("wind").

Câu 34: weight

- **Trích đoạn:** "The **weight** of the structure was so great that it could not support itself..."
- **Hướng dẫn:** Đề bài ghi cấu trúc không thể nâng đỡ chính cái gì của nó ("could not support its own..."). Audio diễn đạt là trọng lượng ("weight") của cấu trúc quá lớn đến mức nó không thể tự nâng đỡ ("support itself"). Từ cần điền là "weight".

Câu 35: sweetener

- **Trích đoạn:** "At the time, molasses was used rather than sugar as the principal **sweetener** in The USA."
- **Hướng dẫn:** Đề bài nói vào thời điểm đó mật đường là cái gì đó chính ("main...") được sử dụng ở Mỹ. Trong audio, từ "main" được thay bằng "principal" (chính/chủ yếu), và mật đường được dùng như chất làm ngọt ("sweetener") chủ yếu.

Câu 36: tank

- **Trích đoạn:** "The molasses, more than 8,000,000 liters of thick sticky liquid, was stored in a **tank**. Suddenly, this collapsed, unleashing a wave of molasses..."
- **Hướng dẫn:** Đề bài nhắc đến sự sụp đổ của một thứ gì đó ("collapse of a...") đã giải phóng 8 triệu lít mật đường. Audio cho biết hơn 8 triệu lít chất lỏng này được lưu trữ trong một cái bồn/bể chứa ("tank"). Đột nhiên cái bể này sụp đổ ("this collapsed") và giải phóng ("unleashing" = "released") làn sóng mật đường.

Câu 37: trial

- **Trích đoạn:** "They banded together and succeeded in bringing about a **trial**, charging the company with negligence."
- **Hướng dẫn:** Đề bài nói cư dân địa phương khẳng định yêu cầu/đòi hỏi ("insisted on") một cái gì đó đối với công ty mật đường. Audio dùng cụm "succeeded in bringing about" (thành công trong việc mang lại/tạo ra) để diễn đạt việc họ đã cùng nhau đấu tranh và mở được một phiên tòa/vụ kiện ("trial") buộc tội công ty.

Câu 38: safety

- **Trích đoạn:** "However, it is certainly clear that not enough **safety** tests were carried out."
- **Hướng dẫn:** Đề bài đề cập đến nguyên nhân có thể là do việc kiểm tra ("checks") cái gì đó không đầy đủ ("Insufficient"). Audio dùng cụm "not enough" tương đương "insufficient" và "tests" thay cho "checks". Thứ bị thiếu hụt là các cuộc kiểm tra an toàn ("safety").

Câu 39: pressure

- **Trích đoạn:** "It seems that the collapse was probably brought about by fermentation of the molasses, which led to an increase in **pressure**."
- **Hướng dẫn:** Đề bài nói quá trình lên men ("fermentation") đã làm tăng ("raised") cái gì lên mức nguy hiểm. Audio cho biết sự lên men của mật đường đã dẫn đến sự gia tăng ("led to an increase in" = "raised") áp suất ("pressure").

Câu 40: license (hoặc licence)

- **Trích đoạn:** "It is the reason why we can now only operate if we have gained a **license**."
- **Hướng dẫn:** Đề bài kết luận hiện tại các kỹ sư bắt buộc ("obligatory") phải có một cái gì đó. Audio giải thích rằng ngày nay chúng ta chỉ có thể hành nghề nếu đã lấy được ("gained" = "have") một giấy phép ("license"). Cụm "can now only operate if" phản ánh tính bắt buộc ("obligatory").

ĐÁP ÁN TEST 15

Part 1: Job Details	Part 2: Student Accommodation	Part 3: The later life of Thor Heyerdahl	Part 4: Plastics exhibition
1 Station	11 A	21 B	31 cotton
2 Sunday / Sundays	12 A	22 C	32 milk
3 lifting	13 B	23 B	33 silk
4 watering	14 B	24 E	34 laboratory
5 communication	15 D	25 A	35 chemist
6 maths / math	16 I	26 C	36 hard
7 5 / 5.00 / 5 p.m / 5 pm	17 J	27 C	37 gases
8 Rapana	18 B	28 A	38 light
9 0213038874	19 C	29 B	39 pens

IELTS**

TRANSCRIPT TEST 15
PART 1

[Speaker 1] [0:00 → 0:05]

The audio and test copyright belong to the Naugh Milk IELTS website.

[Speaker 2] [0:05 → 0:10]

IELTS listening version k five zero zero two.

[Speaker 3] [0:11 → 0:52]

You will hear a number of different recordings, and you will have to answer questions on what you hear. There will be time for you to read the instructions and questions, and you will have a chance to check your work. All the recordings will be played once only. The test is in four sections. Write all your answers in the listening question booklet. At the end of the test, you will be given ten minutes to transfer your answers to an answer sheet. Now turn to section one on page two of your question booklet.

[Speaker 3] [0:57 → 1:15]

Section one. You will hear a telephone conversation between a man who is looking for a part time job for his son and the manager of a garden center. First, you have some time to look at questions one to six on page two.

[Speaker 3] [1:45 → 1:54]

You will see that there is an example that has been done for you. On this occasion only, the conversation relating to this will be played first.

[Speaker 4] [1:58 → 2:00]

Hello. Greenwell Garden Centers.

[Speaker 2] [2:00 → 2:19]

Oh, hello. I'm calling about the part time job you were advertising last week. Oh, you mean for the delivery driver? No. For a general assistant. My son's looking for a part time job, and I said I'd call you about it. I already picked up an application form from one of your staff.

[Speaker 3] [2:22 → 2:46]

The man is calling about a part time job for a general assistant, so assistant has been written in the space. Now we shall begin. You should answer the questions as you listen because you will not hear the recording a second time. Listen carefully and answer questions one to six.

[Speaker 4] [2:49 → 2:51]

Hello. Greenwell Garden Centers.

[Speaker 2] [2:52 → 3:11]

Oh, hello. I'm calling about the part time job you were advertising last week. Oh, you mean for the delivery driver? No. For a general assistant. My son's looking for a part time job, and I said I'd call you about it. I already picked up an application form from one of your staff. I see.

[Speaker 4] [3:11 → 3:26]

Well, we'll shortly have a position available in our new Market Road branch that's opening next month, or there's one available right now in our branch in Station Road, and that's where the actual job advert was for. I see.

[Speaker 2] [3:27 → 3:30]

It's definitely the current job I'm calling about. Right.

[Speaker 4] [3:31 → 3:48]

Now there were a couple of options regarding working hours. We're really looking for someone that could do both Monday and Wednesday afternoons, or the same hours on Thursday and Friday. What about Sunday? That'd work, provided he could do a full day. That wouldn't be a problem.

[Speaker 2] [3:49 → 3:54]

Great. And what would the job involve exactly?

[Speaker 4] [3:54 → 4:32]

Let me just look at the job description for that particular job. Well, looks like there'd be some working on the checkout, you know, taking payment for goods, and I suppose our general assistants also do rather a lot of lifting of some quite heavy items. So good physical strength is quite important for this position. There's some assisting with customer inquiries as well. But we don't expect new staff to have much knowledge about the plants themselves. That's what the more experienced staff are there for. Then, especially in the summer, the plants need a lot of watering.

[Speaker 2] [4:32 → 4:36]

I see. Well, I think you could manage all that. Good.

[Speaker 4] [4:36 → 5:03]

Now there are a few other qualifications and skills that the job calls for. The first one being communication skills are important. As you know, first impressions count for a lot. And the other thing we would be looking for in our applicants for this position is he should have some ability in maths, a basic level at least. Well, he did well in that subject at school,

[Speaker 2] [5:03 → 5:09]

and he's polite and sociable too. So, hopefully, he'll match your expectations.

[Speaker 4] [5:09 → 5:09]

Great.

[Speaker 3] [5:13 → 5:21]

Before you hear the rest of the conversation, you have some time to look at questions seven to 10 on page two.

[Speaker 3] [5:41 → 5:45]

Now listen and answer questions seven to 10.

[Speaker 2] [5:48 → 5:57]

So am I right in thinking he's still at high school? He's about to finish for the summer break, so he could come for an interview this week if that's convenient.

[Speaker 4] [5:57 → 6:01]

How about Wednesday, say about 10AM?

[Speaker 2] [6:01 → 6:08]

I'm afraid that's the morning of his last exam. Could we make it later instead, perhaps at 02:30?

[Speaker 4] [6:09 → 6:14]

Five would be better for us. Okay. That's fine. So his name is?

[Speaker 2] [6:14 → 6:16]

It's Liam Avery.

[Speaker 4] [6:16 → 6:52]

Okay. Got that. So Liam will be having the interview with me. My name's Maria Rapana, r a, p for Peter, a n a. On Tuesday, Liam needs to ring me on my direct line to confirm that he's coming, and that's zero two one three zero three eight eight seven four. Okay. Oh, just one more thing. I need to see Liam's passport at the interview just to see that he's eligible to work in this country. Sure. I'll tell him. Thanks for your time. Thanks for calling.

[Speaker 3] [6:55 → 7:01]

That is the end of section one. You now have half a minute to check your answers.

PART 2

[Speaker 1] [0:00 → 0:04]

Now turn to section two on page three.

[Speaker 1] [0:08 → 0:24]

Section two. You will hear an accommodation agent telling a student about different accommodation options. First, you have some time to look at questions 11 to 14 on page three.

[Speaker 1] [0:44 → 0:48]

Now listen carefully and answer questions 11 to 14.

[Speaker 3] [0:52 → 1:02]

Hello. Can I help? Yes. I'm looking for accommodation. I'm a student in my second year at the college, and I wanted to rent something from September for myself and a friend.

[Speaker 2] [1:03 → 2:43]

Well, we've got several choices at the moment. Near the college, we've got a flat, a house, or there's a student hostel, all at about the same rent. But, of course, they all have different features and different things included in the rent. The properties don't all have gardens, I'm afraid. The house is quite small, not much space around it. It has got a bit of space at the back, but I wouldn't call it a garden. Mhmm. The hostel is part of a city development, so there's no space for a garden. But the flat has a communal garden that is shared by all the tenants. I would say that that's very good value for the price. Have you got a car? Yes. There are garages round the corner from the house. Ah, but you have to rent those separately, and they might not be available. Oh. But each flat is allotted a garage in the grounds as part of the deal. The hostel doesn't have the space, I'm afraid. Mhmm. I guess you might also want to know about security as well. The house is the only one which is alarmed. The flats and the hostel are accessed through a main door, which has an intercom for visitors, so they're quite safe. Now they're all furnished. Mhmm. The staff in the flat's quite modern looking, which most people like, and it's in quite good condition considering the use it's had. All the furniture and fittings in the house have just been replaced after the last tenants left, so they'll be in excellent condition. And the furniture in the hostel is okay. It's about what you'd expect, really.

[Speaker 1] [2:47 → 2:55]

Before you hear the rest of the conversation, you have some time to look at questions 15 to 20 on page four.

[Speaker 1] [3:25 → 3:29]

Now listen and answer questions 15 to 20.

[Speaker 3] [3:32 → 3:38]

Well, I think I'd better go and look at them all. Where are they? Here. Let me show you on the map.

[Speaker 2] [3:40 → 5:00]

Right. We're here in the accommodation agency on the High Street facing north. Mhmm. Directly opposite us is the bank. Okay? Mhmm. If you stay on this side of the road and walk towards West Street, the house is not that far. It's next but one to the swimming pool just before West Street. It's very convenient because it's near the shops. The hostel is on the corner of West Street and St Anne's Road, near the roundabout. It's not a very wonderful building, but it's nice and close to the college. The flat is a bit of a walk, but it's in very nice surroundings. To get to the flat, you go down

West Street towards the center of the city, and the building is on the corner just before the first turning on the left. Mhmm. Although we're a bit outside the city center, the facilities aren't bad. There's a post office just around the corner from here. You go down the high street and turn right into West Street, and it's on your right. Mhmm. Or if you want to go to the city center, you could get the bus from here, just a few meters down the road from the agency going east. You don't even need to cross the road.

[Speaker 1] [5:03 → 5:08]

That is the end of Section 2. You now have half a minute to check your answers.

PART 3

[Speaker 1] [0:01 → 0:03]

Now turn to section three.

[Speaker 1] [0:08 → 0:27]

Section three. You will hear two anthropology students called Victor and Olivia discussing their joint presentation about a Norwegian explorer called Tor Heidel. First, you have some time to look at questions 21 to 24.

[Speaker 1] [0:48 → 0:53]

Now listen carefully and answer questions 21 to 24.

[Speaker 2] [0:56 → 1:02]

Right. Well, for our presentation, shall I start with the early life of Tor Hayadal? Sure.

[Speaker 3] [1:03 → 1:11]

Why don't you begin with describing the type of boy he was, especially his passion for collecting things? That's right. He had his own little museum.

[Speaker 2] [1:12 → 1:20]

And I think it's unusual for children to develop their own values and not join in their parents' hobbies. I'm thinking of how Hayadal

[Speaker 3] [1:20 → 1:54]

wouldn't go hunting with his dad, for example. Yeah. He preferred to learn about nature by listening to his mother read to him. And quite early on, he knew he wanted to become an explorer when he grew up. That came from his camping trips he went on in Norway, I think. No. It was climbing that he spent his time on as a young man. Oh, right. After university, he married a classmate, and together, they decided to experience living on a small island to find out how harsh weather conditions shaped people's lifestyles.

[Speaker 2] [1:55 → 2:12]

As part of their preparation, before they left home, they learned basic survival skills like building a shelter. I guess they needed that knowledge in order to live wild in a remote location with few inhabitants cut off by the sea, which is what they were aiming to do.

[Speaker 3] [2:12 → 2:24]

An important part of your talk should be the radical theory Hayandahl formed from examining mysterious ancient carvings that he happened to find on the island. I think you should finish with that. Okay.

[Speaker 1] [2:28 → 2:34]

Before you hear the rest of the discussion, you have some time to look at questions 25 to 30.

[Speaker 1] [3:20 → 3:24]

Now listen and answer questions 25 to 30.

[Speaker 3] [3:28 → 3:46]

Alright, Victor. So after your part, I'll talk about Toh Haidal's adult life, continuing from the theory he had about Polynesian migration. Up until that time, of course, academics had believed that humans first migrated to the islands in Polynesia from Asia in the West.

[Speaker 2] [3:46 → 3:56]

Yes. They thought that travel from the East was impossible because of the huge empty stretch of ocean that lies between the islands and the nearest inhabited land.

[Speaker 3] [3:56 → 4:17]

Yes. But Hiredahl spent ages studying the cloud movements, ocean currents, and wind patterns to find if it was actually possible. And another argument was that there was no tradition of large shipbuilding in the communities lying to the East of Polynesia. But Hayadale knew they made lots of coastal voyages in locally built canoes.

[Speaker 2] [4:17 → 4:35]

Yes. Or sailing on rafts, as was shown by the long voyage that Hayadale did next. It was an incredibly risky journey to undertake. Sometimes I wonder if he did that trip for private reasons, you know, to show others that he could have spectacular adventures. What do you think, Olivia?

[Speaker 3] [4:35 → 4:42]

Well, I think it was more a matter of simply trying out his idea to see if migration from the East was possible.

[Speaker 2] [4:43 → 4:52]

Yes. That's probably it. And the poor guy suffered a bit at that time because the war forced him to stop his work for some years. Yes.

[Speaker 3] [4:52 → 5:00]

When he got started again and planned his epic voyage, do you think it was important to him that he achieve it before anyone else did?

[Speaker 2] [5:01 → 5:11]

I haven't read anywhere that that was his motivation. The most important factor seems to have been that he used only ancient techniques and local materials to build his raft.

[Speaker 3] [5:12 → 5:15]

Yes. I wonder how fast it went.

[Speaker 2] [5:15 → 5:20]

Well, it took them ninety seven days from South America to the Pacific Islands.

[Speaker 3] [5:21 → 5:31]

And after that, Haydal went to Easter Island, didn't he? We should mention the purpose of that trip. I think he sailed there in a boat made out of reeds.

[Speaker 2] [5:32 → 5:45]

No. That was later on in Egypt, Olivia. Oh, yes. That's right. But what he wanted to do was talk to the local people about their old stone carvings and then make one himself to learn more about the process. I see.

[Speaker 3] [5:45 → 6:15]

Well, what a great life. Even though many of his theories have been disproven, he certainly left a lasting impression on many disciplines, didn't he? To my mind, he was the first person to establish what modern academics call practical archaeology. I mean, that they try to recreate something from the past today, like he did with his raft trip. It's unfortunate that his ideas about where Polynesians originated from have been completely discredited.

[Speaker 2] [6:15 → 6:38]

Yes. Right. Well, I'll prepare a PowerPoint slide at the end that acknowledges our sources. I mainly used the life and work of Tor Hayadal by William Oliver. I thought the research methods he used were very sound, although I must say I found the overall tone somewhat old fashioned. I think they need to do a new revised edition.

[Speaker 3] [6:38 → 6:50]

Yeah. I agree. What about the subject matter? I found it really challenging. Well, it's a complex issue. I thought the book had lots of good points. What did you think of the illustration?

[Speaker 1] [6:54 → 7:00]

That is the end of section three. You now have half a minute to check your answers.

PART 4

[Speaker 1] [0:00 → 0:03]

Turn to section four on page seven.

[Speaker 1] [0:08 → 0:24]

Section four. You will hear a lecturer in museum science talking about an exhibition about the history and uses of plastics. First, you have some time to look at questions 31 to 40 on page seven.

[Speaker 1] [1:14 → 1:18]

Now listen carefully and answer questions 31 to 40.

[Speaker 2] [1:22 → 4:07]

Good morning. My name's Susan Mossman, and as well as being a part time lecturer on the university's museum science degree, I'm also curator of a new exhibition opening at the Bidmouth Museum called Plasticity. This traces the history of plastics and ways they are being developed and used today. The first type of plastic was originally developed in response to a call from the makers of sports equipment. Animal derived materials were becoming extremely expensive, so manufacturers launched a competition to find an alternative to ivory for making pool and billiard balls. Although various forms of plastic were developed, none of them were good enough to win the competition. But the inventors knew they were on to a good thing, and started researching a variety of different substances, partly based on organic material, what we call semi synthetics. One of the early semi synthetic materials produced was the first commercially produced celluloid, or plastic film, which was made by dissolving cotton in a strong acid, such as nitric acid. Unfortunately, this had a tendency to explode, so technicians had to be very careful with it. They also experimented with making plastics out of products derived from milk, but this didn't really work, and efforts were therefore concentrated on other organic material. One of the first uses of plastic was in the production of artificial fabric, and the earliest successful one was a substitute for silk. This was obviously a very expensive fibre, so artificial alternatives were thought to be worth investing in. The next significant breakthrough came in 1907, with the invention of bakelite. This was the first entirely synthetic plastic made in a laboratory. It was invented by Hendrik Beikeland, a chemist who had made a fortune from producing paper used in photographic processes. Bakelite is a pretty unusual type of plastic, because it actually gets hard when it's heated, whereas most other plastic becomes more malleable when hot that is, they become more plastic, which is of course where the name for the category of materials comes from. So strictly speaking, bakelite isn't a plastic at all.

[Speaker 2] [4:12 → 6:06]

But now let's look at the exhibition itself. In it, we show a variety of semi synthetic and totally synthetic plastics, some of them dating back a 100 years. Some of the older plastics on display are unstable. This means that when they are in the process of degrading, they may produce gases which are acidic, and which can cause neighbouring objects in the display to disintegrate. We had to be very careful with these displays because there is one thing which causes plastic objects to degrade or break down, and that is light. So we've had to think of ways to get around this problem when setting up the objects on display. We have about 850 objects in the exhibition. One of our most interesting is a magnificent chandelier, a lamp designed to hang in the centre of the ceiling

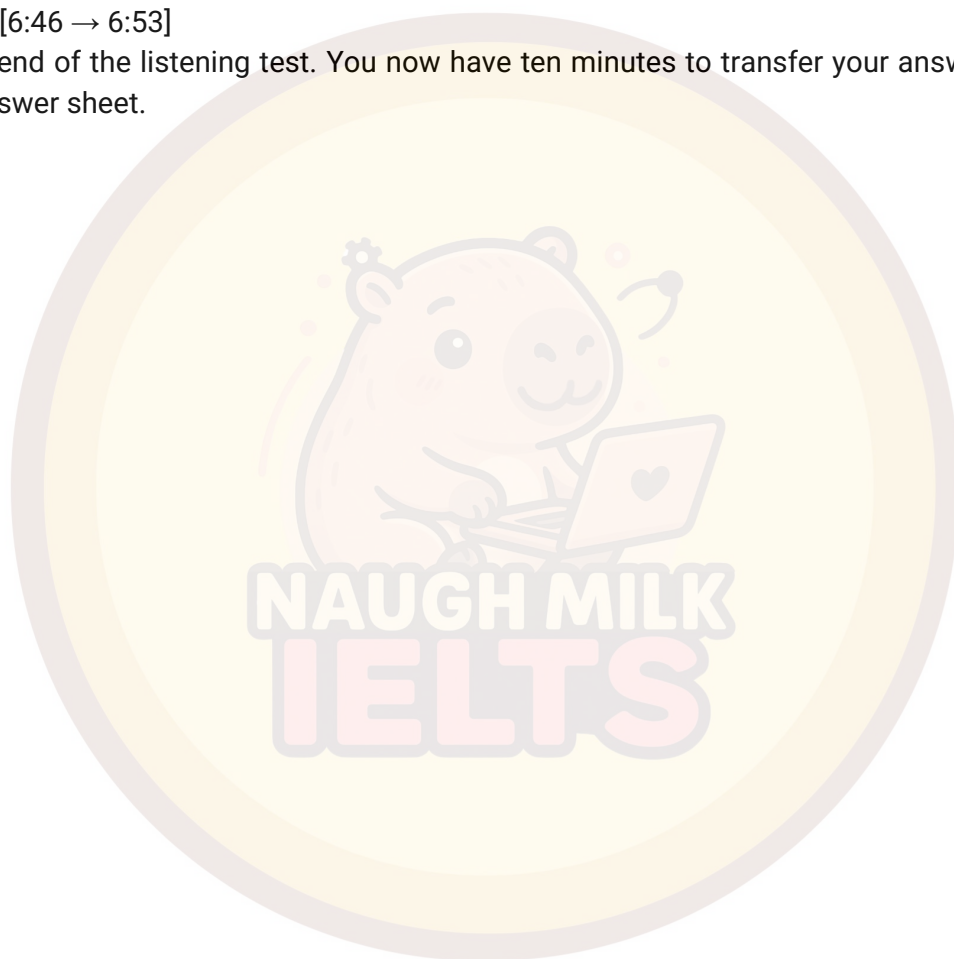

of a big hall. It's only when you look carefully that you can see this is a wonderful example of recycling. It's made entirely of pens, ones which we use and throw away every day. A second exhibit, which is drawing a lot of attention, is a car made entirely from plastic, which is now in small scale production in Japan. It's made of a semi synthetic plastic using materials derived from wood, which is obtained from managed plantations, thereby further improving its environmental credentials. The advantage is that the vehicle is exceptionally light weight, which means it runs on far less fuel than conventional cars, and can be adapted to run on different types. Finally, the most popular exhibit for children is

[Speaker 1] [6:10 → 6:15]

That is the end of section four. You now have half a minute to check your answers.

[Speaker 1] [6:46 → 6:53]

That is the end of the listening test. You now have ten minutes to transfer your answers to the listening answer sheet.

Câu 1: Station

- Trích đoạn: "...or there's one available right now in our branch in **Station** Road... It's definitely the **current** job I'm calling about."
- Hướng dẫn: Audio có nhắc đến "Market Road" sẽ mở vào tháng tới để bày. Tuy nhiên, người bố khẳng định ông đang gọi để hỏi về công việc hiện tại (current job), và vị trí đó nằm ở chi nhánh "Station Road". Do đề bài đã có sẵn chữ "Branch" và giới hạn 1 từ, đáp án tốt nhất là "Station".

Câu 2: Sunday / Sundays

- Trích đoạn: "What about **Sunday**? That'd work, provided he could do a **full day**."
- Hướng dẫn: Người bố đề xuất lịch làm việc vào Chủ Nhật (Sunday) và người quản lý đồng ý với điều kiện cậu bé có thể làm trọn một ngày (full day).

Câu 3: lifting

- Trích đoạn: "...and I suppose our general assistants also do rather a lot of **lifting** of some quite **heavy** items."
- Hướng dẫn: Khi mô tả công việc, người quản lý cho biết ngoài đứng quầy thanh toán, nhân viên cũng thường xuyên phải bưng bê/nâng (lifting) các món đồ khá nặng (heavy items).

Câu 4: watering

- Trích đoạn: "Then, especially in the **summer**, the **plants** need a lot of **watering**."
- Hướng dẫn: Audio cung cấp thông tin rất trực diện: vào mùa hè, các chậu cây (plants) sẽ cần được tưới nước (watering) rất nhiều.

Câu 5: communication

- Trích đoạn: "The first one being **communication** skills are important."
- Hướng dẫn: Khi chuyển sang các kỹ năng cần thiết, người quản lý nhấn mạnh kỹ năng giao tiếp (communication skills) là quan trọng hàng đầu vì ấn tượng ban đầu cực kỳ có giá trị.

Câu 6: maths / math

- Trích đoạn: "...he should have some ability in **maths**, a **basic** level at least."
- Hướng dẫn: Yêu cầu tiếp theo là ứng viên cần có khả năng toán học (maths) ở mức cơ bản (basic) để hỗ trợ công việc.

Câu 7: 5 / 5.00 / 5 p.m / 5 pm

- Trích đoạn: "...perhaps at 02:30? **Five** would be better for us. Okay. That's fine."

- Hướng dẫn: Có một sự thay đổi lịch trình ở đây. Ban đầu là 10 giờ sáng, người bố xin đổi sang 2:30 chiều. Sau đó, người quản lý đề xuất 5 giờ chiều (Five) thì sẽ tiện hơn cho họ và người bố đã đồng ý. (Lưu ý: Đôi khi các app nhận diện giọng nói có thể cắt nhầm số "2:35" thành "02:30" và "Five", nhưng dù nghe là 5:00 hay 2:35 thì bạn chỉ cần ghi lại đúng số mà bạn nghe được).

Câu 8: Rapana

- Trích đoạn: "My name's Maria **Rapana, r a, p for Peter, a n a.**"
- Hướng dẫn: Đây là phần đánh vần họ của người phỏng vấn. Bạn chú ý lắng nghe và chép lại từng chữ cái. Cụm "p for Peter" chỉ là cách để xác nhận rõ đó là chữ "p".

Câu 9: 0213038874

- Trích đoạn: "...and that's **zero two one three zero three eight eight seven four.**"
- Hướng dẫn: Dạng câu hỏi chép số điện thoại cơ bản, bạn chỉ cần tập trung nghe và ghi lại chính xác dãy số.

Câu 10: passport

- Trích đoạn: "I need to see Liam's **passport** at the interview just to see that he's eligible to work in this country."
- Hướng dẫn: Ở phần cuối, người quản lý dặn cần mang theo hộ chiếu (passport) đến buổi phỏng vấn để họ kiểm tra điều kiện làm việc hợp pháp tại quốc gia này.

Câu 11

- **Đáp án: A**
- **Hướng dẫn:** Người tư vấn nói rằng ngôi nhà thì không có vườn, còn khu ký túc xá thì không có không gian cho vườn. Chỉ có căn hộ (the flat) là có một khu vườn chung cho tất cả khách thuê.
- **Trích đoạn:** "The house is quite small... I wouldn't call it a garden. The hostel is part of a city development, so there's no space for a garden. But **the flat has a communal garden** that is shared by all the tenants."

Câu 12

- **Đáp án: A**
- **Hướng dẫn:** Mặc dù gần ngôi nhà có ga-ra nhưng phải thuê riêng (không nằm chung trong gói thuê nhà). Khu ký túc xá thì không có chỗ. Còn căn hộ (flat) thì mỗi căn đều được cấp một ga-ra trong khuôn viên như một phần của hợp đồng.
- **Trích đoạn:** "But **each flat is allotted a garage in the grounds as part of the deal.** The hostel doesn't have the space..."

Câu 13

- **Đáp án:** B
- **Hướng dẫn:** Trong 3 loại hình chỗ ở, ngôi nhà (the house) là nơi duy nhất được trang bị hệ thống báo động (alarmed = alarm system).
- **Trích đoạn:** "The **house is the only one which is alarmed.**"

Câu 14

- **Đáp án:** B
- **Hướng dẫn:** Đồ đạc ở căn hộ và ký túc xá tuy ổn nhưng đã qua sử dụng. Riêng ngôi nhà (the house) thì toàn bộ đồ nội thất và phụ kiện vừa mới được thay mới toàn bộ sau khi khách thuê trước rời đi.
- **Trích đoạn:** "All the **furniture** and fittings in **the house have just been replaced** after the last tenants left, so they'll be in excellent condition."

Câu 15

- **Đáp án:** D
- **Hướng dẫn:** Bắt đầu từ vị trí "You are here" (phòng tư vấn/Agency), ngân hàng nằm ngay đối diện trực tiếp (directly opposite). Vị trí D nằm đối diện Agency bên kia đường High Street.
- **Trích đoạn:** "We're here in the accommodation agency... **Directly opposite us is the bank.**"

Câu 16

- **Đáp án:** I
- **Hướng dẫn:** Vẫn đi bên này đường (phía Nam) và hướng về phía đường West Street. Ngôi nhà nằm cách hồ bơi một căn ("next but one" có nghĩa là cách 1 tòa nhà/căn nhà). Vị trí I thỏa mãn điều kiện này (cách hồ bơi bởi vị trí H) và nằm ngay trước đường West Street.
- **Trích đoạn:** "If you stay on this side of the road and walk towards West Street, the house is not that far. It's **next but one to the swimming pool just before West Street.**"

Câu 17

- **Đáp án:** J
- **Hướng dẫn:** Ký túc xá nằm ở góc đường West Street và đường St Anne's Road, gần ngay bùng binh (roundabout). Vị trí J nằm đúng tại góc giao cắt này.
- **Trích đoạn:** "The **hostel is on the corner of West Street and St Anne's Road, near the roundabout.**"

Câu 18

- **Đáp án:** B
- **Hướng dẫn:** Đi dọc theo đường West Street hướng về trung tâm thành phố (đi lên phía Đông Bắc theo mũi tên trên bản đồ). Tòa nhà nằm ở góc đường ngay trước ngã rẽ đầu tiên bên tay trái. Nhìn bản đồ đoạn trên cùng bên phải, ngã rẽ trái có 2 tòa nhà A và B. B là tòa nhà nằm ở ngay góc (corner).
- **Trích đoạn:** "...you go down West Street towards the center of the city, and the building is **on the corner just before the first turning on the left.**"

Câu 19

- **Đáp án:** C
- **Hướng dẫn:** Từ Agency, đi dọc theo đường High Street đến bùng binh rồi rẽ phải vào West Street (đi lên hướng Đông Bắc). Bưu điện nằm ở bên tay phải. Vị trí C là lựa chọn duy nhất nằm bên phải của nhánh đường này.
- **Trích đoạn:** "You go down the high street and **turn right into West Street, and it's on your right.**"

Câu 20

- **Đáp án:** G
- **Hướng dẫn:** Trạm xe buýt nằm cách Agency vài mét xuôi theo con đường về phía Đông (phía bên phải bản đồ). Đặc biệt lưu ý là "không cần băng qua đường", nên nó nằm cùng bên với Agency. Vị trí G hoàn toàn khớp.
- **Trích đoạn:** "...get the bus from here, just **a few meters down the road from the agency going east.** You **don't even need to cross the road.**"

Câu 21 & 22: B, C (hoặc C, B)

- **Trích đoạn:** "Why don't you begin with describing the type of boy he was, especially his **passion for collecting things?** That's right. He had his own little museum." | "It was **climbing** that he spent his time on as a young man."
- **Hướng dẫn:** Olivia nhắc đến niềm đam mê sưu tầm đồ vật ("passion for collecting things") của Heyerdahl khi còn nhỏ (thậm chí có hẳn bảo tàng riêng), tương ứng với đáp án **C** (collecting). Sau đó, Victor đính chính rằng khi còn trẻ, Heyerdahl dành thời gian cho việc leo núi ("climbing"), khớp với đáp án **B**. (Việc cắm trại là phỏng đoán sai của Olivia, săn bắn là việc Heyerdahl từ chối đi cùng bố, và đọc sách là do mẹ đọc cho nghe chứ không phải sở thích riêng).

Câu 23 & 24: B, E (hoặc E, B)

- **Trích đoạn:** "...they decided to experience living on a small island to **find out how harsh weather conditions shaped people's lifestyles.**" | "I guess they needed that knowledge in order to live wild in a **remote location with few inhabitants cut off by the sea...**"

- **Hướng dẫn:** Victor cho biết Heyerdahl đến sống trên đảo để tìm hiểu xem điều kiện thời tiết khắc nghiệt ảnh hưởng đến lối sống của con người như thế nào ("find out how harsh weather conditions shaped people's lifestyles"). Điều kiện thời tiết khắc nghiệt này tương ứng với môi trường khắc nghiệt ("extreme environment" - đáp án **E**). Olivia thêm vào rằng họ nhằm mục đích sống hoang dã ở một địa điểm xa xôi, ít dân cư và bị biển cắt đứt ("remote location... cut off by the sea"), điều này đồng nghĩa với việc trải nghiệm một nơi biệt lập ("isolated place" - đáp án **B**). (Việc học kỹ năng sinh tồn là chuẩn bị trước khi đi, các tác phẩm điêu khắc cổ là sự tình cờ tìm thấy sau đó chứ không phải mục đích ban đầu).

Câu 25: A

- **Trích đoạn:** "They thought that travel from the East was impossible because of the **huge empty stretch of ocean that lies between the islands and the nearest inhabited land.**"
- **Hướng dẫn:** Victor giải thích các học giả cho rằng việc di cư từ phía Đông là bất khả thi vì khoảng cách đại dương khổng lồ và trống rỗng nằm giữa các hòn đảo và vùng đất có người ở gần nhất. Khoảng cách địa lý rộng lớn này tương ứng với đáp án **A** (khoảng cách quá xa - far away). Các yếu tố như gió, dòng hải lưu hay kỹ thuật đóng tàu là những tranh luận sau đó, không phải lý do chính yếu ban đầu (bác bỏ B, C).

Câu 26: C

- **Trích đoạn:** "Well, I think it was more a matter of **simply trying out his idea** to see if migration from the East was possible." | Victor: "Yes. That's probably it."
- **Hướng dẫn:** Victor thắc mắc có phải Heyerdahl thực hiện chuyến đi vì lý do cá nhân (để chứng minh khả năng phiêu lưu - đáp án B) hay không. Nhưng Olivia cho rằng đó chỉ đơn giản là việc "thử nghiệm ý tưởng của ông ấy" (trying out his idea) để xem việc di cư có khả thi không. Victor đồng ý với ý kiến này. Việc thử nghiệm ý tưởng chính là kiểm tra một lý thuyết mới ("test a new theory" - đáp án **C**).

Câu 27: C

- **Trích đoạn:** "The most important factor seems to have been that he **used only ancient techniques and local materials to build his raft.**"
- **Hướng dẫn:** Victor khẳng định yếu tố quan trọng nhất ("most important factor") không phải là làm người đầu tiên (bác bỏ A) hay tốc độ (bác bỏ B), mà là việc ông chỉ sử dụng các kỹ thuật cổ đại và vật liệu địa phương để dựng chiếc bè của mình. Điều này tương ứng với việc sử dụng các phương pháp xây dựng đích thực/nguyên bản ("authentic construction methods" - đáp án **C**).

Câu 28: A

- **Trích đoạn:** "But what he wanted to do was talk to the local people about their old stone carvings and then **make one himself** to learn more about the process."
- **Hướng dẫn:** Mục đích Heyerdahl đến Đảo Phục Sinh (Easter Island) là để nói chuyện với người dân địa phương về các tác phẩm điêu khắc đá cổ của họ, và sau đó tự mình làm một cái ("make one himself") để tìm hiểu quá trình. Việc tự tay làm một tác phẩm điêu khắc đá tương ứng với việc chế tạo một bức tượng đá ("build a stone statue" - đáp án **A**). (Việc chèo thuyền bằng sậy là sau đó ở Ai Cập - bác bỏ B).

Câu 29: B

- **Trích đoạn:** "To my mind, he was the first person to establish what modern academics call **practical archaeology**. I mean, that they try to recreate something from the past today, like he did with his raft trip."
- **Hướng dẫn:** Theo quan điểm của Olivia ("To my mind"), sức ảnh hưởng lớn nhất của Heyerdahl là việc thiết lập ra cái gọi là "khảo cổ học thực hành" (practical archaeology) - tức là tái tạo lại một điều gì đó từ quá khứ ở hiện tại. Việc thiết lập phương pháp thực hành này tương ứng với sự phát triển phương pháp luận khảo cổ học ("development of archaeological methodology" - đáp án **B**). Lý thuyết về nguồn gốc đã bị bác bỏ (bác bỏ A) và không có thông tin về việc thiết lập nó thành một môn học thuật (bác bỏ C).

Câu 30: A

- **Trích đoạn:** "I thought the research methods he used were very sound, although I must say I found the overall **tone somewhat old fashioned**."
- **Hướng dẫn:** Victor nhận xét rằng mặc dù phương pháp nghiên cứu của sách giáo khoa rất tốt (bác bỏ C), nhưng "giọng điệu tổng thể có phần lỗi thời" ("tone somewhat old fashioned"). Sự lỗi thời về giọng văn/phong cách này khớp với đáp án **A** (Its style is out of date).

Câu 31: cotton

- **Trích đoạn:** "...which was made by dissolving **cotton** in a strong **acid**, such as nitric acid."
- **Hướng dẫn:** Đề bài nhắc đến việc sử dụng ("used") cái gì đó kết hợp với axit ("acid"). Audio giải thích rằng loại celluloid thương mại đầu tiên được tạo ra bằng cách hòa tan bông ("cotton") trong một loại axit mạnh. Từ cần điền là "cotton".

Câu 32: milk

- **Trích đoạn:** "They also experimented with making plastics out of **products** derived from **milk**, but this **didn't really work**..."
- **Hướng dẫn:** Đề bài nói các cuộc thử nghiệm làm nhựa từ các sản phẩm ("products") gì đó đã không thành công ("unsuccessful"). Audio diễn đạt rằng họ thử nghiệm với các

sản phẩm từ sữa ("milk") nhưng điều này không thực sự hiệu quả ("didn't really work" = "unsuccessful").

Câu 33: silk

- **Trích đoạn:** "One of the first uses of plastic was in the production of **artificial** fabric, and the **earliest** successful one was a substitute for **silk**."
- **Hướng dẫn:** Đề bài nói loại vải ("fabric") sớm nhất ("earliest") được sản xuất là loại gì đó nhân tạo ("artificial"). Audio dùng y hệt cụm "artificial fabric", và loại thành công sớm nhất là loại dùng để thay thế cho lụa ("silk").

Câu 34: laboratory

- **Trích đoạn:** "This was the **first** entirely synthetic plastic **made** in a **laboratory**."
- **Hướng dẫn:** Đề bài hỏi loại nhựa đầu tiên được sản xuất ("produced") ở đâu. Audio cho biết đây là loại nhựa tổng hợp đầu tiên được tạo ra ("made" = "produced") trong một phòng thí nghiệm ("laboratory").

Câu 35: chemist

- **Trích đoạn:** "It was **invented** by Hendrik Beikeland, a **chemist** who had made a fortune..."
- **Hướng dẫn:** Đề bài ghi loại nhựa này được phát minh bởi một người làm nghề gì ("a...") tên là Hendrik Baekeland. Audio nói rõ ông ấy là một nhà hóa học ("chemist").

Câu 36: hard

- **Trích đoạn:** "Bakelite is a pretty **unusual** type of plastic, because it actually gets **hard** **when it's heated**..."
- **Hướng dẫn:** Đề bài miêu tả loại nhựa này bất thường ("unusual") vì nó trở nên như thế nào ("becomes...") khi được làm nóng ("when heated"). Audio giải thích nó khá bất thường vì thực sự trở nên cứng ("gets hard" = "becomes hard") khi bị nung nóng.

Câu 37: gases

- **Trích đoạn:** "...they may **produce** **gases** which are **acidic**..."
- **Hướng dẫn:** Đề bài nói các đồ vật nhựa cũ có thể giải phóng ("release") thứ gì đó có tính axit ("acidic"). Audio dùng từ "produce" (tạo ra) thay cho "release", và thứ tạo ra là các loại khí ("gases") có tính axit.

Câu 38: light

- **Trích đoạn:** "...there is one thing which causes plastic objects to **degrade** or break down, and that is **light**."

- **Hướng dẫn:** Đề bài hỏi đồ vật bằng nhựa bị phân hủy ("degrade") trong điều kiện nào. Audio nhấn mạnh rằng có một thứ khiến đồ nhựa bị phân hủy ("degrade"), đó chính là ánh sáng ("light").

Câu 39: pens

- **Trích đoạn:** "One of our most interesting is a magnificent **chandelier**... It's **made entirely of pens**, ones which we use and throw away every day."
- **Hướng dẫn:** Đề bài nhắc đến một chiếc đèn chùm ("chandelier") được làm bằng vật liệu tái chế ("recycled"). Audio xác nhận đây là một ví dụ của việc tái chế vì chiếc đèn chùm được làm hoàn toàn bằng những chiếc bút mực/bút bi ("pens") đã qua sử dụng.

Câu 40: wood

- **Trích đoạn:** "It's made of a **semi synthetic** plastic using materials **derived from wood**..."
- **Hướng dẫn:** Đề bài nói chiếc ô tô được làm từ chất liệu bán tổng hợp ("semi-synthetic") dựa trên các chất tìm thấy trong dâu ("substances found in..."). Audio diễn đạt là nó sử dụng vật liệu có nguồn gốc từ ("derived from" = "based on substances found in") gỗ ("wood").
